**Programme for the issue of Structured Notes and Certificates
for an aggregate maximum issue amount of €20,000,000,000
(the "Programme")**

This offering memorandum (the "Offering Memorandum") constitutes base listing particulars for the purposes of listing on the Official List of the Irish Stock Exchange plc trading as Euronext Dublin ("Euronext Dublin") and trading on its Global Exchange Market and does not constitute a prospectus within the meaning of article 8 of and for the purpose of Regulation (EU) 2017/1129, as amended or superseded the "Prospectus Regulation").

This Offering Memorandum has been prepared for the purposes of providing information on the common characteristics applicable to the issues of notes (the "**Notes**") and certificates (the "**Certificates**") by HSBC France, in its capacity as "**Issuer**". One or more supplements may amend or supplement the financial characteristics of the Notes or Certificates or include updated information on the Issuer's situation (each referred to herein as a "**Supplement**"). The Offering Memorandum does not comprise a base prospectus for the purposes of the Prospectus Regulation. The Offering Memorandum has been prepared solely with regard to Notes and Certificates that are (i) not to be admitted to listing or trading on any regulated market for the purposes of Directive 2014/65/EU, as amended and (ii) not to be offered to the public in the European Economic Area or in the United Kingdom (other than pursuant to the exemptions set out in Article 3.2 of the Prospectus Regulation).

Application has been made for approval of this Offering Memorandum by Euronext Dublin.

An application may be made, at the Issuer's option, for the Notes and Certificates to be admitted to the Official List of Euronext Dublin and trading on its Global Exchange Market ("**Euronext Dublin's Global Exchange Market**"). The Notes and Certificates may, however, not be listed on a stock market, in which case a factsheet will be sent to holders containing the same information as that included in the Pricing Supplement, adapted as necessary.

Any Person (an "**Investor**") intending to acquire or acquiring any securities from any person (an "**Offeror**") will do so, and offers and sales of the securities to an Investor by an Offeror will be made, in accordance with any terms and other arrangements in place between such Offeror and such Investor including as to price, allocations and settlement arrangements. The Issuer will not be a party to any such arrangements with Investors (other than the Dealers as defined herein) in connection with the offer or sale of the securities and, accordingly, this Offering Memorandum and any Pricing Supplement will not contain such information and an Investor must obtain such information from the Offeror.

The long term debt of the Issuer has been rated AA- (with negative outlook) by S&P Global Ratings Europe Limited ("**S&P**"), Aa3 (with negative outlook) by Moody's Investors Service Ltd. ("**Moody's**") and AA- (with negative outlook) by Fitch Ratings Limited ("**Fitch**").

The Notes and the Certificates issued by HSBC France under the Programme may be rated. The relevant Pricing Supplement will specify whether or not the relevant credit ratings are issued by a credit rating agency established in the European Union or in the United Kingdom and registered in accordance with EC Regulation no. 1060/2009 on credit rating agencies, as amended (the "**CRA Regulation**").

The Notes and the Certificates have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or the securities laws of any State or other jurisdiction of the United States and may

Offering Memorandum dated 27 April 2020

not be offered or sold within the United States or to, or for the account of benefit of, U.S. Persons (as defined in Regulation S under the Securities Act ("**Regulation S**")) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act.

PRIIPs REGULATION – IMPORTANT – EEA AND UK RETAIL INVESTORS – If the Pricing Supplement in respect of any Notes or Certificates includes a legend entitled "Prohibition of Sales to EEA and UK Retail Investors", the Notes and/or Certificates are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**") or in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive 2016/97/EU, as amended or superseded (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes and/or Certificates or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the Notes and/or Certificates or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET – The Pricing Supplement in respect of any Notes or Certificates will include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and/or Certificates and which channels for distribution of the Notes and/or Certificates are appropriate. Any person subsequently offering, selling or recommending the Notes and/or Certificates (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes and/or Certificates (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID product governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes and/or Certificates is a manufacturer in respect of such Notes and/or Certificates, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

The terms and conditions applicable to the Notes and Certificates are included in the sections below entitled "*Terms and Conditions of the Notes*" and "*Terms and Conditions of the Certificates*".

The terms in capitals not defined in this Offering Memorandum and which are included in the sections entitled "*Terms and Conditions of the Notes*" and "*Terms and Conditions of the Certificates*" will have the meaning given to them, when the context so allows, in the ISDA (International Swaps and Derivatives Association) definitions applicable to the relevant securities.

The Pricing Supplement and, where relevant, one or more Supplements will complete the content of the Offering Memorandum (the terms and conditions of the Offering Memorandum, the Pricing Supplement and, where relevant, one or more Supplements being, together, referred to as the "**Terms and Conditions**"). For the purposes of the relevant Notes and Certificates, one or more Supplements may, where relevant, contain other Terms and Conditions supplementing, replacing or amending the Terms and Conditions of the Offering Memorandum. Potential investors' attention is drawn to the fact that they must read the Offering Memorandum (including documents incorporated by reference) in conjunction with the applicable Supplement(s) and the Pricing Supplement relating to the relevant Notes and Certificates.

A pro forma Pricing Supplement is provided on page 351 for the Certificates and on page 379 for the Notes. The Pricing Supplement will specify, inter alia, as regards the issue of Notes and Certificates to which they relate, the number of Notes and Certificates issued and the type of Notes and Certificates, the issue date, the issue price, the exercise price, as well as the share, the basket of shares, the index, the basket of indices, the inflation rate, the currency, the ETF unit, the basket of ETFs, the ADR/GDR, the basket of ADRs/GDRs, the fund, the basket of funds, the preference share to which and, as the case may be, the reference entity or obligation or portfolio of reference entities or obligations to whose credit the Notes and Certificates relate. When necessary, an exercise notice will be attached to the Pricing Supplement.

Dematerialised Notes and Certificates may be issued, at the Issuer's option, either in bearer form (*au porteur*), recorded in the books of Euroclear France, a subsidiary of Euroclear Bank S.A./N.V. ("**Euroclear France**") (acting as central depository) which will credit the accounts of the Account Holders (as defined in the Terms and Conditions below), or in registered form (*au nominatif*) and, in such case, at the option of the relevant holder, either in administered registered form (*au nominatif administré*), in which case they will be recorded in the books of an Account Holder designated by the relevant holder, or in fully registered form (*au nominatif pur*), in which case they will be recorded in an account maintained by the Issuer or by a Registration Agent (as defined and indicated in the relevant Pricing Supplement) acting on behalf of the Issuer.

Materialised Notes are issued in bearer form only.

Materialised Notes, Dematerialised Notes and Certificates may also be cleared through one or more clearing system(s) other than or in addition to Euroclear France, Euroclear and/or Clearstream, as specified in the relevant Pricing Supplement.

Notes and Certificates of each issue may be subscribed and/or sold by HSBC Bank plc or by any dealer (each referred to as a "**Dealer**"), on the dates and at the prices the Issuer may determine with any Dealer for the issue concerned as defined in the Pricing Supplement. Notes and Certificates of all issues may be offered or sold at any time, as part of over-the-counter transactions or otherwise, at the prevailing market price, at the discretion of the Issuer, subject to the requirement to act in accordance with the prevailing laws and regulations of the country concerned.

The Issuer has taken all reasonable care to ensure that all significant aspects of the information contained or incorporated by reference in the Offering Memorandum are accurate and in accordance with the facts and, as far as the Issuer is aware, nothing is omitted that would be likely to alter the import of such information.

No person is authorised to give any information or to make any representations other than those contained in the Offering Memorandum. No information or representation not contained in the Offering Memorandum may be deemed to have been authorised by or on behalf of the Issuer, of HSBC Bank plc in its capacity as Dealer, of HSBC France, in its capacity as Dealer and arranger (the "**Arranger**") or of any Dealer of an issue of Notes or Certificates referred to in the applicable Pricing Supplement.

The Issuer accepts responsibility for the information contained or incorporated by reference in the Offering Memorandum. To the best of the Issuer's knowledge (having taken all reasonable care to ensure that such is the case), the information contained in this Offering Memorandum is in accordance with the facts and contains no omission likely to affect its import.

Neither the delivery of the Offering Memorandum at any time nor any sale made in connection with the offer to subscribe for Notes or Certificates shall create any implication that the information or statements contained in the Offering Memorandum concerning the Issuer are correct as of any time subsequent to the date of the Offering Memorandum. No Dealer undertakes to examine the financial situation or the business of the Issuer during the validity period of the Offering Memorandum. Investors must examine, *inter alia*, the most recent half-year and annual financial statements published by the Issuer before deciding whether to purchase Notes or Certificates.

Neither the Offering Memorandum nor any other information provided concerning the Offering Memorandum (i) is intended to provide the basis for any credit or other assessment, or (ii) may be considered as a recommendation by the Issuer or any Dealer that any person receiving the Offering Memorandum should purchase the Certificates. All investors considering purchasing the Notes or Certificates must carry out their own research into the Issuer's financial situation and business and their own assessment of the Issuer's solvency.

This Offering Memorandum does not constitute an offer, or an invitation by (or on behalf of) the Issuer or any Dealer or any other person to subscribe for, or purchase, any Notes or Certificates. The distribution of this Offering Memorandum and the offering of the Notes and Certificates in certain countries may be restricted by law. Persons into whose possession this Offering Memorandum comes are requested by the Issuer and the Dealer to inform themselves about and to observe any such restrictions.

In particular, neither the Notes nor the Certificates have been or will be registered under the Securities Act, and trading in the Notes and Certificates has not been authorised by the U.S. Commodity Futures Trading Commission under the U.S. Commodity Exchange Act. Neither the Notes nor the Certificates may be offered, sold, delivered directly or indirectly in the United States or to, or on behalf of or for the benefit of, U.S. Persons. Additional selling restrictions may apply to certain Notes, which will be set forth in the Pricing Supplement. For a description of certain further restrictions on the offering and sale of the Notes and Certificates and on the distribution of the Offering Memorandum, see the section below entitled "Subscription and Sale".

RISK FACTORS RELATING TO THE ISSUER

Risk factors in connection with the Issuer are set out in details on pages 78 to 150 (and Note 33 to the Issuer's consolidated financial statements included on pages 215 and 216) of the Issuer's 2019 Universal Registration Document and on pages 3 to 11 of the Issuer's First Amendment to the 2019 Universal Registration Document, which are incorporated by reference in this Prospectus. See section entitled "*Documents Incorporated by Reference*" of this Prospectus.

The following risk factors are identified as the main risk factors specific to the Issuer that may have a material adverse effect on its business, prospects, financial condition, capital position, reputation, results of operations and/or its customers:

- Macroeconomic risk;
- Geopolitical risk;
- Macro-prudential, regulatory and legal risks; and
- Risks related to the Issuer's business, business operations, governance and internal control systems.

RISK FACTORS RELATING TO THE NOTES

The terms in capitals not defined in this section will have the meaning given to them in the sections entitled "Terms and Conditions of the Notes" and "Additional Terms and Conditions relating to Credit-Linked Notes".

The following paragraphs describe the principal risk factors that the Issuer considers material to the Notes to be listed and/or admitted to trading in order to assess the market risks associated with these Notes. Potential investors should also read the detailed information set out elsewhere in this Offering Memorandum and consult their own financial and legal advisors about the risks associated with investment in a particular Series of Notes and the suitability of such an investment in light of their particular circumstances. These risk factors may be supplemented in the Pricing Supplement relating to a particular issue of Notes.

1. The Notes may not be a suitable investment for all investors

Each potential investor in the Notes should determine the suitability of that investment in light of its particular circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Offering Memorandum or any supplement to this Offering Memorandum and the relevant Pricing Supplement; and
- (b) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or for which the currency for principal or interest payments is different from the potential investor's currency.

Some Notes are complex financial instruments and such instruments may be purchased with the aim of reducing risk or enhancing yield with an understood, measured, appropriate addition of risk to the overall investment portfolio. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the help of a financial advisor) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

The Notes expose investors to a high degree of risk, in particular interest rate risks, foreign exchange risks, risks associated with the equity markets, credit risks, political risks and, more generally, market risks. The Notes may be subject to significant price fluctuations. Investors should be aware that their Notes may lose their value and that they should be prepared to suffer, under certain circumstances, the loss of their entire investment. The risk of the loss of the entire investment on maturity signifies that, to realise a return on their investment, investors should correctly anticipate the direction, amplitude and date of fluctuations in the value of the underlying. Moreover, the risk of fluctuations in the value of the underlying signifies that, the more a Note is traded below its acquisition price and the shorter the remaining term to maturity, the greater the risk of the investor losing all or part of its investment. The only way for the Holder to recover all or part of its investment before the Maturity Date for the Notes is to sell such Note at the market price on the secondary market.

2. Risks related to structured Notes

The Issuer may issue Index Linked Notes, Index Basket-Linked Notes, Inflation Rate-Linked Notes, Currency-Linked Notes, Equity Linked Notes, Equity Basket Linked Notes, ADR/GDR Linked Notes, ADR/GDR Basket-Linked Notes, Fund-Linked Notes, Fund Basket-Linked Notes, Credit-Linked Notes and Preference Share Linked Notes whose Settlement Amount (as defined in the Terms and Conditions of the Notes) is determined by reference to an index or formula, changes in the Underlying (as defined in the Terms and Conditions of the Notes) or other factors. Potential investors should be aware that:

- (a) the market price of such Notes may be volatile;
- (b) they may not receive any interest;
- (c) they may lose all or a substantial portion of their principal;
- (d) a factor may be subject to significant changes that may not correspond to fluctuations in interest rates, exchange rates or other indices;
- (e) if a factor applied to the Notes has a multiplier greater than one or contains some other leverage factor, the impact of any movements in the factor on the principal or interest payable is likely to be magnified; and
- (f) the timing of changes in a factor may affect the actual yield to investors, even if the average yield is consistent with their expectations. In general, the earlier the change in the factor, the greater the effect on yield.

An investment in the Notes is not an investment in the underlyings of the Notes and the Noteholders have no rights over the underlyings concerned other than those detailed in the Offering Memorandum and in the applicable Pricing Supplement. In particular, when the underlyings of the Notes are financial securities or an index, the Noteholders have no rights (such as voting rights, rights to dividends or any other rights) against the company issuing such financial securities or the promoter of such index.

3. Potential conflict of interest related to structured Notes

The Issuer and/or affiliates of the Issuer may from time to time: (i) advise or engage in business with the Issuer of or obligors in respect of any Series of Notes where the principal and/or interest in respect to such Notes is determined by reference to one or more variables such as an index, formula, security, currency exchange rate, interest rate, inflation index, the credit of one or more entities or other factor (each variable being a “**Reference Asset**” or securities underlying Reference Asset(s) (where such Reference Asset(s) is an equity index)) regarding transactions to be entered into by them; (ii) engage in transactions involving Reference Asset(s) or securities underlying Reference Asset(s) (where such Reference Asset(s) is an equity index) for their proprietary accounts, for other accounts under their management or to facilitate client orders; (iii) carry out hedging activities related to the Notes by purchasing or entering into derivatives transactions relating to the Reference Asset(s) or securities underlying Reference Asset(s) (where such Reference Asset(s) is an equity index) (but will not be obliged to do so); (iv) publish research reports relating to Reference Asset(s) or securities underlying Reference Asset(s) (where such Reference Asset(s) is an equity index); or (v) acquire non-public information about Reference Asset and/or securities underlying Reference Asset(s) (where such Reference Asset(s) is an equity index). In undertaking any such activities, neither the Issuer nor any affiliate of the Issuer is under any obligation to consider the interests of the Noteholders, and any such activity by the Issuer or its affiliates (as applicable) may have a negative effect on the value or level of such Reference Asset(s) and therefore on the value of any Notes to which they relate.

In addition, the conditions of the Notes may provide for (a) the early redemption of the Notes or (b) a lesser amount being payable in respect of the Notes if the value of any Reference Asset exceeds, falls below, is equal to or does not stay within pre-determined reference levels (“**Threshold Events**”). The activity described in the preceding paragraph may cause such Threshold Events to be triggered, which could potentially have a negative impact on the value of any Notes to which they relate.

Certain affiliates of the Issuer or the Issuer itself may: (i) be the counterparty to the hedge of the Issuer's obligations under an issue of Notes; (ii) be the Calculation Agent responsible for making determinations and calculations in connection with the Notes; or (iii) publish research reports which express opinions or provide recommendations that are inconsistent with purchasing or holding the Notes referencing the Reference

Asset(s). Accordingly, there is a risk that certain conflicts of interest may arise both among the Issuer or these affiliates and between the interests of the Issuer or these affiliates and the interests of Noteholders.

4. Risks relating to Equity Linked Notes, Equity Basket-Linked Notes, ADR/GDR Linked Notes, ADR/GDR Basket-Linked Notes and Preference Share Linked Notes

Equity Linked Notes, Equity Basket-Linked Notes, ADR/GDR Linked Notes, ADR/GDR Basket-Linked Notes, and Preference Share Linked Notes differ from other debt instruments since the amount of the principal and/or interest payable by the relevant Issuer on redemption (early or on maturity) is linked to the market value of the underlying at that time and may be less than the total amount initially invested by the investor; accordingly, the investor may not receive repayment of the full amount initially invested in the Equity Linked Notes, Equity Basket-Linked Notes, ADR/GDR Linked Notes, ADR/GDR Basket-Linked Notes or Preference Share Linked Notes.

Fluctuations in the price of the underlying Equity (or underlying Equity Basket), ADR/GDR (or underlying ADR/GDR Basket) or Preference Share will affect the value of the Equity Linked Notes or Equity Basket-Linked Notes.

5. Risks relating to Index Linked Notes and Index Basket-Linked Notes

The historical experience of an index should not be viewed as an indication of the future performance of such index during the term of any Index Linked Notes or Index Basket-Linked Notes. Accordingly, each potential investor should consult its own financial and legal advisors about the risk entailed by an investment in any Index Linked Notes or Index Basket-Linked Notes and the suitability of such Notes in light of its particular circumstances.

Fluctuations in the level of the underlying Index (or underlying Index Basket) will affect the value of the Index Linked Notes or Index Basket-Linked Notes.

6. Risks relating to ETF Linked Notes and ETF Basket-Linked Notes

Each Issuer may issue Notes for which the amount of an ETF Unit or ETF Basket to be delivered may depend on the prices or changes in the prices of Units in one or more ETFs. Accordingly, an investment in ETF Linked Notes or ETF Basket-Linked Notes may expose investors to the same type of risks as a direct investment in an ETF and potential investors should take expert advice.

Potential investors in any such Notes should be aware that, depending on the terms and/or performances of the ETF Linked Notes and ETF Basket-Linked Notes, (i) delivery of the ETF Units may take place at a different time than expected and (ii) they may lose all or a substantial portion of their investment. In addition, the movements in the prices of units or interests in one or more ETFs may be significant and may not correlate with changes in interest rates, currencies or other indices and these changes may affect the yield to investors, even if the average level of the relevant prices is not consistent with the expectations of the investors.

If the amount of the principal or interest payable is determined in conjunction with a multiplier greater than one (1) or by reference to some other leverage factor, the effect of changes in the price of an ETF Unit or ETF Basket on the principal or interest will be magnified.

The market price of Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the price of an ETF Unit or ETF Basket. The price of an ETF Unit or ETF Basket may be affected by the economic, financial and political events in one or more countries, including factors affecting the exchanges or quotation systems on which the ETF Unit or ETF Basket is listed or traded. In addition, the price of an ETF Unit or ETF Basket may be affected by the performance of the ETF's service providers, and, in particular, the ETF's manager.

Potential investors should review carefully the Offering Memorandum and any offering document (where relevant) relating to the ETF or ETF Basket concerned prior to investing in the Notes. None of the Issuer, any company affiliated to the Issuer or the Calculation Agent makes any representation as to the solvency of an underlying ETF or ETF Basket or of the administrative or financial managers, depositary bank or of any other advisor of the ETF or ETF Basket.

7. Risks relating to Preference Share Linked Notes

(a) General

On redemption Preference Share Linked Notes will be redeemed by payment of an amount determined by reference to the performance of the relevant preference shares, which depends on the performance of the relevant underlying asset(s) or basis of reference to which the preference shares are linked (the "**Preference Share Underlying**" or, if it is comprised in a basket of underlying assets, a "**Preference Share Underlying Component**"). If the performance of the Preference Share Underlying or a Preference Share Underlying Component is negative, the performance of the preference shares will or may be negative and, if so, the value of the Preference Share Linked Notes will be adversely affected. Purchasers of Preference Share Linked Notes risk losing all or a part of their investment if the value of the preference shares does not move in the anticipated direction. If the value of the Preference Shares becomes zero, the value of the Preference Share Linked Notes will also become zero.

(b) Preference Share Underlying

The Preference Share Underlying may be a specified index or basket of indices, a specified share or basket of shares, a specified currency or basket of currencies, a specified debt instrument or basket of debt instruments, a specified commodity or basket of commodities, a specified fund share or unit or basket of fund shares or units or such other underlying instruments, bases of reference or factors as may be determined by the Preference Share Issuer and specified in the terms and conditions of the relevant series of Preference Shares.

(c) Credit Risk of Preference Share Issuer

Preference Share Linked Notes are linked to the performance of the relevant preference shares issued by the Preference Share Issuer. Investors bear the Preference Share Issuer risk. The value of the Preference Share Linked Notes is dependent not only on the value of the preference share, but also on the creditworthiness of the Preference Share Issuer, which may vary over the term of the Preference Share Linked Notes. The Preference Share Issuer is not an operating company.

Its sole business activity is the issue of redeemable preference shares. The Preference Share Issuer does not have any trading assets and does not generate any significant net income. As its funds are limited any misappropriation of funds or other fraudulent action by the Preference Share Issuer or person acting on its behalf would have a significant effect on the value of the preference shares and will affect the value of the Preference Share Linked Notes. If the Preference Share Issuer becomes insolvent there could be a risk that the Preference Shares are redeemed worthless and therefore the value of the Notes would become zero as well. In such worst case scenario investors would lose all of their invested amount.

(d) Potential conflicts of interest

The Issuer and/or affiliates of the Issuer may from time to time: (i) advise or engage in business with the issuers of or obligors in respect of a Preference Share Underlying, Preference Share Underlying Components or the component shares of any Preference Share Underlying or Preference Share Underlying Component which is an equity index regarding transactions to be entered into by them; (ii) engage in transactions involving a Preference Share Underlying, Preference Share Underlying Components or the component shares of any Preference Share Underlying or Preference Share Underlying Component which is an equity index for their proprietary accounts, for other accounts under their management or to facilitate client orders; (iii) carry

out hedging activities related to the Preference Share-Linked Notes by purchasing or entering into derivatives transactions relating to the Preference Share Underlying, Preference Share Underlying Components or the component shares of any Preference Share Underlying or Preference Share Underlying Component which is an equity index (but will not be obliged to do so); (iv) publish research reports relating to a Preference Share Underlying, certain Preference Share Underlying Components or the component shares of any Preference Share Underlying or Preference Share Underlying Component which is an equity index; or (v) acquire non-public information about a Preference Share Underlying, Preference Share Underlying Component and/or the component shares of any Preference Share Underlying or Preference Share Underlying Component which is an equity index. In undertaking any such activities, neither the Issuer nor any affiliate of the Issuer is under any obligation to consider the interests of the Noteholders, and any such activity by the Issuer or its affiliates (as applicable) may have a negative effect on the value of such Preference Share Underlying, Preference Share Underlying Components and therefore on the value or level of any Preference Share-Linked Notes to which they relate.

In addition, the conditions of the Preference Shares may provide for (a) the early redemption of the Preference Shares, and/or (b) a lesser amount being payable in respect of the Preference Shares, if the value of the Preference Share Underlying or a Preference Share Underlying Component exceeds, falls below, is equal to or does not stay within pre-determined reference levels ("**Threshold Events**") resulting in the Preference Share-Linked Notes also being redeemed early or a lesser amount being payable in respect of the Preference Share-Linked Notes, as the case may be. The activities described in the preceding paragraph may cause such Threshold Events to be triggered, which could potentially have a negative impact on the value of any Preference Share-Linked Notes to which they relate.

Certain affiliates of the Issuer or the Issuer itself may: (i) be the counterparty to the hedge of the Issuer's obligations under an issue of the Preference Share-Linked Notes; (ii) be the Calculation Agent responsible for making determinations and calculations in connection with the Preference Share-Linked Notes; or (iii) publish research reports which express opinions or provide recommendations that are inconsistent with purchasing or holding the Preference Share-Linked Notes referencing the Preference Share Underlying or Preference Share Underlying Components. Accordingly, there is a risk that certain conflicts of interest may arise both among the Issuer or these affiliates and between the interests of the Issuer or these affiliates and the interests of Noteholders.

Furthermore, HSBC France is the Issuer and HSBC Bank plc is the Calculation Agent in respect of Preference Share Linked Notes and also acts as calculation agent in respect of the Preference Shares (the "**Preference Share Calculation Agent**"). HSBC France and HSBC Bank plc are both members of the HSBC group of companies. As a result of this relationship, potential conflicts of interest may arise for HSBC France and HSBC Bank plc in acting in their respective capacities. Subject to any relevant regulatory obligations, the Issuer and the Preference Share Calculation Agent owe no duty or responsibility to any Noteholder to avoid any conflict or to act in the interests of any Noteholder.

The Preference Share Issuer may also rely on other HSBC entities (including the Preference Share Calculation Agent) or other service providers to perform its operational requirements. In the event any relevant HSBC entities or other service providers fail to perform any obligations, this may adversely affect the value of the Preference Shares and potentially the amounts payable under the Notes.

In addition to providing calculation agency services to the Preference Share Issuer, HSBC Bank plc or any of its affiliates may perform further or alternative roles relating to the Preference Share Issuer and any series of Preference Shares including, but not limited to, being involved in arrangements relating to any Preference Share Underlying or Preference Share Underlying Component (for example as a calculation agent). Further, HSBC Bank plc or any of its affiliates (including HSBC France) may contract with the Preference Share Issuer and/or enter into transactions, including hedging transactions, which relate to the Preference Share Issuer, the Preference Shares or any Preference Share Underlying or Preference Share Underlying Component or component share of any Preference Share Underlying or Preference Share Underlying Component which is an

equity index and, as a result, HSBC Bank plc may face a conflict between its obligations as Preference Share Calculation Agent and its and/or its affiliates' interests in other capacities.

8. Risks relating to Inflation Rate-Linked Notes

Volatility

Inflation rates may be volatile and unpredictable. Investors should be aware of the possibility of significant changes in inflation rates resulting in a decrease in the value of interest payments and/or the principal payable on the Notes at redemption. As a consequence the market value of the Notes may also fall.

Interest income risk

In relation to certain types of Inflation Rate Linked Notes, interest only accrues on days on which the interest related Reference Asset fixes within a predetermined range set out in the Pricing Supplement. If the interest related Reference Asset does not fix within such range on one or more days during the term of the Notes, then the return on the Notes may be lower than traditional fixed rate securities, or even zero. Holders should note that no interest accrues on days when the interest related Reference Asset fixes outside of the range.

Specific risks relating to Inflation Rate-Linked Notes

Where Notes reference an inflation index, the Notes will be exposed to the performance of such inflation index which may be subject to fluctuations that may not correlate with changes in interest rates, currencies or other indices and may not correlate with the rate of inflation experienced in the jurisdiction of the Noteholders. Any payments made under the Notes may be based on a calculation made by reference to an inflation index for a month which is several months prior to the date of payment and therefore could be substantially different from the level of inflation at the time of payment on the Notes.

Broadly speaking, in an inflationary environment amounts payable will be adjusted up and in a deflationary environment amounts payable will be adjusted down. In a deflationary environment, the amount of interest payable (if applicable) might be lower than the fixed rate that would have been applicable before such adjustment and the redemption amount or the amount payable in respect of exercise may be reduced.

Alternative valuation following disruption events in respect of inflation indices

Upon the occurrence of certain events in relation to an inflation index, for example the level of the inflation index has not been published or the inflation index is discontinued or is rebased or materially modified – then, depending on the particular event, the Issuer or Calculation Agent may:

- determine the level of the inflation index;
- determine a successor to the original inflation index;
- make changes to the level of the rebased index; or
- make adjustments to the inflation index and/or the terms of the Notes by reference to equivalent adjustments made in respect of the Related Bond specified in the terms and conditions of the Notes or the Fallback Bond selected by the Calculation Agent.

Any such event or determination may have an adverse effect on the value of the Notes.

If the inflation index is rebased or materially modified, and no action is taken in respect of the Related Bond or Fallback Bond, the Calculation Agent may make changes to the level of the rebased index or make adjustments

to the inflation index and/or the terms of the Notes. Such consequential action by the Calculation Agent may have a negative effect on the value of the Notes.

If, on any day on which a valuation is to be made, the level of the inflation index has not been published, and no action to determine a substitute level of the inflation index has been taken in respect of the Related Bond or Fallback Bond, the Calculation Agent shall determine a substitute level of the inflation index calculated by reference to the latest published level of the inflation index, and such level may differ from the index level (if any) published or announced after the relevant valuation date. Such event may have an effect on the valuation of the Notes and on the interest (if applicable) and/or the amounts payable in respect of redemption or exercise. If an inflation index has been discontinued and no successor index has been determined in respect of the Related Bond or Fallback Bond, but the sponsor of the inflation index has specified a replacement inflation index, the Calculation Agent may specify such replacement inflation index to be the Successor Index in respect of the Notes. Failing that, the Calculation Agent will determine an appropriate alternative index, and such index will be deemed a "**Successor Index**". Such events may have an effect on the valuation of the Notes and on the interest (if applicable) and/or the amounts payable in respect of redemption or exercise.

Early redemption or termination of the Notes and reinvestment risk following such early redemption or termination

If the Calculation Agent determines that an inflation index has been discontinued and there is no appropriate alternative successor index, the Calculation Agent may redeem the Notes prior to their scheduled redemption date in accordance with the terms and conditions of the Notes.

9. Risks relating to Currency-Linked Notes

Volatility of exchange rates

Exchange rates can be volatile and unpredictable. Investors should be aware of the possibility of significant changes in rates of exchange between the Specified Currency and Reference Currencies and the Settlement Currency and Alternative Payment Currency (as applicable) may result in a decrease in the value of interest payments and/or the principal payable on the Notes at maturity or early redemption. As a consequence, the market value of the Notes may also fall.

FX Disruption Event

Investors in the Notes should be aware that, following the occurrence of a FX Disruption Event (as defined in the Conditions) the Issuer may elect (a) to redeem the Notes against payment of the Early Redemption Amount, which may be an amount determined by the Calculation Agent to be the fair market value of the Notes less any reasonable costs and expenses incurred by the Issuer of unwinding any underlying and/or related hedging and/or funding arrangements and in any case, such amount may be less than any amount received at maturity or exercise and may result in a loss to the investors or (b) instruct the Calculation Agent to make such adjustments to the Conditions of the Notes as it determines to be necessary or desirable to reflect any market practice which develops in respect of the FX Disruption Event.

If, by reason of an FX Disruption Event, the Issuer is unable to settle payments under the Notes in the Settlement Currency, the Issuer may settle payments by payment of the Alternative Payment Currency Equivalent (which will be an amount in USD or such other currency specified as the Alternative Payment Currency in the relevant Pricing Supplement). Also, if the Notes are redeemed early, investors will forego any future performance in the underlying currency.

Payment of Alternative Payment Currency Equivalent

Notes may provide that, if by reason of an FX Disruption Event (as defined in the Conditions) or the relevant clearing system ceasing to accept payments in the Settlement Currency or the occurrence of an event specified

in the Pricing Supplement as an Alternative Payment Currency Event, the Issuer is not able to satisfy its obligations to pay any amounts due under the Notes (as applicable) in the Settlement Currency, then the Issuer is entitled to make the payments in USD or any other currency specified as the Alternative Payment Currency in the relevant Pricing Supplement (the "**Alternative Payment Currency**").

Notes linked to an index, formula or other underlying and multi-currency and Dual Currency Notes

The Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated ("**Dual Currency Notes**"). Prospective investors should be aware that:

- (i) the market price of such Notes may be very volatile;
- (ii) payment of principal or interest may occur at a different time or in a different currency than expected;
- (iii) they may lose all or a substantial portion of their principal and/or interest payments;
- (iv) the relevant currencies may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices; and
- (v) the timing of changes in a relevant currency may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the relevant currency, the greater the effect on yield.

Specific risks relating to Offshore Notes denominated in RMB and Notes linked to Offshore RMB and traded outside the PRC

Notes denominated and/or settled in Renminbi (the "**RMB Notes**") may be issued under the Programme. Notes linked to Offshore RMB and traded outside the PRC may be issued under the Programme. For the purpose of those Notes and where the context requires, "Offshore RMB" shall refer to Chinese RMB that is freely deliverable between accounts in the relevant Offshore RMB Centre as specified in the relevant Pricing Supplement in accordance with the law and applicable regulations and guidelines issued by the relevant authorities in the relevant Offshore RMB Centre as specified in the relevant Pricing Supplement prevailing as of the trade date of the Notes. Set out below is a description of some of the risks that should be taken into consideration by prospective investors in such Notes.

- (a) *RMB is not completely freely convertible; Restrictions on RMB conversion through relevant Offshore RMB Centres (as specified in the relevant Pricing Supplement) may adversely affect the liquidity of the Notes*

Renminbi is not freely convertible at present. The government of the PRC (the "**PRC Government**") continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar. However, there has been a significant reduction in control by the PRC Government in recent years, particularly over trade transactions involving the import and export of goods and services as well as other frequent routine foreign exchange transactions. These transactions are known as current account items.

On the other hand, remittance of Renminbi into the PRC for the purposes of capital account items, such as capital contributions, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into the PRC for settlement of capital account items are developing gradually.

Although Renminbi was added to the Special Drawing Rights basket created by the International Monetary Fund in 2016 and policies further improving accessibility to Renminbi to settle cross-border transactions were

implemented by the People's Bank of China (the "PBoC") in 2018, there is no assurance that the PRC Government will liberalise its control over cross-border remittance of Renminbi in the future or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or out of the PRC. Despite the Renminbi internationalisation programme and efforts in recent years to internationalise the currency, there can be no assurance that the PRC Government will not impose interim or long-term restrictions on the cross-border remittance of Renminbi. In the event that funds cannot be repatriated out of the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC, which may negatively impact on the liquidity of the Notes and thus the value of the Notes. In addition, if Renminbi outside the PRC is unavailable, this will impact on the ability of the Issuer to source Renminbi to perform its obligations under Notes denominated in Renminbi.

(b) RMB interest rate risk

The PRC Government has gradually liberalised its regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility and, as a result, the value of the Notes may fluctuate as well. In addition, the interest rate for Renminbi in markets outside the PRC may significantly deviate from the interest rate for Renminbi in the PRC as a result of foreign exchange controls imposed by PRC law and regulations and prevailing market conditions.

RMB Notes may carry a fixed interest rate ("**Fixed Rate Notes**") or have a resettable interest rate ("**Resettable Notes**"). Consequently, the trading price of RMB Notes which are Fixed Rate Notes or Resettable Notes will vary with the fluctuations in the Renminbi interest rates. If holders of such RMB Notes propose to sell such Notes before their maturity, they may receive an offer lower than the amount they have invested.

(c) RMB exchange rate risk

Offshore RMB represents a market which is different from that of RMB deliverable in the PRC. The exchange rate of Offshore RMB against the U.S. dollar, Hong Kong dollar or other foreign currencies may be different from the exchange rate of RMB deliverable in the PRC against such currencies. Apart from its own supply and demand, the Offshore RMB exchange rate may be influenced by the onshore exchange rate (which currently trades within a band set by authorities in the onshore interbank market), and the two rates may converge with or diverge from each other.

The value of Renminbi against other foreign currencies is susceptible to PRC internal and external factors. Recently the PBoC implemented changes to the way it calculates the Renminbi's daily mid-point against the U.S. dollar to take into account marketmaker quotes before announcing such daily mid-point. This change, and others that may be implemented, may increase the volatility in the value of the Renminbi against foreign currencies. All payments will be made in Renminbi with respect to Renminbi Notes unless otherwise specified. As a result, the value of these Renminbi payments may vary with the changes in the prevailing exchange rates in the marketplace. If the value of Offshore RMB depreciates against the U.S. dollar, Hong Kong dollar or other foreign currencies, the value of a Noteholder's investment in U.S. dollar, Hong Kong dollar or other applicable foreign currency terms will decline.

(d) Payments with respect to the RMB Notes may be made only in the manner through Renminbi bank accounts maintained at banks in the relevant Offshore RMB Centre.

Investors in the Notes should be aware that all Offshore RMB payments under the Notes will be made solely by credit to Renminbi bank accounts maintained at banks in the relevant Offshore RMB Centre as specified in the relevant Pricing Supplement in accordance with the law and applicable regulations and guidelines issued by the relevant authorities in the relevant Offshore RMB Centre as specified in the relevant Pricing Supplement.

10. Risks relating to Fund-Linked Notes and Fund Basket-Linked Notes

No ownership rights

The Fund-Linked Notes or Fund Basket-Linked Notes do not represent any actual holdings in the Reference Fund that the Issuer or any of its affiliates may have. The Noteholders will have no direct interest or right in the shares or other units comprised in any of the Reference Fund. The Issuer shall be under no obligation to make or hold, directly or indirectly, investments in the Reference Fund. The Noteholder will not hold any direct or indirect interest in the Reference Fund and prospective investors should be aware that an investment in the Fund-Linked Notes or in the Fund Basket-Linked Notes is not the same as an investment in the Reference Fund and does not confer any legal or beneficial interest in the Reference Fund or any voting rights, rights to receive dividends or other rights that a holder of the shares or other units comprised in any such Reference Fund would have.

Information

No investigation has been made of the financial condition or creditworthiness of any Reference Fund in connection with the issue of any Fund-Linked Notes or Fund Basket-Linked Notes. Investors in the Fund-Linked Notes or Fund Basket-Linked Notes should obtain and evaluate the same information concerning each Reference Fund as they would if they were investing directly in such Reference Fund. In addition, investors should understand that the historical performance of the Reference Fund should not be viewed as predictive of future results.

Actions or omissions of the Reference Fund or other

The Issuer may, from time to time, be affiliated with, or act as a service provider to the Reference Fund(s), or their respective investment managers, investment advisers or trustees. However, the Issuer has no ability to control or predict the actions of the Reference Fund(s). In certain circumstances, the actions or omissions of the relevant Reference Fund or others outside the control of the Issuer, may adversely affect the rights of the Noteholders and/or the value of the Fund-Linked Notes or Fund Basket-Linked Notes, including actions that may give rise to an adjustment to, or early redemption of, the Fund-Linked Notes or Fund Basket-Linked Notes.

Performance of Reference Fund

No representation or warranty, whether implied or otherwise, is given by the Issuer as to the past, present or future performance of the Reference Fund(s). The Issuer does not provide any advice, information or credit analysis with respect to the Reference Fund(s) or any underlying assets of the Reference Fund(s). In particular, this Offering Memorandum does not constitute investment advice. The Issuer does not assume any obligation to or relationship of agency or trust with any investor, purchaser or prospective investor or purchaser of the Notes. The past performance of assets, investment funds or other investment companies managed by the investment manager or the investment adviser of the Reference Fund(s) is not necessarily a guide to the future performance of the Reference Fund(s).

The Fund Manager is not involved in the Notes

The fund manager of the Reference Fund is not involved in the issuance or offering of the Notes and has no obligation with respect to the Notes, including any obligation to consider the interest of any investor in the Notes for any reason. The fund manager of the Reference Fund is not involved with the administration, marketing or trading of the Notes and has no obligation with respect to any amount to be paid to the investors for or in respect of the Notes.

Reference Fund Disruption Event

Investors in the Fund-Linked Notes or Fund Basket-Linked Notes are subject to the risk that a Reference Fund Disruption Event may occur in relation to a Reference Fund. A Reference Fund Disruption Event may occur in respect of Notes if, as determined by the Calculation Agent: the date on which a Reference Fund is scheduled to determine the net asset value of such Reference Fund is postponed; the reporting of such net asset value is postponed; or payment in respect of any redemption is postponed.

If the Calculation Agent determines that a Reference Fund Disruption Event has occurred, the Calculation Agent may postpone the Valuation Date to a later date which is not a Disrupted Day, provided that the Valuation Date will not be postponed beyond the date specified in the relevant Pricing Supplement as the "**Cut-off Valuation Date**". If the Calculation Agent postpones the Valuation Date, the due dates for any payments or delivery in respect of the Notes (including, without limitation, the maturity date) may also be postponed.

Additional Disruption Events

Investors should note that Additional Disruption Events may occur in relation to the relevant Notes in certain circumstances described in the Conditions. If any Additional Disruption Event occurs in relation to the relevant Notes, the Issuer may declare a valuation date and designate an early redemption date and the Noteholders will receive an early redemption amount based on the determinations made by the Calculation Agent.

The following Additional Disruption Events may be specified to be applicable in the relevant Pricing Supplement:

- "**Change in Law**" may occur where the Issuer determines (i) it is or will become unlawful, illegal or otherwise prohibited for it to hedge its obligations under the Notes or such hedging arrangements may be materially adversely affected, or (ii) it has become illegal or inadvisable to, or there has been a material increase to the Issuer in the cost of holding such assets, each due to a change in law;
- "**Hedging Disruption**" may occur if it is or has become not reasonably practicable, or it has otherwise become undesirable for the Issuer (having used commercially reasonable efforts to do so) to (A) hold, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary or desirable to hedge the Issuer's obligations in respect of the Notes or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s);
- "**Increased Cost of Hedging**" may occur where the Issuer would incur a materially increased cost, other than as a consequence of deterioration in its own creditworthiness, in hedging its obligations under the Notes;

Upon the occurrence of such an early redemption prior to the originally scheduled maturity date of the relevant Notes, Noteholders may suffer a loss of some or of all of their investment and will forego any future performance in the relevant Reference Fund that may occur following such redemption.

Extraordinary Fund Events

In respect of Fund-Linked Notes or Fund Basket-Linked Notes, one of the following events may occur in relation to one or more funds to which the Notes are linked:

- (a) any breach or violation of the provisions of the fund prospectus or any other documents in relation to the fund;
- (b) the non-execution or partial execution by such fund for any reason of a subscription or redemption order in respect of any units in that fund given by a Hypothetical Investor (as defined in the Terms

and Conditions of the Notes) (whether or not in accordance with the relevant fund prospectus), (ii) the fund suspends or refuses transfers of any of its units, (iii) the fund imposes in whole or in part any restriction, charge or fee in respect of a redemption or subscription of its units by the Issuer or exercises its right to claw back the proceeds already paid on redeemed units if in any case it could, in the determination of the Calculation Agent, have an adverse impact on the Issuer's or any of its designated affiliates', as applicable, rights or obligations in relation to its hedging activities in relation to the Notes, or (iv) a mandatory redemption, in whole or in part, of the units is imposed by the fund on any one or more holders of units at any time for any reason;

- (c) such Reference Fund or any Reference Fund Service Provider (i) ceases trading and/or, in the case of a Reference Fund Service Provider, ceases administration, portfolio management, investment services, custodian, prime brokerage, or any other relevant business (as applicable); (ii) is dissolved or has a resolution passed for its dissolution, winding-up, official liquidation (other than pursuant to a consolidation, amalgamation or merger); (iii) makes a general assignment or arrangement with or for the benefit of its creditors; (iv) (A) institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official, or (B) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in sub-clause (A) above and either (x) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (y) is not dismissed, discharged, stayed or restrained in each case within fifteen days of the institution or presentation thereof; (v) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (vi) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within fifteen days thereafter; or (vii) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in clauses (i) through (v) above;
- (d) there exists any litigation against the fund or any service provider in respect thereof which could materially affect the value of the units in the fund or the rights or remedies of any investor in such units, as determined by the Calculation Agent;
- (e) (i) a service provider in respect of the fund ceases to act in such capacity in relation to the fund and is not immediately replaced in such capacity by a successor acceptable to the Calculation Agent and/or (ii) any event occurs which causes, or will with the passage of time (in the opinion of the Calculation Agent) cause, the failure of the fund and/or any service provider in respect of the fund to meet or maintain any obligation or undertaking under the fund prospectus or any other relevant fund document which failure is reasonably likely to have an adverse impact on the value of the units in the fund or on the rights or remedies of any investor in such units;
- (f) a material modification, or any announcement regarding a potential future material modification, of the investment programme, investment objectives, investment policies, investment strategy, investment process or investment guidelines of such fund;
- (g) the failure by such fund to comply with its reporting obligations in accordance with its agreements with the Issuer or any of its designated affiliates (as applicable);

- (h) a material modification (other than any modifications referred to in (e) above) of such fund or the occurrence of a change or any event materially affecting such fund;
- (i) a material modification of the type of assets in which such fund invests or the trading practices of the relevant fund which, in the determination of the Calculation Agent, has or is likely to have a material effect on any hedging arrangements entered into by the Issuer or any of its designated affiliates (as applicable) in respect of these Notes;
- (j) such fund or service provider in respect thereof has its authorisation or registration cancelled by any applicable regulatory authority;
- (k) (i) an allegation of criminal or fraudulent activity is made in respect of the fund, or any service provider in respect thereof, or any employee of any such entity, or the Calculation Agent reasonably determines that any such criminal or fraudulent activity has occurred or (ii) such fund or a service provider in respect thereof (A) becoming subject to any investigation, proceeding or litigation by any relevant governmental, legal or regulatory authority involving the alleged violation of applicable law for any activities relating to or resulting from the operation of such fund, investment adviser, manager or administration agent; (B) commits an act which constitutes fraud or criminal activity in the performance of its obligations in respect of such fund; (C) makes any material misrepresentation under any document in respect of the relevant fund or (D) announces its intention to cease the business of investment management;
- (l) any relevant activities of or in relation to the fund or a service provider in respect thereof are or become unlawful, illegal or otherwise prohibited in whole or in part as a result of compliance with any present or future law, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power, or in the interpretation thereof, in any applicable jurisdiction, (ii) a relevant authorisation or licence is revoked, lapses or is under review by a competent authority in respect of the fund or a service provider in respect thereof or new conditions are imposed, or existing conditions varied, with respect to any such authorisation or licence, (iii) the fund is required by a competent authority to redeem any units, (iv) the Issuer or any of its designated affiliates (as applicable) is required by a competent authority or any other relevant entity to dispose of or compulsorily redeem any units in such fund held in connection with any hedging arrangements relating to the Notes and/or (v) any change in the legal, tax, accounting or regulatory treatment of the fund or any service provider in respect thereof that is reasonably likely to have an adverse impact on the value of the units in the fund or other activities or undertakings of the fund or on the rights or remedies of any investor in such units, including the Issuer;
- (m) the creation by the fund of any illiquid share class or unit howsoever described;
- (n) the currency denomination of the units in the fund is amended from that set out in the fund prospectus or any other relevant fund document so that the NAV per unit is no longer calculated in the same currency as it was as at the Trade Date;
- (o) if applicable, the fund ceases to be an undertaking for collective investments under the legislation of its relevant jurisdiction;
- (p) if the fund comprises multiple classes or series (howsoever described in the fund prospectus or any other relevant fund document) of shares or units, and the Calculation Agent determines (in good faith and a commercially reasonable manner) at any time, taking into consideration the potential cross-liability between classes of shares or units (howsoever described in the fund prospectus or any other relevant fund document), that such other class or series has or may have an adverse effect on the hedging activities of the Issuer or any of its designated affiliates (as applicable) in relation to the Notes;

- (q) (i) the Calculation Agent determines, at any time, that the NAV per unit is inaccurate, or (ii) the reported net asset value of the units in the fund misrepresents the net asset value of such units;
- (r) any material modification of the method of calculating the NAV per unit;
- (s) any change in the periodicity of the calculation or the publication of the NAV per unit;
- (t) any change in the length of notice periods for redemptions or transfers in relation to the fund;
- (u) a Reference Fund Disruption Event (as defined in the Terms and Conditions of the Notes) has occurred and is continuing for at least three consecutive Reference Fund Valuation Days (as defined in the Terms and Conditions of the Notes);
- (v) the exposure (expressed as percentage) of the fund to securities with a credit quality (based upon the lowest credit ratings from S&P, Moody's and Fitch when available) below B, B2 or B for S&P, Moody's and Fitch respectively exceeds 35 per cent.; the aggregated level of leverage (expressed as percentage) of the fund exceeds 20 per cent.;
- (w) the Calculation Agent determines that, over any period not exceeding twelve months, the total net value of the assets of the Reference Fund has decreased by 30 per cent. (either due to redemptions, a decrease in value of such assets or otherwise); or
- (x) the Calculation Agent determines that, over any period not exceeding twelve months (ending on the immediately preceding date on which the Reference Fund Adviser published the total value of the assets it managed), the total value of the assets managed by the Reference Fund Adviser (including the Reference Fund) has decreased by 50 per cent. (either due to redemptions, a decrease in value of such assets or otherwise).

Following the occurrence of such event ("**Extraordinary Fund Event**"), the Calculation Agent may make certain adjustments to or substitutions for the affected Reference Fund, Reference Fund unit and/or any other terms and conditions of the Notes as the Calculation Agent may determine in good faith and in a commercially reasonable manner, or the Calculation Agent may determine in good faith and in a commercially reasonable manner that the relevant Notes shall be terminated upon payment to the holders thereof of the Fair Market Value of such Notes (taking into account the redemption proceeds (if any) which a Hypothetical Investor would have received in relation to the relevant fund (in accordance with the Conditions)), each of which may result in a loss to such holders.

Tax and Currency Risk

The tax status of Reference Funds in those jurisdictions in which they conduct their business and/or any change in taxation rules or treatment in such jurisdictions could affect the value of the assets of such Reference Funds or the ability of Reference Funds to achieve their investment objectives. Consequently this could adversely affect the value of the Notes linked to such Reference Funds. In addition, remittance of income and capital gains generated by underlying investments of Reference Funds in certain countries may be dependent on there being liquidity in the relevant local currency and the absence of foreign exchange controls which inhibit or prevent the repatriation of such gains. In any such circumstances, the value of the notional shares of Reference Funds may be adversely affected and as a result the relevant Reference Funds and the value of the Notes may be adversely affected.

Class of Investments

Prospective purchasers or investors should note that Reference Funds may have legal or other discretions in relation to their investments and no assurance can be given that the exercise of such discretions will achieve the investment objectives of such Reference Funds. Therefore, there is a risk that return on an investment in

Reference Funds may not be achieved. This would have an adverse effect on the value of the Notes and any amounts payable thereunder. The Reference Fund(s) may make investments which are subject to legal or other restrictions on transfer or for which no liquid market exists, in which case market prices will tend to be more volatile.

Investment Risk

There can be no assurance that any Reference Fund will achieve its investment objectives. The investment income of each Reference Fund is based on the income earned on the securities it holds, less expenses incurred. Therefore, the Reference Fund's investment income may be expected to fluctuate in response to changes in such expenses or income and this may have an adverse effect on the value of the Notes and any amounts payable thereunder.

High Yield

Some Reference Funds may invest in high yield securities. High yield securities are typically medium or lower rated securities and are sometimes referred to as "junk bonds". Such securities are more likely to react to developments affecting market and credit risk than are more highly rated securities, which primarily react to movements in the general level of interest rates. The risk of loss due to default by issuers of high yield securities is significantly greater because lower rated and unrated securities of comparable quality generally are unsecured and frequently are subordinated to the prior payment of senior indebtedness. In addition, Reference Funds which invest in such securities may find it more difficult to sell high yield securities or may be able to sell the securities only at prices lower than if such securities were widely traded. Furthermore, such Reference Funds may experience difficulty in valuing certain securities at certain times. Prices realised upon the sale of such lower rated (or unrated) securities, under these circumstances, may be less than the prices used in calculating the value of such Reference Funds. All such risks could adversely affect the value of Notes linked to Reference Funds which invest in high yield securities.

Reference Funds with One or More Currency Hedged Share Classes

Certain share classes in a Reference Fund may hedge their currency exposure using forward FX contracts and spot FX contracts. All gains, losses and expenses arising from hedging transactions for a particular share class are attributed only to that share class and should generally be borne only by the investors in that share class. However, in respect of certain Reference Funds there is no legal segregation of share class such that there is a risk that, if the assets notionally allocated to a currency hedged share class are insufficient to meet the losses arising from its hedging transactions (in addition to other fees and expenses attributable to such share class), the losses arising from such the hedging transactions could affect the net asset value per share of one or more other share classes of the same Reference Fund.

Provision of Information

None of the Issuer or any of its affiliates is under any obligation to provide information in respect of any Reference Fund underlying the Notes (including any information relating to the creditworthiness of such Reference Funds) or monitor whether or not any event or circumstance in respect of any Reference Funds underlying the Notes has occurred. The Issuer may have acquired, or during the term of the Notes may acquire, non public information with respect to one or more Reference Funds. The Issuer is not under any obligation to make such information available to holders of such Notes. Therefore, an investor in the Notes should obtain and evaluate information concerning the relevant Reference Funds as it would if it were investing directly in such Reference Funds.

Additional considerations/risk factors set out in offering documents relating to Reference Funds

Investors in Fund-Linked Notes or Fund Basket-Linked Notes should note that there may be particular investment considerations and risk factors set out in the offering documentation relating to the Reference

Funds and are advised to read and consider such offering documentation in making an investment decision to invest in such Notes. Such information is not incorporated by reference and does not form part of this Offering Memorandum.

11. Risks relating to Credit-Linked Notes

General

The Issuer may issue Notes where the amount of principal and/or interest payable is dependent upon whether certain events ("**Credit Events**") have occurred in respect of one or more entities (together "**Reference Entities**" and each, a "**Reference Entity**") and, if so, unless the Notes are "zero recovery" or "fixed recovery" Notes on the value of certain specified assets of such Reference Entity(ies) or, where, if such events have occurred, the Issuer's obligation is to deliver certain specified assets upon redemption of the Notes. In this respect, the Notes provide investors with a return linked to the credit of the Reference Entity or Reference Entities, as well as the credit risk of the Issuer in performing its obligations under the Notes, and will not provide protection of principal or a guarantee of interest.

Prospective investors in any such Notes should be aware that depending on the terms of the Credit-Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified assets may occur at a different time than expected, and (iii) they may lose all or a substantial portion of their investment. It is the responsibility of investors to ensure that their accounting, regulatory and all other treatments of the Notes are consistent with the conditional nature of their entitlement to receive payments under the Notes.

The market price of such Notes may be volatile and will be affected by factors that interrelate in complex ways, including amongst other things, the Issuer's creditworthiness, the time remaining to the redemption date and the creditworthiness of the Reference Entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions. It is important for investors to understand that the effect of one factor may offset the increase in the market price of the Notes caused by another factor, and that the effect of one factor may exacerbate the decrease in the market price of the Notes caused by another factor. For example, a drop in the creditworthiness of a Reference Entity may more than offset any increase in the Issuer's creditworthiness. The market price of the Notes may be zero.

The Credit-Linked Conditions set out in this Offering Memorandum contain provisions for Credit-Linked Notes with terms based on the 2014 ISDA Credit Derivatives Definitions (the "**2014 ISDA Definitions**"). The 2014 ISDA Definitions are different from the 2003 ISDA Credit Derivatives Definitions (as supplemented) (the "**2003 ISDA Definitions**") (see further "*Differences between the 2003 ISDA Definitions and the 2014 ISDA Definitions*" below).

Any references in this sub-section 11 to ISDA will include any other entity which succeeds to or is performing functions previously undertaken by ISDA in relation to Credit Derivatives Determinations Committees and references to Credit Derivatives Determinations Committees in relation to ISDA will include any successor thereto. The Calculation Agent may make such adjustments to the Credit-Linked Conditions and the relevant Pricing Supplement as it determines appropriate to account for any other entity so succeeding to or performing functions previously undertaken by ISDA.

The Issuer's obligations in respect of Credit-Linked Notes are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a Reference Entity and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

The holders of Credit-Linked Notes will be exposed to the credit of one or more Reference Entities, which exposure shall be, unless otherwise stated in the relevant Pricing Supplement or the Notes are "fixed recovery" Notes, to the full extent of their investment in such Notes. Upon the occurrence of any of the default events comprising a Credit Event with respect to any Reference Entity, the Noteholders may suffer significant losses

at a time when losses may be suffered by a direct investor in obligations of such Reference Entity. However, the holding of a Note is unlikely to lead to outcomes which exactly reflect the impact of investing in an obligation of a Reference Entity, and losses could be considerably greater than would be suffered by a direct investor in the obligations of a Reference Entity and/or could arise for reasons unrelated to such Reference Entity. Noteholders should also note that a Credit Event may occur even if the obligations of a Reference Entity are unenforceable or their performance is prohibited by any applicable law or exchange controls.

The Calculation Agent may exercise its right to deliver a Credit Event Notice even if the relevant Credit Event is no longer continuing and Noteholders will have no right to compel the exercise of this right or to control the timing of a Credit Event Determination Date. Notwithstanding this, in most cases a Credit Event can only be triggered (whether by an ISDA Credit Derivatives Determinations Committee determination or the Calculation Agent) if the relevant event occurred within a 60 calendar day look-back period. These provisions mean that there is a time limit on the ability to act on a Credit Event and that it is possible that the Notes could be affected by a Credit Event that took place prior to the Trade Date.

Not all of the Credit Events require an actual default with respect to the Reference Entity's obligations. Thus Noteholders may bear losses based on a deterioration in the credit of a Reference Entity short of default. Also, not all Credit Events are triggered by events which are easily ascertainable and disputes can and have arisen as to whether a specific event did or did not constitute a Credit Event. Under the terms of the Notes, subject to certain Credit Derivatives Determinations Committee determinations, the Calculation Agent's determination will be binding on the Issuer and Noteholders and may be different from the view of Noteholders, other financial institutions and/or commentators.

The Issuer may determine that certain terms of the Notes (for example the applicable Credit Events, Deliverable Obligations and Obligations) be those set in the Credit Derivatives Physical Settlement Matrix ("**Physical Settlement Matrix**") for the Transaction Type(s) specified in the Pricing Supplement for the Reference Entity(ies), rather than being specified in the Pricing Supplement. The Physical Settlement Matrix sets out a number of terms which, depending on the Transaction Type specified, will apply to standard credit derivatives transactions if incorporated into the documentation for those transactions and is published by ISDA on its website at www.isda.org (or any successor website thereto). If applicable to the Notes, the version of the Physical Settlement Matrix which will apply will be that dated the date specified in the relevant Pricing Supplement.

Redemption following a Credit Event

Where cash settlement (other than for "fixed recovery" Notes) or auction settlement applies, the occurrence of a Credit Event in relation to any Reference Entity from time to time may result in a redemption of the Notes in a reduced nominal amount or at zero, and interest-bearing Credit-Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstance. The value of obligations of the relevant Reference Entity which will affect the amount (if any) due on such redemption may substantially decrease in value during the period between the Credit Event and settlement of the Notes.

In such circumstances, where cash settlement applies and the amount (if any) due on redemption of the Notes is to be calculated by reference to the value of one or more Valuation Obligations of the relevant Reference Entity, the Issuer will select the relevant Valuation Obligations in its sole and absolute discretion irrespective of their market value or liquidity and will not be obliged to consider the interests of Noteholders or mitigate their losses.

Where physical settlement is intended to apply, unless the Issuer does not deliver a Notice of Physical Settlement following the occurrence of a Credit Event because it determines that it would not have any relevant assets to deliver or that all of the relevant assets would be impossible, illegal or impractical to deliver (in which case auction or cash settlement will apply as above), the occurrence of a Credit Event in relation to any Reference Entity from time to time may result in the redemption of the Notes by delivery of certain direct or indirect obligations of the affected Reference Entity and/or obligations received under certain transactions

which may be entered into by the Issuer and/or its affiliates in connection with the Issuer's obligations under the Notes, which obligations are likely to have a market value which is substantially less than their par amount (and may substantially decrease in value during the period between the Credit Event and settlement of the Notes), and interest-bearing Credit-Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstance. Where the Notes provide for physical settlement and the Issuer delivers a Notice of Physical Settlement, the Calculation Agent may nonetheless determine that the specified assets to be delivered are either (a) assets which, for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans), are impossible, illegal or impractical to deliver on the specified settlement date, or (b) assets which the Issuer and/or any affiliate has not received under the terms of any transaction entered into by the Issuer and/or such affiliate in connection with the Issuer's obligations under the Notes. Any such determination may delay settlement in respect of the Notes (in the case of paragraph (b)) and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount (if any) which, in either case, may affect the value of the Notes and, in the case of payment of a cash amount, will affect the timing of the valuation of such Notes and as a result, the amount of principal payable on redemption. In this respect investors should note that neither the Issuer nor its affiliates are under any obligation to acquire any assets for delivery under the Notes and if no such assets are held for these purposes the Notes will be redeemed by payment of a cash amount (if any). Prospective Investors should review the *"Additional Terms and Conditions relating to Credit-Linked Notes"* and the relevant Pricing Supplement to ascertain whether and how such provisions should apply to the Notes.

Where cash settlement applies and the Notes are "fixed recovery" Notes, the occurrence of a Credit Event in relation to any Reference Entity from time to time will result in a redemption of the Notes at an amount less than the nominal amount or at zero, and interest-bearing Credit-Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstance. The amount payable on redemption will be dependent upon the fixed Final Price specified in the relevant Pricing Supplement. In such circumstances, if that fixed Final Price is lower than the price that could have been determined pursuant to the auction (as described under *"Risks relating to Auction Settlement of Credit-Linked Notes"* below) or on valuation of the Valuation Obligation(s), as applicable, had auction settlement or cash settlement as described above have applied to the Notes, the redemption amount will be lower than would otherwise have been the case.

Where the Notes are "zero recovery" Notes, the occurrence of a Credit Event in relation to any Reference Entity from time to time will result in cancellation of the Notes at zero, with no amounts being payable under the Notes in this respect and interest-bearing Credit-Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstance.

Investors in the Notes are accordingly exposed, as to both principal and (if applicable) interest, to the credit risk of the Reference Entity. The maximum loss to an investor in the Notes is 100 per cent. of their initial principal investment, together with (if applicable) any accrued interest amounts.

Credit Event Maturity Settlement Notes

Credit-Linked Notes in relation to which Credit Event Maturity Settlement is applicable will not following the occurrence of a Credit Event redeem earlier than the Scheduled Maturity Date, notwithstanding that this may occur a significant time following the occurrence of the relevant Credit Event. Following the occurrence of a Credit Event investors may therefore not receive any interest on their investment for a substantial period of time (unless interest is specified to accrue up to the Scheduled Maturity Date for the Credit-Linked Notes notwithstanding the occurrence of a Credit Event) and may miss the opportunity to invest the amount payable on redemption, that would otherwise have been received earlier, in other assets or investments.

A Credit Event may occur prior to the Trade Date

As mentioned above, holders of the Notes may suffer a loss of some or all principal amount of the Notes in respect of one or more Credit Events that occur prior to the Trade Date or the Issue Date. Neither the

Calculation Agent nor the Issuer nor any of their respective affiliates has any responsibility to inform any Noteholder, or avoid or mitigate the effects of a Credit Event that has taken place prior to the Trade Date or the Issue Date.

Credit Deterioration Requirement

Investors should note that a deterioration in the creditworthiness or financial condition of a Reference Entity will not be required for the purposes of determining a Failure to Pay Credit Event unless “2019 Narrowly Tailored Credit Event Provisions” and “Credit Deterioration Requirement” are each specified as applicable in respect of such Reference Entity in the relevant Pricing Supplement.

Increased credit risk is associated with Basket Credit-Linked Notes

Where the Notes are Basket Credit-Linked Notes, the Notes may be subject to redemption in part as described above upon the occurrence of a Credit Event in relation to each Reference Entity in respect of which a Credit Event occurs, on the basis of the proportional weighting of each such Reference Entity in the basket. The credit risk to Noteholders may further be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Investors' exposure to the credit performance of the Reference Entities may not correspond to actual market recovery on such Reference Entities.

Principal repayments on the Notes will and interest on the Notes may be calculated by reference to the Adjusted Credit Outstanding Nominal Amount. As at the Issue Date the Adjusted Credit Outstanding Nominal Amount is an amount equal to the Aggregate Nominal Amount. If a Credit Event occurs in respect of a Reference Entity, then the Adjusted Credit Outstanding Nominal Amount will be reduced by (i) an amount equal to a predefined portion of the Aggregate Nominal Amount (reflecting the Notes' exposure to such Reference Entity) and, if "Unwind Costs" are specified as applicable in the relevant Pricing Supplement, (ii) if the Notes are "zero recovery" Notes, the hedging costs arising in relation to the Issuer's and/or any of its affiliates' hedging arrangements in connection with the partial redemption of the Notes or, for any other types of Note, if such hedging costs exceed the relevant Recovery Value (if auction settlement or cash settlement applies) or the market value of the relevant Initial Deliverable Obligations (if physical settlement applies), such excess. Therefore, investors' exposure to each Reference Entity may exceed the exposure that they might incur in respect of having entered into a standard single name credit default swap as protection seller in respect of each Reference Entity and investors may lose the entire principal amount invested.

Index Basket Credit-Linked Notes

For Index Basket Credit-Linked Notes, the Reference Obligations as of the issue date of the Notes will be those set out in each relevant Index Annex, being the list for the relevant Markit iTraxx® Index (in the case of Notes linked to one or more iTraxx Indices) or Markit CDX™ Index (in the case of Notes linked to one or more CDX Indices) with the relevant Annex Date specified in the relevant Pricing Supplement, as published by the relevant Index Publisher, being Markit Group Limited as of the date of this Offering Memorandum). Notwithstanding "Successors" below, determinations by each relevant Index Sponsor (being Markit Indices Limited in the case of Notes linked to one or more iTraxx Indices and Markit North America, Inc. in the case of linked to one or more CDX Indices, in each case as of the date of this Offering Memorandum) with respect to replacement Reference Obligations and/or Successors, will apply for the purposes of the Notes. In addition, if ISDA publicly announces a Successor prior to the Trade Date but following the relevant "Roll Date" (in the case of Notes linked to one or more iTraxx Indices) or "Effective Date" (in the case of linked to one or more CDX Indices) specified in an Index Annex, such Successor will apply for the purposes of the Notes, notwithstanding such announcement occurring prior to the Trade Date.

Successors

A Reference Entity may be replaced as Reference Entity by one or more Successor(s). For these purposes the relevant Succession Date must occur within a 90 calendar day look-back period, other than in the case of a universal succession, where the Succession Date must have occurred on or after 1 January 2014. These provisions mean that there is a time limit on the ability to act on a succession and that it is possible that the Notes could be affected by a succession that took place prior to the Trade Date.

The Calculation Agent may, if it determines appropriate, select an alternative Transaction Type for any Successor to a Reference Entity and adjust such of the Conditions, the Credit Linked Conditions and/or the relevant Pricing Supplement as it determines appropriate to reflect such new Transaction Type and determine the effective date of any such change and adjustment.

In addition, where more than one Successor to a Reference Entity has been identified the Calculation Agent shall adjust such of Conditions, the Credit Linked Conditions and/or the relevant Pricing Supplement as it shall determine to be appropriate (including, without limitation, the relevant Reference Entity Notional Amount and (if applicable) the relevant Transaction Type) to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment.

Maturity Date extension, interest postponement and settlement suspension

Investors should note that the maturity of the Notes may be extended beyond the Scheduled Maturity Date in circumstances where a Credit Event may have occurred in relation to a Reference Entity or a Potential Credit Event has or may have occurred in relation to a Reference Entity. As a result, repayment to the Noteholders may be delayed for a significant period of time even in circumstances where it transpires no Credit Event has occurred. In addition, the maturity of the Notes may be extended and ongoing interest payments may be delayed if there is a pending Credit Derivatives Determinations Committee decision at the relevant time and ongoing interest payments may also be delayed in circumstances where a Potential Credit Event has occurred in relation to a Reference Entity at the relevant time.

The Credit Linked Conditions also provide that (other than in respect of "zero recovery" Notes) if, following the determination of a Credit Event Determination Date but prior to a cut-off date, there is a DC Credit Event Meeting Announcement, the Calculation Agent may at its option determine that the applicable timing requirements of the Credit Linked Conditions and the definitions of Credit Event Redemption Date, Credit Event Payment Date, Valuation Date, Maturity Date, Physical Settlement Period and PSN Cut-off Date and any other Credit Linked Condition as determined by the Calculation Agent, shall toll and be suspended and remain suspended (such period of suspension, a "**Suspension Period**") until the date of the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal (with no action being taken in connection with the settlement of the Notes during such Suspension Period). At that point, the relevant timing requirements of the Credit Linked Conditions that have previously tolled or been suspended shall resume on the Business Day following such public announcement by the DC Secretary.

In the event of any such Suspension Period, the Calculation Agent may make (i) such consequential or other adjustment(s) or determination(s) to or in relation to the Credit Linked Conditions as may be desirable or required either during or following any relevant Suspension Period to account for or reflect such suspension, and (ii) determine the effective date of such adjustment(s) or determination(s).

In the case of interest-bearing Credit-Linked Notes:

- (a) if a Suspension Period falls in any one or more Interest Period(s), then no interest shall accrue during each portion of an Interest Period during which a Suspension Period exists; and
- (b) if an Interest Payment Date falls in a Suspension Period, payment of the relevant interest will be deferred until after the end of the Suspension Period.

Amendment of Credit-Linked Conditions in accordance with market convention

The Calculation Agent may from time to time amend any provision of the Credit-Linked Conditions in any manner which the Calculation Agent determines in a commercially reasonable manner is necessary or desirable from the perspective of the Issuer, the Calculation Agent or a hedging party (i) to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees, including without limitation, in relation to settlement, credit events and successors, and/or (ii) to reflect or account for market practice for credit derivative transactions and/or reflect hedging arrangements of the Issuer.

ISDA Credit Derivatives Definitions

Whilst there are many similarities between the terms used in this Offering Memorandum (in particular, in the Credit-Linked Conditions) and the terms used in the 2014 ISDA Definitions, there are many substantial differences and a prospective investor should understand that the complete terms and conditions of the Notes are as set out in this Offering Memorandum and the relevant Pricing Supplement and that the 2014 ISDA Definitions are not incorporated by reference herein. Consequently, investing in Credit-Linked Notes is not necessarily equivalent to investing a credit default swap that incorporates the 2014 ISDA Definitions.

While ISDA has published and, where appropriate, supplemented the 2014 ISDA Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market has evolved over time and is expected to continue to change. Consequently, the 2014 ISDA Definitions and the terms applied to credit derivatives generally, including Credit-Linked Notes are subject to further evolution. Past events have shown that the view of market participants may differ as to how sets of ISDA Definitions operate or should operate. As a result of the continued evolution of the market, the Credit-Linked Notes may not conform to future market standards. Such a result may have a negative impact on the Credit-Linked Notes and there can be no assurances that changes to the terms applicable to credit derivatives generally will be predicable or favourable to the Issuer or the Noteholders.

Differences between the 2003 ISDA Definitions and the 2014 ISDA Definitions

There are a number of important differences between the 2003 ISDA Definitions and the 2014 ISDA Definitions. In particular, the 2014 ISDA Definitions have:

- (a) introduced a new Credit Event of "Governmental Intervention", which is intended to capture "bail-in" procedures to which financial institutions may be subject;
- (b) made certain amendments to the Restructuring Credit Event to provide for the possibility of a Euro exit;
- (c) reduced the number of buckets applicable in circumstances where Mod Mod R is applicable and deleted the concept of the "Enabling Obligation" which was previously applicable to both Mod R and Mod Mod R;
- (d) introduced the concept of Asset Package Delivery in respect of certain Financial Reference Entities and Sovereigns. This provides that if Deliverable Obligations are exchanged into non-Deliverable assets or written-down in part or in full, in certain circumstances, the credit protection buyer will be able to deliver the resultant package of Assets or the written-down Deliverable Obligation to realise its protection;
- (e) split credit protection between senior and subordinated coverage in respect of a Governmental Intervention and Restructuring Credit Event for Financial Reference Entities, i.e. a Senior Transaction will only be triggered by a Restructuring or Governmental Intervention of Senior Obligations and a

Subordinated Transaction will not be capable of being triggered by a Restructuring or Governmental Intervention of an obligation which is Subordinated to the Subordinated Reference Obligation;

- (f) made a number of changes to the provisions for determining a Successor to a Reference Entity, particularly with respect to Financial and Sovereign Reference Entities;
- (g) provided for a new election of "Standard Reference Obligation" which, if chosen, will mean that the Reference Obligation will be the obligation of the relevant seniority level published in respect of the relevant Reference Entity on a List maintained by ISDA. A transaction on the terms of the 2014 ISDA Definitions may elect not to apply that election such that the Reference Obligation would remain as chosen by the parties, although, if this is the case, the procedure for selecting a Substitute Reference Obligation has also changed significantly in the 2014 ISDA Definitions;
- (h) replaced the Not Contingent Deliverable Obligation Characteristic with the concept of Outstanding Principal Balance. In order for an obligation (including the Reference Obligation) to constitute a Deliverable Obligation, it must have an Outstanding Principal Balance greater than zero;
- (i) amended the definition of "Qualifying Guarantee" to expand the universe of guarantees that can constitute Qualifying Guarantees (with a particular emphasis on including, to some extent, guarantees with caps or transfer provisions); and
- (j) introduced a large number of technical and other changes.

These changes in the 2014 ISDA Definitions as compared to the 2003 ISDA Definitions have been reflected in the Credit-Linked Conditions in this Offering Memorandum, but in each case subject to important differences, including to reflect the nature of the Notes as compared to "over-the-counter" transactions and to reflect any hedging arrangements the Issuer may put in place. Some changes, such as the inclusion of a new Credit Event, may have significant economic effect on the Credit-Linked Notes and may mean the value of the Credit-Linked Notes and the return (if any) to investors is significantly different from credit-linked Notes whose terms reflect the 2003 ISDA Definitions. Some changes may be disadvantageous to Noteholders and prospective investors should review carefully the terms of any issue of Notes and, where in any doubt, take advice from suitably qualified professional advisers.

Risks relating to Auction Settlement of Credit-Linked Notes

Where an Auction Final Price Determination Date occurs in respect of Credit-Linked Notes, the Auction Final Price will be determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms, a form of which will be published by ISDA on its website at www2.isda.org (or any successor website thereto) from time to time and may be amended from time-to-time. The Auction Final Price determined pursuant to an auction may be less than the market value that would otherwise have been determined in respect of the relevant Reference Obligation.

The Issuer and the Noteholders may have little or no influence in outcome of any such auction. However, there is a possibility that the Issuer or the Calculation Agent (or one of their affiliates) would act as a participating bidder in any such auction. In such capacity, it may take certain actions which may influence the Auction Final Price including (without limitation): (a) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the auction; and (b) submitting bids, offers and physical settlement requests with respect to the relevant Deliverable Obligations. In deciding whether to take any such action (or whether to act as a participating bidder in any auction), neither the Issuer nor the Calculation Agent (or any of their affiliates) shall be under any obligation to consider the interests of any Noteholder.

No representation by Issuer, Calculation Agent and affiliates

None of the Issuer, the Calculation Agent nor any of their respective affiliates makes any representation whatsoever with respect to any Reference Entity, Reference Obligation(s) or other underlying obligation(s).

Dealings by Issuer, Calculation Agent and affiliates

The Issuer, the Calculation Agent and any of their respective affiliates may deal in Reference Obligation(s) or other underlying obligation(s) of any Reference Entity and may accept deposits from, make loans or otherwise extend credit to, and generally engage in any kind of commercial or investment banking or other business with, any Reference Entity, any affiliate of any Reference Entity, and/or any other person or entity having obligations relating to any Reference Entity and may act with respect to such business in the same manner as each of them would if the Notes had not been issued, regardless of whether any such action might have an adverse effect on any Reference Entity, Reference Obligation(s) or other underlying obligation(s) or the Noteholders or otherwise (including, without limitation, any action which might constitute or give rise to a Credit Event).

No disclosure of information

The Issuer, the Calculation Agent and any of their respective affiliates may, whether by virtue of the types of relationships described herein or otherwise, on the issue date of any Notes or at any time thereafter, be in possession of information in relation to any Reference Entity, Reference Obligation(s) or other underlying obligation(s) thereof that is or may be material in the context of the issue of Notes and that may or may not be publicly available or known to Noteholders. There is no obligation on the part of the Issuer, the Calculation Agent or any such affiliates to disclose to the Noteholders any such relationship or information (whether or not confidential).

Potential conflicts of interest

HSBC Bank plc as Calculation Agent will be entitled to make certain determinations and actions and exercise certain discretions under the Credit-Linked Conditions including (inter alia) as to whether an event constituting a Credit Event has occurred. HSBC Bank plc may also be a Quotation Dealer from which the Calculation Agent may request quotations for the purposes of determining the price of the Valuation Obligation(s) of a Reference Entity following the occurrence of a Credit Event, which may affect the level of any cash amount payable under the Notes in relation to such Credit Event. As a result, potential conflicts of interest may exist between HSBC Bank plc and the Noteholders. In its capacity as Calculation Agent, HSBC Bank plc does not act as fiduciary for or as an adviser to any of the Noteholders in respect of any such or otherwise.

No post-issuance information

The Issuer will not provide investors with any post-issuance information regarding any Reference Entity, Reference Obligation(s) or other underlying obligation(s). In addition, prospective investors should understand that historical performance of a Reference Entity, Reference Obligation or other underlying obligation should not be viewed as predictive of future results.

Currency Risk

Exchange rates can be volatile and unpredictable. Investors should be aware of the possibility of significant changes in rates of exchange between (i) the Settlement Currency, (ii) the currency of any relevant underlying obligation(s) of a Reference Entity, and (iii) the relevant local currency of the investor's domicile.

12. Notes subject to optional redemption by the Issuer

An optional redemption feature allowing the Issuer to redeem the Notes prior to their maturity is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Investors should consider reinvestment risk in light of other investments available at that time. As a result of the exercise of a call right by the Issuer, investors will forego any further interest payments (if any) in respect of the Notes and, if so specified in the Pricing Supplement, investors may receive less than their invested amount.

13. An investment in the Notes is subject to reinvestment risk

If the Notes are subject to an early redemption prior to their stated maturity date, there is no guarantee that investors will be able to reinvest the proceeds from the Notes at a comparable return for a similar level of risk.

14. Effect of interest rates on the Notes

Investors in Notes are exposed to the risk that subsequent changes in interest rates may adversely affect the value of the Notes. Investments in the Notes may involve interest rate risk with respect to the currency of denomination of the Notes. A variety of factors influence interest rates such as macro economic, governmental, speculative and market sentiment factors. Such fluctuations may have an impact on the value of the Notes.

15. Capped Return

The terms and conditions of Notes in relation to which the return is determined by reference to one or more Reference Assets may provide that the return payable on the Notes is subject to a cap. In these circumstances, the exposure to the performance of the relevant Reference Asset(s) may be limited and accordingly, investors could forego a return that could have been made had they invested in a product without a similar cap.

16. Further and other issues of Notes

The Issuer shall be at liberty from time to time without the consent of the Noteholders to create and issue further notes to be consolidated with and form a single series with the outstanding Notes. In addition, the Issuer may issue other notes and/or other instruments, the value of which is linked to one or more of the Reference Assets. Any such issue of further notes may have an adverse effect on the value of Notes.

17. Fixed Rate Notes

Investment in Notes which bear interest at a Fixed Rate involves the risk that subsequent changes in market interest rates may have a significant adverse effect on the value of the relevant tranche of Notes.

18. Floating Rate Notes

Investment in Notes which bear interest at a Floating Rate involves (i) a reference rate and (ii) a margin to be added or subtracted, as the case may be, from such reference rate. Typically, the relevant margin will not change throughout the life of the Notes but there will be a periodic adjustment (as specified in the relevant Pricing Supplement) of the reference rate (e.g., every three months or six months) which itself will change in accordance with general market conditions. Accordingly, the market value of Floating Rate Notes may be

volatile if changes, particularly short term changes, to market interest rates evidenced by the relevant reference rate can only be reflected in the interest rate of these Notes upon the next periodic adjustment of the relevant reference rate. This volatility is increased if the Floating Rate Notes include a multiplying coefficient. A key difference between Floating Rate Notes and Fixed Rate Notes is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the terms and conditions of the Notes provide for frequent interest payment dates, investors are exposed to reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer's ability to also issue Fixed Rate Notes may affect the market value and the secondary market (if any) of the Floating Rate Notes (and *vice versa*).

19. Risk factors affecting the value and trading price of the Notes

Before purchasing or selling Notes, Noteholders are advised to examine closely, *inter alia*: (i) the financial condition and funding costs of the Issuer, (ii) the value and volatility of the underlying and the liquidity of the underlying, (iii) the time remaining before the Maturity Date of the Notes, (iv) any change(s) in interest rates, dividend yields and inflation rates, (v) any change(s) in currency exchange rates, (vi) economic and market conditions and (vii) all costs associated with the transaction.

As a result of these factors the price at which a Noteholder will be able to sell the Notes prior to maturity may be less than the initial amount invested in the Notes. Each of these factors interrelate in complex ways (for example, one factor may offset an increase in the trading value of the Notes caused by another factor).

However, the factors described above are not restrictive and their influence on the price of a Note will, in particular, depend on the characteristics specific to such Note.

20. Capital risks relating to Notes which are not principal protected

Unless the relevant Series of Notes is fully principal protected, the repayment of any amount invested in the Notes is not fully guaranteed. As a result the investors' capital can fall below the amount initially invested in such Notes and, in the worst case, the investors may lose their entire invested amount.

21. No Ownership Rights

An investment in Notes relating to a Reference Asset is not the same as an investment in the Reference Asset. The Notes do not confer any legal or beneficial interest in the Reference Asset or securities underlying any Reference Asset (if the Reference Asset is an index) or any voting rights, rights to receive dividends or other rights that a holder of a Reference Asset may have.

22. Certain Considerations regarding Hedging

Potential investors intending to purchase Notes to hedge against the market risk associated with investing in a Reference Asset should recognise the complexities of utilising Notes in this manner. For example, the value of the Notes may not exactly correlate with the value of the Reference Asset to which they relate. There is no assurance that their value will correlate with movements of the Reference Asset. For these reasons, among others, it may not be possible to purchase or sell securities in a portfolio at the prices usually used to calculate the value of any relevant Reference Assets.

23. Potential Conflicts of Interest

The Issuer or affiliates of the Issuer may advise the issuers of or obligors in respect of Reference Assets regarding transactions to be entered into by them, or engage in transactions involving Reference Assets for their proprietary accounts and for third party accounts under their management. Any such transactions may

have a positive or negative effect on the value of such Reference Assets and therefore on the value of any Note to which they relate. Certain affiliates of the Issuer will also be the counterparty to the hedge of the Issuer's obligations under an issue of Notes. Accordingly, these activities may cause certain conflicts of interest to arise both between the Issuer and these affiliates and between the interests of the Issuer or these affiliates and the interests of Noteholders.

24. Illegality

The Noteholders are subject to the risk that the Issuer may terminate its obligations under the Notes if the Calculation Agent determines acting in good faith and a commercially reasonable manner that the performance of the Issuer's obligations under any Notes (or the Issuer's designated affiliates' obligations under any hedging or funding arrangement established in connection therewith) shall after the trade date have become unlawful or impracticable in whole or in part. Following such an illegality event, the Issuer may terminate its obligations under the Notes against payment of an amount determined the Early Redemption Amount specified in the relevant Pricing Supplement. The Pricing Supplement may specify the Early Redemption Amount as being the Fair Market Value of the Note immediately prior to such termination. Noteholders may suffer a loss of some or all of their investment as a result of such early termination, and will forego any future performance in the securities underlying the relevant Reference Asset and future interest payments applicable to such Notes (if any).

25. Early Redemption for Taxation Reasons

The Noteholders are subject to the risk that the Issuer may terminate its obligations under the Notes if the Issuer determines that it would be required to gross-up payments to the holders following a withholding or deduction required by law of taxes, duties, assessments or governmental charges imposed or levied by or on behalf of France. Following such a determination, the Issuer may terminate its obligations under the Notes against payment of the Early Redemption Amount specified in the relevant Pricing Supplement. Noteholders may suffer a loss of some or all of their investment as a result of such early termination and will forego any future performance in the relevant Reference Asset and future interest payments applicable to such Notes (if any).

26. Disruption Event

If the Calculation Agent determines that a payment disruption event or Market Disruption Event has occurred, any consequential postponement of or any alternative provisions for the valuation provided for the Notes may have an adverse effect on the value of such Notes.

27. Value of Baskets

The value of a basket of Reference Assets to which any Notes relate may be affected by the number of Reference Assets included in such basket. Generally, the value of a basket that comprises Reference Assets from a number of companies or obligors or which gives relatively equal weight to each Reference Asset will be less affected by changes in the value of any particular Reference Assets included therein than a basket that includes fewer Reference Assets or that gives greater weight to some Reference Assets.

In particular, if the Reference Assets included in a basket are all in or relate to a particular industry, the value of such a basket will be more affected by the economic, financial and other factors affecting that industry than if the Reference Assets included in the basket relate to various industries that are affected by different economic, financial or other factors or are affected by such factors in different ways.

Investors in the Notes are subject to the risk that other risks relating to the Reference Assets which adversely affect the value of the Notes will be exacerbated due to the number of and/or type of Reference Assets.

28. The volatility of the Reference Assets

If the volatility of the Reference Assets increases, the trading value of a Note which relates to such Reference Asset is expected to increase; if the volatility decreases, the trading value of a Note is expected to decrease.

29. Past performance of the Reference Asset(s)

Past performance of the Reference Asset(s), if provided, should not be taken as an indication of future performance of the Reference Asset(s). The Issuer cannot provide any assurance that the performance of the Reference Asset(s) will result in a positive return on any investment.

30. Partly-Paid Notes

The Issuer may issue Notes for which the issue price is payable in two or more instalments. Failure to pay any subsequent instalment could result in an investor losing some or all of its investment.

31. Inverse Floating Rate Notes

Inverse Floating Rate Notes have a yield equal to a fixed rate, reduced on the basis of a reference rate. The market values of such Notes are typically more volatile than the market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

32. Fixed/Floating Rate Notes

Fixed/Floating Rate Notes bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate could affect the secondary market and the market value of such Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread between the fixed rate and the floating rate may be less favourable than the then prevailing spreads on comparable Floating Rate Notes with the same reference rate. In addition, the new floating rate may at any time be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than the then prevailing rate on its Notes.

33. Exchange rate risks and exchange controls

The Issuer will pay the principal and interest on the Notes in the currency specified in the relevant Pricing Supplement (the "**Specified Currency**"). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may change significantly (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. A performance of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

34. Zero Coupon Notes and Notes issued below par at a substantial discount or with a substantial issue premium

If the Notes are Zero Coupon Notes, the Issuer will not make any interest payments with respect to the Notes. The market values of Zero Coupon Notes and all other securities issued below par at a substantial discount or with a substantial issue premium tend to fluctuate more in relation to changes in interest rates than market values for conventional interest-bearing securities do. Generally, the longer the remaining term of the Notes, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

35. Leverage risk

Leverage involves the use of certain financial techniques to increase exposure to an underlying (equities, indices, inflation rates, currencies, ETFs, ADRs/GDRs or preference shares), and may consequently amplify both profits and losses. Whilst use of leverage potentially enables profits to be increased (supposing a profit is made) when movements in the underlying are in the direction anticipated, it amplifies losses when movements in the underlying are contrary to expectations. If the leverage effect is adverse, the maximum loss for investors will be the amount of their initial investment in respect of the Notes.

36. Potential lack of liquidity and secondary market of the Notes

It is not possible to foresee at what price the Notes will be traded on any given market, or whether such market will be liquid or not. Moreover, the buyback of the Notes of a given issue will result in a reduction in the number of Notes in circulation from such issue, thereby causing a fall in the liquidity of the Notes from such issue still in circulation. The fall in the liquidity of a Note issue may, in turn, cause increased volatility linked to the issue price of the Notes.

The Issuer may, but will not be required to, buy back Notes at any time, at any price on the regulated market, by auction or over the counter. All Notes thus bought back will be retained, resold or cancelled.

The Notes may not have an established trading market when issued and it is possible that a secondary market in these Notes never develops. Even if a secondary market does develop, it may not be liquid and may be sensitive to changes in financial markets. Thus, investors could be unable to easily dispose of their Notes or to dispose of them at a price offering a yield comparable to that of similar products for which an active secondary market has developed. This is particularly the case should the Issuer be in financial distress, which may result in any sale of the Notes having to be at a substantial discount to their principal amount or for Notes that are especially sensitive to interest rate, market or exchange rate risks and which are issued to meet specific investment or strategic objectives or which are structured to meet the investment requirements of a limited category of investors. This type of Note will generally have a more limited secondary market and greater price volatility than conventional debt securities. The lack of liquidity may have a significant adverse effect on the market value of the Notes.

37. Limitation of liability

The Issuer accepts no liability in respect of:

- (a) maintaining the Shares' listing on the Stock Exchange or the availability of published listings by the Stock Exchange for said Shares; and
- (b) the calculation of any Index or the publication of any Index by the Promoter, the Index Calculation Agent or the Index Sponsor.

38. **Modification of the Terms and Conditions of the Notes**

Condition 12 of the Notes contains provisions for holding a General Meeting or taking a Written Decision, as defined in Condition 12, affecting the common interests of the Noteholders. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend or were not represented at the relevant General Meeting or Noteholders who voted in a manner contrary to the majority or did not consent to the Written Decision. Collective Decisions can be taken on any proposal relating to the modification of the Terms and Conditions of the Notes including any proposal, whether for arbitration or settlement, relating to rights in controversy or which were the subject of judicial decisions, as more fully described in Condition 12.

39. **Taxation**

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for financial notes such as the Notes. Potential investors are advised to ask for their own tax adviser's advice on their individual taxation with respect to the subscription, acquisition, holding, disposal and redemption of the Notes. Only these advisors are in a position to duly consider the specific situation of the potential investor.

40. **EU Bank Recovery and Resolution Directive**

On 2 July 2014, Directive 2014/59/EU providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the **BRRD**) entered into force. The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system.

As from November 2014, the European Central Bank (the **ECB**) has taken over the prudential supervision under the SSM of significant credit institutions in Eurozone member states.

Regulation (EU) no. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund (the **SRM Regulation**) has established a centralised power of resolution entrusted to a Single Resolution Board (the **SRB**) and to the national resolution authorities. For European Union Member States participating in the banking union (which includes France), the Single Resolution Mechanism (the **SRM**) fully harmonises the range of available tools, but Member States are authorised to introduce additional tools at national level to deal with crises, as long as they are compatible with the resolution objectives and principles set out in the BRRD. The ability of the SRB to exercise these powers came into force at the start of 2016.

The Issuer has been designated as a significant supervised entity for the purposes of Article 49(1) of the SSM Regulation and is consequently subject to the direct supervision of the ECB. This means that the Issuer is also subject to the SRM, which came into force in 2015. The SRM Regulation mirrors the BRRD and, to a large extent, refers to the BRRD so that the SRB is able to apply the same powers that would otherwise be available to the relevant national resolution authority.

The impact of the BRRD and the SRM Regulation and their implementing provisions on credit institutions, including the Issuer, could materially affect the activity and financial condition of the Issuer and the value of any Notes.

An institution will be considered as failing or likely to fail when: it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less

than its liabilities; it is, or is likely in the near future to be, unable to pay its debts as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

The powers provided to authorities in the BRRD and the SRM Regulation are divided into three categories: (i) preparatory steps and plans to minimise the risks of potential problems (preparation and prevention); (ii) in the event of incipient problems, powers to arrest a firm's deteriorating situation at an early stage so as to avoid insolvency (early intervention); and (iii) where a firm's insolvency might raise a concern as to the general public interest, a clear plan to reorganise or wind down the firm in an orderly fashion while preserving its critical functions and as far as possible limiting taxpayers' exposure to losses (which should be used as a last resort).

The BRRD and the SRM Regulation currently contain four resolution tools and powers:

- sale of business: enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms without requiring the consent of the shareholders or complying with the procedural requirements that would otherwise apply;
- bridge institution: enables resolution authorities to transfer all or part of the business of the firm to a "bridge bank" (a publicly controlled entity holding such business or part of a business with a view to reselling it);
- asset separation: enables resolution authorities to transfer impaired or problem assets to asset management vehicles to allow such assets to be managed and worked out over time; and

bail-in: gives resolution authorities the power to write-down the claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims (including Notes) to equity (the **general bail-in tool**), such equity being potentially subject to future cancellation, transfer or dilution by application of the general bail-in tool. When applying bail-in or a statutory write-down (including to zero) and conversion into equity power (including amendment of the terms of the Notes such as a variation of the maturity), the resolution authority must first reduce or cancel common equity tier one, thereafter reduce, cancel, convert additional tier one instruments, then tier two instruments and other subordinated debts to the extent required and up to their capacity. If the debt bail-in or statutory write-down and conversion power has entered into force and only if this total reduction is less than the amount needed, the resolution authority will reduce or convert to the extent required the principal amount or outstanding amount payable in respect of unsecured creditors in accordance with the hierarchy of claims in normal insolvency proceedings (including senior debt instruments such as the Notes).

The SRM Regulation also provides that in exceptional circumstances, where the general bail-in tool is applied, the relevant resolution authority – i.e. the SRB - may exclude or partially exclude certain liabilities from the application of the write-down or conversion powers. Such exclusion will apply in particular where: (a) it is not possible to bail-in a particular liability within a reasonable time; (b) the exclusion is strictly necessary and is proportionate so as to achieve the continuity of critical functions and core business lines of the institution under resolution; (c) the exclusion is strictly necessary and proportionate so as to avoid giving rise to widespread contagion, which would severely disrupt the functioning of financial markets, including of financial market infrastructures, in a manner that could cause serious disruption to the economy of a Member State of the European Union; or (d) the application of the general bail-in tool to those liabilities would cause a reduction in value such that the losses borne by other creditors would be higher than if those liabilities were excluded from bail-in altogether.

Consequently, where the relevant resolution authority decides to exclude or partially exclude an eligible liability or class of eligible liabilities:

the level of write down or conversion applied to other eligible liabilities – due to Noteholders as the case may be - when not excluded, may be increased to take account of such exclusions; and

if the losses that would have been borne by those liabilities have not been passed on fully to other creditors, the financing arrangement for resolution may make a contribution to the institution under resolution, within certain limits, including the requirement that such contribution does not exceed 5% of the global liabilities of such institution to (a) cover any losses which have not been absorbed by eligible liabilities and restore the net asset value of the institution under resolution to zero and/or (b) purchase shares or other instruments of ownership or capital instruments in the institution under resolution, in order to recapitalise the institution. Subsequently, if the losses that would have been borne by those liabilities have not been passed on fully to other creditors, the Single Resolution Fund (the **SRF**) the French "Resolution and Deposits Guarantee Fund" (*Fonds de garantie des dépôts et de résolution*) or any other equivalent arrangement from a Member State, may make a contribution to the institution under resolution, under certain limits, including the requirement that such contribution does not exceed 5% of the global liabilities of such institution to (i) cover any losses which have not been absorbed by eligible liabilities and restore the net asset value of the institution under resolution to zero and/or (ii) purchase shares or other instruments of ownership or capital instruments in the institution under resolution, in order to recapitalise the institution. The final step – to the extent any losses remain - would be the granting of extraordinary public financial support through additional financial stabilisation tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

The BRRD applies since 1 January 2015, except for the general bail-in tool which applies since 1 January 2016.

Implementation provisions of the BRRD in France include the bail-in tool and therefore the powers of reducing the principal, cancellation or conversion of subordinated notes. Accordingly, if the Issuer were to be subjected to a resolution process, holders of Notes may be subject to write-down (including to zero) or conversion into equity on any application of the general bail-in tool (including amendment of the terms of the Notes such as a variation of the maturity), in application of the decision of the SRB, which may result in such holders losing some or all of their investment. The SRB works in close cooperation with the ACPR, in particular in relation to resolution planning, and has assumed full resolution powers as from 1 January 2016, the contributions of the transfer conditions at the Single Resolution Fund being met by this date.

It is not yet possible to assess the full impact of the BRRD on the Issuer and the French law implementation provisions and there can be no assurance that it will not adversely affect the rights of holders of Notes, the price or value of their investment in the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

Following the publication on 7 June 2019 in the Official Journal of the Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD (the **BRRD II**) as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms and Directive 98/26/EC and of the Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending the Single Resolution Mechanism Regulation (Regulation 806/2014) as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms, a comprehensive legislative package reducing risks in the banking sector and further reinforcing banks' ability to withstand potential shocks will strengthen the banking union and reduce risks in the financial system from 28 December 2020. The Total Loss-Absorbing Capacity (**TLAC**) published by the Financial Stability Board will be implemented in accordance with the FSB Term Sheet (TLAC standard). Consequently eligibility criteria for bail-inable liabilities for the MREL will be closely aligned with those laid down in Regulation (EU) No 575/2013 for the TLAC minimum requirement, but subject to the complementary adjustments and requirements introduced in the BRRD II. In particular, certain debt instruments with an embedded derivative component, such as certain structured notes, will be eligible, subject to certain conditions, to meet the MREL to the extent that they have a fixed or increasing principal amount repayable at maturity that is known in advance while only an additional return is linked to that derivative component and depends on the performance of a reference asset.

In addition, as a result of the introduction of a resolution regime, the liquidity of financial instruments subject to the resolution regime could become vulnerable to conditions/situations of stress in the financial markets. Investors should also note that the concentration risk to which they may be subject by investing in securities of

the Issuer should also be assessed at the financial sector level i.e. by taking into account not only the securities of the Issuer that they hold but also all securities that they hold and which have been issued by financial entities subject to the bail-in regime.

The holders of Notes have very limited rights to contest and/or ask for the suspension of the exercise of the relevant competent authorities' resolution powers.

The implementation of the minimum requirement for own funds and eligible liabilities ("MREL") is subject to future requirements

Article 45 of the BRRD provides that Member States shall ensure that institutions meet, at all times, a minimum requirement for own funds and eligible liabilities (known as MREL). The MREL shall be calculated as the amount of own funds and eligible liabilities expressed as a percentage of the total liabilities and own funds of the institution. The European Banking Authority (the "EBA") was in charge of drafting regulatory technical standards on the criteria for determining MREL (the "MREL RTS"). On 3 July 2015 the EBA published the final draft MREL RTS. In application of Article 45(2) of the BRRD, the current version of the MREL RTS is set out in Commission Delegated Regulation (EU) 2016/1401 of 23 May 2016.

Following the publication on 7 June 2019 in the Official Journal of the Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD (the BRRD II) as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms and Directive 98/26/EC and of the Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending the Single Resolution Mechanism Regulation (Regulation 806/2014) as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms, the level of capital and eligible liabilities required under MREL will be set by the resolution authority for each bank (and/or group) based on certain criteria including systemic importance. Eligible liabilities may be senior or subordinated, provided, among other requirements, that they have a remaining maturity of at least one year and, if governed by non-EU law, they must be able to be written down or converted under that law (including through contractual provisions).

The scope of liabilities used to meet the MREL will include, in principle, all liabilities resulting from claims arising from ordinary unsecured creditors (non-subordinated liabilities) unless they do not meet specific eligibility criteria set out in the BRRD II. To enhance the resolvability of institutions and entities through an effective use of the bail-in tool, the SRB should be able to require that the MREL is met with own funds and other subordinated liabilities, in particular where there are clear indications that bailed-in creditors are likely to bear losses in resolution that would exceed the losses that they would incur under normal insolvency proceedings. Moreover the SRB should assess the need to require institutions and entities to meet the MREL with own funds and other subordinated liabilities where the amount of liabilities excluded from the application of the bail-in tool reaches a certain threshold within a class of liabilities that includes MREL eligible liabilities. Any subordination of debt instruments requested by the SRB for the MREL shall be without prejudice to the possibility to partly meet the TLAC minimum requirement with non-subordinated debt instruments in accordance with Regulation (EU) No 575/2013 as permitted by the TLAC standard. Specific requirements will apply to resolution groups with assets above EUR 100 billion (top-tier banks),

If the resolution authority finds that there could exist any obstacles to resolvability by the Issuer and/or the Group, a higher MREL requirement could be imposed. Any failure by the Issuer and/or the Group to comply with its MREL may have a material adverse effect on the Issuer's business, financial conditions and results of operations.

The interaction and differences between TLAC and MREL will be completed

On 9 November 2015, the Financial Stability Board (the "FSB") issued at the global G20 level a final Total Loss-Absorbing Capacity ("TLAC") standard for global systemically important banks ("G-SIBs") (the "Final TLAC Standard"). The Final TLAC standard requires G-SIBs, including the Issuer, to maintain a ratio of its

regulatory capital plus certain types of TLAC-eligible debt against its assets and exposures (potentially on a non risk-weighted basis and on a risk-weighted basis), which is significantly higher than current capital requirements under CRD IV. In accordance with the Final TLAC Standard, TLAC must be subordinated to excluded liabilities, such as insured deposits, preferred liabilities and liabilities that cannot be bailed in.

Therefore, currently G-SIBs, such as the Issuer, will be required to comply with two different sets of rules (the MREL requirement and the Final TLAC Standard) which have a similar aim: to ensure that a bank has sufficient loss absorbing capacity for bail-in tools to be deployed successfully if it were to enter resolution.

Even though TLAC and MREL pursue the same aim, their respective requirements and criteria differ. For example, (i) the FSB proposes a predetermined minimum TLAC requirement of between 16% (from 2019) and 18% (from 2022) of risk weighted assets ("**RWAs**") while the MREL is to be set on a case-by-case basis and does not include a common minimum requirement, (ii) structured notes are eligible as MREL but are not eligible for the purposes of the TLAC, and (iii) the FSB sets TLAC as a percentage of RWAs while the BRRD requires the MREL to be set as a percentage of own funds and total liabilities.

Following the publication on 7 June 2019 in the Official Journal of the Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD (the BRRD II) as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms and of the Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending the Single Resolution Mechanism Regulation (Regulation 806/2014) as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms, the TLAC requirement will be integrated into the general MREL rules thereby avoiding duplication from the application of two parallel requirements ensuring that both requirements are met with largely similar instruments, with the exception of the subordination requirement, which will be institution-specific and determined by the resolution authority. Consequently institutions such as the Issuer will continue to be subject to an institution-specific MREL requirement, which may be higher than the requirement of the Final TLAC Standard, due to the introduction of limited adjustments to the existing MREL rules regarding *inter alia* the denominators used for measuring loss-absorbing capacity, the interaction with capital buffer requirements, disclosure of risks to investors, and their application in relation to different resolution strategies.

For institutions such as the issuer that are subject to the TLAC minimum requirement, the BRRD II provides consistency in the frequency of supervisory reporting and disclosure of the institution-specific MREL with those provided in Regulation (EU) No 575/2013 for the TLAC minimum requirement.

41. French Insolvency Law

As a *société anonyme* incorporated in France, French insolvency law applies to the Issuer. Except as otherwise provided in the Pricing Supplement, Noteholders will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a *masse*, as defined in Condition 12. However, under French insolvency law, holders of debt securities are automatically grouped into a single assembly of holders (the "**Assembly**") in order to defend their common interests if a safeguard procedure (*procédure de sauvegarde*), an accelerated safeguard procedure (*procédure de sauvegarde accélérée*), an accelerated financial safeguard procedure (*procédure de sauvegarde financière accélérée*), or a judicial reorganisation procedure (*procédure de redressement judiciaire*) is commenced in France with respect to the Issuer.

The Assembly comprises holders of all debt securities issued by the Issuer (including the Notes), whether or not under a debt issuance programme and regardless of the governing law of the issue contract.

The Assembly deliberates on the proposed safeguard plan (*projet de plan de sauvegarde*), accelerated safeguard plan (*plan de sauvegarde accélérée*), accelerated financial safeguard plan (*plan de sauvegarde financière accélérée*) or judicial reorganisation plan (*projet de plan de redressement*) applicable to the Issuer and may further agree to:

- (a) an increase in the burden on holders of debt securities (including the Noteholders) by rescheduling payments which are due and/or partially or totally abandoning their claim on the debt securities;
- (b) the establishment of unequal treatment between the holders of debt securities (including the Noteholders) as appropriate under the circumstances; and/or
- (c) convert the debt securities (including the Notes) into securities that give or may give access to share capital.

Decisions of the Assembly will be taken by a two-thirds majority (calculated as a proportion of the amount of debt securities held by the owners that have cast a vote at such Assembly). No quorum is required to hold or convene the Assembly.

In such circumstances, the provisions relating to the Representation of the Noteholders described in the Terms and Conditions of the Notes set out in this Offering Memorandum and, if applicable, the relevant Pricing Supplement will be applicable only to the extent they do not conflict with mandatory insolvency law provisions that apply in these circumstances.

42. The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to or referencing such "benchmark"

Interest rates and indices which are deemed to be "benchmarks" are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, to be subject to revised calculation methods, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a "benchmark".

Regulation (EU) 2016/1011 (the **Benchmarks Regulation**) was published in the Official Journal of the EU on 29 June 2016 and applies since 1 January 2018. The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. It will, among other things, (i) require benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevent certain uses by EU supervised entities (such as the Issuer) of "benchmarks" of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

The administrator of a rate or index which is a "benchmark" may not obtain authorisation/registration or not be able to rely on one of the regimes available to non-EU benchmarks. In such event, depending on the particular "benchmark" and the applicable terms of the Notes, such benchmark may be deemed replaced (for the purposes of the Notes) with an alternative benchmark selected by the Issuer (or any Alternative Pre-nominated Index specified in the Pricing Supplement as applicable), the terms and conditions of the Notes might be adjusted pursuant to Condition 17 (*Consequences of a Benchmark Trigger Event*), or de-listed, redeemed or terminated early, or otherwise impacted.

The Benchmarks Regulation could have a material impact on any Notes linked to or referencing a "benchmark", in particular in any of the following circumstances:

- an index which is a "benchmark" could not be used by a supervised entity in certain ways if its administrator does not obtain authorisation or registration or, if based in a non-EU jurisdiction, the administrator is not recognised as equivalent or recognised or endorsed and the transitional provisions do not apply; and
- the methodology or the methodology or other terms of the "benchmark" could be changed in order to comply with the requirements of the Benchmarks Regulation or other reforms. Such changes could, among other

things, have the effect of reducing or increasing the rate or level or otherwise affecting the volatility of the published rate or level of the "benchmark".

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the following effects on certain "benchmarks": (i) discourage market participants from continuing to administer or contribute to the "benchmark"; (ii) trigger changes in the rules or methodologies used in the "benchmark" or (iii) lead to the disappearance of the "benchmark" (including, without limitation, the LIBOR benchmark) could result in such benchmark being deemed replaced (for the purposes of the Notes) with an alternative benchmark selected by the Issuer (or any Alternative Pre-nominated Index specified in the Pricing Supplement as applicable), adjustment to the terms and conditions pursuant to Condition 5.3(d) (*Alternative Reference Rates*), Condition 17 (*Consequences of a Benchmark Trigger Event*), early redemption or termination, discretionary valuation by the Issuer and/or the Calculation Agent, delisting or other consequences in relation to Notes linked to such "benchmark" or to the interest rate applicable to such Notes effectively becoming fixed at the rate last set in accordance with the Conditions. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to or referencing a "benchmark".

In addition, if the terms and conditions of any Notes are adjusted pursuant to Condition 5.3(d) (*Alternative Reference Rates*) so as to provide for an Alternative Reference Rate, there can be no assurance that any specified Margin will be adjusted for any difference between the Alternative Reference Rate and the original Reference Rate applicable to such Notes or that any adjustment made will correspond to the difference between the Alternative Reference Rate and the original Reference Rate when assessed at any particular date. Investors may accordingly receive less than they would otherwise have received.

There can also be no assurance that the amounts payable to investors in relation to any Notes following the application of a Replacement Index pursuant to Condition 17 (*Consequences of a Benchmark Trigger Event*), and any related adjustments to the terms and conditions of the relevant Notes, will correspond with the amounts that investors would have received if the original Reference Rate or (as the case may be) original Relevant Benchmark had continued to apply, and investors may accordingly receive less than they would otherwise have received.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation reforms in making any investment decision with respect to any Notes linked to or referencing a "benchmark".

Furthermore, LIBOR is the subject of ongoing regulatory reforms. Following the implementation of any of these reforms, the manner of administration of LIBOR may change, with the result that it may perform differently than in the past or be eliminated entirely, or there could be other consequences that cannot be predicted. For example, on 27 July 2017, the FCA announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the "**FCA Announcement**"). Further, on 12 July 2018 the FCA announced that LIBOR may cease to be a regulated benchmark under the Benchmark Regulations. The FCA Announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. At this time, it is not possible to predict whether and to what extent banks will continue to provide LIBOR submissions to the administrator of LIBOR or whether any additional reforms to LIBOR may be enacted in the United Kingdom or elsewhere. Uncertainty as to the nature of such alternative reference rates or other reforms may adversely affect the trading market for LIBOR-linked securities. The potential elimination of benchmarks, such as LIBOR, the establishment of alternative reference rates or other reforms may require adjustments to the terms of benchmark-linked securities and may result in other consequences, such as interest payments that are lower than, or that do not otherwise correlate over time with, the payments that would have been made on those securities if the relevant benchmark was available in its current form.

The market continues to develop in relation to SONIA and SOFR as reference rates for Floating Rate Notes

On 29 November 2017, the Bank of England and the FCA announced that, from January 2018, the Bank of England's Working Group on Sterling Risk-Free Rates has been mandated with implementing a broad-based transition to the Sterling Overnight Index Average ("**SONIA**") over the next four years across sterling bond, loan and derivatives markets, so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021. Investors should be aware that the market continues to develop in relation to SONIA as a reference rate in the capital markets and its adoption as an alternative to Sterling LIBOR. In particular, market participants and relevant working groups are exploring alternative reference rates based on SONIA, including term SONIA reference rates (which seek to measure the market's forward expectation of an average SONIA rate over a designated term). The market or a significant part thereof may adopt an application of SONIA that differs significantly from that set out in the Conditions and used in relation to Notes that reference a SONIA rate issued pursuant to this Offering Memorandum. As SONIA is published and calculated by the Bank of England based on data received from other sources, the Issuer has no control over its determination, calculation or publication. There can be no guarantee that SONIA will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in Notes linked to SONIA. If the manner in which SONIA is calculated is changed, that change may result in a reduction of the amount of interest payable on such Notes and the trading prices of such Notes.

The Secured Overnight Financing Rate ("**SOFR**") is published by the Federal Reserve Bank of New York (the "**Federal Reserve**") and is intended to be a broad measure of the cost of borrowing cash overnight collateralised by Treasury securities. The Federal Reserve Notes on its publication page for SOFR that the Federal Reserve may alter the methods of calculation, publication schedule, rate revision practices or availability of SOFR at any time without notice. Because SOFR is published by the Federal Reserve based on data received from other sources, the Issuer has no control over its determination, calculation or publication. There can be no guarantee that SOFR will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in Notes linked to SOFR. If the manner in which SOFR is calculated is changed, that change may result in a reduction of the amount of interest payable on such Notes and the trading prices of such Notes. The Federal Reserve began to publish SOFR in April 2018. The Federal Reserve has also begun publishing historical indicative SOFR rates going back to 2014. Investors should not rely on any historical changes or trends in SOFR as an indicator of future changes in SOFR. Also, since SOFR is a relatively new market index, Notes linked to SOFR may have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for debt securities indexed to SOFR, such as the spread over the index reflected in interest rate provisions, may evolve over time, and trading prices of the Notes linked to SOFR may be lower than those of later-issued indexed debt securities as a result.

The Issuer may in the future also issue Notes referencing SONIA or SOFR that differ materially in terms of interest determination when compared with any previous SONIA-referenced or SOFR-referenced Notes issued under the Programme. The nascent development of Compounded Daily SONIA, Compounded Daily SOFR and Weighted Average SOFR as interest reference rates for the Eurobond markets, as well as continued development of SONIA-based and SOFR-based rates for such markets and market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or otherwise affect the market price of any SONIA-referenced or SOFR-referenced Notes issued under the Programme. Interest on Notes which reference Compounded Daily SONIA, Compounded Daily SOFR or Weighted Average SOFR is only capable of being determined at the end of the relevant Interest Period and immediately prior to the relevant Interest Payment Date. It may be difficult for investors in Notes that reference a SONIA rate or SOFR rate to reliably estimate the amount of interest that will be payable on such Notes. Further, if the Notes become due and payable under Condition 10 (Events of Default), the Rate of Interest applicable to the Notes shall be determined on the date the Notes became due and payable and shall not be reset thereafter. In addition, the manner of adoption or application of SONIA reference rates and SOFR reference rates in the Eurobond markets may differ materially compared with the application and adoption of SONIA and SOFR in other markets, such as the derivatives and loan markets.

Investors should carefully consider how any mismatch between the adoption of SONIA reference rates and SOFR reference rates across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Notes referencing a SONIA rate or a SOFR rate. Investors should consider these matters when making their investment decision with respect to any such Notes.

Further, if SONIA or SOFR do not prove to be widely used in securities like the Notes, the trading prices of Notes linked to SONIA or SOFR may be lower than those of notes linked to reference rates that are more widely used. Investors in such Notes may not be able to sell such Notes at all or may not be able to sell such Notes at prices that will provide them with a yield comparable to similar investments that have a developed secondary market and may consequently suffer from increased pricing volatility and market risk.

Investors should note that the fallback provisions in the Conditions relating to Notes referencing SONIA provide that if the Rate of Interest cannot otherwise be determined in accordance with the Conditions, the Rate of Interest shall be (i) that which was determined as at the last preceding Interest Determination Date or (ii) in relation to the first Interest Period in relation to such Notes, a rate that the Calculation Agent determines would have been the Rate of Interest for a notional interest period equal in length to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date. The effect of these provisions is that the interest rate applicable to the Notes for any Interest Period where the Rate of Interest cannot otherwise be determined in accordance with the Conditions effectively becomes fixed at the rate last set in accordance with the Conditions which, if the Rate of Interest cannot otherwise be determined in accordance with the Conditions for the first interest period will be a rate determined for a notional interest period occurring prior to the issuance of the Notes.

43. Regulatory initiatives may restrict certain investments and have an adverse impact on the regulatory treatment of the Notes

In Europe, the U.S. and elsewhere there is increased political and regulatory scrutiny of the derivatives and structured securities industries. This has resulted in a raft of measures for increased regulation which are currently at various stages of implementation and which may restrict investment in certain Notes, have an adverse impact on the regulatory position for certain investors and/or on the incentives for certain investors to hold Notes and may thereby also affect the liquidity of such Notes in the secondary market. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer or the Dealers makes any representation to any prospective investor or purchaser of the Notes regarding the regulatory treatment of their investment at the time of such investment or at any time in the future. Prospective investors should therefore make themselves aware of the changes and requirements applicable to them, in addition to any other applicable regulatory requirements with respect to their investment in the Notes.

44. Risks relating to Green Bonds

The Pricing Supplement relating to any specific Tranche of Notes may provide that the Issuer intends to use an amount equal to the net proceeds of the issue of those Notes (the **Green Bonds**) to fund eligible businesses and projects in Eligible Sectors as defined in the green bond framework dated 6 November 2015 and available on the following website: <https://www.hsbc.com/investor-relations/fixed-income-investors/green-and-sustainability-bonds> (the **Green Bond Framework**), as amended and supplemented from time to time and as specified in the relevant Pricing Supplement.

Prospective investors should have regard to the information set out in the relevant Pricing Supplement regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Green Bonds together with any other investigation such investor deems necessary. In particular, no assurance is given by the Issuer or the Dealers that the use of such proceeds for any Eligible Sector will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. Furthermore, it should be noted that there is currently no clearly defined definition (legal,

regulatory or otherwise) of, nor market consensus as to what constitutes a "green" or an equivalently-labelled lending. In addition the requirements of any such label may evolve from time to time, accordingly, no assurance is or can be given to investors that any Eligible Sector or use(s) the subject of, or related to, any Eligible Sectors will meet any or all investor expectations regarding such "green" or other equivalently-labelled performance objectives.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Green Bonds and in particular with any Eligible Sector, to fulfill any environmental, sustainable and/or other criteria. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Green Bonds.

While it is the intention of the Issuer to apply the proceeds of any Green Bonds so specified to the relevant Eligible Sector, in, or substantially in, the manner described in the relevant Pricing Supplement, there can be no assurance that the relevant Eligible Sector or use(s) the subject of, or related to, any Eligible Sector, will be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for such eligible sector. Nor can there be any assurance that businesses and projects in such Eligible Sector will be completed within any specified period or at all or with the results or outcome as originally expected or anticipated by the Issuer. Any such event or failure by the Issuer will not constitute an Event of Default under the Green Bonds.

Any such event or failure to apply the proceeds of any issue of Green Bonds to any Eligible Sector as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on may have a material adverse effect on the value and marketability of such Green Bonds and also potentially the value of any other Green Bonds and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose. For the avoidance of doubt, it is however specified that payments of principal and interest (as the case may be) on the Green Bonds shall not depend on the performance of businesses and projects in the relevant Eligible Sector.

No Dealer makes any representation as to the suitability of the Green Bonds to fulfil environmental or sustainability criteria required by prospective investors. The Dealers have not undertaken, nor are responsible for, any assessment of the eligibility criteria, any verification of whether the Green Bonds meet the eligibility criteria, or the monitoring of the use of proceeds. Investors should refer to the Issuer's website or any third-party opinion.

45. A Noteholder's actual yield may be reduced by transaction costs

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the price of the Notes. These incidental costs may significantly reduce or even exclude the potential to profit from the Notes. For instance, credit institutions as a rule charge commissions to their clients, which are either fixed minimum commissions or pro-rata commissions depending on the order value. To the extent that additional domestic or foreign parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Noteholders should take into account the fact that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

In addition to such costs directly related to the purchase of securities (direct costs), Noteholders should also take into account any additional costs (such as custody fees). Investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Notes before investing in the Notes.

46. Market value of the Notes

The market value of the Notes may be affected by the creditworthiness of the Issuer and by a number of additional factors, including the value of the reference assets or an index, including, but not limited to, the volatility of the reference assets or the index, dividends on the securities comprising the index, market interest rates and yields and the time remaining to the maturity date.

The value of the Notes, the reference assets or the index depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes, the reference assets, the securities comprising the index, or the index are traded. The price at which an owner will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, to the issue price or the purchase price paid by such owner. The historical prices of the reference assets or the index should not be taken as an indication of the future performance of the reference assets or the index during the term of any Note.

47. Credit ratings may not reflect all risks of an investment in the Notes, and changes to any credit rating assigned to the Issuer or the Notes may affect the market value of the Notes

One or more independent credit rating agencies may assign credit ratings to the Notes. HSBC France's credit ratings or those assigned to the Notes may not reflect the potential impact of all risks related to structure and other factors on any trading market for, or market value of, the Notes, including risks relating to the ongoing COVID-19 outbreak. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time in its sole discretion.

Any rating assigned to HSBC France or the Notes may be withdrawn entirely by a credit rating agency, may be suspended or may be lowered, if, in that credit rating agency's judgment, circumstances relating to the basis of the rating so warrant. Moreover, the rating agencies that currently, or may in the future, publish a rating for the Issuer or the Notes may change the methodologies that they use for analysing securities with features similar to the Notes. Ratings may be impacted by a number of factors that can change over time, including the credit rating agency's assessment of: (i) HSBC France's strategy and management's capability; (ii) HSBC France's financial condition, including in respect of capital, funding and liquidity; (iii) competitive, economic, legal and regulatory conditions in HSBC France's key markets, including those markets where HSBC France has large exposures or on which HSBC France's operating results, including revenues, are substantially dependent; (iv) the level of political support for the industries in which HSBC France operate; (v) the integration of HSBC France within the Group (vi) legal and regulatory frameworks affecting HSBC France's legal structure, business activities and the rights of HSBC France's creditors; and (vii) the impact of the current macroeconomic environment and governmental and regulatory responses arising from the COVID-19 outbreak on any of the foregoing factors.

For example, in December 2019, Fitch downgraded the rating on long-term senior unsecured debt of HSBC Holdings plc, HSBC Bank plc and HSBC France and Moody's changed the outlook on ratings from stable to negative on these entities as well. This reflected the agencies' assessment of the Group's financial strength based on reduced return targets, as well as the planned repositioning of the U.S. and European non-ring-fenced banking units, among other factors. Subsequently in December, Fitch removed the Ratings Watch Negative on the long-term senior unsecured debt, which had related to uncertainty on the outcome of the UK's withdrawal from the EU. This reflected Fitch's view that the short-term risk of a disruptive 'no-deal' withdrawal had reduced. In April 2020, Fitch has announced that it has revised HSBC Holdings plc's, HSBC Bank plc and some other Group entities' outlook to Negative from Stable, reflecting the economic disruption driven by the COVID-19 outbreak. There can be no assurance that Moody's or any other rating agency will not take additional negative ratings actions as a result of economic uncertainties or other factors in connection with the COVID-19 outbreak.

Real or expected downgrades, suspensions or withdrawals of credit ratings assigned to the Issuer or the Notes could cause the liquidity or trading prices of the Notes to decline significantly. Additionally, any uncertainty

about the extent of any anticipated changes to the credit ratings assigned to the Issuer or the Notes may adversely affect the market value of the Notes.

48. Investment laws and regulations may restrict certain investments

The investment activities of certain investors are subject to laws and regulations on investment criteria, or review or regulation by certain authorities. All potential investors should consult their legal advisors to determine whether and to what extent (1) they are authorised to invest in the Notes, (2) the Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to the purchase or pledge of the Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of the Notes under any applicable risk-based capital or similar rules.

49. Hiring Incentives to Restore Employment Act withholding may affect payments on the Notes

The U.S. Hiring Incentives to Restore Employment Act imposes a 30% withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld..

50. Conflicts of interest and Calculation Agent

Since the Calculation Agent may be a company within the Issuer's group, potential conflicts of interest may arise between the Calculation Agent and the Noteholders, in particular with respect to certain determinations and judgments that the Calculation Agent must make. The Calculation Agent must carry out its duties and functions as Calculation Agent in good faith and using reasonable judgment. Moreover, investors' attention is drawn to the fact that the Calculation Agent may, in connection with its adjustments and in certain cases only, use an independent expert.

It is therefore stipulated that the Calculation Agent will determine, in a reasonable manner and as promptly as possible, the adjustments in accordance with the formulae specified in the Offering Memorandum; such formulae may be amended by the Calculation Agent in the Pricing Supplement. The Calculation Agent will use an independent expert appointed by HSBC France in the event (i) of absence of financial information necessary to calculate the relevant adjustment and (ii) the Noteholder has challenged the adjustment by sending a request to HSBC France within two months of the notification of such adjustment (as notified to the Noteholder *via* the clearing systems within seven Business Days of such adjustment); the costs of such appointment are, in cases (i) and (ii), borne by HSBC France.

RISK FACTORS RELATING TO THE CERTIFICATES

The terms in capitals not defined in this section will have the meaning given to them in the sections entitled "Terms and Conditions of the Certificates".

The following paragraphs describe the principal risk factors that the Issuer considers material to the Certificates to be listed and/or admitted to trading in order to assess the market risks associated with these Certificates. Potential investors should also read the detailed information set out elsewhere in this Offering Memorandum and consult their own financial and legal advisors about the risks associated with investment in a particular Series of Certificates and the suitability of such an investment in light of their particular circumstances. These risk factors may be supplemented in the Pricing Supplement relating to a particular issue of Certificates.

1. The Certificates may not be a suitable investment for all investors

Each potential investor in the Certificates should determine the suitability of that investment in light of its particular circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Certificates, the merits and risks of investing in the relevant Certificates and the information contained or incorporated by reference in this Offering Memorandum or any supplement to this Offering Memorandum and the relevant Pricing Supplement; and
- (b) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Certificates, including Certificates with principal or interest payable in one or more currencies, or for which the currency for principal or interest payments is different from the potential investor's currency.

Some Certificates are complex financial instruments and such instruments may be purchased with the aim of reducing risk or enhancing yield with an understood, measured, appropriate addition of risk to the overall investment portfolio. A potential investor should not invest in Certificates which are complex financial instruments unless it has the expertise (either alone or with the help of a financial advisor) to evaluate how the Certificates will perform under changing conditions, the resulting effects on the value of such Certificates and the impact this investment will have on the potential investor's overall investment portfolio.

The Certificates expose investors to a high degree of risk, in particular interest rate risks, foreign exchange risks, risks associated with the equity markets, credit risks, political risks and, more generally, market risks. The Certificates may be subject to significant price fluctuations. Investors should be aware that their Certificates may lose their value and that they should be prepared to suffer, under certain circumstances, the loss of their entire investment. The risk of the loss of the entire investment on maturity signifies that, to realise a return on their investment, investors should correctly anticipate the direction, amplitude and date of fluctuations in the value of the underlying. Moreover, the risk of fluctuations in the value of the underlying signifies that, the more a Certificate is traded below its acquisition price and the shorter the remaining term to maturity, the greater the risk of the investor losing all or part of its investment. The only way for the Holder to recover all or part of its investment before the Maturity Date for the Certificates is to sell such Certificate at the market price on the secondary market.

2. Risks related to structured Certificates

The Issuer may issue Index Linked Certificates, Index Basket-Linked Certificates, Inflation Rate-Linked Certificates, Currency-Linked Certificates, Equity Linked Certificates, Equity Basket Linked Certificates, ADR/GDR Linked Certificates and ADR/GDR Basket-Linked Certificates whose Settlement Amount (as defined in the Terms and Conditions of the Certificates) is determined by reference to an index or formula,

changes in the Underlying (as defined in the Terms and Conditions of the Certificates) or other factors. Potential investors should be aware that:

- (a) the market price of such Certificates may be volatile;
- (b) they may not receive any interest;
- (c) they may lose all or a substantial portion of their principal;
- (d) a factor may be subject to significant changes that may not correspond to fluctuations in interest rates, exchange rates or other indices;
- (e) if a factor applied to the Certificates has a multiplier greater than one or contains some other leverage factor, the impact of any movements in the factor on the principal or interest payable is likely to be magnified; and
- (f) the timing of changes in a factor may affect the actual yield to investors, even if the average yield is consistent with their expectations. In general, the earlier the change in the factor, the greater the effect on yield.

An investment in the Certificates is not an investment in the underlyings of the Certificates and the Certificateholders have no rights over the underlyings concerned other than those detailed in the Offering Memorandum and in the applicable Pricing Supplement. In particular, when the underlyings of the Certificates are financial securities or an index, the Certificateholders have no rights (such as voting rights, rights to dividends or any other rights) against the company issuing such financial securities or the promoter of such index.

3. Potential conflict of interest related to structured Certificates

The Issuer and/or affiliates of the Issuer may from time to time: (i) advise or engage in business with the Issuer of or obligors in respect of any Series of Certificates where the principal and/or interest in respect to such Certificates is determined by reference to one or more variables such as an index, formula, security, currency exchange rate, interest rate, inflation index or other factor (each variable being a “**Reference Asset**” or securities underlying Reference Asset(s) (where such Reference Asset(s) is an equity index)) regarding transactions to be entered into by them; (ii) engage in transactions involving Reference Asset(s) or securities underlying Reference Asset(s) (where such Reference Asset(s) is an equity index) for their proprietary accounts, for other accounts under their management or to facilitate client orders; (iii) carry out hedging activities related to the Certificates by purchasing or entering into derivatives transactions relating to the Reference Asset(s) or securities underlying Reference Asset(s) (where such Reference Asset(s) is an equity index) (but will not be obliged to do so); (iv) publish research reports relating to Reference Asset(s) or securities underlying Reference Asset(s) (where such Reference Asset(s) is an equity index); or (v) acquire non-public information about Reference Asset(s) and/or securities underlying Reference Asset(s) (where such Reference Asset(s) is an equity index). In undertaking any such activities, neither the Issuer nor any affiliate of the Issuer is under any obligation to consider the interests of the Certificateholders, and any such activity by the Issuer or its affiliates (as applicable) may have a negative effect on the value or level of such Reference Asset(s) and therefore on the value of any Certificates to which they relate.

In addition, the conditions of the Certificates may provide for (a) the early redemption of the Certificates or (b) a lesser amount being payable in respect of the Certificates if the value of any Reference Asset exceeds, falls below, is equal to or does not stay within pre-determined reference levels (“**Threshold Events**”). The activity described in the preceding paragraph may cause such Threshold Events to be triggered, which could potentially have a negative impact on the value of any Certificates to which they relate.

Certain affiliates of the Issuer or the Issuer itself may: (i) be the counterparty to the hedge of the Issuer's obligations under an issue of Certificates; (ii) be the Calculation Agent responsible for making determinations and calculations in connection with the Certificates; or (iii) publish research reports which express opinions or provide recommendations that are inconsistent with purchasing or holding the Certificates referencing the Reference Asset(s). Accordingly, there is a risk that certain conflicts of interest may arise both among the Issuer or these affiliates and between the interests of the Issuer or these affiliates and the interests of Certificateholders.

4. Risks relating to Equity Linked Certificates, Equity Basket-Linked Certificates, ADR/GDR Linked Certificates and ADR/GDR Basket-Linked Certificates

Equity Linked Certificates, Equity Basket-Linked Certificates, ADR/GDR Linked Certificates and ADR/GDR Basket-Linked Certificates differ from other debt instruments since the amount of the principal and/or interest payable by the relevant Issuer on redemption (early or on maturity) is linked to the market value of the underlying at that time and may be less than the total amount initially invested by the investor; accordingly, the investor may not receive repayment of the full amount initially invested in the Equity Linked Certificates, Equity Basket-Linked Certificates, ADR/GDR Linked Certificates or ADR/GDR Basket-Linked Certificates.

Fluctuations in the price of the underlying Equity (or underlying Equity Basket) or ADR/GDR (or underlying ADR/GDR) will affect the value of the Equity Linked Certificates or Equity Basket-Linked Certificates.

5. Risks relating to Index Linked Certificates and Index Basket-Linked Certificates

The historical experience of an index should not be viewed as an indication of the future performance of such index during the term of any Index Linked Certificates or Index Basket-Linked Certificates. Accordingly, each potential investor should consult its own financial and legal advisors about the risk entailed by an investment in any Index Linked Certificates or Index Basket-Linked Certificates and the suitability of such Certificates in light of its particular circumstances.

Fluctuations in the level of the underlying Index (or underlying Index Basket) will affect the value of the Index Linked Certificates or Index Basket-Linked Certificates.

6. Risks relating to ETF Linked Certificates and ETF Basket-Linked Certificates

Each Issuer may issue Certificates for which the amount of an ETF Unit or ETF Basket to be delivered may depend on the prices or changes in the prices of Units in one or more ETFs. Accordingly, an investment in ETF Linked Certificates or ETF Basket-Linked Certificates may expose investors to the same type of risks as a direct investment in an ETF and potential investors should take expert advice.

Potential investors in any such Certificates should be aware that, depending on the terms and/or performances of the ETF Linked Certificates and ETF Basket-Linked Certificates, (i) delivery of the ETF Units may take place at a different time than expected and (ii) they may lose all or a substantial portion of their investment. In addition, the movements in the prices of units or interests in one or more ETFs may be significant and may not correlate with changes in interest rates, currencies or other indices and these changes may affect the yield to investors, even if the average level of the relevant prices concerned is not consistent with the expectations of the investors.

If the amount of the principal or interest payable is determined in conjunction with a multiplier greater than one (1) or by reference to some other leverage factor, the effect of changes in the price of an ETF Unit or ETF Basket on the principal or interest will be magnified.

The market price of Certificates may be volatile and may depend on the time remaining to the redemption date and the volatility of the price of an ETF Unit or ETF Basket. The price of an ETF Unit or ETF Basket may be affected by the economic, financial and political events in one or more countries, including factors affecting

the exchanges or quotation systems on which the ETF Unit or ETF Basket is listed or traded. In addition, the price of an ETF Unit or ETF Basket may be affected by the performance of the ETF's service providers, and, in particular, the ETF's manager.

Potential investors should review carefully the Offering Memorandum and any offering document (where relevant) relating to the ETF or ETF Basket concerned prior to investing in the Certificates. None of the Issuer, any company affiliated to the Issuer or the Calculation Agent makes any representation as to the solvency of an underlying ETF or ETF Basket or of the administrative or financial managers, depository bank or of any other advisor of the ETF or ETF Basket.

7. Risks relating to Inflation Rate-Linked Certificates

Volatility

Inflation rates may be volatile and unpredictable. Investors should be aware of the possibility of significant changes in inflation rates resulting in a decrease in the value of interest payments and/or the principal payable on the Certificates at redemption. As a consequence the market value of the Certificates may also fall.

Interest income risk

In relation to certain types of Inflation Rate Linked Certificates, interest only accrues on days on which the interest related Reference Asset fixes within a predetermined range set out in the Pricing Supplement. If the interest related Reference Asset does not fix within such range on one or more days during the term of the Certificates, then the return on the Certificates may be lower than traditional fixed rate securities, or even zero. Holders should note that no interest accrues on days when the interest related Reference Asset fixes outside of the range.

Specific risks relating to Inflation Rate-Linked Certificates

Where Certificates reference an inflation index, the Certificates will be exposed to the performance of such inflation index which may be subject to fluctuations that may not correlate with changes in interest rates, currencies or other indices and may not correlate with the rate of inflation experienced in the jurisdiction of the Certificateholders. Any payments made under the Certificates may be based on a calculation made by reference to an inflation index for a month which is several months prior to the date of payment and therefore could be substantially different from the level of inflation at the time of payment on the Certificates.

Broadly speaking, in an inflationary environment amounts payable will be adjusted up and in a deflationary environment amounts payable will be adjusted down. In a deflationary environment, the amount of interest payable (if applicable) might be lower than the fixed rate that would have been applicable before such adjustment and the redemption amount or the amount payable in respect of exercise may be reduced.

Alternative valuation following disruption events in respect of inflation indices

Upon the occurrence of certain events in relation to an inflation index, for example the level of the inflation index has not been published or the inflation index is discontinued or is rebased or materially modified – then, depending on the particular event, the Issuer or Calculation Agent may:

- determine the level of the inflation index;
- determine a successor to the original inflation index;
- make changes to the level of the rebased index; or

- make adjustments to the inflation index and/or the terms of the Certificates by reference to equivalent adjustments made in respect of the Related Bond specified in the terms and conditions of the Certificates or the Fallback Bond selected by the Calculation Agent.

Any such event or determination may have an adverse effect on the value of the Certificates.

If the inflation index is rebased or materially modified, and no action is taken in respect of the Related Bond or Fallback Bond, the Calculation Agent may make changes to the level of the rebased index or make adjustments to the inflation index and/or the terms of the Certificates. Such consequential action by the Calculation Agent may have a negative effect on the value of the Certificates.

If, on any day on which a valuation is to be made, the level of the inflation index has not been published, and no action to determine a substitute level of the inflation index has been taken in respect of the Related Bond or Fallback Bond, the Calculation Agent shall determine a substitute level of the inflation index calculated by reference to the latest published level of the inflation index, and such level may differ from the index level (if any) published or announced after the relevant valuation date. Such event may have an effect on the valuation of the Certificates and on the interest (if applicable) and/or the amounts payable in respect of redemption or exercise. If an inflation index has been discontinued and no successor index has been determined in respect of the Related Bond or Fallback Bond, but the sponsor of the inflation index has specified a replacement inflation index, the Calculation Agent may specify such replacement inflation index to be the Successor Index in respect of the Certificates. Failing that, the Calculation Agent will determine an appropriate alternative index, and such index will be deemed a "Successor Index". Such events may have an effect on the valuation of the Certificates and on the interest (if applicable) and/or the amounts payable in respect of redemption or exercise.

Early redemption or termination of the Certificates and reinvestment risk following such early redemption or termination

If the Calculation Agent determines that an inflation index has been discontinued and there is no appropriate alternative successor index, the Calculation Agent may redeem the Certificates prior to their scheduled redemption date in accordance with the terms and conditions of the Certificates.

8. Risks relating to Currency-Linked Certificates

Volatility of exchange rates

Exchange rates can be volatile and unpredictable. Investors should be aware of the possibility of significant changes in rates of exchange between the Specified Currency and Reference Currencies and the Settlement Currency and the Settlement Currency and Alternative Payment Currency (as applicable) may result in a decrease in the value of interest payments and/or the principal payable on the Certificates at maturity or early redemption. As a consequence, the market value of the Certificates may also fall.

FX Disruption Event

Investors in the Certificates should be aware that, following the occurrence of a FX Disruption Event (as defined in the Conditions) the Issuer may elect (a) to redeem the Certificates against payment of the Early Redemption Amount, which may be an amount determined by the Calculation Agent to be the fair market value of the Certificates less any reasonable costs and expenses incurred by the Issuer of unwinding any underlying and/or related hedging and/or funding arrangements and in any case, such amount may be less than any amount received at maturity or exercise and may result in a loss to the investors or (b) instruct the Calculation Agent to make such adjustments to the Conditions of the Certificates as it determines to be necessary or desirable to reflect any market practice which develops in respect of the FX Disruption Event.

If, by reason of an FX Disruption Event, the Issuer is unable to settle payments under the Certificates in the Settlement Currency, the Issuer may settle payments by payment of the Alternative Payment Currency

Equivalent (which will be an amount in USD or such other currency specified as the Alternative Payment Currency in the relevant Pricing Supplement). Also, if the Certificates are redeemed early, investors will forego any future performance or depreciation in the underlying currency.

Payment of Alternative Payment Currency Equivalent

Certificates may provide that, if by reason of an FX Disruption Event (as defined in the Conditions) or the relevant clearing system ceasing to accept payments in the Settlement Currency or the occurrence of an event specified in the Pricing Supplement as an Alternative Payment Currency Event, the Issuer is not able to satisfy its obligations to pay any amounts due under the Certificates (as applicable) in the Settlement Currency, then the Issuer is entitled to make the payments in USD or any other currency specified as the Alternative Payment Currency in the relevant Pricing Supplement (the "**Alternative Payment Currency**").

Certificates linked to an index, formula or other underlying and multi-currency and Dual Currency Certificates

The Issuer may issue Certificates with principal or interest payable in one or more currencies which may be different from the currency in which the Certificates are denominated ("**Dual Currency Certificates**"). Prospective investors should be aware that:

- (a) the market price of such Certificates may be very volatile;
- (b) payment of principal or interest may occur at a different time or in a different currency than expected;
- (c) they may lose all or a substantial portion of their principal and/or interest payments;
- (d) the relevant currencies may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices; and
- (e) the timing of changes in a relevant currency may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the relevant currency, the greater the effect on yield.

Specific risks relating to Offshore Certificates denominated in RMB and Certificates linked to Offshore RMB and traded outside the PRC

Certificates denominated and/or settled in Renminbi (the **RMB Certificates**) may be issued under the Programme. Certificates linked to Offshore RMB and traded outside the PRC may be issued under the Programme. For the purpose of those Certificates and where the context requires, "Offshore RMB" shall refer to Chinese RMB that is freely deliverable between accounts in the relevant Offshore RMB Centre as specified in the relevant Pricing Supplement in accordance with the law and applicable regulations and guidelines issued by the relevant authorities in the relevant Offshore RMB Centre as specified in the relevant Pricing Supplement prevailing as of the trade date of the Certificates. Set out below is a description of some of the risks that should be taken into consideration by prospective investors in such Certificates.

- (a) *RMB is not completely freely convertible; Restrictions on RMB conversion through relevant Offshore RMB Centres (as specified in the relevant Pricing Supplement) may adversely affect the liquidity of the Certificates*

Renminbi is not freely convertible at present. The PRC Government continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar. However, there has been a significant reduction in control by the PRC Government in recent years, particularly over trade transactions involving the import and export of goods and services as well as other frequent routine foreign exchange transactions. These transactions are known as current account items.

On the other hand, remittance of Renminbi into the PRC for the purposes of capital account items, such as capital contributions, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into the PRC for settlement of capital account items are developing gradually.

Although Renminbi was added to the Special Drawing Rights basket created by the International Monetary Fund in 2016 and policies further improving accessibility to Renminbi to settle cross-border transactions were implemented by the People's Bank of China (the **PBoC**) in 2018, there is no assurance that the PRC Government will liberalise its control over cross-border remittance of Renminbi in the future or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or out of the PRC. Despite the Renminbi internationalisation programme and efforts in recent years to internationalise the currency, there can be no assurance that the PRC Government will not impose interim or long-term restrictions on the cross-border remittance of Renminbi. In the event that funds cannot be repatriated out of the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC, which may negatively impact on the liquidity of the Certificates and thus the value of the Certificates. In addition, if Renminbi outside the PRC is unavailable, this will impact on the ability of the Issuer to source Renminbi to perform its obligations under Certificates denominated in Renminbi.

(b) RMB interest rate risk

The PRC Government has gradually liberalised its regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility and, as a result, the value of the Certificates may fluctuate as well. In addition, the interest rate for Renminbi in markets outside the PRC may significantly deviate from the interest rate for Renminbi in the PRC as a result of foreign exchange controls imposed by PRC law and regulations and prevailing market conditions.

RMB Certificates may carry a fixed interest rate (“**Fixed Rate Certificates**”) or have a resettable interest rate (“**Resettable Certificates**”). Consequently, the trading price of RMB Certificates which are Fixed Rate Certificates or Resettable Certificates will vary with the fluctuations in the Renminbi interest rates. If holders of such RMB Certificates proposed to sell such RMB Certificates before their maturity, they may receive an offer lower than the amount they have invested.

(c) RMB exchange rate risk

Offshore RMB represents a market which is different from that of RMB deliverable in the PRC. The exchange rate of Offshore RMB against the U.S. dollar, Hong Kong dollar or other foreign currencies may be different from the exchange rate of RMB deliverable in the PRC against such currencies. Apart from its own supply and demand, the Offshore RMB exchange rate may be influenced by the onshore exchange rate (which currently trades within a band set by authorities in the onshore interbank market), and the two rates may converge with or diverge from each other.

The value of Renminbi against other foreign currencies is susceptible to PRC internal and external factors. Recently, the PBoC implemented changes to the way it calculates the Renminbi's daily mid-point against the U.S. dollar to take into account marketmaker quotes before announcing such daily mid-point. This change, and others that may be implemented, may increase the volatility in the value of the Renminbi against foreign currencies. All payments will be made in Renminbi with respect to Renminbi Certificates unless otherwise specified. As a result, the value of these Renminbi payments may vary with the changes in the prevailing exchange rates in the marketplace. If the value of Offshore RMB depreciates against the U.S. dollar, Hong Kong dollar or other foreign currencies, the value of a Certificateholder's investment in U.S. dollar, Hong Kong dollar or other applicable foreign currency terms will decline.

- (d) *Payments with respect to the RMB Certificates may be made only in the manner through Renminbi bank accounts maintained at banks in the relevant Offshore RMB Centre.*

Investors in the Certificates should be aware that all Offshore RMB payments under the Certificates will be made solely by credit to Renminbi bank accounts maintained at banks in the relevant Offshore RMB Centre as specified in the relevant Pricing Supplement in accordance with the law and applicable regulations and guidelines issued by the relevant authorities in the relevant Offshore RMB Centre as specified in the relevant Pricing Supplement.

9. Certificates subject to optional redemption by the Issuer

An optional redemption feature allowing the Issuer to redeem the Certificates prior to their maturity is likely to limit the market value of Certificates. During any period when the Issuer may elect to redeem Certificates, the market value of those Certificates generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period.

The Issuer may be expected to redeem Certificates when its cost of borrowing is lower than the interest rate on the Certificates. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Certificates being redeemed and may only be able to do so at a significantly lower rate. Investors should consider reinvestment risk in light of other investments available at that time. As a result of the exercise of a call right by the Issuer, investors will forego any further interest payments (if any) in respect of the Certificates and, if so specified in the Pricing Supplement, investors may receive less than their invested amount.

10. An investment in the Certificates is subject to reinvestment risk

If the Certificates are subject to an early redemption prior to their stated maturity date, there is no guarantee that investors will be able to reinvest the proceeds from the Certificates at a comparable return for a similar level of risk.

11. Effect of interest rates on the Certificates

Investors in Certificates are exposed to the risk that subsequent changes in interest rates may adversely affect the value of the Certificates. Investments in the Certificates may involve interest rate risk with respect to the currency of denomination of the Certificates. A variety of factors influence interest rates such as macro economic, governmental, speculative and market sentiment factors. Such fluctuations may have an impact on the value of the Certificates.

12. Capped Return

The terms and conditions of Certificates in relation to which the return is determined by reference to one or more Reference Assets may provide that the return payable on the Certificates is subject to a cap. In these circumstances, the exposure to the performance of the relevant Reference Asset(s) may be limited and accordingly, investors could forgo a return that could have been made had they invested in a product without a similar cap.

13. Further and other issues of Certificates

The Issuer shall be at liberty from time to time without the consent of the Certificateholders to create and issue further certificates to be consolidated with and form a single series with the outstanding Certificates. In addition, the Issuer may issue other certificates and/or other instruments, the value of which is linked to one or more of the Reference Assets. Any such issue of further certificates may have an adverse effect on the value of Certificates.

14. Fixed Rate Certificates

Investment in Certificates which bear interest at a Fixed Rate involves the risk that subsequent changes in market interest rates may have a significant adverse effect on the value of the relevant tranche of Certificates.

15. Floating Rate Certificates

Investment in Certificates which bear interest at a Floating Rate involves (i) a reference rate and (ii) a margin to be added or subtracted, as the case may be, from such reference rate. Typically, the relevant margin will not change throughout the life of the Certificates but there will be a periodic adjustment (as specified in the relevant Pricing Supplement) of the reference rate (e.g., every three months or six months) which itself will change in accordance with general market conditions. Accordingly, the market value of Floating Rate Certificates may be volatile if changes, particularly short term changes, to market interest rates evidenced by the relevant reference rate can only be reflected in the interest rate of these Certificates upon the next periodic adjustment of the relevant reference rate. This volatility is increased if the Floating Rate Certificates include a multiplying coefficient. A key difference between Floating Rate Certificates and Fixed Rate Certificates is that interest income on Floating Rate Certificates cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Certificates at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the terms and conditions of the Certificates provide for frequent interest payment dates, investors are exposed to reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer's ability to also issue Fixed Rate Certificates may affect the market value and the secondary market (if any) of the Floating Rate Certificates (and *vice versa*).

16. Exchange rate risks and exchange controls

The Issuer will pay the principal and interest on the Certificates in the currency specified in the relevant Pricing Supplement (the "**Specified Currency**"). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may change significantly (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. A performance of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Certificates, (2) the Investor's Currency-equivalent value of the principal payable on the Certificates and (3) the Investor's Currency-equivalent market value of the Certificates.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

17. Risk factors affecting the value and trading price of the Certificates

Before purchasing or selling Certificates, Certificateholders are advised to examine closely, *inter alia*: (i) the financial condition and funding costs of the Issuer, (ii) the value and volatility of the underlying and the liquidity of the underlying, (iii) the time remaining before the Maturity Date of the Certificates, (iv) any change(s) in interest rates, dividend yields and inflation rates, (v) any change(s) in currency exchange rates, (vi) economic and market conditions and (vii) all costs associated with the transaction.

As a result of these factors the price at which a Certificateholder will be able to sell the Certificates prior to maturity may be less than the initial amount invested in the Certificates. Each of these factors interrelate in complex ways (for example, one factor may offset an increase in the trading value of the Certificates caused by another factor).

However, the factors described above are not restrictive and their influence on the price of a Certificate will, in particular, depend on the characteristics specific to such Certificate.

18. Capital risks relating to Certificates which are not principal protected

Unless the relevant Series of Certificates is fully principal protected, the repayment of any amount invested in the Certificates is not fully guaranteed. As a result the investors' capital can fall below the amount initially invested in such Certificates and, in the worst case, the investors may lose their entire invested amount.

19. No Ownership Rights

An investment in Certificates relating to a Reference Asset is not the same as an investment in the Reference Asset. The Certificates do not confer any legal or beneficial interest in the Reference Asset or securities underlying any Reference Asset (if the Reference Asset is an index) or any voting rights, rights to receive dividends or other rights that a holder of a Reference Asset may have.

20. Certain Considerations regarding Hedging

Potential investors intending to purchase Certificates to hedge against the market risk associated with investing in a Reference Asset should recognise the complexities of utilising Certificates in this manner. For example, the value of the Certificates may not exactly correlate with the value of the Reference Asset to which they relate. There is no assurance that their value will correlate with movements of the Reference Asset. For these reasons, among others, it may not be possible to purchase or sell securities in a portfolio at the prices usually used to calculate the value of any relevant Reference Assets.

21. Potential Conflicts of interest

The Issuer or affiliates of the Issuer may advise the issuers of or obligors in respect of Reference Assets regarding transactions to be entered into by them, or engage in transactions involving Reference Assets for their proprietary accounts and for third party accounts under their management. Any such transactions may have a positive or negative effect on the value of such Reference Assets and therefore on the value of any Certificates to which they relate. Certain affiliates of the Issuer will also be the counterparty to the hedge of the Issuer's obligations under an issue of Certificates. Accordingly, these activities may cause certain conflicts of interest to arise both between the Issuer and these affiliates and between the interests of the Issuer or these affiliates and the interests of Certificateholders.

22. Illegality

The Certificateholders are subject to the risk that the Issuer may terminate its obligations under the Certificates if the Calculation Agent determines acting in good faith and a commercially reasonable manner that the performance of the Issuer's obligations under any Certificates (or the Issuer's designated affiliates' obligations under any hedging or funding arrangement established in connection therewith) shall after the trade date have become unlawful or impracticable in whole or in part. Following such an illegality event, the Issuer may terminate its obligations under the Certificates against payment of an amount determined the Early Redemption Amount specified in the relevant Pricing Supplement. The Pricing Supplement may specify the Early Redemption Amount as being the Fair Market Value of the Certificate immediately prior to such termination. Certificateholders may suffer a loss of some or all of their investment as a result of such early termination, and will forego any future performance in the securities underlying the relevant Reference Asset and future interest payments applicable to such Certificates (if any).

23. Early Redemption for Taxation Reasons

The Certificateholders are subject to the risk that the Issuer may terminate its obligations under the Certificates if the Issuer determines that it would be required to gross-up payments to the holders following a withholding

or deduction required by law of taxes, duties, assessments or governmental charges imposed or levied by or on behalf of France. Following such a determination, the Issuer may terminate its obligations under the Certificates against payment of the Early Redemption Amount specified in the relevant Pricing Supplement. Certificateholders may suffer a loss of some or all of their investment as a result of such early termination and will forego any future performance in the relevant Reference Asset and future interest payments applicable to such Certificates (if any).

24. Disruption Event

If the Calculation Agent determines that a payment disruption event or Market Disruption Event has occurred, any consequential postponement of or any alternative provisions for the valuation provided for any Certificates may have an adverse effect on the value of such Certificates.

25. Value of Baskets

The value of a basket of Reference Assets to which any Certificates relate may be affected by the number of Reference Assets included in such basket. Generally, the value of a basket that comprises Reference Assets from a number of companies or obligors or which gives relatively equal weight to each Reference Asset will be less affected by changes in the value of any particular Reference Assets included therein than a basket that includes fewer Reference Assets or that gives greater weight to some Reference Assets. In particular, if the Reference Assets included in a basket are all in or relate to a particular industry, the value of such a basket will be more affected by the economic, financial and other factors affecting that industry than if the Reference Assets included in the basket relate to various industries that are affected by different economic, financial or other factors or are affected by such factors in different ways.

Investors in the Certificates are subject to the risk that other risks relating to the Reference Assets which adversely affect the value of the Certificates will be exacerbated due to the number of and/or type of Reference Assets.

26. The volatility of the Reference Assets

If the volatility of the Reference Assets increases, the trading value of a Certificate which relates to such Reference Asset is expected to increase; if the volatility decreases, the trading value of a Certificate is expected to decrease.

27. Past performance of the Reference Asset(s)

Past performance of the Reference Asset(s), if provided, should not be taken as an indication of future performance of the Reference Asset(s). The Issuer cannot provide any assurance that the performance of the Reference Asset(s) will result in a positive return on any investment.

28. Partly-Paid Certificates

The Issuer may issue Certificates for which the issue price is payable in two or more instalments. Failure to pay any subsequent instalment could result in an investor losing some or all of its investment.

29. Variable Rate Certificates with a multiplier or other leverage factor

Certificates with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

30. Inverse Floating Rate Certificates

Inverse Floating Rate Certificates have a yield equal to a fixed rate, reduced on the basis of a reference rate. The market values of such Certificates are typically more volatile than the market values of other conventional floating rate Certificates based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Certificates are more volatile because an increase in the reference rate not only decreases the interest rate of the Certificates, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Certificates.

31. Fixed/Floating Rate Certificates

Fixed/Floating Rate Certificates may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate could affect the secondary market and the market value of such Certificates since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread between the fixed rate and the floating rate may be less favourable than the then prevailing spreads on comparable Floating Rate Certificates with the same reference rate. In addition, the new floating rate may at any time be lower than the rates on other Certificates. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than the then prevailing rate on its Certificates.

32. Zero Coupon Certificates and Certificates issued below par at a substantial discount or with a substantial issue premium

If the Certificates are Zero Coupon Certificates, the Issuer will not make any interest payments with respect to the Certificates. The market values of Zero Coupon Certificates and all other securities issued below the Negotiated Calculation Base (as defined in the Pricing Supplement) at a substantial discount or with a substantial issue premium tend to fluctuate more in relation to changes in interest rates than market values for conventional interest-bearing securities do. Generally, the longer the remaining term of the Certificates, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

33. Potential lack of liquidity and secondary market of the Certificates

It is not possible to foresee at what price the Certificates will be traded on any given market, or whether such market will be liquid or not. Moreover, the exercise of the Certificates of a given issue will result in a reduction in the number of Certificates in circulation from such issue, thereby causing a fall in the liquidity of the Certificates from such issue still in circulation. The fall in the liquidity of a Certificate issue may, in its turn, cause increased volatility linked to the issue price of the Certificates.

The Issuer may, but will not be required to, buy back Certificates at any time, at any price on the regulated market, by auction or over the counter. All Certificates thus bought back will be retained, resold or cancelled.

The Certificates may not have an established trading market when issued and it is possible that a secondary market in these Certificates never develops. Even if a secondary market does develop, it may not be liquid. Thus, investors could be unable to easily dispose of their Certificates or dispose of them at a price offering a yield comparable to that of similar products for which an active secondary market has developed. This is particularly the case for Certificates that are especially sensitive to interest rate, market or exchange rate risks and which are issued to meet specific investment or strategic objectives or which are structured to meet the investment requirements of a limited category of investors. This type of Certificate will generally have a more limited secondary market and greater price volatility than conventional debt securities. The lack of liquidity may have a significant adverse effect on the market value of the Certificates.

34. **Leverage risk**

Leverage involves the use of certain financial techniques to increase exposure to an underlying (equities, indices, inflation rates, currencies, ETFs or ADRs/GDRs), and may consequently amplify both profits and losses. Whilst use of leverage potentially enables profits to be increased (supposing a profit is made) when movements in the underlying are in the direction anticipated, it amplifies losses when movements in the underlying are contrary to expectations. If the leverage effect is adverse, the maximum loss for investors will be the amount of their initial investment in respect of the Certificates.

35. **Limitation of liability**

The Issuer accepts no liability in respect of:

- (a) maintaining the Shares' listing on the Stock Exchange or the availability of published listings by the Stock Exchange for said Shares; and
- (b) the calculation of any Index or the publication of any Index by the Promoter, the Index Calculation Agent or the Index Sponsor.

36. **Taxation**

Potential purchasers and sellers of the Certificates should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction where the Certificates are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for financial notes such as the Certificates. Potential investors are advised to ask for their own tax adviser's advice on their individual taxation with respect to the subscription, acquisition, holding, disposal and redemption of the Certificates. Only these advisors are in a position to duly consider the specific situation of the potential investor.

37. **EU Bank Recovery and Resolution Directive**

On 2 July 2014, Directive 2014/59/EU providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the **BRRD**) entered into force. The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system.

As from November 2014, the European Central Bank (the **ECB**) has taken over the prudential supervision under the SSM of significant credit institutions in Eurozone member states.

Regulation (EU) no. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund (the **SRM Regulation**) has established a centralised power of resolution entrusted to a Single Resolution Board (the **SRB**) and to the national resolution authorities. For Member States participating in the banking union (which includes France), the Single Resolution Mechanism (the **SRM**) fully harmonises the range of available tools, but Member States are authorised to introduce additional tools at national level to deal with crises, as long as they are compatible with the resolution objectives and principles set out in the BRRD. The ability of the SRB to exercise these powers came into force at the start of 2016.

The Issuer has been designated as a significant supervised entity for the purposes of Article 49(1) of the SSM Regulation and is consequently subject to the direct supervision of the ECB. This means that the Issuer is also subject to the SRM, which came into force in 2015. The SRM Regulation mirrors the BRRD and, to a large

extent, refers to the BRRD so that the SRB is able to apply the same powers that would otherwise be available to the relevant national resolution authority.

The impact of the BRRD and the SRM Regulation and their implementing provisions on credit institutions, including the Issuer, could materially affect the activity and financial condition of the Issuer and the value of any Certificates.

An institution will be considered as failing or likely to fail when: it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less than its liabilities; it is, or is likely in the near future to be, unable to pay its debts as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

The powers provided to authorities in the BRRD and the SRM Regulation are divided into three categories: (i) preparatory steps and plans to minimise the risks of potential problems (preparation and prevention); (ii) in the event of incipient problems, powers to arrest a firm's deteriorating situation at an early stage so as to avoid insolvency (early intervention); and (iii) where a firm's insolvency might raise a concern as to the general public interest, a clear plan to reorganise or wind down the firm in an orderly fashion while preserving its critical functions and as far as possible limiting taxpayers' exposure to losses.

The BRRD and the SRM Regulation currently contain four resolution tools and powers:

- (i) sale of business: enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms without requiring the consent of the shareholders or complying with the procedural requirements that would otherwise apply;
- (ii) bridge institution: enables resolution authorities to transfer all or part of the business of the firm to a "bridge bank" (a publicly controlled entity holding such business or part of a business with a view to reselling it);
- (iii) asset separation: enables resolution authorities to transfer impaired or problem assets to asset management vehicles to allow such assets to be managed and worked out over time; and
- (iv) bail-in: gives resolution authorities the power to write-down the claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims (including Certificates) to equity (the **general bail-in tool**), such equity being potentially subject to future cancellation, transfer or dilution by application of the general bail-in tool. When applying bail-in or a statutory write-down and conversion power, the resolution authority must first reduce or cancel common equity tier one, thereafter reduce, cancel, convert additional tier one instruments, then tier two instruments and other subordinated debts to the extent required and up to their capacity. If the debt bail-in or statutory write-down and conversion power has entered into force and only if this total reduction is less than the amount needed, the resolution authority will reduce or convert to the extent required the principal amount or outstanding amount payable in respect of unsecured creditors in accordance with the hierarchy of claims in normal insolvency proceedings (including senior debt instruments such as the Certificates).

The SRM Regulation also provides that in exceptional circumstances, where the general bail-in tool is applied, the relevant resolution authority – i.e. the SRB - may exclude or partially exclude certain liabilities from the application of the write-down or conversion powers. Such exclusion will apply in particular where: (a) it is not possible to bail-in a particular liability within a reasonable time; (b) the exclusion is strictly necessary and is proportionate so as to achieve the continuity of critical functions and core business lines of the institution under resolution; (c) the exclusion is strictly necessary and proportionate so as to avoid giving rise to widespread contagion, which would severely disrupt the functioning of financial markets, including of financial market infrastructures, in a manner that could cause serious disruption to the economy of a Member State of the European Union; or (d) the application of the general bail-in tool to those liabilities would cause a

reduction in value such that the losses borne by other creditors would be higher than if those liabilities were excluded from bail-in altogether.

Consequently, where the relevant resolution authority decides to exclude or partially exclude an eligible liability or class of eligible liabilities:

- (i) the level of write down or conversion applied to other eligible liabilities – due to Certificateholders as the case may be - when not excluded, may be increased to take account of such exclusions; and
- (ii) if the losses that would have been borne by those liabilities have not been passed on fully to other creditors, the financing arrangement for resolution may make a contribution to the institution under resolution, within certain limits, including the requirement that such contribution does not exceed 5% of the global liabilities of such institution to (a) cover any losses which have not been absorbed by eligible liabilities and restore the net asset value of the institution under resolution to zero and/or (b) purchase shares or other instruments of ownership or capital instruments in the institution under resolution, in order to recapitalise the institution. Subsequently, if the losses that would have been borne by those liabilities have not been passed on fully to other creditors, the Single Resolution Fund (the SRF) the French "Resolution and Deposits Guarantee Fund" (*Fonds de garantie des dépôts et de résolution*) or any other equivalent arrangement from a Member State, may make a contribution to the institution under resolution, under certain limits, including the requirement that such contribution does not exceed 5% of the global liabilities of such institution to (i) cover any losses which have not been absorbed by eligible liabilities and restore the net asset value of the institution under resolution to zero and/or (ii) purchase shares or other instruments of ownership or capital instruments in the institution under resolution, in order to recapitalise the institution. The final step – to the extent any losses remain - would be the granting of extraordinary public financial support through additional financial stabilisation tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

The BRRD applies since 1 January 2015, except for the general bail-in tool which applies since 1 January 2016.

Implementation provisions of the BRRD in France include the bail-in tool and therefore the powers of reducing the principal, cancellation or conversion of subordinated certificates. Accordingly, if the Issuer were to be subjected to a resolution process, holders of Certificates may be subject to write-down (including to zero) or conversion into equity on any application of the general bail-in tool (including amendment of the terms of the Certificates such as a variation of the maturity), in application of the decision of the SRB, which may result in such holders losing some or all of their investment. The SRB works in close cooperation with the ACPR, in particular in relation to resolution planning, and has assumed full resolution powers as from 1 January 2016, the contributions of the transfer conditions at the Single Resolution Fund being met by this date.

It is not yet possible to assess the full impact of the BRRD on the Issuer and the French law implementation provisions and there can be no assurance that it will not adversely affect the rights of holders of Certificates, the price or value of their investment in the Certificates and/or the ability of the Issuer to satisfy its obligations under the Certificates.

Following the publication on 7 June 2019 in the Official Journal of the Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD (the **BRRD II**) as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms and Directive 98/26/EC and of the Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending the Single Resolution Mechanism Regulation (Regulation 806/2014) as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms, a comprehensive legislative package reducing risks in the banking sector and further reinforcing banks' ability to withstand potential shocks will strengthen the banking union and reduce risks in the financial system from 28 December 2020. The Total Loss-Absorbing Capacity (**TLAC**) published by the Financial Stability Board will be implemented in accordance with the FSB Term Sheet (TLAC standard). Consequently eligibility criteria for bail-inable liabilities for the

MREL will be closely aligned with those laid down in Regulation (EU) No 575/2013 for the TLAC minimum requirement, but subject to the complementary adjustments and requirements introduced in the BRRD II. In particular, certain debt instruments with an embedded derivative component, such as certain structured notes, will be eligible, subject to certain conditions, to meet the MREL to the extent that they have a fixed or increasing principal amount repayable at maturity that is known in advance while only an additional return is linked to that derivative component and depends on the performance of a reference asset.

In addition, as a result of the introduction of a resolution regime, the liquidity of financial instruments subject to the resolution regime could become vulnerable to conditions/situations of stress in the financial markets. Investors should also note that the concentration risk to which they may be subject by investing in securities of the Issuer should also be assessed at the financial sector level i.e. by taking into account not only the securities of the Issuer that they hold but also all securities that they hold and which have been issued by financial entities subject to the bail-in regime.

The holders of Certificates have very limited rights to contest and/or ask for the suspension of the exercise of the relevant competent authorities' resolution powers.

The implementation of the minimum requirement for own funds and eligible liabilities ("MREL") is subject to future requirements

Article 45 of the BRRD provides that Member States shall ensure that institutions meet, at all times, a minimum requirement for own funds and eligible liabilities (known as MREL). The MREL shall be calculated as the amount of own funds and eligible liabilities expressed as a percentage of the total liabilities and own funds of the institution. The European Banking Authority (the "EBA") was in charge of drafting regulatory technical standards on the criteria for determining MREL (the "MREL RTS"). On 3 July 2015 the EBA published the final draft MREL RTS. In application of Article 45(2) of the BRRD, the current version of the MREL RTS is set out in Commission Delegated Regulation (EU) 2016/1401 of 23 May 2016.

Following the publication on 7 June 2019 in the Official Journal of the Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD (the **BRRD II**) as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms and Directive 98/26/EC and of the Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending the Single Resolution Mechanism Regulation (Regulation 806/2014) as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms, the level of capital and eligible liabilities required under MREL will be set by the resolution authority for each bank (and/or group) based on certain criteria including systemic importance. Eligible liabilities may be senior or subordinated, provided, among other requirements, that they have a remaining maturity of at least one year and, if governed by non-EU law, they must be able to be written down or converted under that law (including through contractual provisions).

The scope of liabilities used to meet the MREL will include, in principle, all liabilities resulting from claims arising from ordinary unsecured creditors (non-subordinated liabilities) unless they do not meet specific eligibility criteria set out in the BRRD II. To enhance the resolvability of institutions and entities through an effective use of the bail-in tool, the SRB should be able to require that the MREL is met with own funds and other subordinated liabilities, in particular where there are clear indications that bailed-in creditors are likely to bear losses in resolution that would exceed the losses that they would incur under normal insolvency proceedings. Moreover the SRB should assess the need to require institutions and entities to meet the MREL with own funds and other subordinated liabilities where the amount of liabilities excluded from the application of the bail-in tool reaches a certain threshold within a class of liabilities that includes MREL eligible liabilities. Any subordination of debt instruments requested by the SRB for the MREL shall be without prejudice to the possibility to partly meet the TLAC minimum requirement with non-subordinated debt instruments in accordance with Regulation (EU) No 575/2013 as permitted by the TLAC standard. Specific requirements will apply to resolution groups with assets above EUR 100 billion (top-tier banks),

If the resolution authority finds that there could exist any obstacles to resolvability by the Issuer and/or the Group, a higher MREL requirement could be imposed. Any failure by the Issuer and/or the Group to comply with its MREL may have a material adverse effect on the Issuer's business, financial conditions and results of operations.

The interaction and differences between TLAC and MREL will be completed

On 9 November 2015, the Financial Stability Board (the "**FSB**") issued at the global G20 level a final Total Loss-Absorbing Capacity ("**TLAC**") standard for global systemically important banks ("**G-SIBs**") (the "**Final TLAC Standard**"). The Final TLAC standard requires G-SIBs, including the Issuer, to maintain a ratio of its regulatory capital plus certain types of TLAC-eligible debt against its assets and exposures (potentially on a non risk-weighted basis and on a risk-weighted basis), which is significantly higher than current capital requirements under CRD IV. In accordance with the Final TLAC Standard, TLAC must be subordinated to excluded liabilities, such as insured deposits, preferred liabilities and liabilities that cannot be bailed in.

Therefore, currently G-SIBs, such as the Issuer, will be required to comply with two different sets of rules (the MREL requirement and the Final TLAC Standard) which have a similar aim: to ensure that a bank has sufficient loss absorbing capacity for bail-in tools to be deployed successfully if it were to enter resolution.

Even though TLAC and MREL pursue the same aim, their respective requirements and criteria differ. For example, (i) the FSB proposes a predetermined minimum TLAC requirement of between 16% (from 2019) and 18% (from 2022) of risk weighted assets ("**RWAs**") while the MREL is to be set on a case-by-case basis and does not include a common minimum requirement, (ii) structured notes are eligible as MREL but are not eligible for the purposes of the TLAC, and (iii) the FSB sets TLAC as a percentage of RWAs while the BRRD requires the MREL to be set as a percentage of own funds and total liabilities.

Following the publication on 7 June 2019 in the Official Journal of the Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD (the BRRD II) as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms and of the Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending the Single Resolution Mechanism Regulation (Regulation 806/2014) as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms, the TLAC requirement will be integrated into the general MREL rules thereby avoiding duplication from the application of two parallel requirements ensuring that both requirements are met with largely similar instruments, with the exception of the subordination requirement, which will be institution-specific and determined by the resolution authority. Consequently institutions such as the Issuer will continue to be subject to an institution-specific MREL requirement, which may be higher than the requirement of the Final TLAC Standard, due to the introduction of limited adjustments to the existing MREL rules regarding *inter alia* the denominators used for measuring loss-absorbing capacity, the interaction with capital buffer requirements, disclosure of risks to investors, and their application in relation to different resolution strategies.

For institutions such as the issuer that are subject to the TLAC minimum requirement, the BRRD II provides consistency in the frequency of supervisory reporting and disclosure of the institution-specific MREL with those provided in Regulation (EU) No 575/2013 for the TLAC minimum requirement.

38. The regulation and reform of "benchmarks" may adversely affect the value of any Certificates linked to or referencing such "benchmark"

Interest rates and indices which are deemed to be "benchmarks" are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, to be subject to revised calculation methods, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Certificates linked to or referencing such a "benchmark".

Regulation (EU) 2016/1011 (the **Benchmarks Regulation**) was published in the Official Journal of the EU on 29 June 2016 and applies since 1 January 2018. The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. It will, among other things, (i) require benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevent certain uses by EU supervised entities (such as the Issuer) of "benchmarks" of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

The administrator of a rate or index which is a "benchmark" may not obtain authorisation/registration or not be able to rely on one of the regimes available to non-EU benchmarks. In such event, depending on the particular "benchmark" and the applicable terms of the Certificates, such benchmark may be deemed replaced (for the purposes of the Certificates) with an alternative benchmark selected by the Issuer (or any Alternative Pre-nominated Index specified in the Pricing Supplement as applicable), the terms and conditions of the Certificates might be adjusted pursuant to Condition 15 (*Consequences of a Benchmark Trigger Event*), or delisted, redeemed or terminated early, or otherwise impacted.

The Benchmarks Regulation could have a material impact on any Certificates linked to or referencing a "benchmark", in particular in any of the following circumstances:

- an index which is a "benchmark" could not be used by a supervised entity in certain ways if its administrator does not obtain authorisation or registration or, if based in a non-EU jurisdiction, the administrator is not recognised as equivalent or recognised or endorsed and the transitional provisions do not apply; and
- the methodology or the methodology or other terms of the "benchmark" could be changed in order to comply with the requirements of the Benchmarks Regulation or other reforms. Such changes could, among other things, have the effect of reducing or increasing the rate or level or otherwise affecting the volatility of the published rate or level of the "benchmark".

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks" could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the following effects on certain "benchmarks": (i) discourage market participants from continuing to administer or contribute to the "benchmark", (ii) trigger changes in the rules or methodologies used in the "benchmark", or (iii) lead to the disappearance of the "benchmark" (including, without limitation, the LIBOR benchmark) could result in such benchmark being deemed replaced (for the purposes of the Certificates) with an alternative benchmark selected by the Issuer (or any Alternative Pre-nominated Index specified in the Pricing Supplement as applicable), adjustment to the terms and conditions pursuant to Condition 6.3(d) (*Alternative Reference Rates*), Condition 15 (*Consequences of a Benchmark Trigger Event*), early redemption or termination, discretionary valuation by the Issuer and/or the Calculation Agent, delisting or other consequences in relation to Certificates linked to such "benchmark" or to the interest rate applicable to such Certificates effectively becoming fixed at the rate last set in accordance with the Conditions. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Certificates linked to or referencing a "benchmark".

In addition, if the terms and conditions of any Certificates are adjusted pursuant to Condition 6.3(d) (*Alternative Reference Rates*) so as to provide for an Alternative Reference Rate, there can be no assurance that any specified Margin will be adjusted for any difference between the Alternative Reference Rate and the original Reference Rate applicable to such Certificates or that any adjustment made will correspond to the difference between the Alternative Reference Rate and the original Reference Rate when assessed at any particular date. Investors may accordingly receive less than they would otherwise have received.

There can also be no assurance that the amounts payable to investors in relation to any Certificates following the application of a Replacement Index pursuant to Condition 15 (*Consequences of a Benchmark Trigger Event*), and any related adjustments to the terms and conditions of the relevant Certificates, will correspond

with the amounts that investors would have received if the original Reference Rate or (as the case may be) original Relevant Benchmark had continued to apply, and investors may accordingly receive less than they would otherwise have received.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation reforms in making any investment decision with respect to any Certificates linked to or referencing a "benchmark".

Furthermore, LIBOR is the subject of ongoing regulatory reforms. Following the implementation of any of these reforms, the manner of administration of LIBOR may change, with the result that it may perform differently than in the past or be eliminated entirely, or there could be other consequences that cannot be predicted. For example, on 27 July 2017, the FCA announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the "**FCA Announcement**"). Further, on 12 July 2018 the FCA announced that LIBOR may cease to be a regulated benchmark under the Benchmark Regulations. The FCA Announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. At this time, it is not possible to predict whether and to what extent banks will continue to provide LIBOR submissions to the administrator of LIBOR or whether any additional reforms to LIBOR may be enacted in the United Kingdom or elsewhere. Uncertainty as to the nature of such alternative reference rates or other reforms may adversely affect the trading market for LIBOR-linked securities. The potential elimination of benchmarks, such as LIBOR, the establishment of alternative reference rates or other reforms may require adjustments to the terms of benchmark-linked securities and may result in other consequences, such as interest payments that are lower than, or that do not otherwise correlate over time with, the payments that would have been made on those securities if the relevant benchmark was available in its current form.

The market continues to develop in relation to SONIA and SOFR as reference rates for Floating Rate Certificates

On 29 November 2017, the Bank of England and the FCA announced that, from January 2018, the Bank of England's Working Group on Sterling Risk-Free Rates has been mandated with implementing a broad-based transition to the Sterling Overnight Index Average ("**SONIA**") over the next four years across sterling bond, loan and derivatives markets, so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021. Investors should be aware that the market continues to develop in relation to SONIA as a reference rate in the capital markets and its adoption as an alternative to Sterling LIBOR. In particular, market participants and relevant working groups are exploring alternative reference rates based on SONIA, including term SONIA reference rates (which seek to measure the market's forward expectation of an average SONIA rate over a designated term). The market or a significant part thereof may adopt an application of SONIA that differs significantly from that set out in the Conditions and used in relation to Certificates that reference a SONIA rate issued pursuant to this Offering Memorandum. As SONIA is published and calculated by the Bank of England based on data received from other sources, the Issuer has no control over its determination, calculation or publication. There can be no guarantee that SONIA will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in Certificates linked to SONIA. If the manner in which SONIA is calculated is changed, that change may result in a reduction of the amount of interest payable on such Certificates and the trading prices of such Certificates.

The Secured Overnight Financing Rate ("**SOFR**") is published by the Federal Reserve Bank of New York (the "**Federal Reserve**") and is intended to be a broad measure of the cost of borrowing cash overnight collateralised by Treasury securities. The Federal Reserve Certificates on its publication page for SOFR that the Federal Reserve may alter the methods of calculation, publication schedule, rate revision practices or availability of SOFR at any time without notice. Because SOFR is published by the Federal Reserve based on data received from other sources, the Issuer has no control over its determination, calculation or publication. There can be no guarantee that SOFR will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in Certificates linked to SOFR. If the manner in which SOFR is calculated is changed, that change may result in a reduction of the amount of interest payable on such

Certificates and the trading prices of such Certificates. The Federal Reserve began to publish SOFR in April 2018. The Federal Reserve has also begun publishing historical indicative SOFR rates going back to 2014. Investors should not rely on any historical changes or trends in SOFR as an indicator of future changes in SOFR. Also, since SOFR is a relatively new market index, Certificates linked to SOFR may have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for debt securities indexed to SOFR, such as the spread over the index reflected in interest rate provisions, may evolve over time, and trading prices of the Certificates linked to SOFR may be lower than those of later-issued indexed debt securities as a result.

The Issuer may in the future also issue Certificates referencing SONIA or SOFR that differ materially in terms of interest determination when compared with any previous SONIA-referenced or SOFR-referenced Certificates issued under the Programme. The nascent development of Compounded Daily SONIA, Compounded Daily SOFR and Weighted Average SOFR as interest reference rates for the Eurobond markets, as well as continued development of SONIA-based and SOFR-based rates for such markets and market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or otherwise affect the market price of any SONIA-referenced or SOFR-referenced Certificates issued under the Programme. Interest on Certificates which reference Compounded Daily SONIA, Compounded Daily SOFR or Weighted Average SOFR is only capable of being determined at the end of the relevant Interest Period and immediately prior to the relevant Interest Payment Date. It may be difficult for investors in Certificates that reference a SONIA rate or SOFR rate to reliably estimate the amount of interest that will be payable on such Certificates. In addition, the manner of adoption or application of SONIA reference rates and SOFR reference rates in the Eurobond markets may differ materially compared with the application and adoption of SONIA and SOFR in other markets, such as the derivatives and loan markets.

Investors should carefully consider how any mismatch between the adoption of SONIA reference rates and SOFR reference rates across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Certificates referencing a SONIA rate or a SOFR rate. Investors should consider these matters when making their investment decision with respect to any such Certificates.

Further, if SONIA or SOFR do not prove to be widely used in securities like the Certificates, the trading prices of Certificates linked to SONIA or SOFR may be lower than those of certificates linked to reference rates that are more widely used. Investors in such Certificates may not be able to sell such Certificates at all or may not be able to sell such Certificates at prices that will provide them with a yield comparable to similar investments that have a developed secondary market and may consequently suffer from increased pricing volatility and market risk.

Investors should note that the fallback provisions in the Conditions relating to Certificates referencing SONIA provide that if the Rate of Interest cannot otherwise be determined in accordance with the Conditions, the Rate of Interest shall be (i) that which was determined as at the last preceding Interest Determination Date or (ii) in relation to the first Interest Period in relation to such Certificates, a rate that the Calculation Agent determines would have been the Rate of Interest for a notional interest period equal in length to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date. The effect of these provisions is that the interest rate applicable to the Certificates for any Interest Period where the Rate of Interest cannot otherwise be determined in accordance with the Conditions effectively becomes fixed at the rate last set in accordance with the Conditions which, if the Rate of Interest cannot otherwise be determined in accordance with the Conditions for the first interest period will be a rate determined for a notional interest period occurring prior to the issuance of the Certificates.

39. Regulatory initiatives may restrict certain investments and have an adverse impact on the regulatory treatment of the Certificates

In Europe, the U.S. and elsewhere there is increased political and regulatory scrutiny of the derivatives and structured securities industries. This has resulted in a raft of measures for increased regulation which are

currently at various stages of implementation and which may restrict investment in certain Certificates, have an adverse impact on the regulatory position for certain investors and/or on the incentives for certain investors to hold Certificates and may thereby also affect the liquidity of such Certificates in the secondary market. Investors in the Certificates are responsible for analysing their own regulatory position and none of the Issuer or the Dealers makes any representation to any prospective investor or purchaser of the Certificates regarding the regulatory treatment of their investment at the time of such investment or at any time in the future. Prospective investors should therefore make themselves aware of the changes and requirements applicable to them, in addition to any other applicable regulatory requirements with respect to their investment in the Certificates.

40. Risks relating to Green Bonds

The Pricing Supplement relating to any specific Tranche of Certificates may provide that the Issuer intends to use an amount equal to the net proceeds of the issue of those Certificates (the **Green Bonds**) to fund eligible businesses and projects in Eligible Sectors as defined in the green bond framework dated 6 November 2015 and available on the following website: <https://www.hsbc.com/investor-relations/fixed-income-investors/green-and-sustainability-bonds> (the **Green Bond Framework**), as amended and supplemented from time to time and as specified in the relevant Pricing Supplement.

Prospective investors should have regard to the information set out in the relevant Pricing Supplement regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Green Bonds together with any other investigation such investor deems necessary. In particular, no assurance is given by the Issuer or the Dealers that the use of such proceeds for any Eligible Sector will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. Furthermore, it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes a "green" or an equivalently-labelled lending. In addition the requirements of any such label may evolve from time to time, accordingly, no assurance is or can be given to investors that any Eligible Sector or use(s) the subject of, or related to, any Eligible Sectors will meet any or all investor expectations regarding such "green" or other equivalently-labelled performance objectives.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Green Bonds and in particular with any Eligible Sector, to fulfill any environmental, sustainable and/or other criteria. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Green Bonds.

While it is the intention of the Issuer to apply the proceeds of any Green Bonds so specified to the relevant Eligible Sector, in, or substantially in, the manner described in the relevant Pricing Supplement, there can be no assurance that the relevant Eligible Sector or use(s) the subject of, or related to, any Eligible Sector, will be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for such eligible sector. Nor can there be any assurance that businesses and projects in such Eligible Sector will be completed within any specified period or at all or with the results or outcome as originally expected or anticipated by the Issuer. Any such event or failure by the Issuer will not constitute an Event of Default under the Green Bonds.

Any such event or failure to apply the proceeds of any issue of Green Bonds to any Eligible Sector as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on may have a material adverse effect on the value and marketability of such Green Bonds and also potentially the value of any other Green Bonds and/or result in adverse consequences for certain investors

with portfolio mandates to invest in securities to be used for a particular purpose. For the avoidance of doubt, it is however specified that payments of principal and interest (as the case may be) on the Green Bonds shall not depend on the performance of businesses and projects in the relevant Eligible Sector.

No Dealer makes any representation as to the suitability of the Green Bonds to fulfil environmental or sustainability criteria required by prospective investors. The Dealers have not undertaken, nor are responsible for, any assessment of the eligibility criteria, any verification of whether the Green Bonds meet the eligibility criteria, or the monitoring of the use of proceeds. Investors should refer to the Issuer's website or any third-party opinion.

41. A Certificateholder's actual yield may be reduced by transaction costs

When Certificates are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the price of the Certificates. These incidental costs may significantly reduce or even exclude the potential to profit from the Certificates. For instance, credit institutions as a rule charge commissions to their clients, which are either fixed minimum commissions or pro-rata commissions depending on the order value. To the extent that additional - domestic or foreign - parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Certificateholders should take into account the fact that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

In addition to such costs directly related to the purchase of securities (direct costs), Certificateholders should also take into account any additional costs (such as custody fees). Investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Certificates before investing in the Certificates.

42. Market value of the Certificates

The market value of the Certificates may be affected by the creditworthiness of the Issuer and by a number of additional factors, including the value of the reference assets or an index, including, but not limited to, the volatility of the reference assets or the index, dividends on the securities comprising the index, market interest rates and yields and the time remaining to the maturity date.

The value of the Certificates, the reference assets or the index depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Certificates, the reference assets, the securities comprising the index, or the index are traded. The price at which an owner will be able to sell the Certificates prior to maturity may be at a discount, which could be substantial, to the issue price or the purchase price paid by such owner. The historical prices of the reference assets or the index should not be taken as an indication of the future performance of the reference assets or the index during the term of any Certificate.

43. Credit ratings may not reflect all risks of an investment in the Certificates, and changes to any credit rating assigned to the Issuer or the Certificates may affect the market value of the Certificates

One or more independent credit rating agencies may assign credit ratings to the Certificates. HSBC France's credit ratings or those assigned to the Certificates may not reflect the potential impact of all risks related to structure and other factors on any trading market for, or market value of, the Certificates, including risks relating to the ongoing COVID-19 outbreak. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time in its sole discretion.

Any rating assigned to HSBC France or the Certificates may be withdrawn entirely by a credit rating agency, may be suspended or may be lowered, if, in that credit rating agency's judgment, circumstances relating to the basis of the rating so warrant. Moreover, the rating agencies that currently, or may in the future, publish a rating for the Issuer or the Certificates may change the methodologies that they use for analysing securities

with features similar to the Certificates. Ratings may be impacted by a number of factors that can change over time, including the credit rating agency's assessment of: (i) HSBC France's strategy and management's capability; (ii) HSBC France's financial condition, including in respect of capital, funding and liquidity; (iii) competitive, economic, legal and regulatory conditions in HSBC France's key markets, including those markets where HSBC France has large exposures or on which HSBC France's operating results, including revenues, are substantially dependent; (iv) the level of political support for the industries in which HSBC France operate; (v) the integration of HSBC France within the Group (vi) legal and regulatory frameworks affecting HSBC France's legal structure, business activities and the rights of HSBC France's creditors; and (vii) the impact of the current macroeconomic environment and governmental and regulatory responses arising from the COVID-19 outbreak on any of the foregoing factors.

For example, in December 2019, Fitch downgraded the rating on long-term senior unsecured debt of HSBC Holdings plc, HSBC Bank plc and HSBC France and Moody's changed the outlook on ratings from stable to negative on these entities as well. This reflected the agencies' assessment of the Group's financial strength based on reduced return targets, as well as the planned repositioning of the U.S. and European non-ring-fenced banking units, among other factors. Subsequently in December 2019, Fitch removed the Ratings Watch Negative on the long-term senior unsecured debt, which had related to uncertainty on the outcome of the UK's withdrawal from the EU. This reflected Fitch's view that the short-term risk of a disruptive 'no-deal' withdrawal had reduced. In April 2020, Fitch has announced that it has revised HSBC Holdings plc's, HSBC Bank plc and some other Group entities' outlook to Negative from Stable, reflecting the economic disruption driven by the COVID-19 outbreak. There can be no assurance that Moody's or any other rating agency will not take additional negative ratings actions as a result of economic uncertainties or other factors in connection with the COVID-19 outbreak.

Real or expected downgrades, suspensions or withdrawals of credit ratings assigned to the Issuer or the Certificates could cause the liquidity or trading prices of the Certificates to decline significantly. Additionally, any uncertainty about the extent of any anticipated changes to the credit ratings assigned to the Issuer or the Certificates may adversely affect the market value of the Certificates.

44. Investment laws and regulations may restrict certain investments

The investment activities of certain investors are subject to laws and regulations on investment criteria, or review or regulation by certain authorities. All potential investors should consult their legal advisors to determine whether and to what extent (1) they are authorised to invest in the Certificates, (2) the Certificates can be used as collateral for various types of borrowing and (3) other restrictions apply to the purchase or pledge of the Certificates. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of the Certificates under any applicable risk-based capital or similar rules.

45. Representation of Certificateholders

Certificateholders are not grouped into a *masse* or collective body with a view to protecting their interests and do not benefit from the same protections as Certificateholders.

46. Hiring Incentives to Restore Employment Act withholding may affect payments on the Certificates

The U.S. Hiring Incentives to Restore Employment Act imposes a 30% withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

47. Conflicts of interest and Calculation Agent

Since the Calculation Agent may be a company within the Issuer's group, potential conflicts of interest may arise between the Calculation Agent and the Certificateholders, in particular with respect to certain determinations and judgments that the Calculation Agent must make. The Calculation Agent must carry out its duties and functions as Calculation Agent in good faith and using reasonable judgment. Moreover, investors' attention is drawn to the fact that the Calculation Agent may, in connection with its adjustments and in certain cases only, use an independent expert.

It is therefore stipulated that the Calculation Agent will determine, in a reasonable manner and as promptly as possible, the adjustments in accordance with the formulae specified in the Offering Memorandum; such formulae may be amended by the Calculation Agent in the Pricing Supplement. The Calculation Agent will use an independent expert appointed by HSBC France in the event (i) of absence of financial information necessary to calculate the relevant adjustment and (ii) the Certificateholder has challenged the adjustment by sending a request to HSBC France within two months of the notification of such adjustment (as notified to the Certificateholder *via* the clearing systems within seven Business Days of such adjustment); the costs of such appointment are, in cases (i) and (ii), borne by HSBC France.

IMPORTANT CONSIDERATIONS RELATING TO TAXATION

Potential purchasers and sellers of the Notes or the Certificates should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction where the Notes or the Certificates are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial instruments such as the Notes or the Certificates. Further, a Noteholder's effective yield on the Notes may be diminished by the tax impact on that Noteholder of its investment in the Notes and a Certificateholder's effective yield on the Certificates may be diminished by the tax impact on that Certificateholder of its investment in the Certificates.

Potential investors are advised ask for tax adviser's advice on their individual taxation with respect to the acquisition, holding, disposal and redemption of the Notes or the Certificates. Only these advisors are in a position to duly consider the specific situation of each potential investor.

Each prospective investor should consult its own advisers as to legal, tax and related aspects of an investment in the Notes or the Certificates.

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions that, as supplemented in accordance with the provisions of the relevant Pricing Supplement, shall be applicable to the Notes. In the case of Dematerialised Notes, the text of the terms and conditions shall not be endorsed on physical documents of title but shall be constituted by the following text as supplemented by the relevant Pricing Supplement. In the case of Materialised Notes, either (i) the full text of these terms and conditions together with the relevant provisions of the Pricing Supplement (subject to any simplification by the deletion of non-applicable provisions) or (ii) these terms and conditions as so supplemented shall be endorsed on physical documents of title. All capitalised terms that are not defined in these Terms and Conditions shall have the meanings given to them in the relevant Pricing Supplement. References below to "**Conditions**" are, unless the context requires otherwise, to the numbered paragraphs below. References in the Terms and Conditions to "**Notes**" are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

The Notes are issued by HSBC France (the "**Issuer**") in series (each a "**Series**") having one or more issue dates and on terms otherwise identical (or identical with the exception of the first interest payment), the Notes of each Series being intended to be interchangeable with all other Notes of that Series. Each Series may be issued in tranches (each a "**Tranche**") on the same or different issue dates. The specific terms and conditions of each Tranche (including, but not limited to, the aggregate nominal amount, issue price, redemption price thereof, and interest, if any, payable in respect of the Notes and supplemented, where necessary, with supplemental terms and conditions which, with the exception of the issue date, issue price, first interest payment and nominal amount of the Tranche, shall be identical to the terms of other Tranches of the same Series) shall be determined by the Issuer and the relevant Dealer(s) at the time of the issue and shall be set out in the Pricing Supplement of such Tranche (the "**Pricing Supplement**").

The Notes shall be issued in accordance with an agency agreement (the "**Agency Agreement**") to be entered into between the Issuer, BNP Paribas Securities Services as fiscal agent and principal paying agent and HSBC Bank plc as calculation agent and the other agents named therein. The fiscal agent, the paying agent(s) and the calculation agent(s) for the time being (if any) are referred to below respectively as the "**Fiscal Agent**", the "**Paying Agents**" (which expression shall include the Fiscal Agent) and the "**Calculation Agent(s)**". In addition, the Principal Paying Agent may (with the prior written consent of the Issuer) delegate certain of its functions and duties in relation to the Physical Delivery Notes (as defined below) to a settlement agent (the "**Settlement Agent**"). The holders of interest coupons (the "**Coupons**") relating to interest bearing Materialised Notes and, where applicable in the case of such Notes, talons (the "**Talons**") enabling further Coupons to be obtained and the holders of receipts for the payment of instalments of principal (the "**Receipts**") relating to Materialised Notes of which the principal is redeemable in instalments are respectively referred to below as the "**Couponholders**" and the "**Receiptholders**".

Capitalised terms not defined in this section ("**Terms and Conditions of the Notes**") shall have the meaning given to them, when the context so allows, in the ISDA (International Swaps and Derivatives Association) definitions applicable to the Financial Instrument in question.

1. Form, Denomination, Title and Redenomination

1.1 Form

Notes may be issued either in dematerialised form ("**Dematerialised Notes**") or in materialised form ("**Materialised Notes**"), as specified in the relevant Pricing Supplement.

- (a) Title to Dematerialised Notes shall be evidenced by book entries (*inscription en compte*), in accordance with Articles L.211-3 *et seq.* of the French Monetary and Financial Code. No physical document of title (including depositary receipts (*certificats représentatifs*) pursuant to Article R.211-7 of the French Monetary and Financial Code) shall be issued in respect of the Dematerialised Notes.

Dematerialised Notes may be issued, at the option of the Issuer, either in bearer form (*au porteur*), recorded in the books of Euroclear France (acting as central depositary) which shall credit the

accounts of the Account Holders, or in registered form (*au nominatif*) and, in such case, at the option of the relevant holder, either in administered registered form (*au nominatif administré*), in which case they shall be recorded in the books of an Account Holder designated by the relevant holder, or in fully registered form (*au nominatif pur*), in which case they shall be recorded in an account maintained by the Issuer or by a registration agent (indicated in the relevant Pricing Supplement) acting on behalf of the Issuer (the "**Registration Agent**").

For the purpose of these Terms and Conditions, "**Account Holder**" means any financial intermediary authorised to hold accounts, directly or indirectly, with Euroclear France, and includes Euroclear Bank S.A./N.V. ("**Euroclear**") and the depositary bank for Clearstream Banking S.A., ("**Clearstream**"), a limited company (*société anonyme*).

- (b) Materialised Notes are issued in bearer form only. Materialised Notes represented by Definitive Materialised Notes (the "**Definitive Materialised Notes**") are serially numbered and are issued with Coupons (and, where appropriate, a Talon) attached, save in the case of Zero Coupon Notes in which case references to interest (other than in relation to interest due after the Maturity Date), Coupons and Talons in these Terms and Conditions are not applicable. "**Instalment Notes**" are issued with one or more Receipts attached.

In accordance with Articles L.211-3 et seq. of the French Monetary and Financial Code, securities (such as Notes constituting obligations under French law) in materialised form and governed by French law shall be issued outside the French territory.

Materialised Notes and Dematerialised Notes may also be cleared through one or more clearing system(s) other than or in addition to Euroclear France, Euroclear and/or Clearstream Luxembourg, as specified in the relevant Pricing Supplement.

Notes" in respect of which the principal to be redeemed shall be calculated by reference to the value of the ETF Unit or the value of the ETF Basket and/or a formula), "**Fund-Linked Notes**" or "**Fund Basket-Linked Notes**" (including "**Fund-Linked Coupon Notes**" and "**Fund Basket-Linked Coupon Notes**" in respect of which amounts of interest shall be calculated by reference to the performance of the Reference Fund or the performance of the Fund Basket and/or a formula and "**Fund-Linked Redemption Notes**" and "**Fund Basket-Linked Redemption Notes**" in respect of which the principal to be redeemed shall be calculated by reference to the performance of the Reference Fund or the performance of the Fund Basket and/or a formula), "**Credit-Linked Notes**" (including "**Single Reference Entity Credit-Linked Notes**" and "**Basket Credit-Linked Notes**" in respect of which the principal to be redeemed shall be calculated by reference to the credit of a reference entity or reference obligation, or a portfolio of reference entities or reference obligations) or "**Preference Share Linked Notes**", "**Dual Currency Notes**" or "**Partly Paid Notes**" or a combination of any of the foregoing, depending on the Interest Basis (as defined in the relevant Pricing Supplement) and the redemption methods specified in the relevant Pricing Supplement.

1.2 Denomination(s)

The Notes shall be issued in the specified denomination(s) as set out in the relevant Pricing Supplement (the "**Specified Denomination(s)**").

Notes having a maturity of less than one year in respect of which the issue proceeds are to be accepted in the United Kingdom shall constitute deposits for the purposes of the prohibition on accepting deposits contained in Section 19 of the Financial Services and Markets Act 2000 (the "**FSMA**") unless they are issued to a limited class of professional investors and have a denomination of at least £100,000 or its equivalent.

Dematerialised Notes shall be issued in one Specified Denomination only.

1.3 Title

- (a) Title to Dematerialised Notes in bearer form (*au porteur*) and in administered registered form (*au nominatif administré*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts of the Account Holders. Title to Dematerialised Notes in fully registered form (*au nominatif pur*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts maintained by the Issuer or by the Registration Agent.
- (b) Title to Definitive Materialised Notes which have, where appropriate, Receipt(s), Coupons and/or a Talon attached on issue, shall pass by delivery.
- (c) Except as ordered by a court of competent jurisdiction or as required by the prevailing legislation, the holder of any Note (as defined below), or of any Coupon, Receipt or Talon shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, any right over it, any writing on it or its theft or loss and no person shall be liable for so treating the holder.

In these Terms and Conditions:

"Holder", **"Noteholder"** or, as the case may be, **"holder of any Note"** means (a) in the case of Dematerialised Notes, the person whose name appears on the account of the relevant Account Holder, the Issuer or the Registration Agent (as the case may be) as being entitled to such Notes and (b) in the case of Materialised Notes, the bearer of any Physical Note and the Coupons, Receipts or Talons relating to it.

"outstanding" means, in relation to the Notes of any Series, all the Notes issued other than (a) those that have been redeemed in accordance with these Terms and Conditions, (b) those in respect of which the date for redemption has occurred and the redemption moneys (including all interest accrued on such Notes to the date for such redemption and any interest payable after such date) have been duly paid in accordance with the

provisions of Condition 7, (c) those which have become non enforceable or in respect of which claims have become prescribed, (d) those which have been repurchased and cancelled as provided in the Terms and Conditions, (e) in the case of Definitive Materialised Notes (i) those mutilated or defaced Definitive Materialised Notes that have been surrendered in exchange for replacement Definitive Materialised Notes, (ii) (for the purpose only of determining how many such Definitive Materialised Notes are outstanding and without prejudice to their status for any other purpose) those Definitive Materialised Notes alleged to have been lost, stolen or destroyed and in respect of which replacement Definitive Materialised Notes have been issued and (iii) any Temporary Global Certificate to the extent that it has been exchanged for one or more Definitive Materialised Notes, pursuant to its provisions.

Capitalised terms have the meanings given to them in the relevant Pricing Supplement, the absence of any such meaning indicating that such terms is not applicable to the Notes.

1.4 Redenomination

- (a) The Issuer may (if so specified in the relevant Pricing Supplement), on any date, without the consent of the holder of any Note, Coupon, Receipt or Talon, by giving at least 30 (thirty) calendar days' prior notice in accordance with Condition 16 and on or after the date on which the European Member State in whose national currency the Notes are denominated has become a Member State of the European Union (as provided in the Treaty establishing the European Community (the "EC"), as amended (the "**Treaty**")) or events have occurred which have substantially the same effects (in either case, the "**EMU**"), redenominate all, but not some only, of the Notes of each Series into euros and adjust the aggregate nominal amount and the Specified Denomination(s) set out in the relevant Pricing Supplement accordingly, as described more fully below. The date on which such redenomination becomes effective shall be referred to in these Terms and Conditions as the "**Redenomination Date**".
- (b) Unless specified otherwise in the relevant Pricing Supplement, the redenomination of the Notes pursuant to Condition 1.4(a) shall be made by converting the principal amount of each Note from the relevant national currency into euros using the fixed exchange rate between said national currency and the euro as established by the Council of the European Union pursuant to applicable provisions of the Treaty and rounding the resulting figure to the nearest one-hundredth of a euro (with EUR 0.005 being rounded up to the nearest one-hundredth of a euro). If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed exchange rate between the relevant national currency and the euro may be rounded down to the nearest euro. The euro denominations of the Notes so determined shall be notified to the holders of any Notes in accordance with Condition 16. Any balance with a value of more than EUR 0.01 remaining from the redenomination shall be paid by way of cash adjustment rounded to the nearest one-hundredth of a euro (with EUR 0.005 being rounded up to the nearest one-hundredth of a euro). Such cash adjustment shall be payable in euros on the Redenomination Date in the manner notified by the Issuer to the holders of any Notes.
- (c) Upon redenomination of the Notes, any reference herein to the relevant national currency shall be construed as a reference to the euro.
- (d) Unless specified otherwise in the relevant Pricing Supplement, the Issuer may, with the prior approval of the Fiscal Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to Condition 15.2, without the consent of the holders of any Notes, Receipts, Coupons or Talons, make any changes or additions to these Terms and Conditions or Condition 13 (including, but not limited to, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest calculation basis or benchmark), taking into account market practice in respect of Euromarket debt obligations denominated in euros and which it believes are not prejudicial to the interests of such holders. Any such changes or additions shall, in the absence of manifest error, be binding on the holders of any Notes, Receipts, Coupons and Talons and shall be notified to the holders of any Notes in accordance with Condition 16 as soon as practicable thereafter.

- (e) Neither the Issuer nor any Paying Agent shall be liable to the holder of any Note, Receipt, Coupon or Talon or any other person for any commissions, costs, losses or expenses in relation to or resulting from a credit or transfer in euros or any currency conversion or rounding effected in connection therewith.

- (b) Dematerialised Notes issued in registered form (*au nominatif*) may not be converted into Dematerialised Notes in bearer form (*au porteur*).

The Holder concerned shall bear the costs of any such conversion.

3. Status

The Notes and, where applicable, any related Receipts and Coupons are direct, unconditional, senior preferred and unsecured obligations of the Issuer (subject to Condition 4) and rank and will rank at all times:

- (i) *pari passu* without any preference among themselves and with other Senior Preferred Obligations of the Issuer;
- (ii) senior to Senior Non-Preferred Obligations of the Issuer and any obligations ranking junior to Senior Non-Preferred Obligations; and
- (iii) junior to all present and future claims benefiting from statutory preferences.

Subject to applicable law, in the event of the voluntary or judicial liquidation (*liquidation amiable ou liquidation judiciaire*) of the Issuer, bankruptcy proceedings or any other similar proceedings affecting the Issuer, the rights of Noteholders to payment under the Senior Preferred Obligations rank:

- A. junior to present and future claims benefiting from other preferred exceptions; and
- B. senior to Senior Non Preferred Obligations.

In these Conditions, the following defined terms shall have the meanings set out below:

of the French *Code monétaire et financier*. For the avoidance of doubt, all unsubordinated debt securities issued by the Issuer prior to 11 December 2016 constitute Senior Preferred Obligations.

4. Negative Pledge

So long as any of the Notes or, if applicable, any Receipts or Coupons relating to them, remain outstanding (as defined below), the Issuer shall not create or permit to subsist any mortgage, charge, pledge, lien or other security interest (*sûreté réelle*) upon the whole or any part of its assets, present or future, to secure any Indebtedness (as defined below) incurred or guaranteed *pari passu* by it (whether before or after the issue of Notes) unless the Issuer's obligations under the Notes, Receipts and Coupons are equally and rateably secured therewith.

For the purposes of this Condition the term "outstanding" has the meaning given to it in Condition 1.3.

"**Indebtedness**" means any present or future debt in the form of notes or other debt securities, which are currently or would be capable of being quoted, admitted to trading or traded on any stock exchange, over-the-counter market or other market.

(i) FBF Determination for Floating Rate Notes

Where FBF Determination is specified in the relevant Pricing Supplement as the method to be used to determine the Rate of Interest, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant FBF Rate plus or minus (as indicated in the relevant Pricing Supplement) the Margin (if any). For the purposes of this subparagraph (A), **"FBF Rate"** for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction (*Echange*) in the relevant Specified Currency incorporating the FBF Definitions and under which:

- (A) the Floating Rate is as specified in the relevant Pricing Supplement; and

(B) the Floating Rate Determination Date is as specified in the relevant Pricing Supplement.

provided, however, that:

(a) unless Alternative Reference Rates is specified as applicable in the relevant Pricing Supplement:

(1) if the application of the above provisions does not result in the determination of an FBF Rate for any Interest Period and if the Issuer (in consultation with the Calculation Agent) has not determined that a Benchmark Trigger Event has occurred in relation to a Relevant Benchmark relating to the Notes, then the Calculation Agent shall determine the FBF Rate for such Interest Period having regard to such facts and circumstances as it considers relevant; and

(2) if in relation to any Interest Period the Issuer (in consultation with the Calculation Agent) determines that a Benchmark Trigger Event has occurred in relation to a Relevant Benchmark relating to the Notes, the provisions of Condition 17 (*Consequences of a Benchmark Trigger Event*) shall apply and the Calculation Agent shall not be required to obtain quotations from Reference Banks (as defined in the FBF Definitions) for purposes of determining the FBF Rate for such Interest Period notwithstanding that it might otherwise be required to do so as a fallback procedure for the relevant Floating Rate Option pursuant to the FBF Definitions; and

(b) if Alternative Reference Rates is specified as applicable in the relevant Pricing Supplement and the application of the above provisions does not result in the determination of an FBF Rate for any Interest Period, then the provisions of Condition 5.3(d) (*Alternative Reference Rates*) shall apply as if Screen Rate Determination had been specified in the relevant Pricing Supplement in place of FBF Determination for such Interest Period, and all future Interest Periods, and as if:

(1) the Reference Rate were the Floating Rate Option for the Designated Maturity (each as specified in the relevant Pricing Supplement);

(2) the Relevant Screen Page were the screen page or other price source specified in the FBF Definitions for such Floating Rate Option;

(3) the Relevant Time and the Interest Determination Date were, respectively, the time and date as of and on which the FBF Definitions specify that such Floating Rate Option is, in respect of a Reset Date, to be determined by reference to such screen page or other price source; and

(4) the Relevant Financial Centre is such city or place as the Calculation Agent determines should be the Relevant Financial Centre to reflect current market practice for such Floating Rate Option.

For the purposes of this sub-paragraph (A), "**Floating Rate**", "**Agent**" and "**Floating Rate Determination Date**" are translations of the French terms "*Taux Variable*", "*Agent*" and "*Date de Détermination du Taux Variable*", respectively, which have the meanings given to those terms in the FBF Definitions.

(ii) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the relevant Pricing Supplement as the method to be used to determine the Rate of Interest, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate plus or minus (as indicated in the relevant Pricing Supplement) the Margin (if any). For the purposes of this subparagraph (B), "**ISDA Rate**" for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent for a Swap Transaction entered into under the terms of an agreement incorporating the ISDA Definitions and under which:

- (C) the relevant Reset Date is the first day of that Interest Accrual Period unless specified otherwise in the relevant Pricing Supplement.

provided, however, that:

- (a) unless Alternative Reference Rates is specified as applicable in the relevant Pricing Supplement:
 - (1) if the application of the above provisions does not result in the determination of an ISDA Rate for any Interest Period and if the Issuer (in consultation with the Calculation Agent) has not determined that a Benchmark Trigger Event has occurred in relation to a Relevant Benchmark relating to the Notes, then the Calculation Agent shall determine the ISDA Rate for such Interest Period having regard to such facts and circumstances as it considers relevant; and
 - (2) if in relation to any Interest Period the Issuer (in consultation with the Calculation Agent) determines that a Benchmark Trigger Event has occurred in relation to a Relevant Benchmark relating to the Notes, the provisions of Condition 17 (*Consequences of a Benchmark Trigger Event*) shall apply and the Calculation Agent shall not be required to obtain quotations from Reference Banks (as defined in the ISDA Definitions) for purposes of determining the ISDA Rate for such Interest Period notwithstanding that it might otherwise be required to do so as a fallback procedure for the relevant Floating Rate Option pursuant to the ISDA Definitions; and
- (b) if Alternative Reference Rates is specified as applicable in the relevant Pricing Supplement and the application of the above provisions does not result in the determination of an ISDA Rate for any Interest Period, then the provisions of Condition 5.3(d) (*Alternative Reference Rates*) shall apply as if Screen Rate Determination had been specified in the relevant Pricing Supplement in place of ISDA Determination for such Interest Period, and all future Interest Periods, and as if:
 - (1) the Reference Rate were the Floating Rate Option for the Designated Maturity (each as specified in the relevant Pricing Supplement);
 - (2) the Relevant Screen Page were the screen page or other price source specified in the ISDA Definitions for such Floating Rate Option;

- (3) the Relevant Time and the Interest Determination Date were, respectively, the time and date as of and on which the ISDA Definitions specify that such Floating Rate Option is, in respect of a Reset Date, to be determined by reference to such screen page or other price source; and
- (4) the Relevant Financial Centre is such city or place as the Calculation Agent determines should be the Relevant Financial Centre to reflect current market practice for such Floating Rate Option.

For the purposes of this sub-paragraph (B), "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**", "**Reset Date**" and "**Swap Transaction**" have the meanings given to those terms in the ISDA Definitions.

(iii) Screen Rate Determination for Floating Rate Notes not referencing SONIA or SOFR

Where Screen Rate Determination is specified in the relevant Pricing Supplement as the method to be used to determine the Rate of Interest, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent at or about the Relevant Time on the Interest Determination Date in respect of such Interest Accrual Period in accordance with the following, subject always to the provisions of Condition 5.3(d) (*Alternative Reference Rates*) or Condition 17 (*Consequences of a Benchmark Trigger Event*) (as applicable):

- (A) if the Primary Source for the Floating Rate is a Screen Page, subject as provided below, the Rate of Interest shall be:
 - (a) the Reference Rate (where such Reference Rate on such Screen Page is a composite quotation or is customarily supplied by one entity), or
 - (b) the arithmetic mean of the Reference Rates of the institutions whose Reference Rates appear on that Screen Page,

in each case as appearing on such Screen Page at the Relevant Time on the Interest Determination Date, as specified in the relevant Pricing Supplement, plus or minus (as indicated in the relevant Pricing Supplement) the Margin (if any);

- (B) if the Primary Source for the Floating Rate is Reference Banks or if sub-paragraph (A)(a) applies and no Reference Rate appears on the Screen Page at the Relevant Time on the Interest Determination Date or if sub-paragraph (A)(b) applies and fewer than two Reference Rates appear on the Screen Page at the Relevant Time on the Interest Determination Date, subject as provided below and unless otherwise specified in the relevant Pricing Supplement, the Rate of Interest shall be the arithmetic mean of the Reference Rates that each of the Reference Banks is quoting to leading banks in the Relevant Financial Centre at the Relevant Time on the Interest Determination Date, as determined by the Calculation Agent, plus or minus (as indicated in the relevant Pricing Supplement) the Margin (if any); and
- (C) if paragraph 5.3(c)(iii)(B) above applies and the Calculation Agent determines that fewer than two Reference Banks are so quoting Reference Rates, subject as provided below and unless otherwise specified in the relevant Pricing Supplement, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) that the Calculation Agent determines to be the rates (being the nearest equivalent to the Relevant Benchmark) in respect of a Representative Amount of the Specified Currency that at least two out of five leading banks selected by the Calculation Agent in the principal financial centre of the country of the Specified Currency or, if the Specified Currency is the euro, in the euro-zone as selected by the Calculation Agent (the "**Principal Financial Centre**") are quoting at or

about the Relevant Time on the date on which such banks would customarily quote such rates for a period commencing on the Effective Date and equivalent to the Specified Duration (I) to leading banks carrying on business in Europe, or (if the Calculation Agent determines that fewer than two of such banks are quoting such rates to leading banks in Europe) (II) to leading banks carrying on business in the Principal Financial Centre; it being understood that, if fewer than two such banks are quoting such rates to leading banks in the Principal Financial Centre, the Rate of Interest shall be the Rate of Interest determined on the previous Interest Determination Date (after readjustment for any difference between any Margin, Rate Multiplier or Maximum Interest Rate or Minimum Interest Rate applicable to the preceding Interest Accrual Period and to the relevant Interest Accrual Period).

(d) Alternative Reference Rates

If Alternative Reference Rates is specified as applicable in the relevant Pricing Supplement and notwithstanding the provisions of Condition 5.3(c)(iii) (*Screen Rate Determination for Notes not referencing SONIA or SOFR*), if the Issuer (in consultation with the Calculation Agent) determines that the Reference Rate specified in the relevant Pricing Supplement has ceased to be published on the Relevant Screen Page as a result of such Reference Rate ceasing to be calculated or administered, then the following provisions shall apply:

- (i) the Issuer shall use reasonable endeavours to appoint an Independent Adviser to determine an alternative rate (the "**Alternative Reference Rate**") and an alternative screen page or source (the "**Alternative Relevant Screen Page**") no later than five Business Days prior to the Interest Determination Date relating to the next Interest Period (the "**IA Determination Cut-off Date**") for the purposes of determining the Rate of Interest applicable to the Notes for all future Interest Periods (subject to the subsequent operation of this Condition 5(d));
- (ii) the Alternative Reference Rate shall be such rate as the Independent Adviser determines has replaced the relevant Reference Rate in customary market usage for the purposes of determining floating rates of interest or, if the Independent Adviser determines that there is no such rate, such other rate as the Independent Adviser determines in its sole discretion is most comparable to the relevant Reference Rate, and the Alternative Relevant Screen Page shall be such page of an information service as displays the Alternative Reference Rate;
- (iii) if the Issuer is unable to appoint an Independent Adviser, or the Independent Adviser appointed by it fails to determine an Alternative Reference Rate and Alternative Relevant Screen Page prior to the IA Determination Cut-off Date, then the Issuer (in consultation with the Calculation Agent and acting in good faith and a commercially reasonable manner) shall determine which (if any) rate has replaced the relevant Reference Rate in customary market usage for purposes of determining floating rates of interest or, if it determines that there is no such rate, which (if any) rate is most comparable to the relevant Reference Rate, and the Alternative Reference Rate shall be the rate so determined by the Issuer and the Alternative Relevant Screen Page shall be such page of an information service as displays the Alternative Reference Rate; provided, however, that if this Condition 5(d)(iii) applies and the Issuer is unable to determine an Alternative Reference Rate and Alternative Relevant Screen Page on or prior to the Interest Determination Date relating to the next Interest Period, the Rate of Interest applicable to such Interest Period shall be equal to the sum of the Margin and the rate last determined in relation to the Notes in respect of a preceding Interest Period;
- (iv) if an Alternative Reference Rate and Alternative Relevant Screen Page is determined in accordance with the preceding provisions, such Alternative Reference Rate and Alternative Relevant Screen Page shall be the Reference Rate and the Relevant Screen Page in relation to the Notes for all future Interest Periods (subject to the subsequent operation of this Condition 5(d));
- (v) if the Independent Adviser or, in accordance with Condition 5(d)(iii) above, the Issuer determines an Alternative Reference Rate in accordance with the above provisions, the Independent Adviser or the

Issuer (as the case may be) may also, following consultation with the Calculation Agent, specify changes to the Relevant Time, Relevant Financial Centre, Reference Banks, Day Count Fraction, Business Day Convention, Business Days and/or Interest Determination Date applicable to the Notes, and the method for determining the Rate of Interest in relation to the Notes if the Alternative Reference Rate is not available, or fewer than the required number of rates appear, on the Alternative Relevant Screen Page at any time, in order to follow market practice in relation to the Alternative Reference Rate, and shall also specify any other changes (including to the Margin) which the Issuer, following consultation with the Independent Adviser (where appointed), determines in good faith are reasonably necessary to ensure the proper operation and comparability to the Reference Rate of the Alternative Reference Rate, which changes shall apply to the Notes for all future Interest Periods (subject to the subsequent operation of this Condition 5(d)) and the Issuer shall effect such amendments to the Conditions and such consequential amendments to the Agency Agreement as the Issuer may deem appropriate in order to give effect to this Condition 5(d). No consent of the Holders of the Notes of the relevant Series or of the Holders of the Coupons appertaining thereto shall be required in connection with effecting the Alternative Reference Rate, Alternative Relevant Screen Page or such other changes, including for the execution of any documents or the taking of other steps by the Issuer or any of the parties to the Agency Agreement (if required); and

- (vi) the Issuer shall promptly following the determination of any Alternative Reference Rate and Alternative Relevant Screen Page give notice thereof and of any changes pursuant to Condition 5(d)(v) to the Principal Paying Agent, the Calculation Agent and the Noteholders (in accordance with Condition 16 (*Notices*)).

(n) Calculation Agent and Reference Banks

The Issuer shall ensure that there shall at all times be four Reference Banks (or such other number as may be required) with at least one office in the Relevant Financial Centre and one or more Calculation Agents if provision is made for them in the relevant Pricing Supplement and for so long as any Notes are outstanding (as defined above). If any Reference Bank (acting through its designated office) is unable or unwilling to continue to act as a Reference Bank, then the Issuer shall appoint another Reference Bank with an office in the Relevant Financial Centre to act as such in its place. Where several Calculation Agents are appointed in respect of the Notes, any references in these Terms and Conditions to the Calculation Agent shall be construed as referring to each Calculation Agent performing its respective duties under these Terms and Conditions. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid. So long as the Notes are admitted to trading on a stock exchange, market or quotation system and the applicable rules of, or applicable to, that stock exchange, market or quotation system so require, notice of any change of Calculation Agent shall be given in accordance with Condition 16.

5.4 Zero Coupon Notes

Where a Note, the Interest Basis of which is specified to be Zero Coupon, is redeemable prior to its Maturity Date pursuant to the exercise of an Issuer's Option or, if so specified in the relevant Pricing Supplement, pursuant to Condition 6.5 or otherwise and is not redeemed when due, the amount due and payable prior to the Maturity Date shall, unless provided otherwise in the relevant Pricing Supplement, be the Early Redemption Amount. As from the Maturity Date, the interest rate for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Rate of Yield (as described in Condition 6.5(a)).

5.5 Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest shall accrue as aforesaid on the paid-up nominal amount of such Notes and in any other manner specified in the relevant Pricing Supplement.

6. Redemption, purchase and options

6.1 Final Redemption

Unless previously redeemed, repurchased or cancelled as provided below, each Note shall be finally redeemed on the Maturity Date specified in the relevant Pricing Supplement at its Final Redemption Amount (which, unless provided otherwise, is its nominal amount) or, in the case of a Note falling within Condition 6.2 below, its final Instalment Amount. Notwithstanding the above, in the case of Physical Delivery Notes where the applicable Pricing Supplement specify that such Notes shall be redeemed by payment and/or delivery of a Physical Delivery Amount, then each Note shall be finally redeemed by the payment and the delivery of the

Physical Delivery Amount specified in, or determined in accordance with, Condition 7 and/or as specified in the applicable Pricing Supplement.

6.2 Redemption by Instalments

Unless previously redeemed, repurchased or cancelled as provided in this Condition 6 or the relevant Instalment Date (being one of the dates specified for this purpose in the relevant Pricing Supplement) is extended pursuant to the exercise of any Issuer's or Noteholder's option in accordance with Condition 6.3 or 6.4, each Note whose terms and conditions provide for Instalment Dates and Instalment Amounts shall be partially redeemed on each Instalment Date at the Instalment Amount specified in the relevant Pricing Supplement. The outstanding nominal amount of each such Note shall be reduced by the corresponding Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the nominal amount of such Note, by such proportion) with effect from the Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused (i) in the case of Dematerialised Notes, on the date specified for such payment or (ii) in the case of Materialised Notes, on presentation of the related Receipt, in which case such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.

6.3 Redemption at the Option of the Issuer and Partial Redemption

If a Call Option is specified in the relevant Pricing Supplement, the Issuer may, subject to compliance by the Issuer with all the relevant laws, regulations and directives and provided it, or the Calculation Agent (on behalf of the Issuer) gives not less than fifteen (15) nor more than thirty (30) calendar days' irrevocable prior notice in accordance with Condition 16 to the Holders (or such other notice period as may be specified in the relevant Pricing Supplement), redeem all or, as appropriate, some, of the Notes on any Call Option Date (as specified in the relevant Pricing Supplement). Any such redemption of Notes shall be at their Optional Redemption Amount (as specified in the relevant Pricing Supplement) plus interest, if any, accrued to the date fixed for redemption. Any such redemption should relate to Notes of a nominal amount at least equal to the minimum redemption amount as specified in the relevant Pricing Supplement and may not exceed the maximum redemption amount as specified in the relevant Pricing Supplement.

If any other Issuer's Option (as described in the relevant Pricing Supplement) is specified in the relevant Pricing Supplement, the Issuer may, subject to compliance by the Issuer with all the relevant laws, regulations and directives and provided it, or the Calculation Agent (on behalf of the Issuer) gives not less than fifteen (15) nor more than thirty (30) calendar days' irrevocable prior notice in accordance with Condition 16 to the Holders (or such other notice period as may be specified in the relevant Pricing Supplement) exercise any Issuer's Option in relation to all or, as appropriate, some, of the Notes on any Option Exercise Date. Any such exercise should relate to Notes of a nominal amount at least equal to the minimum redemption amount in respect of which such option has been exercised as specified in the relevant Pricing Supplement and may not exceed the maximum redemption amount in respect of which such option has been exercised as specified in the relevant Pricing Supplement.

In the case of a partial redemption or a partial exercise of an Issuer's Option in respect of Materialised Notes, the notice sent to holders of such Materialised Notes shall also contain the number of the Definitive Materialised Notes to be redeemed or in respect of which such option has been exercised. The Notes shall have been selected in such manner as may be fair and objective in the circumstances, taking account of prevailing market practices and subject to compliance with the prevailing legislation and stock exchange, market or quotation system or unregulated market regulations.

In the case of a partial redemption of, or a partial exercise of, an Issuer's Option in respect of Dematerialised Notes, the redemption shall be effected by reducing the nominal amount of all such Dematerialised Notes in a given Series in proportion to the aggregate nominal amount redeemed, subject to compliance with the prevailing legislation and stock exchange, market or quotation system or unregulated market regulations.

6.4 Holder Put and Exercise of Holders' Options

If a Put Option is specified in the relevant Pricing Supplement, the Issuer shall, at the option of the Holder, and provided the Holder gives not less than fifteen (15) nor more than thirty (30) calendar days' prior notice to the Issuer (or such other notice period as may be specified in the relevant Pricing Supplement), redeem such Note on the Put Option Date(s) (as specified in the relevant Pricing Supplement) at its Optional Redemption Amount (as specified in the relevant Pricing Supplement) plus, where applicable, interest accrued to the date fixed for redemption.

If any other Holder's Option (as described in the relevant Pricing Supplement) is specified in the relevant Pricing Supplement, the Issuer shall, at the option of the Holder, and provided the Holder gives not less than fifteen (15) nor more than thirty (30) calendar days' advance notice to the Issuer (or such other notice period as may be specified in the relevant Pricing Supplement) exercise any Holder's Option in relation to such Note on the Option Exercise Date at its Optional Redemption Amount plus, where applicable, interest accrued to the date fixed for redemption.

To exercise such option or any other option offered to Holders that may be set out in the relevant Pricing Supplement the Holder should deposit with a Paying Agent at its specified office a duly completed option exercise notice (the "**Exercise Notice**") in the form that may be obtained during normal business hours from the Paying Agent or the Registration Agent, as the case may be, within the specified notice period. In the case of Materialised Notes, the Exercise Notice shall have attached to it the relevant Notes (together with all unmatured Receipts and Coupons and unexchanged Talons). In the case of Dematerialised Notes, the Holder should transfer, or cause to be transferred, the Dematerialised Notes to be redeemed to the account of the Paying Agent with an office in Paris, as specified in the Exercise Notice. Any option so exercised and, where applicable, any Note so deposited or transferred, may not be withdrawn without the prior written consent of the Issuer.

6.5 Early Redemption

(a) *Zero Coupon Notes*

- (i) The Optional Redemption Amount or the Early Redemption Amount payable in respect of any Zero Coupon Note, the amount of which is not linked to an index and/or a formula, upon redemption of such Note pursuant to Condition 6.3, 6.4, 6.6 or 6.10 or upon it becoming due and payable as provided in Condition 10, shall be equal to the Optional Redemption Amount or the Early Redemption Amount, as the case may be, (calculated as provided below) of such Note unless specified otherwise in the relevant Pricing Supplement.
- (ii) Subject to the provisions of sub-paragraph 6.5(a)(iii) below, the (i) Optional Redemption Amount of any Note shall be, with respect to Conditions 6.3 and 6.4, equal to the Final Redemption Amount of such Note on the Maturity Date, discounted at a rate per annum (expressed as a percentage) equal to the Rate of Yield (which, unless specified otherwise in the relevant Pricing Supplement, shall be such rate as would produce an Optional Redemption Amount equal to the issue price of the Notes if they were discounted back to their issue price on the Issue Date (the "**Rate of Yield**")) compounded annually and (ii) Early Redemption Amount, with respect to Condition 6.6, 6.10 and 10, (x) if "Zero Coupon Accrual Yield and Reference Price" is specified as the "Early Redemption Amount" in the relevant Pricing Supplement, the early redemption amount payable in respect of such Notes will be the sum of a reference amount specified in the relevant Pricing Supplement known as the "Zero Coupon Note Reference Price" and the product of an annually compounded percentage rate specified in the relevant Pricing Supplement known as the Accrual Yield applied to the Zero Coupon Note Reference Price over a period from the issue date to the date of early redemption or (y) if "Zero Coupon Accrual Yield and Reference Price" is not specified as the "Early Redemption Amount" in the relevant Pricing Supplement, the early redemption amount payable in respect of such Note will be (a) the amount specified as the "Early Redemption Amount" in the relevant Pricing Supplement, or

(b) the Fair Market Value if "Fair Market Value" is specified as the "Early Redemption Amount" in the relevant Pricing Supplement. If "Fair Market Value Floor" is specified in the relevant Pricing Supplement as being applicable, then the Fair Market Value shall in no event be less than the amount equal to the percentage per Specified Denomination specified as the Fair Market Value Floor Percentage in the relevant Pricing Supplement.

The calculation of the Optional Redemption Amount or Early Redemption Amount, as the case may be, in accordance with this sub-paragraph shall continue to be made (both before and after any judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date plus any accrued interest, in accordance with Condition 6.4.

Where such calculation is to be made for a period of less than one (1) year, it shall be made on the basis of the Day Count Fraction as provided in the relevant Pricing Supplement.

(b) *Physical Delivery Notes*

In the case of Physical Delivery Notes, in accordance with Condition 7(b) and as determined in the method specified in the applicable Pricing Supplement.

6.6 Redemption for Taxation Reasons

- (a) If, by reason of any change in French law or regulations, or any change in the official application or interpretation of such law, becoming effective after the Issue Date, the Issuer is, on the occasion of the next redemption of principal or payment of interest or other revenues due in respect of the Notes, Receipts or Coupons, required to pay the additional amounts as specified in Condition 8.2 below, the Issuer may, on any Interest Payment Date or, if so specified in the relevant Pricing Supplement, at any time, subject to having given not more than forty-five (45) nor less than thirty (30) days' notice to the Holders (which notice shall be irrevocable), in accordance with Condition 16, redeem all, but not some only, of the Notes at their Early Redemption Amount plus, unless specified otherwise in the relevant Pricing Supplement, any interest accrued to the date set for redemption provided that the date set for redemption of which notice hereunder shall be given shall be no earlier than the latest practicable date on which the Issuer could make payment of principal and interest or other revenues without being required to withhold or deduct French taxes.
- (b) If the Issuer, on the next redemption of principal or payment of interest or other revenues in respect of the Notes, Receipts or Coupons, is prevented by French law from making payment to the Holders of the full amounts then payable, notwithstanding the undertaking to pay all additional amounts laid down in Condition 8.2 below, then the Issuer shall forthwith give notice of such fact to the Fiscal Agent and the Issuer shall, subject to giving not less than seven (7) calendar days' prior notice to the Holders in accordance with

Condition 16, redeem all, but not some only, of the Notes then outstanding at their Early Redemption Amount plus, unless specified otherwise in the relevant Pricing Supplement, any interest accrued to the date set for redemption on (A) the latest Interest Payment Date on which the Issuer could make payment of the full amount then due and payable in respect of the Notes, Receipts or Coupons provided that if such notice expires after such Interest Payment Date, the date for redemption of Holders shall be the later of (i) the latest practicable date on which the Issuer could make payment of the full amount then due in respect of the Notes, Receipts or Coupons and (ii) fourteen (14) calendar days after giving notice to the Fiscal Agent or (B) if so specified in the relevant Pricing Supplement, on any date, provided that the scheduled date for redemption of which notice hereunder shall be given shall be the latest practicable date on which the Issuer could make payment of the full amount payable in respect of the Notes, or, if applicable, the Receipts or Coupons or, if that date is passed, as soon as practicable thereafter.

Partly-Paid Notes shall be redeemed, whether at maturity, by early redemption or otherwise, in accordance with the provisions of this Condition 6 and the provisions specified in the relevant Pricing Supplement.

6.8 Repurchases

In compliance with the prevailing laws and regulations, the Issuer shall have the right at all times to repurchase Notes (provided that, in the case of Materialised Notes, all unmatured Receipts and Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise (including by tender offer) at any price.

Unless specified otherwise in the relevant Pricing Supplement, Notes so repurchased by the Issuer may, at the Issuer's option, be held and resold in accordance with applicable laws and/or regulations.

Any Notes so cancelled or, where applicable, transferred or surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such Notes shall be discharged.

6.10 Illegality

If, due to any new legislation or regulations coming into effect in France, or any change to a French law or regulation, or any change in the official application or interpretation of such law, becoming effective after the Issue Date, it would become unlawful for the Issuer to perform or comply with its obligations under the Notes, the Issuer shall, subject to having given not more than forty-five (45) nor less than thirty (30) calendar days' notice to the Holders (which notice shall be irrevocable), in accordance with Condition 16, redeem all, but not some only, of the Notes at their Early Redemption Amount plus any interest accrued to the date set for redemption.

All payments of principal and interest in respect of Dematerialised Notes shall (i) in the case of Dematerialised Notes in bearer (*au porteur*) or administered registered (*au nominatif administré*) form, be made by transfer to an account denominated in the relevant currency with the Account Holders for the benefit of the Noteholders, and (ii) in the case of Dematerialised Notes in fully registered form (*au nominatif pur*), to an account denominated in the relevant currency with a Bank (as defined below) designated by the relevant Noteholder. All payments validly made to such Account Holders or Bank shall discharge the Issuer from its payment obligations.

(b) Definitive Materialised Notes

(i) *Method of payment*

- (A) Subject as provided below, all payments in a Specified Currency shall be made by credit or transfer to an account denominated in the Specified Currency, or to which the Specified Currency may be credited or transferred (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account), maintained by the payee or, at the option of the payee, by a cheque in such Specified Currency drawn on a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is the euro, shall be a country in the euro-zone, and, if the Specified Currency is the Australian dollar or New Zealand dollar, shall be Sydney or Auckland, respectively). Where payments of amounts due in respect of Notes are in Offshore Renminbi, such payments will be made by credit or transfer to an account denominated in Offshore Renminbi and maintained by the payee with a bank in the relevant Offshore RMB Centre in accordance with applicable laws, rules and regulations and guidelines issued from time to time (including all applicable laws and regulations with respect to settlement in Offshore Renminbi in the relevant Offshore RMB Centre). Payments will, without prejudice to the provisions of this Condition, be subject in all cases to any applicable fiscal or other laws and regulations in the place of payment;
- (B) In the case of Physical Delivery Notes which are settled by way of delivery, on the date scheduled for redemption, the Issuer shall deliver, or procure the delivery of, the documents evidencing the number of thereof, and/or constituting the Physical Delivery Amount, to the order of the Holder in accordance with the Holder's instructions contained in the Transfer Notice (as defined below). The Physical Delivery Amount shall be evidenced in the manner described in the applicable Pricing Supplement.
- (C) In the case of Physical Delivery Notes, the applicable Pricing Supplement may also contain provisions for variation of settlement pursuant to an option to such effect or where the Issuer or the holder of a Physical Delivery Note (as the case may be) is not able to deliver, or take delivery of (as the case may be), the Underlying Assets or where a Settlement Disruption Event (as described in the applicable Pricing Supplement) has occurred, all as provided in the applicable Pricing Supplement.

Each Receipt should be presented for payment of the relevant instalment together with the Definitive Materialised Note to which it relates. Any Receipts presented for payment without the Definitive Materialised Note to which they relate shall render the Issuer's obligations non enforceable.

On the date on which any Definitive Materialised Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become non enforceable and payment shall not be made in respect thereof.

Fixed Rate Notes represented by Definitive Materialised Notes (other than Dual Currency Notes and Index Linked Notes) should be presented for payment together with the unmatured Coupons relating thereto (which expression shall for this purpose include Coupons falling to be issued in exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of a partial payment, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) shall be deducted from the sum due for payment. Each amount of principal so deducted shall be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of a period of ten (10) years after the Relevant Date in respect of such principal (whether or not such Coupon would otherwise have become prescribed under Condition 11) or, if later, before the expiry of a period of five (5) years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note represented by a Definitive Materialised Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) relating thereto shall become non enforceable and further Coupons shall not be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Note or Index Linked Note represented by a Definitive Materialised Note becomes due and repayable prior to its Maturity Date, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become non enforceable and payment or, as the case may be, exchange for further Coupons shall not be made in respect thereof.

If the due date for redemption of any Definitive Materialised Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding

Interest Payment Date or, as the case may be, the Interest Commencement Date, shall be payable only against presentation and surrender (if appropriate) of the relevant Definitive Materialised Note.

(c) Payments in the United States

Notwithstanding the foregoing, if any Materialised Notes are denominated in U.S. dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York in the same manner as aforesaid if (i) the Issuer shall have appointed Paying Agents with offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at such offices is prohibited or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then authorised by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence for the Issuer.

(d) Payments subject to tax laws

All payments shall be, but without prejudice to the provisions of Condition 8, subject to (i) any laws, regulations and directives, including in relation to tax laws, (ii) any withholding or deduction required pursuant to an agreement described in 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto, and (iii) any withholding or deduction required pursuant to Section 871(m) of the Code (**871(m) Withholding**). No commission or expenses shall be charged to the Noteholders, Receiptholders or Couponholders in respect of such payments. In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the Notes, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

With respect to Notes that provide for net dividend reinvestment in respect of either an underlying U.S. security (*i.e.*, a security that pays U.S. source dividends) or an index that includes U.S. securities, all payments on the Notes that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

(e) Appointment of Agents

The Fiscal Agent, the Paying Agents and the Registration Agent initially appointed by the Issuer and their respective specified offices are listed at the end of the Offering Memorandum relating to the Issuer's Notes Programme. The Issuer reserves the right at any time to vary or terminate the appointment of the Fiscal Agent, any Paying Agent, Calculation Agent or Registration Agent and to appoint another Fiscal Agent or other Paying Agent(s), Calculation Agent(s) or Registration Agent(s) or additional Paying Agent(s), Calculation Agent(s) or Registration Agent(s), provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) one or more Calculation Agent(s) where the Terms and Conditions so require, (iii) a Paying Agent having specified offices in at least two major European cities, (iv) in the case of Dematerialised Notes in fully registered form, a Registration Agent and (v) any other agents as may

In addition, the Issuer shall forthwith appoint a Paying Agent in New York City in respect of any Materialised Notes denominated in U.S. dollars in the circumstances described in paragraph 7(c) above.

(f) Talons

On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Materialised Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for such further Coupon sheet) (but excluding any Coupons that may have been cancelled pursuant to Condition 11).

(g) Business Days for payment

If any payment date in respect of any Note or Coupon is not a business day, the Noteholder, Receiptholder or Couponholder shall not be entitled to any payment until the following business day unless specified otherwise in the relevant Pricing Supplement, nor to any interest or other sum in respect of such postponed payment. In this paragraph, "**business day**" means a day (other than a Saturday or a Sunday) (A) (i) in the case of Dematerialised Notes, on which Euroclear France operates or (ii) in the case of Materialised Notes, on which banks and foreign exchange markets are open for business in the financial centre of the place in which the security is presented for payment, (B) on which banks and foreign exchange markets are open for business in such countries as shall be specified as "**Financial Centres**" in the relevant Pricing Supplement and (C) (i) in the case of a payment in a currency other than the euro, where payment is to be made by transfer to an account maintained with a bank in the Specified Currency, on which foreign exchange transactions may be carried out in such currency in the principal financial centre of the country in which such currency is legal tender or (ii) in the case of a payment in euros, which is a TARGET Business Day.

The Underlying Assets shall be delivered at the risk of the relevant Noteholder in the manner specified in the Transfer Notice and no additional payment or delivery shall be due to a Noteholder where any Underlying Assets are delivered after their due date in circumstances beyond the control of either the Issuer or the Settlement Agent.

(h) Bank

For the purpose of this Condition 7, "**Bank**" means a bank operating in the principal financial centre in which the specified currency is legal tender or, in the case of payments in euros, in a city in which banks have access to the TARGET System.

(ii) Price Source Disruption and FX Disruption

If "Price Source Disruption" is specified as being applicable in the relevant Pricing Supplement, then, if on any day on which the Calculation Agent is required to determine a Relevant Rate (a "**Scheduled FX Fixing Date**"):

I. determine the Relevant Rate by reference to the rate of exchange published by available recognised financial information vendors (as selected by the Calculation Agent acting in good faith and in a commercially reasonable manner) on the Scheduled FX Fixing Date (the "**Fallback Reference Price**"); or

II. if (i) the Calculation Agent is unable to determine a Fallback Reference Price in accordance with paragraph (A) above or the Calculation Agent determines that the Fallback Reference Price so determined does not accurately represent the rate which the Calculation Agent determines that the Issuer would be able to obtain in the general foreign exchange market; (ii) the Calculation Agent determines that the Relevant Rate determined in accordance with paragraph (B) above does not accurately represent the rate which the Calculation Agent determines that the Issuer would be able to obtain in the general foreign exchange market; or (iii) fewer than 2 quotations are provided by Reference Dealers following the Calculation Agent's request pursuant to paragraph (B) above, the Calculation Agent will determine the Relevant Rate on the first succeeding Business Day on which the Price Source Disruption ceases to exist; **provided, however, that** if the Price Source Disruption continues for thirty consecutive calendar days (or such other number of calendar days as may be specified in the relevant Pricing Supplement) after the Scheduled FX Fixing Date (the "**FX Cut-off Date**"), the Calculation Agent shall determine its good faith estimate of the Relevant Rate on that FX Cut-off Date; or

to the first succeeding Relevant Currency Business Day; **provided, however that** in the event that the Scheduled FX Fixing Date is postponed as a result of the occurrence of an Unscheduled Holiday (a "**Postponed FX Fixing Date**"), and if the Postponed FX Fixing Date has not occurred on or before the thirtieth consecutive calendar day (or such other number of calendar days as may be specified in the relevant Pricing Supplement) after the Scheduled FX Fixing Date (any such period being a "**Deferral Period**"), then the next day after the Deferral Period that is or would have been a Relevant Currency Business Day but for an Unscheduled Holiday, shall be deemed to be the Postponed FX Fixing Date and the Calculation Agent shall determine its good faith estimate of the Relevant Rate on that Postponed FX Fixing Date.

If at any time, a FX Disruption Event occurs, the Issuer, in its sole and absolute discretion, may elect to either:

- (a) having given not less than five days' notice to the Noteholders in accordance with Condition 16 (Notices), redeem all, but not some only, of the Notes at their Early Redemption Amount (and, if the FX Disruption Event occurs on a Scheduled FX Fixing Date on which there is a Price Source Disruption or Unscheduled Holiday, for the purposes of determining such Early Redemption Amount the Calculation Agent shall first determine any Relevant Rate (if required) in accordance with subparagraph (A) or (B), as applicable, of Condition 7(i)) on the date notified to the Noteholders; or
- (b) instruct the Calculation Agent to make such adjustment(s) to the Conditions as it determines to be necessary or desirable to reflect or account for any market practice that develops in respect of the FX Disruption Event,

provided, however that in relation to (A) and (B) above, if as a result of the FX Disruption Event the Issuer is not able to satisfy payments in respect of the Notes when due in the Settlement Currency, the Issuer may settle any such payment pursuant to the provisions of Condition 7(i);

If a Scheduled FX Fixing Date is postponed in accordance with this Condition 7(i), any Related Payment Date will also be postponed, if needed, such that the Related Payment Date shall fall at least three (3) local banking days (or such other number of local banking days as may be specified in the applicable Pricing Supplement) following the postponed Scheduled FX Fixing Date or, if later, the FX Cut-off Date or Postponed FX Fixing Date, as applicable.

in each case subject to Condition 19.5; and

"Valuation Time" means:

- (a) in relation to each Security to be valued or each Index the level of which falls to be determined on any date, the time on such date specified as such in the relevant Pricing Supplement or, if no such time is

specified, the Scheduled Closing Time on the relevant Exchange on such date in relation to such Security or Index, as applicable or such scheduled time as set out in the Index Rules. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time; or

- (b) in relation to a Multiple Exchange Index, (i) for the purposes of determining whether a Market Disruption Event has occurred: (a) in respect of any Component Security, the Scheduled Closing Time on the Exchange in respect of such Component Security, and (b) in respect of any options contracts or future contracts on the Index, the close of trading on the Related Exchange; and (ii) in all other circumstances, the time at which the official closing level of the Index is calculated and published by the Index Sponsor.

19.2 Physical Delivery

In relation to Equity-Linked Notes which are to be redeemed by the delivery of a Securities Transfer Amount, and subject to the other provisions of these Conditions and the relevant Pricing Supplement:

- (a)
 - (i) each Noteholder shall, on or before the date which is five calendar days before the Maturity Date (or such earlier date as the Issuer shall determine is necessary for the Issuer, the Paying Agents, Euroclear France, Euroclear, Clearstream, and/or any other relevant clearing system to perform their respective obligations in relation to the Notes and notify to the Paying Agents and the Noteholders) send to Euroclear France, Euroclear, Clearstream and/or any other relevant clearing system, as the case may be, in accordance with its then applicable operating procedures, and copied to the Principal Paying Agent, a duly completed Transfer Notice.
 - (ii) A Transfer Notice, once delivered to Euroclear France, Euroclear, Clearstream and/or any other relevant clearing system, shall be irrevocable and may not be withdrawn without the consent in writing of the Issuer. A Noteholder may not transfer any Note which is the subject of a Transfer Notice following delivery of such Transfer Notice to Euroclear France, Euroclear, Clearstream and/or any other relevant clearing system. A Transfer Notice shall only be valid to the extent that Euroclear France, Euroclear, Clearstream and/or any other relevant clearing system have not received conflicting prior instructions in respect of the Notes which are the subject of the Transfer Notice.
 - (iii) Failure properly to complete and deliver a Transfer Notice may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided shall be made by the Principal Paying Agent and shall be conclusive and binding on the Issuer and the Noteholder.
 - (iv) The Principal Paying Agent shall promptly on the local banking day following receipt of a Transfer Notice send a copy thereof to the Issuer or such person as the Issuer may previously have specified.
 - (v) Delivery of the Securities will be *via* the relevant clearing system. The delivery or transfer of Securities to each Noteholder is at the relevant Noteholder's risk and if delivery occurs later than the earliest possible date for delivery, no additional amounts will be payable by the Issuer.
 - (vi) the Issuer shall discharge its obligation to redeem the relevant proportion of the Notes by delivering, or procuring the delivery of, the Securities Transfer Amount on the Settlement Date to the clearing system for credit to the account with the clearing system specified in the Transfer Notice of the relevant Noteholder.

- (vii) The amount of Securities to be delivered to or for the account of each Noteholder shall be an amount of Securities equal to the number of Notes in respect of which such Noteholder is the holder as specified in the relevant Transfer Notice multiplied by the Securities Transfer Amount *provided, however, that* if a Noteholder would become entitled to a number of Securities which is not equal to a board lot of the Securities at such time, as determined by the Calculation Agent, or an integral multiple thereof, then the Noteholder's entitlement to delivery of Securities shall be rounded down to the nearest whole Security.
 - (viii) In relation to each Noteholder, the Calculation Agent shall calculate the Residual Amount and the Residual Cash Amount. The Residual Cash Amount shall be paid by the Issuer to the relevant Noteholder on the Settlement Date.
 - (ix) Each Noteholder shall be required as a condition of its entitlement to delivery of Securities in respect of any Notes to pay all Transfer Expenses in respect of such Notes.
 - (x) After delivery to or for the account of a Noteholder of the relevant Securities Transfer Amount and for such period of time as the transferor or its agent or nominee shall continue to be registered in any clearing system as the owner of the Securities comprised in such Securities Transfer Amount (the "**Intervening Period**"), none of such transferor or any agent or nominee for the Issuer or such transferor shall (i) be under any obligation to deliver to such Noteholder or any other person any letter, certificate, notice, circular, dividend or any other document or payment whatsoever received by the Issuer or such transferor, agent or nominee in its capacity as holder of such Securities, (ii) be under any obligation to exercise any rights (including voting rights) attaching to such Securities during the Intervening Period, or (iii) be under any liability to such Noteholder or any other person in respect of any loss or damage which the Noteholder or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or such transferor, agent or nominee being registered in such clearing system during such Intervening Period as legal owner of such Securities.
 - (xi) All dividends on Securities to be delivered will be payable to the party that would receive such dividends according to market practice for a sale of the Securities executed on the Notional Sale Date to be delivered in the same manner as such Securities. Any such dividends will be paid to or for credit to the account specified by the Noteholder in the relevant Transfer Notice. No right to dividends on the Securities will accrue to Noteholders prior to the Notional Sale Date.
- (b) the Calculation Agent shall determine whether or not at any time a Settlement Disruption Event has occurred and where it determines such an event has occurred and so has prevented delivery of Securities on the original day that but for such Settlement Disruption Event would have been the Settlement Date, then the Settlement Date will be the first succeeding day on which delivery of such Securities can take place through the relevant clearing system unless a Settlement Disruption Event prevents settlement on each of the eight relevant Clearing System Business Days immediately following the original date (or during such other period (the "**Disruption Period**") specified in the relevant Pricing Supplement) that, but for the Settlement Disruption Event, would have been the Settlement Date. In that case, if the Securities are debt securities, the Issuer shall use reasonable efforts to deliver such Securities promptly thereafter in a commercially reasonable manner (as determined by the Calculation Agent) outside the clearing system and in all other cases (a) if such Securities can be delivered in any other commercially reasonable manner (as determined by the Calculation Agent), then the Settlement Date will be the first Business Day on which settlement of a sale of Securities executed on that eighth relevant Clearing System Business Day, or during such other period specified in the relevant Pricing Supplement, customarily would take place using such other commercially reasonable manner (as determined by the Calculation Agent) of delivery (which other manner of delivery will be deemed the relevant clearing system for the purposes of delivery of

the relevant Securities), and (b) if such Securities cannot be delivered in any other commercially reasonable manner (as determined by the Calculation Agent), then the Settlement Date will be postponed until delivery can be effected through the relevant clearing system or in any other commercially reasonable manner.

For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Securities comprised in a basket, the Settlement Date for Securities not affected by the Settlement Disruption Event will be the first day on which settlement of a sale of such Securities executed on the Maturity Date customarily would take place through the relevant clearing system.

- (c) if the Calculation Agent determines that a Delivery Disruption Event has occurred, it shall notify the Issuer who shall promptly notify the relevant Noteholder(s) and the Issuer may then:
- (i) determine that the obligation to deliver the relevant Securities Transfer Amount will be terminated and the Issuer will pay such amount as in the opinion of the Calculation Agent (such opinion to be made in a commercially reasonable manner) is fair in the circumstances by way of compensation for the non-delivery of the Securities Transfer Amount, in which event the entitlements of the respective Noteholder(s) to receive the relevant Securities Transfer Amount shall cease and the Issuer's obligations under the Notes shall be satisfied in full upon payment of such amount; or
 - (ii) deliver on the Settlement Date such amount of the Securities Transfer Amount (if any) as it can deliver on that date and pay such amount as in the opinion of the Calculation Agent (such opinion to be made in a commercially reasonable manner) is fair in the circumstances by way of compensation for the non-delivery of the remainder of the Securities Transfer Amount, in which event the entitlements of the respective Noteholder(s) to receive the relevant Securities Transfer Amount shall cease and the Issuer's obligations under the Notes shall be satisfied in full upon payment of such amount.

Where this Condition 19.2(c) fails to be applied, insofar as the Calculation Agent determines to be practical, the same shall be applied as between the Noteholders on a *pro rata* basis, but subject to such rounding down (whether of the amount of a payment or of a number of Securities to be delivered) and also to such other adjustments as the Calculation Agent determines to be appropriate to give practical effect to such provisions.

19.3 Automatic Early Redemption

This Condition 19.3 is applicable only to Automatic Early Redemption Notes.

If on any Automatic Early Redemption Valuation Date, the Automatic Early Redemption Event occurs, then unless previously redeemed or purchased and cancelled, the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date, together with any interest accrued but unpaid thereon to the Automatic Early Redemption Date (unless otherwise specified in the relevant Pricing Supplement) immediately following such Automatic Early Redemption Valuation Date and the Redemption Amount payable by the Issuer on such date upon redemption of each Note shall be an amount in the relevant currency equal to the relevant Automatic Early Redemption Amount.

19.4 Knock-in and Knock-out Provisions

If "Knock-in Event" or "Knock-out Event" is specified as applicable in the Pricing Supplement in relation to any Equity-Linked Note or Index-Linked Note, then each payment and/or delivery in respect of which a Knock-in Event or Knock-out Event (respectively) applies, as specified in the relevant Pricing Supplement, shall be conditional upon the occurrence of such Knock-in Event or Knock-out Event (respectively).

19.5 Consequences of Disrupted Days

For the purposes of this Condition 19.5 "**Limit Valuation Date**" shall mean, if any Valuation Date in respect of a Note is a Disrupted Day, the eighth Scheduled Trading Day following such Valuation Date, notwithstanding the Market Disruption Event, *provided that*:

- (a) if, as a result of the foregoing, the Valuation Date would be deemed to fall less than five (5) local banking days prior to the Maturity Date, a relevant Interest Payment Date or (as the case may be) any due date for payment of any amount due in respect of such Note, the Limit Valuation Date shall be deemed to fall on the day which is five (5) local banking days prior to the Maturity Date, such Interest Payment Date or (as the case may be) due date for payment of any amount due in respect of such Note or, if such local banking day is not a Scheduled Trading Day, the immediately preceding Scheduled Trading Day; and
- (b) if the Scheduled Valuation Date falls on a day which is five (5) local banking days or less prior to the Maturity Date, a relevant Interest Payment Date or (as the case may be) any due date for payment of any amount due in respect of such Note, the Limit Valuation Date shall be deemed to be such Scheduled Valuation Date,

in each case notwithstanding the fact that such day is a Disrupted Day.

- (c) If any Valuation Date is a Disrupted Day, then:
 - (i) in the case of a Note which relates to a single Security or Index, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, provided that the Valuation Date shall not fall after the Limit Valuation Date. In that case:
 - (A) in respect of an Index-Linked Note, the Calculation Agent shall determine that either:
 - I. the Valuation Date shall be the Limit Valuation Date; or
 - II. the Valuation Date shall be the first (1st) succeeding Exchange Business Day on which there is no Market Disruption Event,and, in the case of 19.5(c)(i)(A)I above, the Calculation Agent shall determine the level of the Index as of the Valuation Time on the Limit Valuation Date determined in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the Limit Valuation Date of each security or other property comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security or other property on the Limit Valuation Date, its good faith estimate of the value for the relevant security or other property as of the Valuation Time on the Limit Valuation Date); and
 - (B) in respect of an Equity-Linked Note, the Limit Valuation Date shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day and the Calculation Agent shall determine its good faith estimate of the value for the relevant Security as of the Valuation Time on that Limit Valuation Date;
- (ii) in the case of a Note which relates to a basket of Indices and/or Securities, the Valuation Date for each Index not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date and the Valuation Date for each Index affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day which is not a

Disrupted Day relating to that Index, unless each of the succeeding Scheduled Trading Days up to and including the Limit Valuation Date is a Disrupted Day relating to that Index. In that case, the Calculation Agent shall determine that either:

- (A) the Limit Valuation Date shall be the Valuation Date for the relevant Index notwithstanding the fact that such day is Disrupted Day relating to that Index; or
- (B) the Valuation Date shall be the first (1st) succeeding Scheduled Trading Day which is not a Disrupted Day relating to that Index,

and, in the case of 19.5(c)(ii)(A) above, the Calculation Agent shall determine the level of that Index, as of the Valuation Time on the Limit Valuation Date in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the Limit Valuation Date of each security or other property comprised in the relevant Index (or, if an event giving rise to a Disrupted Day has occurred in respect to the relevant security or other property on the Limit Valuation Date, its good faith estimate of the value for the relevant security or other property as of the Valuation Time on the Limit Valuation Date); and

- (iii) in the case of a Note which, in each case, relates to a basket of Indices and/or Securities, the Valuation Date for each Security not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and the Valuation Date for each Security affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to that Security, unless each of the Scheduled Trading Days (up to and including the Limit Valuation Date) immediately following the Scheduled Valuation Date is a Disrupted Day relating to that Security. In that case, (1) the Limit Valuation Date shall be deemed to be the Valuation Date for the relevant Security, notwithstanding the fact that such day is a Disrupted Day, and (2) the Calculation Agent shall determine its good faith estimate of the value for that Security as of the Valuation Time on the Limit Valuation Date.
- (d) If Averaging Dates are specified in the relevant Pricing Supplement, then notwithstanding any other provisions of these Conditions, the following provisions will apply to the valuation of the relevant Index or Security:
 - (i) The Final Price or Final Index Level will be, in relation to any Valuation Date:
 - (A) in respect of a Note settled by way of Cash Settlement which relates to a single Security or Index (as the case may be), the arithmetic mean of the Reference Price of the Security or (as the case may be) of the Reference Level of the Index on each Averaging Date;
 - (B) in respect of an Index-Linked Note settled by way of Cash Settlement which, in each case, relates to a basket of Indices, the arithmetic mean of the amounts for such basket determined by the Calculation Agent as provided in the relevant Pricing Supplement as of the relevant Valuation Time(s) on each Averaging Date or, if no means for determining the Final Index Level is so provided, the arithmetic mean of the amounts for such basket calculated on each Averaging Date as the sum of the Reference Level of each Index comprised in such basket (weighted or adjusted in relation to each Index as provided in the relevant Pricing Supplement); and
 - (C) in respect of an Equity-Linked Note settled by way of Cash Settlement which relates to a basket of Securities, the arithmetic mean of the prices for such basket determined by the Calculation Agent as provided in the relevant Pricing

Supplement as of the relevant Valuation Time(s) on each Averaging Date or, if no means for determining the Final Price is so provided, the arithmetic mean of the prices for such basket calculated on each Averaging Date as the sum of the values calculated for the Securities of each Underlying Company as the product of (aa) the Reference Price of such Security and (bb) the number of such Securities comprised in such basket (weighted or adjusted in relation to each Security as provided in the relevant Pricing Supplement).

(ii) If any Averaging Date is a Disrupted Day, then, if the consequence specified in the relevant Pricing Supplement in relation to "**Averaging Date Market Disruption**" is:

(A) "**Omission**", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Final Price or Final Index Level, as applicable, *provided that*, if through the operation of this provision no Averaging Date would occur with respect to the relevant Valuation Date, then Condition 19.5(a) will apply for purposes of determining the relevant level, price or amount on the final Averaging Date in respect of that Valuation Date as if such final Averaging Date were a Valuation Date that was a Disrupted Day. If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Cash Settlement Payment Date or the relevant Settlement Date, as the case may be, or (ii) the occurrence of an Extraordinary Event or a Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date;

(B) "**Postponement**", then Condition 19.5(c) will apply for purposes of determining the relevant level, price or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date for the relevant Notes. If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Cash Settlement Payment Date or the relevant Settlement Date, as the case may be, or (ii) the occurrence of an Extraordinary Event or a Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date; or

(C) "**Modified Postponement**", then:

I. in the case of a Note which relates to a single Index or Security, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the Limit Valuation Date (as defined below) immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date (the "**Scheduled Final Averaging Date**") in relation to the relevant Scheduled Valuation Date, then:

(a) in respect of an Index-Linked Note, the Calculation Agent shall determine that either:

(i) the Limit Valuation Date shall be deemed to be the Averaging Date, (irrespective of whether that Limit Valuation Date is already an Averaging Date); or

- (ii) the Averaging Date shall be the first succeeding Valid Date,

and, in each case, the Calculation Agent shall determine the relevant level for that Averaging Date in accordance with Condition 19.5(d)(i)(A); and

- (b) in respect of an Equity-Linked Note, the Limit Valuation Date shall be the Averaging Date (irrespective of whether the Limit Valuation Date is already an Averaging Date), and the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with Condition 19.5(d)(i)(B); and

II. in the case of a Note which relates to a basket of Indices and/or Securities, the Averaging Date for each Index or Security not affected by the occurrence of a Disrupted Day shall be the day specified in the relevant Pricing Supplement as an Averaging Date in relation to the relevant Valuation Date (the "**Scheduled Averaging Date**") and the Averaging Date for an Index or Security affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Index or Security. If the first succeeding Valid Date in relation to such Index or Security has not occurred as of the Valuation Time on the Limit Valuation Date immediately following the Scheduled Final Averaging Date, then:

- (a) in respect of an Index-Linked Note, the Calculation Agent shall determine that either:

- (i) the Limit Valuation Date shall be deemed to be the Averaging Date, (irrespective of whether that Limit Valuation Date is already an Averaging Date) in relation to such Index; or

- (ii) the Averaging Date shall be the first succeeding Valid Date,

and, in each case, the Calculation Agent shall determine the relevant level for that Averaging Date in accordance with Condition 19.5(d)(i)(B); and

- (b) in respect of an Equity-Linked Note, the Limit Valuation Date shall be the Averaging Date (irrespective of whether that Limit Valuation Date is already an Averaging Date) in relation to such Security, and the Calculation Agent shall determine the relevant amount for that Averaging Date in accordance with Condition 19.5(d)(i)(C).

If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Cash Settlement Payment Date or Settlement Date, as the case may be, or (ii) the occurrence of an Extraordinary Event or Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date.

For the purposes of this Condition 19.5 only, "**Limit Valuation Date**" shall mean, if any Averaging Date in respect of a Note is a Disrupted Day, the eighth Scheduled Trading Day following such Averaging Date, notwithstanding the fact that such day is a Disrupted Day.

- III. If (1) on or prior to any Averaging Date, in respect of an Index-Linked Note, an Index Modification, Index Cancellation or Index Disruption (each as defined in Condition 19.7(b) occurs, or (2) on any Averaging Date in respect of an Index-Linked Note an Index Disruption Event occurs, then the Calculation Agent shall determine the Final Index Level using, in lieu of a published level of the relevant Index, the level for that Index as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to that change or failure, but using only those securities that comprised that Index immediately prior to that change or failure (other than those securities that have since ceased to be listed on any relevant Exchange).

19.6 Provisions relating to Currency-Linked Notes

All investors and prospective investors in Currency-Linked Notes should refer to the provisions set out in Condition 7(i).

19.7 Adjustments to Indices

This Condition 19.7 is applicable only in relation to Index-Linked Notes other than Inflation Rate-Linked Notes in relation to which Condition 19.8 shall apply.

(a) Successor Index

If a relevant Index is (A) not calculated and announced by the Index Sponsor but is calculated and published by a successor to the Sponsor acceptable to the Calculation Agent, or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that Index (the "**Successor Index**") will be deemed to be the Index.

(b) Index Modification

If on or prior to any Valuation Date, Automatic Early Redemption Valuation Date, a relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation or other routine events) (an "**Index Modification**"), then the Calculation Agent shall determine whether such Index Modification has a material effect on the Notes, and if so, shall make such adjustment(s) (if any) as it determines appropriate to account for the economic effect of the Index Modification and determine the effective date of any such modification or adjustment.

(c) Index Cancellation

If on or prior to any Valuation Date, Automatic Early Redemption Valuation Date (A) the Index Sponsor fails to calculate and announce a relevant Index, (B) the Index Sponsor announces that it suspends the calculation and publication of the level of a relevant Index, or (C) the Index Sponsor permanently cancels the Index and no Successor Index exists (each an "**Index Cancellation**"), then:

- (i) the Issuer shall as soon as is reasonably practicable after determining the same give notice (an "**Index Cancellation Notice**") of such Index Cancellation to the Noteholders (with a copy to the Calculation Agent) in accordance with Condition 16;
- (ii) if Index Substitution is specified as being applicable in the relevant Pricing Supplement, the Issuer shall (acting in good faith and a commercially reasonable manner), determine whether or not and the date as of which the Index is to be substituted with a Substitute Index and, if it so determines, it shall give an Index Substitution Notice to the Noteholders (with a copy to the Calculation Agent) in accordance with Condition 16 and, with effect from the date so determined, the Substitute Index shall be deemed to be the Index; and
- (iii) if no Substitute Index has been identified within ten Business Days of the giving of such Index Cancellation Notice or if Index Substitution has not been specified as being applicable in the relevant Pricing Supplement, the Issuer shall (acting in good faith and a commercially reasonable manner), determine whether or not the relevant Notes shall continue and:
 - (A) if it determines that the Notes shall continue, then the Calculation Agent shall determine the Final Index Level for such Valuation Date using, in lieu of a published level of that Index, the level for that Index as at that Valuation Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the Index Cancellation, but using only those components that comprised that Index immediately prior to that Index Cancellation; and
 - (B) if it determines that the Notes shall not continue, the Issuer shall terminate the relevant Notes as of the date selected by the Issuer and give notice thereof to the Noteholders (with a copy to the Calculation Agent) in accordance with Condition 16, specifying the early redemption amount and early redemption date, and the entitlements of the relevant Noteholders to receive the Final Redemption Amount (or any other payment to be made by the Issuer, as the case may be) shall cease and the Issuer's obligations under the relevant Notes shall be satisfied in full upon payment of such amount as is determined by the Calculation Agent to be the fair market value of the Notes immediately prior (and ignoring the circumstances leading) to such early redemption, adjusted to account fully for any reasonable expenses, costs or proceeds, as the case may be, to the Issuer and/or any affiliate of the Issuer of unwinding any underlying and/or related hedging and funding arrangements.

For these purposes:

"Index Substitution Notice" means a notice specifying a Substitute Index to be substituted for the Index and the date as of which such substitution is to take effect; and

"Substitute Index" means a successor index identified by the Calculation Agent using commercially reasonable efforts, with characteristics, objectives and rules similar to the Index in effect immediately prior to the occurrence of the Index Cancellation.

(d) Correction of Index Levels

If the level of an Index published by the Index Sponsor at any time and used or to be used by the Calculation Agent for any calculation or determination under the Notes is subsequently corrected and the correction is published by the Index Sponsor after the original publication, the Calculation Agent will make such adjustment as it determines to be appropriate, if any, to the settlement or payment terms of the Notes to account for such correction *provided that* if any amount has been paid in an

amount which exceeds the amount that would have been payable if the correction had been taken into account, no further amount in an amount at least equal to the excess is payable in respect of the Notes and the Calculation Agent determines that it is not practicable to make such an adjustment to account fully for such correction, the Issuer shall be entitled to reimbursement of the relevant excess payment (or, as the case may be, the proportion thereof not accounted for by an adjustment made by the Calculation Agent) by the relevant Noteholder, together with interest on that amount for the period from and including the day on which payment was originally made to (but excluding) the day of payment of reimbursement by the Noteholder (all as calculated by the Calculation Agent). Any such reimbursement shall be effected in such manner as the Issuer shall determine.

19.8 Adjustments to Indices for Inflation Rate-Linked Notes

With respect to Inflation Rate-Linked Notes, the following provisions shall apply in lieu of Condition 19.7:

(a) Definitions

In this Condition:

"**Affected Payment Date**" has the meaning given in (b) below;

"**Fallback Bond**" means a bond selected by the Calculation Agent and issued by the government or one of the governments (but not any government agency) of the country (or countries) to whose level of inflation the relevant Index relates and which pays a coupon and/or redemption amount which is calculated by reference to the level of inflation in such country (or countries), with a maturity date which falls on the same day as the Maturity Date or the Settlement Date, as the case may be, or such other date as the Calculation Agent shall select if there is no such bond maturing on the Maturity Date or Settlement Date, as the case may be. If any bond so selected is redeemed, the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond is redeemed (including any bond for which the redeemed bond is exchanged);

"**Reference Month**" means the calendar month for which the level of the Index was reported, regardless of when this information is published or announced. If the period for which level of the Index was reported is a period other than a month, the Reference Month is the period for which the level of the Index was reported;

"**Related Bond**" means, if specified as applicable in the relevant Pricing Supplement, means the bond specified as such in the relevant Pricing Supplement or, if specified as applicable in the relevant Pricing Supplement and no bond is specified therein, the Fallback Bond, and the Calculation Agent shall use the Fallback Bond for any Related Bond determination; and

"**Substitute Index Level**" means the level of the Index, determined by the Calculation Agent pursuant to (c) below, in respect of an Affected Payment Date.

(b) Delay of Publication

If any level of the Index for a Reference Month relevant to the calculation of a payment of interest has not been published or announced by the day that is five Business Days prior to the relevant Interest Payment Date, Automatic Early Redemption Date, Instalment Date, Optional Redemption Date (Call Option), Optional Redemption Date (Put Option), other early redemption date or Maturity Date, as the case may be (the "**Affected Payment Date**"), the Calculation Agent shall determine the relevant level of the Index using the following methodology:

- (i) If Related Bond is specified as applicable in the relevant Pricing Supplement, the Calculation Agent will take the same action to determine the Substitute Index Level for the Affected Payment Date as that taken by the calculation agent pursuant to the terms and conditions of the Related Bond;
- (ii) If (A) Related Bond is specified as not applicable in the relevant Pricing Supplement; or (B) the Calculation Agent is unable to determine the Substitute Index Level under (i) above for any reason, then the Calculation Agent shall determine the Substitute Index Level as follows:

$$\text{Substitute Index Level} = \text{Base Level} \times (\text{Latest Level} / \text{Reference Level})$$

where:

"Base Level" means the level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined;

"Latest Level" means the latest level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the month in respect of which the Substitute Index Level is being calculated; and

"Reference Level" means the level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in "Latest Level" above. For the avoidance of doubt, any Reference Level published or announced at any time after the day that is five Business Days prior to the next Interest Payment Date, Automatic Early Redemption Date, Instalment Date, Optional Redemption Date (Call Option), Optional Redemption Date (Put Option), other early redemption date and/or the Maturity Date, as the case may be, will not be used in any calculations and the Substitute Index Level so determined pursuant to this sub-paragraph (B) will be the definitive level.

(c) Cessation of Publication

If a level for the Index has not been published or announced for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce the Index, then the Calculation Agent shall determine a Successor Index (in lieu of any previously applicable Index) for the purposes of the Notes by using the following methodology:

- (i) If at any time a successor index has been designated by the calculation agent pursuant to the terms and conditions of the Related Bond, such successor index shall be designated a **"Successor Index"** for the purposes of all subsequent determinations of interest payable and/or of an Early Redemption Amount or of the Final Redemption Amount, notwithstanding that any other Successor Index may previously have been determined.
- (ii) If a Successor Index has not been determined under (i) above, and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Index will be superseded by a replacement index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be the Successor Index from the date that such replacement Index comes into effect.

- (iii) If a Successor Index has not been determined under (i) or (ii) above, the Calculation Agent will determine an appropriate alternative index for such Affected Payment Date, and such index will be deemed a "Successor Index".
- (iv) If the Calculation Agent determines that there is no appropriate alternative index, then the Notes shall be redeemed on the date selected by the Calculation Agent and the entitlements of the relevant Noteholders to receive any remaining payments of interest and the relevant Early Redemption Amount or the Final Redemption Amount (as applicable) shall cease and the Issuer's obligations under the relevant Notes shall be satisfied in full upon payment of such amount as in the opinion of the Calculation Agent is fair in the circumstances by way of compensation for the early redemption of the Notes.

(d) **Rebasing of the Index**

- (a) the Final Valuation Date, then the Calculation Agent may, acting in good faith and in a commercially reasonable manner, postpone the Final Valuation Date in relation to such relevant Reference Fund Unit until the earlier of (i) the first Reference Fund Valuation Day on which the Calculation Agent determines that any one or more Reference Fund Disruption Events are no longer continuing, or (ii) Cut-off Final Valuation Date. If a Reference Fund Disruption Event continues on such Cut-off Final Valuation Date, the Calculation Agent shall determine the Reference Fund Unit Value for such Cut-off Final Valuation Date acting in good faith and in a commercially reasonable manner;
- (b) any Averaging Date, then the Calculation Agent may, acting in good faith and in a commercially reasonable manner, if the consequence specified in the relevant Pricing Supplement in relation to Averaging Date Disruption is:
 - (i) **"Omission"**, deem such Averaging Date not to be a relevant Averaging Date for purposes of determining the Final Value of any Reference Fund Unit, **provided that**, if through the operation of this provision no Averaging Date would occur, then Condition 21.2(a) will apply for purposes of determining the relevant Reference Fund Unit Value on the final Averaging Date as if such final Averaging Date were the Final Valuation Date;
 - (ii) **"Postponement"**, determine that Condition 21.2(a) shall apply for purposes of determining the relevant Reference Fund Unit Value as if such Averaging Date were the Final Valuation Date irrespective of whether, pursuant to such determination, that deferred Averaging Date

would fall on a day that already is or is deemed to be an Averaging Date for the relevant Notes; or

- (iii) "**Modified Postponement**", then:
- (A) in the case of a Fund-Linked Note which relates to a single Reference Fund, determine that the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Cut-off Final Valuation Date then the Cut-off Final Valuation Date shall be deemed to be the Averaging Date, notwithstanding the fact that a Reference Fund Disruption occurs or is continuing on such day (irrespective of whether that Cut-off Final Valuation Date is already an Averaging Date) and the Calculation Agent shall determine the Reference Fund Unit Value for that Averaging Date in accordance with Condition 21.2(a); and
- (B) in the case of a Fund Basket-Linked Note, the Averaging Date for each Reference Fund in respect of which no Reference Fund Disruption Event has occurred or is continuing shall be the day specified in the relevant Pricing Supplement as an Averaging Date and the Averaging Date for a Reference Fund affected by the occurrence of a Reference Fund Disruption Event shall be the first succeeding Valid Date in relation to such Reference Fund. If the first succeeding Valid Date in relation to such Reference Fund has not occurred as of Cut-off Final Valuation Date, then the Cut-off Final Valuation Date shall be deemed to be the Averaging Date (irrespective of whether that Cut-off Final Valuation Date is already an Averaging Date) and the Calculation Agent shall determine the relevant Reference Fund Unit Value for that Averaging Date in accordance with Condition 21.2(a).

If any Averaging Date in relation to the Final Valuation Date occurs after the Final Valuation Date as a result of the occurrence of a Reference Fund Disruption Event, then (i) the Redemption Calculation Date, Maturity Date, an Optional Redemption Date (Call Option), an Optional Redemption Date (Put Option) or other early redemption date, as the case may be, or (ii) the occurrence of an Extraordinary Fund Event, Merger Event or Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Final Valuation Date.

If a Final Valuation Date is postponed pursuant to this Condition 21.2 (*Occurrence of a Reference Fund Disruption Event*), the Scheduled FX Fixing Date in respect of the Final Valuation Date shall, in the Calculation Agent's discretion, be postponed to the Final Valuation Date as postponed, provided that, if the postponed Scheduled FX Fixing Date would, as a result of this paragraph, occur on a day which is not a Relevant Currency Business Day, it will be postponed to the immediately following Relevant Currency Business Day, and provided further that, the Scheduled FX Fixing Date is subject to Condition 7(i) (*Price Source Disruption and FX Disruption*).

If a Final Valuation Date is postponed in accordance with this Condition 21.2 (*Occurrence of a Reference Fund Disruption Event*), any Reference Fund Disrupted Day Related Payment Date will also be postponed, if needed, such that the Reference Fund Disrupted Day Related Payment Date shall fall at least three (3) local banking days (or such other number of local banking days as may be specified in the Pricing Supplement) following the later of (i) the postponed Final Valuation Date or, if later, the Cut-off Final Valuation Date, as applicable and (ii) the postponed Scheduled FX Fixing Date or, if later, the FX Cut-off Date or Postponed FX Fixing Date, as applicable.

Unless Reference Fund Disruption Interest Adjustment is specified in the relevant Pricing Supplement as being applicable, no further payment on account of interest or otherwise shall be due in respect of any payment postponed pursuant to this Condition 21.2 (*Occurrence of a Reference Fund Disruption Event*) (so that, for the avoidance of doubt, any interest payable in respect of the Notes on a Reference Fund Disrupted Day Related Payment Date which is so postponed shall be calculated as if such

Reference Fund Disrupted Day Related Payment Date had not been postponed pursuant to this Condition 21.2).

21.3 Effect of Reference Fund Events

Following the occurrence of a Reference Fund Event, the Calculation Agent may, acting in good faith and in a commercially reasonable manner, either:

- (a) designate a date as an early redemption date (the "**Early Redemption Date**") and the Noteholders will receive the Early Redemption Amount on such designated Early Redemption Date (the "**Original Early Redemption Date**"), provided that if the Calculation Agent determines, in its sole discretion, that a Hypothetical Investor would experience a delay in receiving all of the relevant redemption proceeds assuming it had submitted a timely notice for the redemption of its fund holdings in respect of the Original Early Redemption Date (or any earlier date designated by the Calculation Agent), then the Early Redemption Date shall occur 10 Relevant Financial Centre Days after the earlier of (A) the date on which a Hypothetical Investor would have received all relevant redemption proceeds and (B) the Cut-Off Date; or
- (b) make any temporary or permanent adjustments to any of the following:
 - (i) any relevant Reference Fund (including a substitution of such Reference Fund);
 - (ii) any relevant Reference Fund Unit;
 - (iii) any relevant Reference Fund Unit Values; and/or
 - (iv) any other terms of the Notes as the Calculation Agent determines appropriate

and it shall determine the time as of which any such adjustments become effective;

in respect of a Merger Event, where consideration for the relevant Reference Fund Units of the relevant Reference Fund consists solely of units of a fund in which the Hypothetical Investor could invest (the "**New Units**"), references to a Reference Fund Unit of the relevant Reference Fund shall be replaced by references to the number of New Units to which a holder of a Reference Fund Unit would be entitled upon consummation of the Merger Event and the New Units and their issuer will be deemed to be the Reference Fund Units and the Reference Fund, respectively, and, if necessary, the Calculation Agent will make adjustments to the relevant Reference Fund Unit Value and/or any other terms of the Notes in such manner as it considers appropriate; or

in respect of any Reference Fund Event occurring or subsisting on the Final Valuation Date or the Final Averaging Date (as applicable), the Calculation Agent may determine the Final Redemption Amount. In doing so, it may take into account the redemption proceeds (if any) which a Hypothetical Investor would have received by not later than the Cut-off Date assuming that it had submitted a timely notice for redemption of all relevant fund holdings in respect of the Final Valuation Date.

21.4 Early Redemption Amount on Early Redemption by Issuer

With respect to any Early Redemption Date designated by the Issuer upon the occurrence of a Reference Fund Event, the amount payable on such Early Redemption Date (the "**Early Redemption Amount**") shall be the Fair Market Value of the Notes immediately prior to the date on which such early redemption occurs. When determining the Early Redemption Amount, the Calculation Agent may take into account the redemption proceeds (if any) which a Hypothetical Investor would have received by not later than the Cut-off Date assuming that it had submitted a timely notice for redemption of all relevant fund holdings in respect of the Original Early Redemption Date (or any earlier date designated by the Calculation Agent).

ADDITIONAL TERMS AND CONDITIONS RELATING TO CREDIT-LINKED NOTES

The section headed "*Terms and Conditions of the Notes*" of this Offering Memorandum shall be supplemented and modified by the following "*Additional Terms and Conditions Relating to Credit-Linked Notes*" (the "**Credit Linked Conditions**") and, together with the Terms and Conditions of the Notes, the "**Base Conditions**") in respect of any issue of Credit-Linked Notes as amended or supplemented by the terms of each Tranche of Notes set out in the relevant Pricing Supplement. In the event of any inconsistency between the "*Terms and Conditions of the Notes*" and the "*Additional Terms and Conditions Relating to Credit-Linked Notes*", such "*Additional Terms and Conditions Relating to Credit-Linked Notes*" shall prevail and the "*Terms and Conditions of the Notes*" shall be amended accordingly.

Unless otherwise stated in these Credit Linked Conditions or in the relevant Pricing Supplement, in the event that any day specified in the section "*Credit Linked Redemption*" in the relevant Pricing Supplement or the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such day or last day shall be subject to adjustment in accordance with the applicable Business Day Convention.

In the case of Credit-Linked Notes for which more than one Reference Entity is specified in the relevant Pricing Supplement, all references to "the Reference Entity" herein shall be construed to refer to the Reference Entity in respect of which the relevant determination falls to be made at any relevant time and all related provisions and determinations will be construed accordingly. In addition, where an event, date, determination or circumstance relates to a Reference Entity and Business Centre(s) are specified in relation to that Reference Entity, only those Business Centre(s) specified in relation to that Reference Entity will be deemed to apply for the purposes of the definition of "Business Day" in relation thereto and otherwise all of the Business Centre(s) specified in the relevant Pricing Supplement (including those for all Reference Entities) will apply for the purposes of the definition of "Business Day".

For the avoidance of doubt no Credit-Linked Notes will be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (a) any relevant Reference Entity does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (b) Obligations, Deliverable Obligations, Valuation Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

Any references in these Credit Linked Conditions to ISDA will include any other entity which succeeds to or is performing functions previously undertaken by ISDA in relation to Credit Derivatives Determinations Committees and references to Credit Derivatives Determinations Committees in relation to ISDA will include any successor thereto and the Calculation Agent may make such adjustments to these Credit Linked Conditions and the relevant Pricing Supplement as it determines appropriate to account for the application of these provisions.

For the avoidance of doubt, the application of any of Credit Linked Conditions 9, 10, 11, 12 or 14 below shall not preclude the application of any other such Credit Linked Condition either contemporaneously or subsequently and in the event that any such Credit Linked Conditions are inconsistent or the Calculation Agent becomes entitled to exercise a discretion under one or more of such Credit Linked Conditions, the Calculation Agent may elect in its discretion which Credit Linked Condition shall apply and under which Credit Linked Condition or Credit Linked Conditions it shall exercise its discretion.

Credit-Linked Notes may take the form of Single Reference Entity Credit-Linked Notes or Basket Credit-Linked Notes (which may be Index Basket Credit-Linked Notes). The Settlement Method for Credit-Linked Notes may be Auction Settlement, Physical Settlement, Cash Settlement (for which purposes the Final Price will be fixed) or Zero Recovery and Credit Event Maturity Settlement may apply to Credit-Linked Notes where the Settlement Method is Auction Settlement or Cash Settlement. The relevant Pricing Supplement shall specify (depending upon the particular Credit-Linked Notes), amongst other things:

- (a) the type of Credit-Linked Notes;

- (b) the Settlement Method and (if applicable) the Final Price and whether Credit Event Maturity Settlement applies;
- (c) the Reference Entity or Reference Entities in respect of which a Credit Event may occur;
- (d) the Reference Obligation(s) (if any) in respect of each Reference Entity;
- (e) the Trade Date and the Scheduled Maturity Date; and
- (f) the Reference Entity Notional Amount in respect of each Reference Entity.

1. Redemption of Credit-Linked Notes

- (a) Unless previously redeemed or purchased and cancelled and subject as provided in Credit Linked Condition 2, Credit Linked Condition 3, Credit Linked Condition 4, Credit Linked Condition 5 and Credit Linked Condition 6, the Issuer shall redeem each Credit-Linked Note on the Maturity Date by payment of the Final Redemption Amount. The Final Redemption Amount will be rounded to the nearest sub-unit of the Settlement Currency (half a sub-unit being rounded upwards).

In the case of Instalment Notes, subject as provided in Credit Linked Condition 2, Credit Linked Condition 3, Credit Linked Condition 4 or Credit Linked Condition 5, as applicable, the Issuer shall redeem each Credit-Linked Note by such number of instalments and by payment of such amounts ("**Instalment Amounts**") as may be specified in, or determined herein or in accordance with the provisions of, the relevant Pricing Supplement.

Following any partial redemption of a Note, references to a nominal amount of Credit-Linked Notes (or Notes) equal to the Specified Denomination shall be deemed to be to a nominal amount which as of the Issue Date had a nominal amount equal to the Specified Denomination.

If a Credit Event Determination Date has occurred in respect of any Reference Entity, the Issuer shall redeem each Credit-Linked Note as described below.

References in these Credit Linked Conditions to a Credit-Linked Note or Note are to a nominal amount of Credit-Linked Notes equal to the Specified Denomination (subject as provided above). Any payment of a "*pro rata*" amount in respect of a Note will be determined by reference to its nominal amount relative to the then aggregate nominal amount of Notes. For the avoidance of doubt, Condition 6.1 (*Final Redemption*) will not apply.

- (b) Where the Notes are Single Reference Entity Credit-Linked Notes, if a Credit Event Determination Date has occurred in relation to the Reference Entity, then the Notes will be settled in accordance with Credit Linked Condition 2, Credit Linked Condition 3, Credit Linked Condition 4 or Credit Linked Condition 5, as applicable.
- (c) Where the Notes are Basket Credit-Linked Notes, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity, then the provisions of Credit Linked Condition 6 will apply.
- (d) Where any Credit Event Redemption Amount is or would be zero then, other than for the payment of accrued interest (if any) or any other due but unpaid amounts, the Notes will be cancelled as of the Credit Event Redemption Date with no payment being due other than any final amount of accrued interest or any other due but unpaid amounts. The Issuer will have no further obligations in respect of the Credit-Linked Notes.
- (e) If any purchase and cancellation of Notes occurs under Credit Linked Condition 26 or any further issue under Condition 15.1 (*Further Issues*), the Calculation Agent will make such adjustments to the relevant Pricing Supplement and/or these Credit Linked Conditions as it determines appropriate (including Reference Entity

Notional Amounts and/or the Original Notional Amount, as applicable) to ensure the Notes continue to reflect economic intentions.

2. Auction Settlement

- (a) Where (i) Auction Settlement is specified as the applicable Settlement Method in the relevant Pricing Supplement for Single Reference Entity Credit-Linked Notes and a Credit Event Determination Date occurs on or prior to the Auction Final Price Determination Date or (ii) Credit Linked Condition 4 applies and the Issuer does not give a Notice of Physical Settlement, the Issuer shall give notice (such notice an "**Auction Settlement Notice**") to the Noteholders in accordance with Condition 16 (*Notices*), and, subject to these Credit Linked Conditions, in particular Credit Linked Condition 1, redeem all but not some only of the Credit-Linked Notes, each Credit-Linked Note being redeemed by the Issuer at the Credit Event Redemption Amount on the Credit Event Redemption Date. Any delay in the delivery of an Auction Settlement Notice or failure by the Issuer to deliver an Auction Settlement Notice shall not affect the validity of a Credit Event Determination Date.
- (b) Unless settlement has occurred in accordance with the paragraph above, if:
- (i) an Auction Cancellation Date occurs;
 - (ii) a No Auction Announcement Date occurs (and in circumstances where such No Auction Announcement Date occurs pursuant to paragraphs (b) or (c)(ii) of the definition of No Auction Announcement Date, the Issuer has not exercised the Movement Option);
 - (iii) a DC Credit Event Question Dismissal occurs;
 - (iv) a Credit Event Determination Date was determined pursuant to paragraph (a)(i) of the definition of Credit Event Determination Date or paragraph (a) of the definition of Non-Standard Credit Event Determination Date and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Credit Event Determination Date; or
 - (v) the Calculation Agent determines that it is otherwise reasonably likely that the Reference Transaction would be settled in accordance with the Fallback Settlement Method and gives notice of such to the Issuer (the date on which the Calculation Agent gives such notice, the "**Calculation Agent Fallback Settlement Determination Date**"),

then the Issuer shall redeem the Credit-Linked Notes in accordance with Credit Linked Condition 3 below.

If a Credit Event Determination Date has occurred and the Notes become redeemable in accordance with this Credit Linked Condition 2, upon payment of the Credit Event Redemption Amounts in respect of the Notes, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the nominal amount of a Credit-Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer.

3. Cash Settlement

If a Credit Event Determination Date has occurred and (i) Cash Settlement is specified as the applicable Settlement Method in the relevant Pricing Supplement for Single Reference Credit-Linked Notes or (ii) Credit Linked Condition 2(b) above applies, the Issuer shall give notice (such notice a "**Cash Settlement Notice**") to the Noteholders in accordance with Condition 16 (*Notices*), and, subject to these Credit Linked Conditions, in particular Credit Linked Condition 1, redeem all but not some only of the Credit-Linked Notes, each Credit-Linked Note being redeemed by the Issuer at the Credit Event Redemption Amount on the Credit Event Redemption Date. Any delay in the delivery of a Cash Settlement Notice or failure by the Issuer to deliver a Cash Settlement Notice shall not affect the validity of a Credit Event Determination Date.

If a Credit Event Determination Date has occurred and the Notes become redeemable in accordance with this Credit Linked Condition 3, upon payment of the Credit Event Redemption Amounts in respect of the Notes, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the nominal amount of a Credit-Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer.

4. **Physical Settlement**

If a Credit Event Determination Date has occurred, then where Physical Settlement is specified as the applicable Settlement Method in the relevant Pricing Supplement for Single Reference Entity Credit-Linked Notes, the Issuer shall give notice (such notice a "**Notice of Physical Settlement**") to the Noteholders in accordance with Condition 16 (*Notices*), and, subject to these Credit Linked Conditions, in particular Credit Linked Condition 1, redeem all but not some only of the Credit-Linked Notes, each Credit-Linked Note being redeemed by the Issuer by the Delivery of the Deliverable Obligations comprising the Entitlement on or prior to the Credit Settlement Date, subject to and in accordance with the Conditions and these Credit Linked Conditions, unless in the determination of the Issuer in its sole and absolute discretion in its opinion (i) it would not have any Deliverable Obligations to so Deliver or (ii) all of the Deliverable Obligations would be Undeliverable Obligations, in which case the provisions of Credit Linked Condition 2 above shall apply as if Auction Settlement were thereafter specified as the applicable Settlement Method in the relevant Pricing Supplement and these Credit Linked Conditions and the relevant Pricing Supplement will be construed accordingly and the Issuer shall redeem the Credit-Linked Notes in accordance with Credit Linked Condition 2. Any delay in the delivery of a Notice of Physical Settlement or failure by the Issuer to deliver a Notice of Physical Settlement shall not affect the validity of a Credit Event Determination Date.

In the Notice of Physical Settlement, the Issuer shall specify the Deliverable Obligations comprising the Entitlement that it reasonably expects to Deliver and the Outstanding Principal Balance or Due and Payable Amount, as applicable, or the equivalent amount in the Credit Settlement Currency (in each case the relevant "**Outstanding Amount**") and, if different, the face amount, of each such Deliverable Obligation and the aggregate Outstanding Amount of such Deliverable Obligations (the "**Aggregate Outstanding Amount**"). For the avoidance of doubt, the Issuer shall be entitled to select any of the Deliverable Obligations to constitute the Entitlement, irrespective of their market value.

The Issuer may, from time to time, amend a Notice of Physical Settlement by delivering a notice to Noteholders in accordance with Condition 16 (*Notices*), (each such notification, a "**Physical Settlement Amendment Notice**") that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such Physical Settlement Amendment Notice is effective). A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that the Issuer will Deliver (each, a "**Replacement Deliverable Obligation**") and shall also specify the Outstanding Amount of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, that is being replaced (with respect to each such Deliverable Obligation, the "**Replaced Deliverable Obligation Outstanding Amount**"). The Outstanding Amount of each Replacement Deliverable Obligation identified in the Physical Settlement Amendment Notice shall be determined by applying the Revised Currency Rate to the relevant Replaced Deliverable Obligation Outstanding Amount. The Outstanding Amount of the Replacement Deliverable Obligation(s) specified in any Physical Settlement Amendment Notice in aggregate with the Outstanding Amount of the Deliverable Obligation(s) specified in the Notice of Physical Settlement or any earlier Physical Settlement Amendment Notice which, in each case, are not being replaced must not be greater than the Aggregate Outstanding Amount. Each such Physical Settlement Amendment Notice must be effective on or prior to the Credit Settlement Date (determined without reference to any change resulting from such Physical Settlement Amendment Notice). Notwithstanding the foregoing, (i) the Issuer may correct any errors or inconsistencies contained in the Notice of Physical Settlement or any Physical Settlement Amendment

Notice, as applicable, by notice to Noteholders in accordance with Condition 16 (*Notices*), prior to the relevant Delivery Date; and (ii) if Asset Package Delivery is applicable, the Issuer shall on the relevant PSN Effective Date, or as soon as reasonably practicable thereafter (but in any case, prior to the Delivery Date), notify the Noteholders (in accordance with Condition 16 (*Notices*)) of the detailed description of the Asset Package, if any, that the Issuer will Deliver in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Notice of Physical Settlement or Physical Settlement Amendment Notice, as applicable, it being understood in each case that any such notice shall not constitute a Physical Settlement Amendment Notice.

If "Mod R" is specified as applicable in the relevant Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation falls within paragraph (e) of the definition thereof or the Deliverable Obligation or Valuation Obligation, as applicable, is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, both the PSN Effective Date and the Delivery Date.

If "Mod Mod R" is specified as applicable in the relevant Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation falls within paragraph (e) of the definition thereof or the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, both the PSN Effective Date and the Delivery Date. For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

For the purposes of making a determination pursuant to the two prior paragraphs or the definition of Restructuring Maturity Limitation Date, the final maturity date shall, subject as provided in the prior paragraph, be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

Asset Package Delivery will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Credit Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event. Notwithstanding the foregoing, if Sovereign No Asset Package Delivery is specified as applicable in the relevant Pricing Supplement, it shall be deemed that no Package Observable Bond exists with respect to a Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto.

Where Asset Package Delivery applies, the Calculation Agent may make any adjustment in relation to provisions for physical settlement and determination of the Entitlement to take account of the relevant Asset Package.

If a Credit Event Determination Date has occurred and the Notes become redeemable in accordance with this Credit Linked Condition 4, upon Delivery of the Deliverable Obligations and/or payment of the Partial Cash Settlement Amounts, as the case may be, the Issuer shall have discharged its obligations in respect of

the Notes and shall have no other liability or obligation whatsoever in respect thereof. The value of such Deliverable Obligations and/or the Partial Cash Settlement Amount, as the case may be, may be less than the nominal amount of a Credit-Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer.

5. Zero Recovery

Where Zero Recovery is specified as the applicable Settlement Method in the relevant Pricing Supplement for Single Reference Entity Credit-Linked Notes and a Credit Event Determination Date occurs, the Credit-Linked Notes will be cancelled forthwith and, other than for the payment of accrued interest (if any) or any other due but unpaid amounts, the Issuer's obligations in respect of the Credit-Linked Notes will be immediately discharged and the Issuer will have no further liability in respect thereof.

The Issuer shall give notice of such cancellation (such notice a "**Cancellation Notice**") to the Noteholders in accordance with Condition 16 (*Notices*). Any delay in the delivery of a Cancellation Notice or failure by the Issuer to deliver a Cancellation Notice shall not affect the validity of a Credit Event Determination Date.

If a Credit Event Determination Date has occurred and the Notes are cancelled forthwith in accordance with this Credit Linked Condition 5, no amounts will be payable to Noteholders in this respect and the Issuer's obligations in respect of the Notes will be discharged and the Issuer will have no further liability in respect thereof.

6. Consequences of a Credit Event Determination Date for Basket Credit-Linked Notes

(a) (1) Auction Settlement or Cash Settlement for Basket Credit-Linked Notes

If (x) Auction Settlement or Cash Settlement is specified as the applicable Settlement Method in the relevant Pricing Supplement and a Credit Event Determination Date has occurred in respect of any specified Reference Entity or (y) sub-paragraph (3) below applies and the Issuer does not give a Notice of Physical Settlement, (i) the Issuer shall give notice in each case that a Credit Event Determination Date has occurred (such notice a "**Settlement Notice**") to the Noteholders in accordance with Condition 16 (*Notices*) and (ii) in respect of each Basket Credit-Linked Note:

- (A) the Issuer shall pay as an Instalment Amount for the purposes of Credit Linked Condition 1(a) above an amount equal to the relevant Credit Event Amount (for which purposes, subject as provided below, the Settlement Method shall apply), if any, on the relevant Credit Event Payment Date which will be the relevant Instalment Date. The Instalment Amount will be deemed to be a payment of principal but, notwithstanding anything to the contrary in the Conditions, will not reduce the outstanding nominal amount of the Credit-Linked Notes and (except as provided below) the Credit-Linked Notes will not be redeemed in full on the final Instalment Date. For the avoidance of doubt, where Credit Event Maturity Settlement is specified to be applicable in the relevant Pricing Supplement each such Credit Event Payment Date and the related Instalment Date will fall on the Maturity Date;
- (B) the interest calculation basis described in paragraph (b) below will apply; and
- (C) other than where Credit Event Maturity Settlement is specified to be applicable in the relevant Pricing Supplement, notwithstanding anything to the contrary herein and subject to the following sentence, if on any date on or prior to the Maturity Date the Adjusted Credit Outstanding Nominal Amount is equal to zero, each Credit-Linked Note will be redeemed at the final Credit Event Amount on the final Credit Event Payment Date. If such final Credit Event Amount is zero, then the Credit-Linked Notes will be cancelled as of the final Credit Event Payment Date, with no payment being due in respect thereof and the Issuer will have no further liability in respect of the Notes.

Unless settlement has occurred in accordance with part (A) above, if the Settlement Method is Auction Settlement and:

- (i) an Auction Cancellation Date occurs;
- (ii) a No Auction Announcement Date occurs (and in circumstances where such No Auction Announcement Date occurs pursuant to paragraphs (b) or (c)(ii) of the definition of No Auction Announcement Date, the Issuer has not exercised the Movement Option);
- (iii) a DC Credit Event Question Dismissal occurs;
- (iv) a Credit Event Determination Date was determined pursuant to paragraph (a)(i) of the definition of Credit Event Determination Date or paragraph (a) of the definition of Non-Standard Credit Event Determination Date and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Credit Event Determination Date; or
- (v) a Calculation Agent Fallback Settlement Determination Date occurs,

then the Fallback Settlement Method shall apply for the purposes of the Credit Event Amount.

For the avoidance of doubt parts (A) and (B) of this provision will apply and part (C) of this provision will continue to apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

Any delay in the delivery of a Settlement Notice or failure by the Issuer to deliver a Settlement Notice shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

A Credit Event Determination Date may occur more than once except that, subject as provided in Credit Linked Condition 17 and the definition of Credit Event Determination Date in Credit Linked Condition 16, a Credit Event Notice (if applicable) may only be delivered on one occasion and a Credit Event Determination Date may occur once only, with respect to any Reference Entity (unless subsequent to the occurrence of a Credit Event Determination Date with respect to any Reference Entity, that Reference Entity becomes the Successor to one or more other Reference Entities in respect of which a Credit Event Determination Date has not occurred, in which case a Credit Event Determination Date may occur again).

(2) Zero Recovery for Basket Credit-Linked Notes

If Zero Recovery is specified as the applicable Settlement Method in the relevant Pricing Supplement and a Credit Event Determination Date has occurred in respect of any specified Reference Entity (i) the Issuer shall give notice in each case that a Credit Event Determination Date has occurred (such notice a "**Settlement Notice**") to the Noteholders in accordance with Condition 16 (*Notices*) (ii) the Adjusted Credit Outstanding Nominal Amount will be reduced as provided therein with no amounts being payable in respect of such reduction and (iii) in respect of each Basket Credit-Linked Note:

- (A) the interest calculation basis described in paragraph (b) below will apply; and
- (B) notwithstanding anything to the contrary herein, if on any date on or prior to the Maturity Date the Adjusted Credit Outstanding Nominal Amount is equal to zero, each Credit-Linked Note will be cancelled forthwith with no payment being due in respect thereof and the Issuer will have no further liability in respect of the Notes.

For the avoidance of doubt the provisions above will apply, or continue to apply as applicable, in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

Any delay in the delivery of a Settlement Notice or failure by the Issuer to deliver a Settlement Notice shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

Credit Linked Condition 14 will not apply to the Credit-Linked Notes.

A Credit Event Determination Date may occur more than once except that, subject as provided in Credit Linked Condition 17 and the definition of Credit Event Determination Date in Credit Linked Condition 16, a Credit Event Notice (if applicable) may only be delivered on one occasion and a Credit Event Determination Date may occur once only, with respect to any Reference Entity (unless subsequent to the occurrence of a Credit Event Determination Date with respect to any Reference Entity, that Reference Entity becomes the Successor to one or more other Reference Entities in respect of which a Credit Event Determination Date has not occurred, in which case a Credit Event Determination Date may occur again).

(3) Physical Settlement for Basket Credit-Linked Notes

If a Credit Event Determination Date has occurred in respect of any specified Reference Entity, the Issuer shall give notice (such notice a "**Notice of Physical Settlement**") to the Noteholders in accordance with Condition 16 (*Notices*), and, subject to these Credit Linked Conditions, in particular Credit Linked Condition 1, redeem the Credit Event Portion of all but not some only of the Credit-Linked Notes and Deliver in respect of each such Credit Event Portion the Deliverable Obligations comprising the Entitlement on or prior to the Credit Settlement Date, subject to and in accordance with the Conditions and these Credit Linked Conditions, unless in the determination of the Issuer in its sole and absolute discretion in its opinion (i) it would not have any Deliverable Obligations to so Deliver or (ii) all of the Deliverable Obligations would be Undeliverable Obligations, in which case the provisions of sub-paragraph (1) of this Condition 6 above shall apply in relation to such Credit Event Portion as if Auction Settlement were thereafter specified as the applicable Settlement Method in the relevant Pricing Supplement and these Credit Linked Conditions and the relevant Pricing Supplement will be construed accordingly and the Issuer shall redeem the Credit Event Portion of all of the Credit-Linked Notes in accordance with sub-paragraph (1). Any delay in the delivery of a Notice of Physical Settlement or failure by the Issuer to deliver a Notice of Physical Settlement shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

If the Notes are subject to this Credit Linked Condition 6(a)(3), the interest calculation basis described in paragraph (b) below will apply.

Notwithstanding anything to the contrary herein and subject to the following sentence, if on any date on or prior to the Maturity Date the Adjusted Credit Outstanding Nominal Amount is equal to zero, each Credit-Linked Note will be redeemed by Delivery of the final Entitlement on the final Credit Settlement Date (and/or, as applicable, by payment of the Partial Cash Settlement Amount(s) on the Partial Cash Settlement Date(s) if the provisions of Credit Linked Condition 13 below apply). If such final Entitlement (or final Partial Cash Settlement Amount, as applicable) is zero, then each relevant Credit-Linked Note will be cancelled, with no further payment or delivery being due in respect thereof and the Issuer will have no further liability in respect thereof.

For the avoidance of doubt the provisions above will apply, or continue to apply as applicable, in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

A Credit Event Determination Date may occur more than once except that, subject as provided in Credit Linked Condition 17 and the definition of Credit Event Determination Date in Credit Linked Condition 16, a Credit Event Notice (if applicable) may only be delivered on one occasion and a Credit Event Determination Date may occur once only, with respect to any Reference Entity (unless subsequent to the occurrence of a Credit Event Determination Date with respect to any Reference Entity, that Reference Entity becomes the Successor to one or more other Reference Entities in respect of which a Credit Event Determination Date has not occurred, in which case a Credit Event Determination Date may occur again).

Each Credit-Linked Note shall be endorsed to reflect such partial redemption. If the Calculation Agent, at any time, determines that the aggregate nominal amount of the Credit-Linked Notes is thereby reduced to zero, the Issuer's obligations in respect of such Credit-Linked Notes shall immediately be discharged and the Issuer shall have no further liability in respect thereof.

In the Notice of Physical Settlement, the Issuer shall specify the Deliverable Obligations comprising the Entitlement that it reasonably expects to Deliver and the Outstanding Principal Balance or Due and Payable Amount, as applicable, or the equivalent amount in the Credit Settlement Currency (in each case the relevant "**Outstanding Amount**") and, if different, the face amount, of each such Deliverable Obligation and the aggregate Outstanding Amount of such Deliverable Obligations (the "**Aggregate Outstanding Amount**"). For the avoidance of doubt, the Issuer shall be entitled to select any of the Deliverable Obligations to constitute the Entitlement, irrespective of their market value.

The Issuer may, from time to time, amend a Notice of Physical Settlement by delivering a notice to Noteholders in accordance with Condition 16 (*Notices*), (each such notification, a "**Physical Settlement Amendment Notice**") that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such Physical Settlement Amendment Notice is effective). A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that the Issuer will Deliver (each, a "**Replacement Deliverable Obligation**") and shall also specify the Outstanding Amount of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, that is being replaced (with respect to each such Deliverable Obligation, the "**Replaced Deliverable Obligation Outstanding Amount**"). The Outstanding Amount of each Replacement Deliverable Obligation identified in the Physical Settlement Amendment Notice shall be determined by applying the Revised Currency Rate to the relevant Replaced Deliverable Obligation Outstanding Amount. The Outstanding Amount of the Replacement Deliverable Obligation(s) specified in any Physical Settlement Amendment Notice in aggregate with the Outstanding Amount of the Deliverable Obligation(s) specified in the Notice of Physical Settlement or any earlier Physical Settlement Amendment Notice which, in each case, are not being replaced must not be greater than the Aggregate Outstanding Amount. Each such Physical Settlement Amendment Notice must be effective on or prior to the Credit Settlement Date (determined without reference to any change resulting from such Physical Settlement Amendment Notice). Notwithstanding the foregoing, (i) the Issuer may correct any errors or inconsistencies contained in the Notice of Physical Settlement or any Physical Settlement Amendment Notice, as applicable, by notice to Noteholders in accordance with Condition 16 (*Notices*), prior to the relevant Delivery Date; and (ii) if Asset Package Delivery is applicable, the Issuer shall on the relevant PSN Effective Date, or as soon as reasonably practicable thereafter (but in any case, prior to the Delivery Date), notify the Noteholders (in accordance with Condition 16 (*Notices*)) of the detailed description of the Asset Package, if any, that the Issuer will Deliver in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Notice of Physical Settlement or Physical Settlement Amendment Notice, as applicable, it being understood in each case that any such notice shall not constitute a Physical Settlement Amendment Notice.

If "Mod R" is specified as applicable in the relevant Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation falls within paragraph (e) of the definition thereof or the Deliverable Obligation or Valuation Obligation, as applicable, is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, both the PSN Effective Date and the Delivery Date.

If "Mod Mod R" is specified as applicable in the relevant Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation falls within paragraph (e) of the definition thereof or the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, both the PSN Effective Date and the Delivery Date. For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

For the purposes of making a determination pursuant to the two prior paragraphs or the definition of Restructuring Maturity Limitation Date, the final maturity date shall, subject as provided in the prior paragraph, be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

Asset Package Delivery will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Credit Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event. Notwithstanding the foregoing, if Sovereign No Asset Package Delivery is specified as applicable in the relevant Pricing Supplement, it shall be deemed that no Package Observable Bond exists with respect to a Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto.

Where Asset Package Delivery applies, the Calculation Agent may make any adjustment in relation to provisions for physical settlement and determination of the Entitlement to take account of the relevant Asset Package.

- (b) Each Note will bear interest pursuant to, and in accordance with, Condition 5.2 (*Interest on Fixed Rate Notes*) or Condition 5.3 (*Interest on Floating Rate Notes, Index-Linked Notes, Index Basket-Linked Notes, Inflation Rate-Linked Notes, Currency-Linked Notes, Equity Linked Notes, Equity Basket-Linked Notes, ADR/GDR Linked Notes, ADR/GDR Basket-Linked Notes, ETF Linked Notes, ETF Basket-Linked Notes, Fund-Linked Notes, Fund Basket-Linked Notes, Credit-Linked Notes, Basket Credit-Linked Notes and Preference Share Linked Notes*), as applicable, **provided that** other than where "Accrual of Interest upon Credit Event" is specified as "Applicable – Scheduled Maturity Date" in the relevant Pricing Supplement (i) for the purposes of determining the interest amounts payable, the Specified Denomination shall be deemed to be each Note's *pro rata* share of the Interest Credit Outstanding Nominal Amount in respect of the relevant Interest Period and (ii) without duplication to any adjustment pursuant to the final paragraph of "Credit Event Determination Date"

below, if one or more Interest Payment Dates has occurred between the Credit Event Determination Date and its determination, the Issuer may elect in its sole and absolute discretion to instigate the clawback of any overpaid interest in respect of such Interest Payment Date(s).

- (c) The "**Final Redemption Amount**" will be, unless otherwise specified in the relevant Pricing Supplement, an amount calculated by the Calculation Agent equal to a Note's *pro rata* share of the Adjusted Credit Outstanding Nominal Amount as of the Maturity Date. The Final Redemption Amount will be rounded to the nearest sub-unit of the Settlement Currency (half a sub-unit being rounded upwards). For the avoidance of doubt, if the Adjusted Credit Outstanding Nominal Amount as of the Maturity Date is zero, then the Final Redemption Amount will be zero and no amounts will be payable in respect thereof.
- (d) For the purposes of Basket Credit-Linked Notes:

"**Adjusted Credit Outstanding Nominal Amount**" means, on any date, (i) the Aggregate Nominal Amount minus (ii) the aggregate Reference Entity Notional Amounts of Reference Entities in respect of which a Credit Event Determination Date has occurred on or prior to the relevant date minus (iii) the aggregate of (x) any Shortfall Amounts for each Reference Entity in respect of which a Credit Event Determination Date has occurred on or prior to the relevant date or (y) in the case of Zero Recovery Basket Credit-Linked Notes, the sum, for all of the Notes, of any Unwind Costs in respect of each Credit Event Determination Date that has occurred on or prior to the relevant date, **provided that** in no event shall the Adjusted Credit Outstanding Nominal Amount be less than zero;

"**Interest Credit Outstanding Nominal Amount**" means, in respect of an Interest Period:

- (i) if "Average Interest Calculation" is specified as "Applicable" in the relevant Pricing Supplement, the arithmetic average of the Adjusted Credit Outstanding Nominal Amounts for each day in such Interest Period, calculated without the deduction of any Shortfall Amounts or Unwind Costs, as applicable; or
- (ii) if "Average Interest Calculation" is specified as "Not Applicable" in the relevant Pricing Supplement, the Adjusted Credit Outstanding Nominal Amount as of the last day of such Interest Period, calculated without the deduction of any Shortfall Amounts or Unwind Costs, as applicable; and

"**Shortfall Amount**" means, for a Reference Entity in respect of which a Credit Event Determination Date has occurred:

- (x) if Auction Settlement or Cash Settlement is specified as the applicable Settlement Method in the relevant Pricing Supplement, the aggregate, for all of the Notes, of (a) (i) the relevant Unwind Costs minus (ii) the Recovery Value related to the relevant Credit Event Amount or, if greater, (b) zero; or
- (y) if Physical Settlement is specified as the applicable Settlement Method in the relevant Pricing Supplement, the aggregate, for all of the Notes, of (a) (i) the relevant Unwind Costs minus (ii) the market value, determined by the Calculation Agent on the Market Value Determination Date, of the Initial Deliverable Obligations related to the relevant Entitlement or, if greater, (b) zero.

If a Credit Event Determination Date occurs the Adjusted Credit Outstanding Nominal Amount will be reduced in accordance with this Credit Linked Condition 6 proportionately to the weighting of the relevant Reference Entity in the portfolio and to reflect the relevant Shortfall Amounts or Unwind Costs, as applicable.

Any Credit Event Amount payable or the value of any Deliverable Obligations deliverable and/or Partial Cash Settlement Amount payable, as the case may be, on the related partial redemption of each Note may be less than the amount of such reduction and upon such payment and/or delivery, as applicable, the Issuer shall have discharged its obligations in respect of the amount of the Notes so redeemed and shall have no other liability or obligation whatsoever in respect thereof. Any shortfall shall be borne by the Noteholders and no liability shall attach to the

Issuer. In the case of Zero Recovery Basket Credit-Linked Notes no amounts will be payable to Noteholders in respect of such redemption and reduction in the Adjusted Credit Outstanding Nominal Amount.

In the event that the Adjusted Credit Outstanding Nominal Amount is reduced to zero, the Issuer's obligations in respect of the Credit-Linked Notes will be discharged (after payment of any Credit Event Amount(s) or Delivery of any Deliverable Obligation(s) and/or payment of any Partial Cash Settlement Amount(s), as the case may be, in the case of Credit-Linked Notes other than Zero Recovery Basket Credit-Linked Notes) and the Issuer will have no further liability in respect of the Notes.

7. Terms relating to Physical Settlement

7.1 Asset Transfer Notices

In relation to Credit-Linked Notes to be redeemed (whether in whole or in part) by Delivery of the Entitlement(s), in order to obtain Delivery of the Entitlement in respect of the Credit Event Portion of any Note, the relevant Noteholder must deliver to the relevant Paying Agent, with a copy to the Principal Paying Agent, the Issuer and any entity appointed by the Issuer to Deliver the Entitlement on its behalf (the "**Delivery Agent**") no later than the close of business in each place of reception on the Cut-off Date, a duly completed asset transfer notice (the "**Asset Transfer Notice**") substantially in the form set out in Annex 1 (*Form of Asset Transfer Notice*) to the Pro Forma Pricing Supplement relating to Notes and Equity-Linked Notes/Equity Basket-Linked Notes/Index-Linked Notes/Index Basket-Linked Notes/Inflation Rate-Linked Notes/Currency-Linked Notes/ETF-Linked Notes/ETF Basket-Linked Notes/ADR/GDR Linked Notes/ADR/GDR Basket-Linked Notes/Fund-Linked Notes/Fund Basket-Linked Notes/Credit-Linked Notes/Preference Share Linked Notes of the Offering Memorandum dated 27 April 2020 prepared by the Issuer in relation to the Programme for the Issuance of Notes and Certificates described therein.

For the purposes hereof, "**Cut-Off Date**" means the date specified as such in the Notice of Physical Settlement or Physical Settlement Amendment Notice, as applicable.

A form of Asset Transfer Notice may be obtained during normal business hours from the specified office of the Paying Agent.

An Asset Transfer Notice may only be delivered in writing.

If a Note is in definitive form, it must be delivered together with the duly completed Asset Transfer Notice.

The Asset Transfer Notice shall:

- 1) specify the name, address and contact telephone number of the relevant Noteholder and the person from whom the Issuer or Delivery Agent may obtain details for the Delivery of the Entitlement;
- 2) specify the series number of the Notes and the number of Notes which are the subject of such notice;
- 3) include an undertaking to pay all Expenses;
- 4) include such details as are required for Delivery of the Entitlement which may include account details and/or the name and address of any person(s) into whose name evidence of the Entitlement is to be registered and/or any bank, broker or agent to whom documents evidencing the Entitlement are to be Delivered and/or any other Delivery instructions and specify the name and number of the Noteholder's account to be credited with any cash payable by the Issuer, (including, where applicable, pursuant to Credit Linked Condition 13, in respect of any cash amount constituting the Entitlement); and
- 5) authorise the production of such certification in any applicable administrative or legal proceedings,

all as provided therein.

7.2 Determination and Delivery

Any determination as to whether an Asset Transfer Notice is duly completed and in proper form shall be made by the relevant Paying Agent in consultation with the Principal Paying Agent, and shall be conclusive and binding on the Issuer, the Principal Paying Agent, any Delivery Agent and the relevant Noteholder. Subject as set out below, any Asset Transfer Notice so determined to be incomplete or not in proper form, or which is not copied to the Principal Paying Agent, the Issuer and any Delivery Agent immediately after being delivered or sent as provided in sub-clause 7.1 above, shall be null and void.

If such Asset Transfer Notice is subsequently corrected to the satisfaction of the relevant Paying Agent in consultation with the Principal Paying Agent, it shall be deemed to be a new Asset Transfer Notice submitted at the time such correction was delivered as provided above.

The relevant Paying Agent shall use its reasonable efforts as soon as reasonably practicable to notify the Noteholder submitting an Asset Transfer Notice, if, in consultation with the Principal Paying Agent and the Issuer, it has determined that such Asset Transfer Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer or the Paying Agents shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Noteholder.

No Asset Transfer Notice may be withdrawn after receipt thereof by the relevant Paying Agent as provided above. After delivery of an Asset Transfer Notice, the relevant Noteholder may not transfer the Notes which are the subject of such notice.

In relation to each Deliverable Obligation comprising an Entitlement the Issuer will Deliver or procure the Delivery of the relevant Deliverable Obligation on or prior to the relevant Credit Settlement Date at the risk of the relevant Noteholder in the manner provided below and **provided that** the Asset Transfer Notice is duly delivered as provided above not later than the close of business in each place of reception on the Cut-Off Date, **provided that** if all or some of the Deliverable Obligations included in such Entitlement are Undeliverable Obligations and/or Hedge Disruption Obligations as of the Credit Settlement Date, then the provisions of Credit Linked Condition 13 below will apply.

If a Noteholder fails to give an Asset Transfer Notice as provided herein with a copy to each relevant party prior to the close of business in each place of reception on the Cut-Off Date, then the Deliverable Obligations comprising each relevant Entitlement will be treated as Hedge Disruption Obligations and the provisions of Credit Linked Condition 13 below will apply.

The Issuer (or any Delivery Agent on its behalf) shall, at the risk of the relevant Noteholder, Deliver (or procure the Delivery) of the Entitlement in respect of the Credit Event Portion of a Note, in such commercially reasonable manner as the Calculation Agent shall determine and notify to the person designated by the Noteholder in the relevant Asset Transfer Notice or in such manner as is specified in the relevant Pricing Supplement. All Expenses shall be for the account of the relevant Noteholder and no Delivery of an Entitlement shall be made until all Expenses have been paid by the relevant Noteholder to the satisfaction of the Issuer.

7.3 General

Notes held by the same Noteholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of the Credit Event Portion of such Notes, provided that, the aggregate Entitlements in respect of the same Noteholder will be rounded down to the nearest whole unit of the Deliverable Obligation or each of the Deliverable Obligations, as the case may be, in such manner as the Calculation Agent shall determine. Fractions of the Deliverable Obligation or of each of the Deliverable Obligations, as the case may

be, will not be delivered and in lieu thereof a cash adjustment calculated by the Calculation Agent shall be paid to the Noteholder.

After Delivery of the Entitlement in respect of the Credit Event Portion of a Note and for the Intervening Period, none of the Issuer, the Paying Agents, any Delivery Agent or any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Noteholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of the securities or obligations included in such Entitlement, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations or (iii) be under any liability to a Noteholder in respect of any loss or damage which such Noteholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities or obligations.

7.4 Rights of Noteholders and Calculations

None of the Issuer, the Calculation Agent, any Delivery Agent and the Agents shall have any responsibility for any errors or omissions in any calculation or determination in respect of the Notes.

The purchase of Notes does not confer on any holder of such Notes any rights (whether in respect of voting, distributions or otherwise) attaching to any Deliverable Obligation.

8. Accrual of Interest

- (a) In the case of Single Reference Entity Credit-Linked Notes, if "Accrual of Interest upon Credit Event" is specified as "Not Applicable" in the relevant Pricing Supplement, notwithstanding Condition 5.2 (*Interest on Fixed Rate Notes*) and Condition 5.3(g) (*Accrual of Interest*), as applicable, no interest shall be payable (and accordingly will be deemed not to have accrued) in respect of a Note in respect of which the relevant date for payment thereof (as may be adjusted pursuant to these Credit Linked Conditions) has not occurred on or prior to the Credit Event Determination Date or, if the Credit Event Determination Date falls prior to the first such payment date, no interest shall accrue on the Notes; or
- (b) in the case of Single Reference Entity Credit-Linked Notes, if "Accrual of Interest upon Credit Event" is specified as "Applicable – Credit Event Determination Date" in the relevant Pricing Supplement, notwithstanding Condition 5.2 (*Interest on Fixed Rate Notes*) and Condition 5.3(g) (*Accrual of Interest*), as applicable, each Note shall cease to bear interest from the Credit Event Determination Date or, if earlier, the last day of the Interest Period ending on (but excluding) the Scheduled Maturity Date; or
- (c) if "Accrual of Interest upon Credit Event" is specified as "Applicable – Scheduled Maturity Date" in the relevant Pricing Supplement, interest will continue to accrue and be payable following a Credit Event Determination Date in accordance with Condition 5.2 (*Interest on Fixed Rate Notes*) and Condition 5.3 (*Interest on Floating Rate Notes, Index Linked Notes, Index Basket-Linked Notes, Inflation Rate-Linked Notes, Currency-Linked Notes, Equity Linked Notes, Equity Basket-Linked Notes, ADR/GDR Linked Notes, ADR/GDR Basket-Linked Notes, ETF Linked Notes, ETF Basket-Linked Notes, Fund-Linked Notes, Fund Basket-Linked Notes, Credit-Linked Notes and Preference Share Linked Notes*), as applicable,

Provided that, if:

- (A) (1) Credit Linked Condition 9, Credit Linked Condition 10 or Credit Linked Condition 11 applies in respect of the Notes and, in the case of Credit Linked Condition 9, a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date or, in the case of Credit Linked Condition 10, a Failure to Pay has not

occurred on the Grace Period Extension Date or, in the case of Credit Linked Condition 11, a Credit Event has not occurred on or prior to the DC Determination Cut-off Date, as the case may be; and/or

- (2) Credit Linked Condition 12 applies in respect of the Notes and a Credit Event Determination Date or the Repudiation/Moratorium Extension Condition, as applicable, has not occurred or is not satisfied on or prior to the Postponed Cut-off Date,

then interest will accrue as provided in Credit Linked Condition 9, Credit Linked Condition 10, Credit Linked Condition 11 or Credit Linked Condition 12, as the case may be; and

- (B) without duplication to any adjustment pursuant to the final paragraph of "Credit Event Determination Date" below, if one or more Interest Payment Dates has occurred between the Credit Event Determination Date and its determination, the Issuer may elect in its sole and absolute discretion to instigate the clawback of any overpaid Interest Amount(s) paid in respect of such Interest Payment Date(s).

9. Repudiation/Moratorium Extension

If "Repudiation/Moratorium" is specified as a Credit Event in the relevant Pricing Supplement, the provisions of this Credit Linked Condition 9 shall apply.

Where a Credit Event Determination Date has not occurred on or prior to the Scheduled Maturity Date but the Repudiation/Moratorium Extension Condition has been satisfied on or prior to the Scheduled Maturity Date or, if Credit Linked Condition 12(y) applies, the Postponed Cut-off Date and the Repudiation/Moratorium Evaluation Date in respect of such Potential Repudiation Moratorium may, in the sole opinion of the Calculation Agent, fall after the Scheduled Maturity Date, then the Calculation Agent shall notify the Noteholders in accordance with Condition 16 (*Notices*) that a Potential Repudiation/Moratorium has occurred and the maturity of the Notes will be delayed (without prejudice to any other later Maturity Date also determined pursuant to the Notes) to the fifth Business Day following the Repudiation/Moratorium Evaluation Date or, if later, the Postponed Cut-off Date and:

- (a) where (1) a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date or (2) a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date but a Credit Event Determination Date has not occurred:
- (i) each nominal amount of Credit-Linked Notes equal to the Specified Denomination will be redeemed by the Issuer at the Final Redemption Amount on the Maturity Date; and
 - (ii) in the case of interest bearing Credit-Linked Notes, the Issuer shall be obliged to pay interest (if any) calculated as provided herein, accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date or, if none, the Interest Commencement Date to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the Maturity Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or
- (b) where a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date and a Credit Event Determination Date has occurred, the provisions of Credit Linked Condition 1 and Credit Linked Condition 2, Credit Linked Condition 3, Credit Linked Condition 4, Credit Linked Condition 5 or Credit Linked Condition 6, as applicable, shall apply to the Credit-Linked Notes.

Any failure to provide notice of any such delay to Noteholders will not constitute an Event of Default under the Notes and will not affect the validity of any of the above provisions.

10. **Grace Period Extension**

If "Grace Period Extension" is specified as applicable in the relevant Pricing Supplement, the provisions of this Credit Linked Condition 10 shall apply.

Where a Credit Event Determination Date has not occurred on or prior to the Scheduled Maturity Date but, in the determination of the Calculation Agent, a Potential Failure to Pay has occurred with respect to one or more Obligation(s) in respect of which a Grace Period is applicable on or prior to the Scheduled Maturity Date (and such Grace Period(s) is/are continuing as at the Scheduled Maturity Date), then the Calculation Agent shall notify the Noteholders in accordance with Condition 16 (*Notices*) that a Potential Failure to Pay has occurred and the maturity of the Notes will be delayed (without prejudice to any other later Maturity Date also determined pursuant to the Notes) to the fifth Business Day following the Grace Period Extension Date and:

- (a) where (1) a Failure to Pay has not occurred on the Grace Period Extension Date or (2) a Failure to Pay has occurred on the Grace Period Extension Date but a Credit Event Determination Date has not occurred:
 - (i) each nominal amount of Credit-Linked Notes equal to the Specified Denomination will be redeemed by the Issuer at the Final Redemption Amount on the Maturity Date; and
 - (ii) in the case of interest bearing Credit-Linked Notes, the Issuer shall be obliged to pay interest calculated as provided herein, accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date or, if none, the Interest Commencement Date to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the Maturity Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or
- (b) where a Failure to Pay has occurred on the Grace Period Extension Date and a Credit Event Determination Date has occurred, the provisions of Credit Linked Condition 1 and Credit Linked Condition 2, Credit Linked Condition 3, Credit Linked Condition 4, Credit Linked Condition 5 or Credit Linked Condition 6, as applicable, shall apply to the Credit-Linked Notes.

Any failure to provide notice of any such delay to Noteholders will not constitute an Event of Default under the Notes and will not affect the validity of any of the above provisions.

11. **Credit Derivatives Determinations Committee Extension**

If, in the determination of the Calculation Agent, a Potential Credit Event has occurred and following a Credit Event Resolution Request Date the Credit Derivatives Determinations Committee has not made its determination on or prior to the Scheduled Maturity Date or (unless "Accrual of Interest upon Credit Event" is specified as "Applicable – Scheduled Maturity Date" in the relevant Pricing Supplement) any Interest Payment Date then the Calculation Agent shall notify Noteholders in accordance with Condition 16 (*Notices*) that (without prejudice to any other later Maturity Date also determined pursuant to the Notes) the Maturity Date or the relevant interest payment has been postponed to a date (the "**DC Determination Postponed Date**") being the day falling five Business Days after (a) if the Credit Derivatives Determinations Committee Resolves that a Credit Event has occurred, fifteen (15) Business Days following the relevant DC Credit Event Announcement or (b) if the Credit Derivatives Determinations Committee Resolves that a Credit Event has not occurred, the second Business Day following the relevant DC No Credit Event Announcement or, as applicable, (c) fifteen (15) Business Days following the DC Credit Event Question Dismissal (the date of the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Dismissal, as applicable, the "**DC Determination Cut-off Date**"), and:

- (a) in the case of the Maturity Date, where (1) a Credit Event has not occurred on or prior to the DC Determination Cut-off Date or (2) a Credit Event has occurred on or prior to the DC Determination Cut-off Date but a Credit Event Determination Date has not occurred:
 - (i) each nominal amount of Credit-Linked Notes equal to the Specified Denomination will be redeemed by the Issuer at the Final Redemption Amount on the Maturity Date; and
 - (ii) in the case of interest bearing Credit-Linked Notes, the Issuer shall be obliged to pay interest calculated as provided herein, accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date or if none the Interest Commencement Date to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the Maturity Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or
- (b) where a Credit Event has occurred on or prior to the DC Determination Cut-off Date and a Credit Event Determination Date has occurred, the provisions of Credit Linked Condition 1 and Credit Linked Condition 2, Credit Linked Condition 3, Credit Linked Condition 4, Credit Linked Condition 5 or Credit Linked Condition 6, as applicable, shall apply to the Credit-Linked Notes; or
- (c) in relation to such event as of an Interest Payment Date, the Calculation Agent may delay the relevant amount of interest which would otherwise be payable on the relevant Interest Payment Date. In this case where (i) a Credit Event has not occurred on or prior to the DC Determination Cut-off Date then, without duplication to any interest payable pursuant to paragraph (a) above, the relevant amount of interest shall be payable on the relevant DC Determination Postponed Date but no additional interest will be payable in respect of the relevant delay and for the avoidance of doubt no amendment will be made to any Interest Period or basis of calculation of the relevant amount of interest, other than as described above; or (ii) where a Credit Event has occurred on or prior to the DC Determination Cut-off Date and a Credit Event Determination Date has occurred thereafter, if applicable the relevant amount of interest will be adjusted accordingly and may be zero and (if any) will be payable on the relevant DC Determination Postponed Date or, in the case of any interest due at maturity, on the Maturity Date.

Any failure to provide notice of any such postponement to Noteholders will not constitute an Event of Default under the Notes and will not affect the validity of any of the above provisions.

12. Maturity Date Extension in the case of Credit-Linked Notes

The following provisions of this Credit Linked Condition 12 apply to Credit-Linked Notes and, for the avoidance of doubt, may be applied on more than one occasion:

Without prejudice to Credit Linked Condition 14, if:

- (x) on (A) the Scheduled Maturity Date, (B), if applicable, the Repudiation/Moratorium Evaluation Date, (C) if Grace Period Extension is specified as applying in the relevant Pricing Supplement, the Grace Period Extension Date, (D) the last day of the Notice Delivery Period or (E) the DC Determination Cut-off Date, as the case may be, a Credit Event Determination Date has not occurred but, in the opinion of the Calculation Agent, a Credit Event or Potential Credit Event may have occurred or may occur; or
- (y) on the Scheduled Maturity Date, in the opinion of the Calculation Agent, a Potential Repudiation/Moratorium may have occurred,

the Calculation Agent may at its option notify the Noteholders in accordance with Condition 16 (*Notices*) that redemption of the Notes has been postponed (without prejudice to any other later Maturity Date also

determined pursuant to the Notes) to the Postponed Maturity Date and, in the case of (x) above, the Repudiation/Moratorium Evaluation Date, the Grace Period Extension Date, the last day of the Notice Delivery Period (which for these purposes shall apply in the case of (x)(A) as well as (x)(D) above) or the DC Determination Cut-off Date, as the case may be, has been postponed to the Postponed Cut-off Date and:

where:

(a) in the case of Credit Linked Condition 12(x), a Credit Event Determination Date has not occurred on or prior to the Postponed Cut-off Date or, in the case of Credit Linked Condition 12(y), the Repudiation/Moratorium Extension Condition is not satisfied on or prior to the Postponed Cut-off Date:

- (i) subject as provided below, each Note will be redeemed by the Issuer at the Final Redemption Amount on the Maturity Date; and
- (ii) in the case of interest bearing Credit-Linked Notes, the Issuer shall be obliged to pay interest calculated as provided herein accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date or, if none, the Interest Commencement Date to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the Maturity Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or

(b) where:

- (i) in the case of Credit Linked Condition 12(x), a Credit Event Determination Date has occurred on or prior to the Postponed Cut-off Date, the provisions of Credit Linked Condition 1 and Credit Linked Condition 2, Credit Linked Condition 3, Credit Linked Condition 4, Credit Linked Condition 5 or Credit Linked Condition 6, as applicable, shall apply to the Credit-Linked Notes; or

Any failure to provide a Partial Cash Settlement Notice will not constitute an Event of Default under the Notes and will not affect the validity of any of the foregoing provisions.

In the Partial Cash Settlement Notice, the Issuer must give details of why it is unable to deliver the relevant Undeliverable Obligations or Hedge Disruption Obligation, as the case may be.

Unless otherwise specified in the relevant Pricing Supplement, for the purposes of this Credit Linked Condition 13 only the following terms shall be defined as follows and such definitions will apply notwithstanding other definitions of such terms in Credit Linked Condition 16:

"Indicative Quotation" means, in accordance with the Quotation Method, each quotation obtained from a Quotation Dealer at the Valuation Time for (to the extent reasonably practicable) an amount of the Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, equal to the Quotation Amount, which reflects such Quotation Dealer's reasonable assessment of the price of such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, based on such factors as such Quotation Dealer may consider relevant, which may include historical prices and recovery rates.

"Market Value" means, with respect to an Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, on a Valuation Date, (i) if more than three Full Quotations are obtained, the arithmetic mean of such Full Quotations, disregarding the Full Quotations having the highest and lowest values (and, if more than one such Full Quotations have the same highest or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (ii) if exactly three Full Quotations are obtained, the Full Quotation remaining after disregarding the highest and lowest Full Quotations (and, if more than one such Full Quotations have the same highest value or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (iii) if exactly two Full Quotations are obtained, the arithmetic mean of such Full Quotations; (iv) if fewer than two Full Quotations are obtained and a Weighted Average Quotation is obtained, such Weighted Average Quotation; (v) if Indicative Quotations are specified as applying in the relevant Pricing Supplement and exactly three Indicative Quotations are obtained, the Indicative Quotation remaining after disregarding the highest and lowest Indicative Quotations (and, if more than one such Indicative Quotations have the same highest or lowest value, then one of such highest or lowest Indicative Quotations shall be disregarded); (vi) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) then, subject to paragraph (b) of the definition of "Quotation" below, an amount as determined by the Calculation Agent on the next Business Day on which at least two Full Quotations or a Weighted Average Quotation or, if applicable, three Indicative Quotations are obtained; and (vii) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) on the same Business Day on or prior to the tenth Business Day following the Valuation Date the Market Value shall be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.

"Partial Cash Settlement Amount" is deemed to be, for an Undeliverable Obligation or a Hedge Disruption Obligation, as the case may be, an amount calculated by the Calculation Agent equal to the greater of:

- (i) (A) the Outstanding Principal Balance, the Due and Payable Amount or the Currency Amount, as applicable, of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be; multiplied by
 - (B) (x) the Final Price with respect to such Undeliverable Obligation or Hedge Disruption Obligation, determined as provided in this Credit Linked Condition or (y) in the case of a Hedge Disruption Obligation, if a Hedging Auction has been held on or prior to the relevant Credit Settlement Date, the Hedging Auction Final Price; less if applicable
 - (C) Unwind Costs, if any (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement); less

(D) Expenses, if any (but excluding any Expenses already taken into account in calculating the relevant Entitlement); and

(ii) zero,

provided that where the relevant Undeliverable Obligation or Hedge Disruption Obligation forms part of the Asset Package and (in the case of (x) above) the Calculation Agent determines that a Final Price cannot reasonably be determined in respect of such Undeliverable Obligation or Hedge Disruption Obligation, then the Partial Cash Settlement Amount will be an amount calculated by the Calculation Agent equal to the fair market value of the relevant Undeliverable Obligation or Hedge Disruption Obligation less Unwind Costs if any (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement) and less Expenses, if any (but excluding any Expenses already taken into account in calculating the relevant Entitlement).

"Partial Cash Settlement Date" is deemed to be the date falling five Business Days after the calculation of the Final Price or, if the Hedging Auction Final Price applies, the relevant Credit Settlement Date.

"Quotation" means each Full Quotation, the Weighted Average Quotation and, if Indicative Quotations are specified as applying in the relevant Pricing Supplement, each Indicative Quotation obtained and expressed as a percentage of the Outstanding Principal Balance or Due and Payable Amount, as applicable, of the relevant Undeliverable Obligation or Hedge Disruption Obligation with respect to a Valuation Date in the manner that follows:

- (a) The Calculation Agent shall attempt to obtain Full Quotations with respect to each Valuation Date from five or more Quotation Dealers. If two or more such Full Quotations or a Weighted Average Quotation are not available on any such Business Day and Indicative Quotations are specified as applying in the relevant Pricing Supplement, the Calculation Agent shall attempt to obtain three Indicative Quotations from five or more Quotation Dealers.
- (b) If the Calculation Agent is unable to obtain two or more Full Quotations or a Weighted Average Quotation (or, if Indicative Quotations are specified as applying in the relevant Pricing Supplement, three Indicative Quotations) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Quotations shall be deemed to be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.
- (c) The Calculation Agent shall determine, based on the then current market practice in the market of the relevant Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, whether such Quotations shall include or exclude accrued but unpaid interest. All Quotations shall be obtained in accordance with this determination.

"Quotation Amount" is deemed to be, with respect to each type or issue of Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, an amount equal to at least the Outstanding Principal Balance or Due and Payable Amount (or, in either case, its equivalent in the relevant Obligation Currency

converted by the Calculation Agent by reference to exchange rates in effect at the time that the relevant Quotation is being obtained), as applicable, of such Undeliverable Obligation or Hedge Disruption Obligations, as the case may be.

"**Valuation Time**" is the time specified as such in the relevant Pricing Supplement, or, if no time is so specified, 11:00 a.m. in the principal trading market for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be.

"**Weighted Average Quotation**" means, in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, with an Outstanding Principal Balance or Due and Payable Amount, as applicable, of as large a size as available but less than the Quotation Amount that in aggregate are approximately equal to the Quotation Amount.

Without prejudice to Credit Linked Condition 12, if, following the determination of a Credit Event Determination Date but prior to the relevant Credit Settlement Date or, to the extent applicable, a Valuation Date, there is a DC Credit Event Meeting Announcement, the Calculation Agent may, at its option, determine that the applicable timing requirements of the Credit Linked Conditions and the definitions of Credit Event Redemption Date, Credit Event Payment Date, Valuation Date, Maturity Date, Physical Settlement Period and PSN Cut-off Date, and any other Credit Linked Condition provision(s) as determined by the Calculation Agent, shall toll and be suspended and remain suspended (such period of suspension, a "**Suspension Period**") until the date of the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal. During such Suspension Period none of the Issuer, the Calculation Agent or any Noteholder are obliged to, nor are they entitled to, take any action in connection with the settlement of the Credit-Linked Notes. Once the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal has occurred, the relevant timing requirements of the Credit Linked Conditions that have previously tolled or been suspended shall resume on the Business Day following such public announcement by the DC Secretary with the Issuer having the benefit of the full day notwithstanding when the tolling or suspension began in accordance with this Credit Linked Condition 14.

by the relevant Credit Derivatives Determinations Committee and such obligation has not changed materially since the date of the relevant DC Resolution.

The Calculation Agent will notify the Noteholders in accordance with Condition 16 (*Notices*) of the Substitute Reference Obligation as soon as reasonably practicable after it has been identified in accordance with paragraph (c) above and the Substitute Reference Obligation shall replace the Non-Standard Reference Obligation. For the avoidance of doubt any failure to provide such a notice to the Noteholders will not constitute an Event of Default under the Notes and will not affect the validity of any of the foregoing provisions.
- (e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation then, subject to paragraph (a) above and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with paragraph (b) above, the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation.

For purposes of identification of the Non-Standard Reference Obligation, any change in the Non-Standard Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, constitute a Substitution Event. If an event described in paragraphs (a) or (b)(i) above has occurred on or prior to the Trade Date, then a Substitution Event shall be deemed to have occurred pursuant to paragraphs (a) or (b)(i) above as the case may be, on the Trade Date.

"Substitution Event Date" means, with respect to the Reference Obligation, the date of the occurrence of the relevant Substitution Event.

"Succession Date" means the legally effective date of an event in which one or more entities succeed to some or all of the Relevant Obligations of the Reference Entity; **provided that** if at such time, there is a Steps Plan, the Succession Date will be the legally effective date of the final succession in respect of such Steps Plan, or if earlier (i) the date on which a determination pursuant to paragraph (a) of the definition of Successor below would not be affected by any further related successions in respect of such Steps Plan, or (ii) the occurrence of a Credit Event Determination Date in respect of the Reference Entity or any entity which would constitute a Successor.

 - (v) if one or more entities succeed directly as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of such succession;

- (vi) if one or more entities succeed, either directly or indirectly, as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (**provided that** if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor and the Base Conditions and/or the relevant Pricing Supplement will be adjusted as provided below); and
 - (vii) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and at the time of the determination either (A) the Reference Entity has ceased to exist, or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective date of the assumption, such entity (the "**Universal Successor**") will be the sole Successor; and
- (b) an entity may only be a Successor if:
- (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014;
 - (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors under paragraph (a) above, **provided that** the Calculation Agent will not make any such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent may, if it determines appropriate, select an alternative Transaction Type for any Successor to a Reference Entity and adjust such of the Base Conditions and/or the relevant Pricing Supplement as it determines appropriate to reflect such new Transaction Type and determine the effective date of any such change and adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if any such Transaction Type and adjustment reflects any adjustment to any credit derivative transaction(s) related to or underlying the Credit-Linked Notes incorporating the provisions of the 2014 ISDA Credit Derivatives Definitions (the "**2014 Definitions**"). Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Noteholders in accordance with Condition 16 (*Notices*) stating the new Transaction Type and the adjustment to the Base Conditions and/or the relevant Pricing Supplement (if any). For the avoidance of doubt any failure to provide such a notice to Noteholders will not constitute an Event of Default under the Notes and will not affect the validity of any of the foregoing provisions.

The Calculation Agent will make all calculations and determinations required to be made under this definition of Successor on the basis of Eligible Information and will, as soon as practicable after such calculation or determination, make such calculation or determination available for inspection by Noteholders at the specified office of the Principal Paying Agent. In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a) above, if there is a Steps Plan, the Calculation Agent shall

consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

Where pursuant to paragraph (a)(iii), (a)(iv) or (a)(vi) above, more than one Successor has been identified, the Calculation Agent shall adjust such of the Base Conditions and/or the relevant Pricing Supplement as it shall determine to be appropriate (including, without limitation, the Reference Entity Notional Amount and (if applicable) the Transaction Type) to reflect that the Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of the Base Conditions and/or the relevant Pricing Supplement in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Credit-Linked Notes under the provisions of the 2014 Definitions.

Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Noteholders in accordance with Condition 16 (*Notices*) stating the adjustment to the Base Conditions and/or the relevant Pricing Supplement and giving brief details of the relevant Successor event. For the avoidance of doubt any failure to provide such a notice to Noteholders will not constitute an Event of Default under the Notes and will not affect the validity of any of the foregoing provisions.

If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

For the purposes of this definition of "Successor", "**succeed**" means, with respect to the Reference Entity and its Relevant Obligations, that an entity other than the Reference Entity (i) assumes or becomes liable for such Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other agreement), or (ii) issues Bonds or incurs Loans (the "**Exchange Bonds or Loans**") that are exchanged for Relevant Obligations, and in either case the Reference Entity is not thereafter a direct obligor or a provider of a Relevant Guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans, as applicable. For purposes of this definition of "Successor", "succeeded" and "succession" shall be construed accordingly. In the case of an exchange offer, the determinations required pursuant to paragraph (a) of this definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

Where a single entity is a Reference Entity under the Credit-Linked Notes more than once by virtue of the operation of these Successor provisions, such entity will continue to be treated as separate Reference Entities under the Credit-Linked Notes and a Credit Event Determination Date, and settlement with respect thereto, may occur separately for each such Reference Entity.

Each such form of Credit Derivatives Auction Settlement Terms shall set out, *inter alia*, definitions of "Auction", "Auction Cancellation Date", "Auction Covered Transaction" and "Auction Final Price Determination Date" in relation to the relevant Credit Event. The Transaction Auction Settlement Terms for purposes of the Credit-Linked Notes shall be the relevant form of Credit Derivatives Auction Settlement Terms for which the Reference Transaction would be an Auction Covered Transaction (as such term will be set out in the relevant Credit Derivatives Auction Settlement Terms). The Reference Transaction (as set out in the definition thereof) is a hypothetical credit derivative transaction included in these Credit Linked Conditions principally for the purpose of selecting the Credit Derivatives Auction Settlement Terms appropriate to the Credit-Linked Notes.

- (b) If no such Valuation Method is specified in the relevant Pricing Supplement, the Valuation Method shall be Highest.
- (c) The following Valuation Methods may be specified in the relevant Pricing Supplement with more than one Valuation Date:
 - (i) "**Average Market**" means the unweighted arithmetic mean of the Market Values determined by the Calculation Agent with respect to each Valuation Date; or
 - (ii) "**Highest**" means the highest Quotation obtained by the Calculation Agent with respect to any Valuation Date; or
 - (iii) "**Average Highest**" means the unweighted arithmetic mean of the highest Quotations obtained by the Calculation Agent with respect to each Valuation Date.
- (d) If no such Valuation Method is specified in the relevant Pricing Supplement, the Valuation Method shall be Average Highest.

Notwithstanding paragraphs (a) to (d) above, if Quotations include Weighted Average Quotations or fewer than two Full Quotations, the Calculation Agent may at its option determine that the Valuation Method shall be Market or Average Market, as the case may be.

Where applicable, the relevant Pricing Supplement may specify an alternative Valuation Method which shall be applicable in respect of the relevant Credit-Linked Notes.

"Valuation Obligation" means:

- (a) any obligation of the Reference Entity (either directly or as provider of a Relevant Guarantee) determined pursuant to the method described in "(A) Method for Determining Valuation Obligations" below;
- (b) the Reference Obligation;
- (c) solely in relation to a Restructuring Credit Event applicable to a Reference Entity which is a Sovereign, and unless Asset Package Delivery is applicable, any Sovereign Restructured Valuation Obligation; and
- (d) if Asset Package Delivery is applicable, (i) if Financial Reference Entity Terms is specified as applicable in the relevant Pricing Supplement, any Prior Deliverable Obligation, or (ii) if the Reference Entity is a Sovereign, any Package Observable Bond,

in each case, as selected by the Issuer in its sole and absolute discretion and notified to the Calculation Agent (a **"Valuation Obligation Notification"**) on or prior to the Valuation Date and (i) unless it is an Excluded Valuation Obligation and (ii) **provided that** the obligation has an Outstanding Principal Balance or Due and Payable Amount that is greater than zero (determined for purposes of paragraph (d) above, immediately prior to the relevant Asset Package Credit Event).

- (i) *Method for Determining Valuation Obligations.* For the purposes of this definition of "Valuation Obligation", the term "Valuation Obligation" may be defined as each obligation of the Reference Entity described by the Valuation Obligation Category specified in the relevant Pricing Supplement, and, subject to paragraph (ii) (*Interpretation of Provisions*) below, having each of, the Valuation Obligation Characteristics, if any, specified in the relevant Pricing Supplement, in each case, as of each such date the Issuer determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, the date of delivery of the Valuation Obligation Notification. The following terms shall have the following meanings:

- (A) **"Valuation Obligation Category"** means one of Payment, Borrowed Money, Reference Obligation Only, Bond, Loan, or Bond or Loan (each as defined in the definition of "Obligation" above, except that, for the purpose of determining Valuation Obligations, the definition of "Reference Obligation Only" shall be amended to state that no Valuation Obligation Characteristics shall be applicable to Reference Obligation Only).
- (B) **"Valuation Obligation Characteristics"** means any one or more of Not Subordinated, Specified Currency, Not Sovereign Lender, Not Domestic Currency, Not Domestic Law, Listed, Not Domestic Issuance (each as defined in the definition of "Obligation" above), Assignable Loan, Consent Required Loan, Direct Loan Participation, Transferable, Maximum Maturity, Accelerated or Matured and Not Bearer;

1) **"Assignable Loan"** means a Loan that is capable of being assigned or novated to, at a minimum, commercial banks or financial institutions (irrespective of their jurisdiction of organisation) that are not then a lender or a member of the relevant lending syndicate, without the consent of the relevant Reference Entity or the guarantor, if any, of such Loan (or the consent of the applicable borrower if the Reference Entity is guaranteeing such Loan) or any agent;

2) **"Consent Required Loan"** means a Loan that is capable of being assigned or novated with the consent of the Reference Entity or the guarantor, if any, of such Loan (or the consent of the relevant borrower if the Reference Entity is guaranteeing such loan) or any agent;

- 3) "**Direct Loan Participation**" means a Loan in respect of which, pursuant to a participation agreement, the Issuer is capable of creating, or procuring the creation of, a contractual right in favour of each Noteholder that provides each Noteholder with recourse to the participation seller for a specified share in any payments due under the relevant Loan which are received by such participation seller, any such agreement to be entered into between each Noteholder and either (A) the Issuer (to the extent that the Issuer is then a lender or a member of the relevant lending syndicate), or (B) a Qualifying Participation Seller (if any) (to the extent such Qualifying Participation Seller is then a lender or a member of the relevant lending syndicate);
- 4) "**Transferable**" means an obligation that is transferable to institutional investors without any contractual, statutory or regulatory restriction, **provided that** none of the following shall be considered contractual, statutory or regulatory restrictions:
- I. contractual, statutory or regulatory restrictions that provide for eligibility for resale pursuant to Rule 144A or Regulation S promulgated under the United States Securities Act of 1933, as amended (and any contractual, statutory or regulatory restrictions promulgated under the laws of any jurisdiction having a similar effect in relation to the eligibility for resale of an obligation);
 - II. restrictions on permitted investments such as statutory or regulatory investment restrictions on insurance companies and pension funds; or
 - III. restrictions in respect of blocked periods on or around payment dates or voting periods;
- 5) "**Maximum Maturity**" means an obligation that has a remaining maturity of not greater than the period specified in the relevant Pricing Supplement (or if no such period is specified, thirty years);
- 6) "**Accelerated or Matured**" means an obligation under which the principal amount owed, whether by reason of maturity, acceleration, termination or otherwise, is due and payable in full in accordance with the terms of such obligation, or would have been but for, and without regard to, any limitation imposed under any applicable insolvency laws; and
- 7) "**Not Bearer**" means any obligation that is not a bearer instrument unless interests with respect to such bearer instrument are cleared via Euroclear, Clearstream International or any other internationally recognised clearing system.

(ii) Interpretation of Provisions

- (A) If (i) any of the Valuation Obligation Characteristics "Listed", "Not Domestic Issuance" or "Not Bearer" is specified in the relevant Pricing Supplement, the relevant Pricing Supplement shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Bonds; (ii) the Valuation Obligation Characteristic "Transferable" is specified in the relevant Pricing Supplement, the relevant Pricing Supplement shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Valuation Obligations that are not Loans; or (iii) any of the Valuation Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified in the relevant Pricing Supplement, the relevant Pricing

Supplement shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Loans.

- (B) If more than one of "Assignable Loan", "Consent Required Loan" and "Direct Loan Participation" are specified as Valuation Obligation Characteristics in the relevant Pricing Supplement, the Valuation Obligations may include any Loan that satisfies any one of such Valuation Obligation Characteristics specified and need not satisfy all such Valuation Obligation Characteristics.
- (C) If a Valuation Obligation is a Relevant Guarantee, the following will apply:
- 1) for purposes of the application of the Valuation Obligation Category, the Relevant Guarantee shall be deemed to satisfy the same category or categories as those that describe the Underlying Obligation;
 - 2) for purposes of the application of the Valuation Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Valuation Obligation Characteristics, if any, specified in the relevant Pricing Supplement from the following list: "Not Subordinated", "Specified Currency", "Not Sovereign Lender", "Not Domestic Currency" and "Not Domestic Law";
 - 3) for purposes of the application of the Valuation Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Valuation Obligation Characteristics, if any, specified in the relevant Pricing Supplement from the following list: "Listed", "Not Domestic Issuance", "Assignable Loan", "Consent Required Loan", "Direct Loan Participation", "Transferable", "Maximum Maturity", "Accelerated" or "Matured" and "Not Bearer"; and
 - 4) for purposes of the application of the Valuation Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (D) For purposes of the application of the Valuation Obligation Characteristic "Maximum Maturity", remaining maturity shall be determined on the basis of the terms of the Valuation Obligation in effect at the time of making such determination and, in the case of a Valuation Obligation that is due and payable, the remaining maturity shall be zero.
- (E) If "Financial Reference Entity Terms" and "Governmental Intervention" are specified as applicable in the relevant Pricing Supplement, if an obligation would otherwise satisfy a particular Valuation Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Valuation Obligation Characteristic.
- (F) For purposes of determining the applicability of Valuation Obligation Characteristics and the requirements specified in the paragraphs commencing "If "Mod R"..." and "If "Mod Mod R"..." below to a Prior Deliverable Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event.

- (G) If "Subordinated European Insurance Terms" is specified as applicable in the relevant Pricing Supplement, if an obligation would otherwise satisfy the "Maximum Maturity" Valuation Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation shall not cause it to fail to satisfy such Valuation Obligation Characteristic.

If "Mod R" is specified as applicable in the relevant Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Valuation Obligation may be specified in a Valuation Obligation Notification only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, the date of delivery of the Valuation Obligation Notification.

If "Mod Mod R" is specified as applicable in the relevant Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Valuation Obligation may be specified in a Valuation Obligation Notification only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, the date of delivery of the Valuation Obligation Notification. For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

For the purposes of making a determination pursuant to the two prior paragraphs or the definition of Restructuring Maturity Limitation Date, the final maturity date shall, subject as provided in the prior paragraph, be determined on the basis of the terms of the Valuation Obligation in effect at the time of making such determination and, in the case of a Valuation Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

Asset Package Delivery will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Credit Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event. Notwithstanding the foregoing, if Sovereign No Asset Package Delivery is specified as applicable in the relevant Pricing Supplement, it shall be deemed that no Package Observable Bond exists with respect to a Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto.

The Valuation Obligation Notification shall describe the selected Valuation Obligation(s) in reasonable detail and shall specify the relevant title(s) or designation(s), maturity date(s) and coupon rate(s) and, unless the Quotation Amount is specified in the relevant Pricing Supplement, the applicable Quotation Amount in respect of each such Valuation Obligation (**Provided That** the aggregate of the Quotation Amounts in respect of the Valuation Obligations shall not exceed the relevant Reference Entity Notional Amount). The Issuer may at any time after delivering a Valuation Obligation Notification but prior to the Valuation Time on the Valuation Date deliver a further Valuation Obligation Notification which shall replace all prior Valuation Obligation Notifications in relation to any additional or replacement Valuation Obligation(s) specified therein.

For the avoidance of doubt the Issuer shall be entitled to select any Valuation Obligations for the purposes of calculating the Final Price irrespective of their market value and, **provided that** (in the case of a Valuation Obligation selected pursuant to sub-paragraph (a) above) the selected obligation satisfies the applicable Valuation Obligation Category and Valuation Obligation Characteristics on the relevant date, such

obligation(s) may constitute the Valuation Obligation(s) for the purposes hereof notwithstanding that this is not the case subsequent to such date.

"**Valuation Time**" means the time specified as such in the relevant Pricing Supplement or, if no time is so specified, 11.00 a.m. in the principal trading market for the Valuation Obligation.

"**Weighted Average Quotation**" means in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Valuation Obligation with an Outstanding Principal Balance or Due and Payable Amount, as applicable, of as large a size as available but less than the Quotation Amount (but, of a size at least equal to the Minimum Quotation Amount) that in aggregate are approximately equal to the Quotation Amount.

"**Zero Recovery Basket Credit-Linked Notes**" means Basket Credit-Linked Notes for which the Settlement Method is Zero Recovery.

"**Zero Recovery Credit-Linked Notes**" means Zero Recovery Basket Credit-Linked Notes and Zero Recovery Single Reference Entity Credit-Linked Notes.

"**Zero Recovery Single Reference Entity Credit-Linked Notes**" means Single Reference Entity Credit-Linked Notes for which the Settlement Method is Zero Recovery.

17. **Credit Event Notice after Restructuring Credit Event**

Notwithstanding anything to the contrary in these Credit Linked Conditions, upon the occurrence of an M(M)R Restructuring:

- (a) The Calculation Agent may deliver multiple Credit Event Notices in respect of such M(M)R Restructuring, each such Credit Event Notice setting forth an amount of the relevant Reference Entity Notional Amount to which such Restructuring Credit Event applies (the "**Partial Redemption Amount**") that may be less than such Reference Entity Notional Amount immediately prior to the delivery of such Credit Event Notice. In such circumstances the Credit Linked Conditions and related provisions shall be deemed to apply to the Partial Redemption Amount only and each such Credit-Linked Note shall be redeemed in part (such redeemed part being equal to such Note's *pro rata* share of the Partial Redemption Amount).
- (b) For the avoidance of doubt (A) the nominal amount of each Credit-Linked Note not so redeemed in part shall remain outstanding, the Reference Entity Notional Amount shall be reduced by the Partial Redemption Amount and interest shall accrue in respect of each Credit-Linked Note as provided in Condition 5.2 (*Interest on Fixed Rate Notes*) or Condition 5.3 (*Interest on Floating Rate Notes, Index-Linked Notes, Index Basket-Linked Notes, Inflation Rate-Linked Notes, Currency-Linked Notes, Equity Linked Notes, Equity Basket-Linked Notes, ADR/GDR Linked Notes, ADR/GDR Basket-Linked Notes, ETF Linked Notes, ETF Basket-Linked Notes, Fund-Linked Notes, Fund Basket-Linked Notes, Credit-Linked Notes and Preference Share Linked Notes*), and Credit Linked Condition 6(b), as applicable, (adjusted in such manner as the Calculation Agent determines to be appropriate), (B) the Credit Linked Conditions and related provisions shall apply to such Credit-Linked Note in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the Restructuring Credit Event and (C) if, following a Restructuring Credit Event, different Credit Event Determination Dates have been determined with respect to different portions of amounts payable or deliverable to Noteholders under the relevant Series, the Calculation Agent will (x) determine such adjustment(s) to the Base Conditions as may be required to achieve as far as practicable the same economic effect as if each such portion was a separate series or otherwise reflect or account for the effect of the above provisions of this Credit Linked Condition 17 and (y) the effective date of such adjustment(s).

- (c) If the provisions of this Credit Linked Condition 17 apply in respect of the Credit-Linked Notes, on redemption of part of each such Credit-Linked Note the relevant Credit-Linked Note shall be endorsed to reflect such part redemption.

18. Provisions relating to Multiple Holder Obligation

Unless this Credit Linked Condition 18 is specified as not applicable in the relevant Pricing Supplement, then, notwithstanding anything to the contrary in the definition of Restructuring and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraphs (a) to (e) of the definition of "Restructuring" shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

"**Multiple Holder Obligation**" means an Obligation that (i) at the time of the event which constitutes a Restructuring Credit Event is held by more than three holders that are not Affiliates of each other and (ii) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event, **provided that** any Obligation that is a Bond shall be deemed to satisfy the requirement in paragraph (ii).

19. Calculation Agent, Calculation Agent Notices and Timings

- (a) Whenever any state of affairs, circumstance, event or other matter falls to be determined, considered or otherwise decided upon, or any discretion is required to be exercised, by the Calculation Agent or any other person (including where a matter is to be decided by reference to the Calculation Agent's or such other person's opinion), unless otherwise stated, that matter shall be determined, considered or otherwise decided upon, or that discretion shall be exercised, (i) where by the Calculation Agent, acting in good faith and in a commercially reasonable manner or (ii) where by such other person, acting in its sole and absolute discretion and in each case shall in the absence of manifest error be final and binding on the Issuer and the Noteholders. Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Notes including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion. Neither the Calculation Agent nor the Issuer shall be liable for any loss, liability, cost, claim, action, demand or expense (including without limitation, all costs, charges and expenses paid or incurred in disputing or defending any of the foregoing) arising out of or in relation to or in connection with the Calculation Agent's appointment or the exercise of its functions (including, without limitation, any such delay, deferral or forbearance), except in the case of the Calculation Agent such as may result from its own wilful default, negligence or bad faith or that of its officers or agents.
- (b) Any notice to be delivered by the Calculation Agent to the Issuer pursuant to these Credit Linked Conditions may be given in writing (including by facsimile and/or email) and/or by telephone. Any such notice will be effective when given, regardless of the form in which it is delivered. A notice given by telephone will be deemed to have been delivered at the time the telephone conversation takes place. If the notice is delivered by telephone, a written confirmation will be executed and delivered confirming the substance of that notice within one Calculation Agent City Business Day of that notice. Failure to provide that written confirmation will not affect the effectiveness of that telephonic notice.
- (c) Any notice to be delivered by the Issuer to the Calculation Agent pursuant to these Credit Linked Conditions may be given in writing (including by facsimile and/or email) and/or by telephone. Any such notice will be effective when given, regardless of the form in which it is delivered. A notice given by telephone will be deemed to have been delivered at the time the telephone conversation

takes place. If the notice is delivered by telephone, a written confirmation will be executed and delivered confirming the substance of that notice within one Calculation Agent City Business Day of that notice. Failure to provide that written confirmation will not affect the effectiveness of that telephonic notice.

- (d) For the purposes of determining the day on which an event occurs for purposes of these Credit Linked Conditions, the Calculation Agent will determine the demarcation of days by reference to Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time) irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.
- (e) In addition, if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time), irrespective of the time zone of its place of payment.

20. Amendment of Credit Linked Conditions

The Calculation Agent may from time to time amend any provision of these Credit Linked Conditions in any manner which the Calculation Agent determines in a commercially reasonable manner is necessary or desirable from the perspective of the Issuer, the Calculation Agent or a party to the Hedging Arrangements (i) to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by Credit Derivatives Determinations Committees, including without limitation, in relation to settlement, credit events and successors and/or (ii) to reflect or account for market practice for credit derivative transactions and/or reflect or account for a Hedge Disruption Event. Any amendment made in accordance with this Credit Linked Condition 20 shall be notified to the Noteholders in accordance with Condition 16 (*Notices*). Any failure to provide notice of any such amendment to Noteholders will not constitute an Event of Default under the Notes and will not affect the validity of any of the foregoing provisions.

21. Early redemption of Reference Obligation Only Notes following a Substitution Event

If the Notes are Reference Obligation Only Notes relating to a single Reference Entity and the event set out in paragraph (a) of the definition of Substitution Event above occurs with respect to the Reference Obligation, then:

- (a) interest (if any) shall cease to accrue on the Credit-Linked Notes from and including the Interest Payment Date immediately preceding the relevant Substitution Event Date or, if no Interest Payment Date has occurred, no interest will accrue on the Credit-Linked Notes; and
- (b) each Credit-Linked Note will be redeemed by the Issuer at its relevant Reference Obligation Only Early Termination Amount specified in, or determined in the manner specified in, the relevant Pricing Supplement on the Maturity Date, which for the purposes of this Credit Linked Condition 21 shall be the day falling five Business Days following the relevant Substitution Event Date.

22. DC Resolution Adjustment Events

If following the publication of a DC Resolution (the "**Prior DC Resolution**"), a further DC Resolution (the relevant "**Further DC Resolution**") is published the effect of which would be to reverse all or part of the Prior DC Resolution or if any DC Resolution would reverse any determination made by the Calculation Agent and/or the occurrence of a Credit Event Determination Date, notwithstanding any other provisions of these Credit Linked Conditions the Calculation Agent may make any adjustment(s) that the Calculation Agent determines is necessary or desirable to the Conditions or these Credit Linked Conditions to reflect the

publication of such Further DC Resolution or DC Resolution, including, without limitation, as a result of the impact or effect of such Further DC Resolution or DC Resolution on the Hedging Arrangements (if any at the relevant time).

23. Amendments to an Index Annex for an iTraxx Index

The relevant Index Annex in respect of an iTraxx Index will be deemed amended from time to time to reflect any modifications resulting from the application of the definitions of Reference Entity, Reference Obligation, Standard Reference Obligation and/or Substitute Reference Obligation above.

24. Inconsistency between Index Annex and a CDX Index

In the event of any inconsistency between the relevant Index Annex in respect of a CDX Index and the corresponding Index published by the relevant Index Sponsor, the relevant Index Annex shall govern.

25. 2019 Narrowly Tailored Credit Event Provisions

If "2019 Narrowly Tailored Credit Event Provisions" is specified as applicable in the relevant Pricing Supplement, the following provisions shall apply for the purpose of the Notes.

(a) Outstanding Principal Balance

The definition of "Outstanding Principal Balance" in Credit Linked Condition 16 is hereby deleted in its entirety and replaced with the following:

“**Outstanding Principal Balance**” means the outstanding principal balance of an obligation which will be calculated as follows:

(a) *first*, by determining, in respect of the obligation, the amount of the Reference Entity's principal payment obligations and, where applicable in accordance with the definition of Accrued Interest above, the Reference Entity's accrued but unpaid interest payment obligations (which, in the case of a Guarantee will be the lower of (i) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (ii) the amount of the Fixed Cap, if any);

(b) *second*, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (i) is subject to any Prohibited Action, or (ii) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (A) payment or (B) a Permitted Contingency) (the amount determined in accordance with paragraph (a) above less any amounts subtracted in accordance with this paragraph (b), the "**Non-Contingent Amount**"); and

(c) *third*, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance,

in each case, determined:

(i) unless otherwise specified, in accordance with the terms of the obligation in effect on either (A) the relevant PSN Effective Date (or if the terms of the obligation are amended after such date but on or prior to the relevant Delivery Date, the Delivery Date), or (B) the relevant Valuation Date; and

- (ii) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

For the purposes of paragraph (ii) above, "**applicable laws**" shall include any bankruptcy or insolvency law or other law affecting creditors' rights to which the relevant obligation is, or may become, subject.

If "Fallback Discounting" is specified as applicable in the relevant Pricing Supplement, then notwithstanding the above, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under paragraph (ii) above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent. of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent. of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent. of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

- (x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "**Original Obligation(s)**") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and
- (y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee or, if none, as determined by the Calculation Agent in such manner and by reference to such source(s) as it determine appropriate."

(b) Failure to Pay

The definition of "Failure to Pay" in Credit Linked Condition 16 is hereby deleted in its entirety and replaced with the following:

"Failure to Pay" means, after the expiration of any applicable Grace Period (after the satisfaction of any conditions precedent to the commencement of such Grace Period), the failure by the Reference Entity to make, when and where due, any payments in an aggregate amount of not less than the Payment Requirement under one or more Obligations, in accordance with the terms of such Obligations at the time of such failure provided that, if an occurrence that would constitute a Failure

to Pay (a) is a result of a redenomination that occurs as a result of action taken by a Governmental Authority which is of general application in the jurisdiction of such Governmental Authority and (b) a freely available market rate of conversion existed at the time of the redenomination, then such occurrence will be deemed not to constitute a Failure to Pay unless the redenomination itself constituted a reduction in the rate or amount of interest, principal or premium payable (as determined by reference to such freely available market rate of conversion) at the time of such redenomination. If "Credit Deterioration Requirement" is specified as applicable in the relevant Pricing Supplement, then, notwithstanding the foregoing, it shall not constitute a Failure to Pay if such failure does not directly or indirectly either result from, or result in, a deterioration in the creditworthiness or financial condition of the Reference Entity, as determined by the Calculation Agent. In making such determination, the Calculation Agent may take into account the guidance note set out in paragraph 3 (Interpretive Guidance) of the ISDA 2019 Narrowly Tailored Credit Event Supplement to the 2014 ISDA Credit Derivatives Definitions (published on July 15, 2019).".

26. Purchases

Condition 6 (*Redemption, purchase and options*) shall be amended by including the following as sub-clause 6.11 (*Purchases*) therein:

Each of the Issuer and any person directly or indirectly connected with the Issuer may at any time purchase Notes at any price in the open market or otherwise, and such Notes may be held, reissued, resold or, provided such Notes are held by the Issuer, at the option of the Issuer deissued or cancelled.

TERMS AND CONDITIONS OF THE CERTIFICATES

The following is the text of the terms and conditions that, as supplemented in accordance with the provisions of the relevant Pricing Supplement, shall be applicable to the Certificates. All capitalised terms that are not defined in these Terms and Conditions shall have the meanings given to them in the relevant Pricing Supplement. References below to "Conditions" are, unless the context requires otherwise, to the numbered paragraphs below. References in the Terms and Conditions to "Certificates" are to the Certificates of one Series only, not to all Certificates that may be issued under the Programme.

The Certificates are issued by HSBC France (the "**Issuer**") in series (each a "**Series**") having one or more issue dates and on terms otherwise identical (or identical with the exception of the first interest payment), the Certificates of each Series being intended to be interchangeable with all other Certificates of that Series. Each Series may be issued in tranches (each a "**Tranche**") on the same or different issue dates. The specific terms and conditions of each Tranche (including, but not limited to, the issue price, redemption price thereof, and interest, if any, payable in respect of the Certificates and supplemented, where necessary, with supplemental terms and conditions which, with the exception of the issue date, issue price, first interest payment and nominal amount of the Tranche, shall be identical to the terms of other Tranches of the same Series) shall be determined by the Issuer and the relevant Dealer(s) at the time of the issue and shall be set out in the Pricing Supplement of such Tranche (the "**Pricing Supplement**").

The Certificates shall be issued in accordance with an agency agreement (the "**Agency Agreement**") to be entered into between the Issuer, BNP Paribas Securities Services as fiscal agent and principal paying agent and HSBC Bank plc as calculation agent and the other agents named therein. The fiscal agent, the paying agent(s) and the calculation agent(s) for the time being (if any) are referred to below respectively as the "**Fiscal Agent**", the "**Paying Agents**" (which expression shall include the Fiscal Agent) and the "**Calculation Agent(s)**". In addition, the Principal Paying Agent may (with the prior written consent of the Issuer) delegate certain of its functions and duties in relation to the Physical Delivery Certificates (as defined below) to a settlement agent (the "**Settlement Agent**").

1. Definitions

The capitalised terms used in the Terms and Conditions of the Certificates have the following meanings:

"**Acquisition Price**" means the price at which the Certificateholder purchases the Certificate during the secondary market period.

"**Administrator/Benchmark Event**" means, in respect of any Series of Certificates and a Relevant Benchmark, any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case, as required under any applicable law or regulation in order for the Issuer, the Calculation Agent or any other entity to perform its or their respective obligations in respect of the Certificates, all as determined by the Issuer;

"**ADR/GDR Basket**" means a basket of ADR/GDR issued by more than one Depository, as indicated in the Pricing Supplement of the Certificates.

The value of the ADR/GDR Basket shall be determined by the Calculation Agent using the formula indicated in the Pricing Supplement of the Certificates.

Each Floating Rate Certificates, Index Linked Certificates, Index Basket-Linked Certificates, Inflation Rate-Linked Certificates, Currency-Linked Certificates, Equity Linked Certificates, Equity Basket-Linked Certificates, ADR/GDR Linked Certificates, ADR/GDR Basket-Linked Certificates, ETF Linked Certificates and ETF Basket-Linked Certificates bears interest on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrears on each Interest Payment Date, unless provided otherwise in the Pricing Supplement. Such Interest Payment Date(s) is/are either shown in the relevant Pricing Supplement as the

specified Interest Payment Date(s) or, if no specified Interest Payment Date(s) is/are shown in the relevant Pricing Supplement, Interest Payment Date shall mean each date which falls at the end of the number of months or other period shown in the relevant Pricing Supplement as the Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

(b) Business Day Convention

If any date referred to in these Terms and Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the applicable Business Day Convention is (A) the **"Floating Rate Business Day Convention"**, such date shall be postponed to the following Business Day unless it would thereby fall into the next calendar month, in which case (x) such date shall be brought forward to the immediately preceding Business Day and (y) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (B) the **"Following Business Day Convention"**, such date shall be postponed to the next Business Day, (C) the **"Modified Following Business Day Convention"**, such date shall be postponed to the next Business Day unless it would thereby fall into the next calendar month, in which case such date shall be brought forward to the immediately preceding Business Day or (D) the **"Preceding Business Day Convention"**, such date shall be brought forward to the immediately preceding Business Day. Notwithstanding the foregoing, if the relevant Pricing Supplement specify that the applicable Business Day Convention is to be applied on an "unadjusted" basis, the Coupon Amount payable on any date shall not be subject to adjustment under any Business Day Convention.

(c) Rate of Interest for Floating Rate Certificates

The Rate of Interest in respect of Floating Rate Certificates for each Interest Accrual Period shall be determined in accordance with the method specified in the relevant Pricing Supplement and the provisions below relating to either FBF Determination, ISDA Determination or Screen Rate Determination shall apply, depending on the option specified in the relevant Pricing Supplement.

(i) FBF Determination for Floating Rate Certificates

Where FBF Determination is specified in the relevant Pricing Supplement as the method to be used to determine the Rate of Interest, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant FBF Rate plus or minus (as indicated in the relevant Pricing Supplement) the Margin (if any). For the purposes of this subparagraph (i), **"FBF Rate"** for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction (*Echange*) in the relevant Specified Currency incorporating the FBF Definitions and under which:

- (A) the Floating Rate is as specified in the relevant Pricing Supplement; and
- (B) the Floating Rate Determination Date is as specified in the relevant Pricing Supplement.

provided, however, that:

- (a) unless Alternative Reference Rates is specified as applicable in the relevant Pricing Supplement:
 - (1) if the application of the above provisions does not result in the determination of an FBF Rate for any Interest Period and if the Issuer (in consultation with the Calculation Agent) has not determined that a Benchmark Trigger Event has occurred in relation to a Relevant Benchmark relating to the Certificates, then the Calculation Agent shall

determine the FBF Rate for such Interest Period having regard to such facts and circumstances as it considers relevant; and

- (2) if in relation to any Interest Period the Issuer (in consultation with the Calculation Agent) determines that a Benchmark Trigger Event has occurred in relation to a Relevant Benchmark relating to the Certificates, the provisions of Condition 15 (*Consequences of a Benchmark Trigger Event*) shall apply and the Calculation Agent shall not be required to obtain quotations from Reference Banks (as defined in the FBF Definitions) for purposes of determining the FBF Rate for such Interest Period notwithstanding that it might otherwise be required to do so as a fallback procedure for the relevant Floating Rate Option pursuant to the FBF Definitions; and
- (b) if Alternative Reference Rates is specified as applicable in the relevant Pricing Supplement and the application of the above provisions does not result in the determination of an FBF Rate for any Interest Period, then the provisions of Condition 6.3(d) (*Alternative Reference Rates*) shall apply as if Screen Rate Determination had been specified in the relevant Pricing Supplement in place of FBF Determination for such Interest Period, and all future Interest Periods, and as if:
- (1) the Reference Rate were the Floating Rate Option for the Designated Maturity (each as specified in the relevant Pricing Supplement);
 - (2) the Relevant Screen Page were the screen page or other price source specified in the FBF Definitions for such Floating Rate Option;
 - (3) the Relevant Time and the Interest Determination Date were, respectively, the time and date as of and on which the FBF Definitions specify that such Floating Rate Option is, in respect of a Reset Date, to be determined by reference to such screen page or other price source; and
 - (4) the Relevant Financial Centre is such city or place as the Calculation Agent determines should be the Relevant Financial Centre to reflect current market practice for such Floating Rate Option.

For the purposes of this sub-paragraph (i), "**Floating Rate**", "**Agent**" and "**Floating Rate Determination Date**" are translations of the French terms "*Taux Variable*", "*Agent*" and "*Date de Détermination du Taux Variable*", respectively, which have the meanings given to those terms in the FBF Definitions.

(ii) ISDA Determination for Floating Rate Certificates

Where ISDA Determination is specified in the relevant Pricing Supplement as the method to be used to determine the Rate of Interest, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate plus or minus (as indicated in the relevant Pricing Supplement) the Margin (if any). For the purposes of this sub-paragraph (ii), "**ISDA Rate**" for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent for a Swap Transaction entered into under the terms of an agreement incorporating the ISDA Definitions and under which:

- (A) the Floating Rate Option is as specified in the relevant Pricing Supplement;

- (B) the Designated Maturity is as specified in the relevant Pricing Supplement; and
- (C) the relevant Reset Date is the first day of that Interest Accrual Period unless specified otherwise in the relevant Pricing Supplement.

provided, however, that:

- (a) unless Alternative Reference Rates is specified as applicable in the relevant Pricing Supplement:
 - (1) if the application of the above provisions does not result in the determination of an ISDA Rate for any Interest Period and if the Issuer (in consultation with the Calculation Agent) has not determined that a Benchmark Trigger Event has occurred in relation to a Relevant Benchmark relating to the Certificates, then the Calculation Agent shall determine the ISDA Rate for such Interest Period having regard to such facts and circumstances as it considers relevant; and
 - (2) if in relation to any Interest Period the Issuer (in consultation with the Calculation Agent) determines that a Benchmark Trigger Event has occurred in relation to a Relevant Benchmark relating to the Certificates, the provisions of Condition 15 (*Consequences of a Benchmark Trigger Event*) shall apply and the Calculation Agent shall not be required to obtain quotations from Reference Banks (as defined in the ISDA Definitions) for purposes of determining the ISDA Rate for such Interest Period notwithstanding that it might otherwise be required to do so as a fallback procedure for the relevant Floating Rate Option pursuant to the ISDA Definitions; and
- (b) if Alternative Reference Rates is specified as applicable in the relevant Pricing Supplement and the application of the above provisions does not result in the determination of an ISDA Rate for any Interest Period, then the provisions of Condition 6.3(d) (*Alternative Reference Rates*) shall apply as if Screen Rate Determination had been specified in the relevant Pricing Supplement in place of ISDA Determination for such Interest Period, and all future Interest Periods, and as if:
 - (1) the Reference Rate were the Floating Rate Option for the Designated Maturity (each as specified in the relevant Pricing Supplement);
 - (2) the Relevant Screen Page were the screen page or other price source specified in the ISDA Definitions for such Floating Rate Option;
 - (3) the Relevant Time and the Interest Determination Date were, respectively, the time and date as of and on which the ISDA Definitions specify that such Floating Rate Option is, in respect of a Reset Date, to be determined by reference to such screen page or other price source; and
 - (4) the Relevant Financial Centre is such city or place as the Calculation Agent determines should be the Relevant Financial Centre to reflect current market practice for such Floating Rate Option.

For the purposes of this sub-paragraph (ii), "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**", "**Reset Date**" and "**Swap Transaction**" have the meanings given to those terms in the ISDA Definitions.

(iii) Screen Rate Determination for Floating Rate Certificates not referencing SONIA or SOFR

Where Screen Rate Determination is specified in the relevant Pricing Supplement as the method to be used to determine the Rate of Interest, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent at or about the Relevant Time on the Interest Determination Date in respect of such Interest Accrual Period in accordance with the following, subject always to the provisions of Condition 6.3(d) (*Alternative Reference Rates*) or Condition 15 (*Consequences of a Benchmark Trigger Event*) (as applicable):

(A) if the Primary Source for the Floating Rate is a Screen Page, subject as provided below, the Rate of Interest shall be:

- (a) the Reference Rate (where such Reference Rate on such Screen Page is a composite quotation or is customarily supplied by one entity), or
- (b) the arithmetic mean of the Reference Rates of the institutions whose Reference Rates appear on that Screen Page,

in each case as appearing on such Screen Page at the Relevant Time on the Interest Determination Date, as specified in the relevant Pricing Supplement, plus or minus (as indicated in the relevant Pricing Supplement) the Margin (if any);

(B) if the Primary Source for the Floating Rate is Reference Banks or if sub-paragraph (i)(A) applies and no Reference Rate appears on the Screen Page at the Relevant Time on the Interest Determination Date or if sub-paragraph (i)(B) applies and fewer than two Reference Rates appear on the Screen Page at the Relevant Time on the Interest Determination Date, subject as provided below and unless otherwise specified in the relevant Pricing Supplement, the Rate of Interest shall be the arithmetic mean of the Reference Rates that each of the Reference Banks is quoting to leading banks in the Relevant Financial Centre at the Relevant Time on the Interest Determination Date, as determined by the Calculation Agent, plus or minus (as indicated in the relevant Pricing Supplement) the Margin (if any); and

(C) if paragraph (ii) above applies and the Calculation Agent determines that fewer than two Reference Banks are so quoting Reference Rates, subject as provided below and unless otherwise specified in the relevant Pricing Supplement, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) that the Calculation Agent determines to be the rates (being the nearest equivalent to the Relevant Benchmark) in respect of a Representative Amount of the Specified Currency that at least two out of five leading banks selected by the Calculation Agent in the principal financial centre of the country of the Specified Currency or, if the Specified Currency is the euro, in the euro-zone as selected by the Calculation Agent (the "**Principal Financial Centre**") are quoting at or about the Relevant Time on the date on which such banks would customarily quote such rates for a period commencing on the Effective Date and equivalent to the Specified Duration (I) to leading banks carrying on business in Europe, or (if the Calculation Agent determines that fewer than two of such banks are quoting such rates to leading banks in Europe) (II) to leading banks carrying on business in the Principal Financial Centre; it being understood that, if fewer than two such banks are quoting such rates to leading banks in the Principal Financial Centre, the Rate of Interest shall be the Rate of Interest determined on the previous Interest Determination Date (after readjustment for any difference between any

Margin, Rate Multiplier or Maximum Interest Rate or Minimum Interest Rate applicable to the preceding Interest Accrual Period and to the relevant Interest Accrual Period).

(d) Alternative Reference Rates

If Alternative Reference Rates is specified as applicable in the relevant Pricing Supplement and notwithstanding the provisions of Condition 6.3(c)(iii) (*Screen Rate Determination for Certificates not referencing SONIA or SOFR*), if the Issuer (in consultation with the Calculation Agent) determines that the Reference Rate specified in the relevant Pricing Supplement has ceased to be published on the Relevant Screen Page as a result of such Reference Rate ceasing to be calculated or administered, then the following provisions shall apply:

- (i) the Issuer shall use reasonable endeavours to appoint an Independent Adviser to determine an alternative rate (the "**Alternative Reference Rate**") and an alternative screen page or source (the "**Alternative Relevant Screen Page**") no later than five Business Days prior to the Interest Determination Date relating to the next Interest Period (the "**IA Determination Cut-off Date**") for the purposes of determining the Rate of Interest applicable to the Certificates for all future Interest Periods (subject to the subsequent operation of this Condition 5(d));
- (ii) the Alternative Reference Rate shall be such rate as the Independent Adviser determines has replaced the relevant Reference Rate in customary market usage for the purposes of determining floating rates of interest or, if the Independent Adviser determines that there is no such rate, such other rate as the Independent Adviser determines in its sole discretion is most comparable to the relevant Reference Rate, and the Alternative Relevant Screen Page shall be such page of an information service as displays the Alternative Reference Rate;
- (iii) if the Issuer is unable to appoint an Independent Adviser, or the Independent Adviser appointed by it fails to determine an Alternative Reference Rate and Alternative Relevant Screen Page prior to the IA Determination Cut-off Date, then the Issuer (in consultation with the Calculation Agent and acting in good faith and a commercially reasonable manner) shall determine which (if any) rate has replaced the relevant Reference Rate in customary market usage for purposes of determining floating rates of interest or, if it determines that there is no such rate, which (if any) rate is most comparable to the relevant Reference Rate, and the Alternative Reference Rate shall be the rate so determined by the Issuer and the Alternative Relevant Screen Page shall be such page of an information service as displays the Alternative Reference Rate; provided, however, that if this Condition 6.3(d)(iii) applies and the Issuer is unable to determine an Alternative Reference Rate and Alternative Relevant Screen Page on or prior to the Interest Determination Date relating to the next Interest Period, the Rate of Interest applicable to such Interest Period shall be equal to the sum of the Margin and the rate last determined in relation to the Certificates in respect of a preceding Interest Period;
- (iv) if an Alternative Reference Rate and Alternative Relevant Screen Page is determined in accordance with the preceding provisions, such Alternative Reference Rate and Alternative Relevant Screen Page shall be the Reference Rate and the Relevant Screen Page in relation to the Certificates for all future Interest Periods (subject to the subsequent operation of this Condition 6.3(d));
- (v) if the Independent Adviser or, in accordance with Condition 6.3(d)(iii) above, the Issuer determines an Alternative Reference Rate in accordance with the above provisions, the Independent Adviser or the Issuer (as the case may be) may also, following consultation with the Calculation Agent, specify changes to the Relevant Time, Relevant Financial Centre, Reference Banks, Day Count Fraction, Business Day Convention, Business Days and/or Interest Determination Date applicable to the Certificates, and the method for determining the Rate of Interest in relation to the Certificates if the Alternative Reference Rate is not available, or fewer than the required number of rates appear, on the Alternative Relevant Screen Page at any time, in order to follow market practice in relation to the Alternative Reference Rate, and shall also specify any other changes (including to the Margin) which

the Issuer, following consultation with the Independent Adviser (where appointed), determines in good faith are reasonably necessary to ensure the proper operation and comparability to the Reference Rate of the Alternative Reference Rate, which changes shall apply to the Certificates for all future Interest Periods (subject to the subsequent operation of this Condition 6.3(d)) and the Issuer shall effect such amendments to the Conditions and such consequential amendments to the Agency Agreement as the Issuer may deem appropriate in order to give effect to this Condition 6.3(d). No consent of the Holders of the Certificates of the relevant Series or of the Holders of the Coupons appertaining thereto shall be required in connection with effecting the Alternative Reference Rate, Alternative Relevant Screen Page or such other changes, including for the execution of any documents or the taking of other steps by the Issuer or any of the parties to the Agency Agreement (if required); and

- (vi) the Issuer shall promptly following the determination of any Alternative Reference Rate and Alternative Relevant Screen Page give notice thereof and of any changes pursuant to Condition 6.3(d)(v) to the Principal Paying Agent, the Calculation Agent and the Certificateholders (in accordance with Condition 14 (*Notices*)).

It shall then cause the Rate of Interest and the Coupon Amounts for each Interest Period and the relevant Interest Payment Date and, if required, the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or any Instalment Amount to be notified to the Fiscal Agent, the Issuer, each of the Paying Agents, the Certificateholders and any other Calculation Agent appointed in connection with the Certificates to make further calculations upon receipt of such information. The Issuer shall ensure that there shall at all times be four Reference Banks (or such other number as may be required) with at least one office in the Relevant Financial Centre and one or more Calculation Agents if provision is made for them in the relevant Pricing Supplement and for so long as any Certificates are outstanding (as defined above). If any Reference Bank (acting through its designated office) is unable or unwilling to continue to act as a Reference Bank, then the Issuer shall appoint another Reference Bank with an office in the Relevant Financial Centre to act as such in its place. Where several Calculation Agents are appointed in respect of the Certificates, any references in these Terms and Conditions to the Calculation Agent shall be construed as referring to each Calculation Agent performing its respective duties under these Terms and Conditions. If the Calculation Agent is unable or unwilling to continue to act as such or if the Calculation Agent is unable to establish the Rate of Interest for any Interest Period or Interest Accrual Period or to calculate any Coupon Amount, Instalment Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, or to comply with any other requirement, the Issuer shall appoint a leading bank or investment banking firm engaged in the interbank market (or, if appropriate, the money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal Paris office, or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid. So long as the Certificates are admitted to trading on a stock exchange, market or quotation system and the applicable rules of, or applicable to, that stock exchange, market or quotation system so require, notice of any change of Calculation Agent shall be given in accordance with Condition 14.

6.4 Zero Coupon Certificates

Where a Certificate, the Interest Basis of which is specified to be Zero Coupon, is redeemable prior to its Maturity Date pursuant to the exercise of an Issuer's Option or, if so specified in the relevant Pricing Supplement, pursuant to Condition 7.5 or otherwise and is not redeemed when due, the amount due and payable prior to the Maturity Date shall, unless provided otherwise in the relevant Pricing Supplement, be the Early Redemption Amount. As from the Maturity Date, the interest rate for any overdue principal of such a Certificate shall be a rate per annum (expressed as a percentage) equal to the Rate of Yield (as described in Condition 7.5(a)).

Notwithstanding the above, in the case of Physical Delivery Certificates where the applicable Pricing Supplement specify that such Certificates shall be redeemed

Unless previously redeemed, purchased or cancelled as provided in this Condition 7 or the relevant Instalment Date (i.e. one of the dates so specified in the relevant Pricing Supplement) is extended pursuant to the Certificateholder's option in accordance with Condition 7.4, each Certificate whose terms and conditions provides for Instalment Dates and Instalment Amounts shall be partially redeemed on each Instalment Date at the Instalment Amount specified in the relevant Pricing Supplement. The outstanding nominal amount of each such Certificate shall be reduced by the relevant Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the nominal amount of such Certificates, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused on the due date for such payment, in which case such amount shall remain outstanding until the Reference Date for the Instalment Amount.

7.3 Redemption at the Option of the Issuer and Partial Redemption

If a Call Option is specified in the relevant Pricing Supplement, the Issuer may, subject to compliance by the Issuer with all the relevant laws, regulations and directives and provided it gives not less than fifteen (15) nor more than thirty (30) calendar days' irrevocable prior notice in accordance with Condition 14 to the Certificateholder (or such other notice period as may be specified in the relevant Pricing Supplement), redeem all or, as appropriate, some, of the Certificates on any Call Option Date (as specified in the relevant Pricing Supplement). Any such redemption of Certificates shall be at their Optional Redemption Amount (as specified in the relevant Pricing Supplement) plus interest, if any, accrued to the date fixed for redemption. Any such redemption should relate to Certificates of a nominal amount at least equal to the minimum redemption amount as specified in the relevant Pricing Supplement and may not exceed the maximum redemption amount as specified in the relevant Pricing Supplement.

If any other Issuer's Option (as described in the relevant Pricing Supplement) is specified in the relevant Pricing Supplement, the Issuer may, subject to compliance by the Issuer with all the relevant laws, regulations and directives and provided it gives not less than fifteen (15) nor more than thirty (30) calendar days' irrevocable prior notice in accordance with Condition 14 to the Certificateholders (or such other notice period as may be specified in the relevant Pricing Supplement) exercise any Issuer's Option in relation to all or, as appropriate, some, of the Certificates on any Option Exercise Date. Any such exercise should relate to Certificates of a nominal amount at least equal to the minimum redemption amount in respect of which such option has been exercised as specified in the relevant Pricing Supplement and may not exceed the maximum redemption amount in respect of which such option has been exercised as specified in the relevant Pricing Supplement.

In the case of a partial redemption of, or a partial exercise of, an Issuer's Option, the redemption shall be effected by reducing the nominal amount of all such Certificates in a given Series in proportion to the aggregate nominal amount redeemed, subject to compliance with the prevailing legislation and stock exchange, market or quotation system or unregulated market regulations.

7.4 Certificateholders' Put and Exercise of Certificateholders' Options

If a Put Option is specified in the relevant Pricing Supplement, the Issuer shall, at the Certificateholder's request with notice of not less than fifteen (15) nor more than thirty (30) calendar days to the Issuer (or such other notice period as may be specified in the relevant Pricing Supplement), redeem the Certificate on the Put Option Date(s) (as specified in the relevant Pricing Supplement) at its Optional Redemption Amount (as specified in the relevant Pricing Supplement) together with interest accrued to the date fixed for redemption.

If any other Certificateholder's Option (as described in the relevant Pricing Supplement) is specified in the Pricing Supplement, the Issuer shall, at the Certificateholder's request with notice of not less than fifteen (15) nor more than thirty (30) calendar days to the Issuer (or such other notice period as may be specified in the relevant Pricing Supplement), exercise the option attached to the Certificate on the Option Exercise Date at its Optional Redemption Amount together with interest accrued to the date fixed for redemption.

The calculation of the Optional Redemption Amount or Early Redemption Amount, as the case may be, in accordance

with this sub-paragraph shall continue to be made (both before and after any judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount payable shall be the scheduled Final Redemption Amount of such Certificate on the Maturity Date plus any accrued interest, in accordance with Condition 7.4.

Where such calculation is to be made for a period of less than one (1) year, it shall be made on the basis of the Day Count Fraction as provided in the relevant Pricing Supplement.

- (ii) If the Issuer, on the next redemption of principal or payment of interest or other revenues in respect of the Certificates, is prevented by French law from making payment to the Certificateholders of the full amounts then payable, notwithstanding the undertaking to pay all additional amounts laid down in 9.2 below, then the Issuer shall forthwith give notice of such fact to the Fiscal Agent and the Issuer shall, subject to giving not less than seven (7) calendar days' prior notice to the Certificateholders in accordance with Condition 14, redeem all, but not some only, of the Certificates then outstanding at their Early Redemption Amount plus, unless specified otherwise in the relevant Pricing Supplement, any interest accrued to the date set for redemption on (A) the latest Interest Payment Date on which the Issuer could make payment of the full amount then due and payable in respect of the Certificates, provided that if such notice expires after such Interest Payment Date, the date for redemption of Certificateholders shall be the later of (i) the latest practicable date on which the Issuer could make payment of the full amount then due in respect of the Certificates and (ii) fourteen (14) calendar days after giving notice to the Fiscal Agent or (B) if so specified in the relevant Pricing Supplement, on any date, provided that the scheduled date for redemption of which notice hereunder shall be given shall be the latest practicable date on which the Issuer could make payment of the full amount payable in respect of the Certificates or, if that date is passed, as soon as practicable thereafter.

The Certificates thus cancelled or, where applicable, transferred or surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such Certificates shall be discharged.

7.9 Illegality

8.2 Payments in Offshore Renminbi

Where payments of amounts due in respect of Certificates are in Offshore Renminbi, such payments will be made by credit or transfer to an account denominated in Offshore Renminbi and maintained by the payee with a bank in the relevant Offshore RMB Centre in accordance with applicable laws, rules and regulations and

guidelines issued from time to time (including all applicable laws and regulations with respect to settlement in Offshore Renminbi in the relevant Offshore RMB Centre). Payments will, without prejudice to the provisions of this Condition, be subject in all cases to any applicable fiscal or other laws and regulations in the place of payment.

8.3 Payments subject to fiscal laws

All payments are, but without prejudice to the provisions of Condition 9, subject to (i) any applicable fiscal or other laws, regulations and directives, (ii) any withholding or deduction required pursuant to an agreement described in 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto, and (iii) any withholding or deduction required pursuant to Section 871(m) of the Code (**871(m) Withholding**). Commission or expenses shall not be charged to the Certificateholders in respect of such payments. In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the Certificates, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

With respect to Certificates that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e., a security that pays U.S. source dividends) or an index that includes U.S. securities, all payments on the Certificates that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

8.4 Appointment of Agents

The Fiscal Agent, the Paying Agents, the Calculation Agent and the Registration Agent initially appointed by the Issuer and their respective offices are listed at the end of the Offering Memorandum relating to the Issuer's Certificates Programme. The Fiscal Agent, the Paying Agents and the Registration Agent act solely as agents of the Issuer and the Calculation Agent(s) act(s) as independent experts(s) and, in each case, do not assume any agency obligation with regard to the Certificateholders. The Issuer reserves the right at any time to change or terminate the appointment of the Fiscal Agent, any Paying Agent, Registration Agent or Calculation Agent and to appoint another Fiscal Agent or Paying Agent(s), Registration Agent(s) or Calculation Agent(s) or additional Paying Agent(s), Registration Agent(s) or Calculation Agent(s), provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) one or more Calculation Agent(s) where the Terms and Conditions so require, (iii) Paying Agents having specified offices in at least two major European cities, (iv) in the case of Certificates in fully registered form, a Registration Agent and (v) such other agents as may be required by the rules of any other stock exchange, market or quotation system on which the Certificates are admitted to trading.

Certificateholders shall be notified immediately of any such change or of any change in a specified office as required under Condition 14.

If any date for payment in respect of a Certificate is not a business day, the Certificateholder shall not be entitled to payment until the next business day unless otherwise specified in the relevant Pricing Supplement, nor to any interest or other sum in respect of such postponement. In this paragraph, "**business day**" means a day (other than a Saturday or a Sunday) (A) on which Euroclear France is open for business or (B) on which banks and foreign exchange markets are open for business in such jurisdictions as shall be specified as

The applicable Pricing Supplement shall contain provisions relating to the procedure for the delivery of any Physical Delivery Amount in respect of Physical Delivery Certificates (including, without limitation, liability for the costs of transfer of Underlying Assets). The Underlying Assets shall be delivered at the risk of the relevant Certificateholder in such manner as may be specified in the Transfer Notice and no additional payment or delivery shall be due to a Certificateholder where any Underlying Assets are delivered after their due date as the result of circumstances beyond the control of either the Issuer or the Settlement Agent.

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 8.6 by the Calculation Agent, will (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agents and all Certificateholders. By acceptance thereof, purchasers of the Certificates will be deemed to have acknowledged and agreed and to have waived any and all actual or potential conflicts of interest that may arise as a result of the calculation of the Alternative Payment Currency Equivalent by the Calculation Agent.

(b) Price Source Disruption and FX Disruption

If "Price Source Disruption" is specified as being applicable in the relevant Pricing Supplement, then, if on any day on which the Calculation Agent is required to determine a Relevant Rate (a "**Scheduled FX Fixing Date**"):

- (i) a Price Source Disruption occurs, (other than as a result of an Unscheduled Holiday) and no Alternative Payment Currency Exchange Rate Fall-Back provisions and/or Underlying Currency Pair Exchange Rate Fall-Back provisions (as applicable) are specified in the relevant Pricing Supplement, then the Calculation Agent shall:
 - (A) determine the Relevant Rate by reference to the rate of exchange published by available recognised financial information vendors (as selected by the Calculation Agent acting in good faith and in a commercially reasonable manner) on the Scheduled FX Fixing Date (the "**Fallback Reference Price**"); or
 - (B) if (i) the Calculation Agent is unable to determine a Fallback Reference Price in accordance with paragraph (A) above or the Calculation Agent determines that the Fallback Reference Price so determined does not accurately represent the rate which the Calculation Agent determines that the Issuer would be able to obtain in the general foreign exchange market; (ii) the Calculation Agent determines that the Relevant Rate determined in accordance with paragraph (B) above does not

accurately represent the rate which the Calculation Agent determines that the Issuer would be able to obtain in the general foreign exchange market; or (iii) fewer than 2 quotations are provided by Reference Dealers following the Calculation Agent's request pursuant to paragraph (B) above, the Calculation Agent will determine the Relevant Rate on the first succeeding Business Day on which the Price Source Disruption ceases to exist; **provided, however, that** if the Price Source Disruption continues for thirty consecutive calendar days (or such other number of calendar days as may be specified in the relevant Pricing Supplement) after the Scheduled FX Fixing Date (the "**FX Cut-off Date**"), the Calculation Agent shall determine its good faith estimate of the Relevant Rate on that FX Cut-off Date; or

If at any time, a FX Disruption Event occurs, the Issuer, in its sole and absolute discretion, may elect to either:

- (i) having given not less than five days' notice to the Certificateholders in accordance with Condition 14 (*Notices*), redeem all, but not some only, of the Certificates at their Early Redemption Amount (and, if the FX Disruption Event occurs on a Scheduled FX Fixing Date on which there is a Price Source Disruption or Unscheduled Holiday, for the purposes of determining such Early Redemption Amount the Calculation Agent shall first determine any Relevant Rate (if required) in accordance with sub-paragraph (i) or (ii), as applicable, of Condition 8.6) on the date notified to the Certificateholders; or
- (ii) instruct the Calculation Agent to make such adjustment(s) to the Conditions as it, acting in good faith and in a commercially reasonable manner, determines to be necessary or desirable to reflect or account for any market practice that develops in respect of the FX Disruption Event,

provided, however that in relation to (i) and (ii) above, if as a result of the FX Disruption Event the Issuer is not able to satisfy payments in respect of the Certificates when due in the Settlement Currency, the Issuer may settle any such payment pursuant to the provisions of Condition 8.6;

If a Scheduled FX Fixing Date is postponed in accordance with this Condition 8.6, any Related Payment Date will also be postponed, if needed, such that the Related Payment Date shall fall at least three (3) local banking days (or such other number of local banking days as may be specified in the applicable Pricing Supplement) following the postponed Scheduled FX Fixing Date or, if later, the FX Cut-off Date or Postponed FX Fixing Date, as applicable.

- (ii) if an Alternative Pre-nominated Index has not been specified in relation to such Relevant Benchmark in the relevant Pricing Supplement or the Issuer determines that replacing the Relevant Benchmark with the Alternative Prenominated Index would not produce a commercially reasonable result, the Issuer shall do any of the following:
 - (A) determine that references to such Relevant Benchmark shall be deemed to be replaced by references to such index, benchmark or price source as the Issuer determines would have the effect of placing the Issuer in an economically equivalent position to that which it would have been in had the Benchmark Trigger Event not occurred (the "**Replacement Index**") (and in making such determination the Issuer shall be entitled to take into account such facts and circumstances as it considers relevant including, without limitation, (i) any index, benchmark or other price source which measures the same market or economic reality as the Relevant Benchmark and which is formally designated, nominated or recommended by the administrator or sponsor of the Relevant Benchmark or (ii) any index, benchmark or other price source which is formally designated, nominated or recommended by any Relevant Nominating Body, in each case to replace the Relevant Benchmark), in which case:

In relation to Equity-Linked Certificates which are to be redeemed by the delivery of a Securities Transfer Amount, and subject to the other provisions of these Conditions and the relevant Pricing Supplement:

- (a) (i) Each Certificateholder shall, on or before the date five calendar days before the Maturity Date (or such earlier date as the Issuer shall determine is necessary for the Issuer, the Paying Agents, Euroclear France, Euroclear, Clearstream, and/or any other relevant clearing system to perform their respective obligations in relation to the Certificates and notify to the Paying Agents and the Certificateholders) send to Euroclear France, Euroclear, Clearstream and/or any other relevant clearing system, as the case may be, in accordance with its then applicable operating procedures, and copied to the Principal Paying Agent, a duly completed Transfer Notice.
- (ii) A Transfer Notice, once delivered to Euroclear France, Euroclear, Clearstream and/or any other relevant clearing system, shall be irrevocable and may not be withdrawn without the consent in writing of the Issuer. A Certificateholder may not transfer any Certificate which is

the subject of a Transfer Notice following delivery of such Transfer Notice to Euroclear France, Euroclear, Clearstream and/or any other relevant clearing system. A Transfer Notice shall only be valid to the extent that Euroclear France, Euroclear, Clearstream and/or any other relevant clearing system have not received conflicting prior instructions in respect of the Certificates which are the subject of the Transfer Notice.

- (iii) Failure properly to complete and deliver a Transfer Notice may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided shall be made by the Principal Paying Agent and shall be conclusive and binding on the Issuer and the Holders of Certificates.
- (iv) The Principal Paying Agent shall promptly on the local banking day following receipt of a Transfer Notice send a copy thereof to the Issuer or such person as the Issuer may previously have specified.
- (v) Delivery of the Securities will be *via* the relevant clearing system. The delivery or transfer of Securities to each Certificateholder is at the relevant Certificateholder's risk and if delivery occurs later than the earliest possible date for delivery, no additional amounts will be payable by the Issuer.
- (vi) the Issuer shall discharge its obligation to redeem the relevant proportion of the Certificates by delivering, or procuring the delivery of, the Securities Transfer Amount on the Settlement Date to the clearing system for credit to the account with the clearing system specified in the Transfer Notice of the relevant Certificateholder.
- (vii) The amount of Securities to be delivered to or for the account of each Certificateholder shall be an amount of Securities equal to the number of Certificates in respect of which such Certificateholder is the holder as specified in the relevant Transfer Notice multiplied by the Securities Transfer Amount provided, however, that if a Certificateholder would become entitled to a number of Securities which is not equal to a board lot of the Securities at such time, as determined by the Calculation Agent, or an integral multiple thereof, then the Certificateholder's entitlement to delivery of Securities shall be rounded down to the nearest whole Security.
- (viii) In relation to each Certificateholder, the Calculation Agent shall calculate the Residual Amount and the Residual Cash Amount. The Residual Cash Amount shall be paid by the Issuer to the relevant holder on the Settlement Date.
- (ix) Each Certificateholder shall be required as a condition of its entitlement to delivery of Securities in respect of any Certificates to pay all Transfer Expenses in respect of such Certificates.
- (x) After delivery to or for the account of a Certificateholder of the relevant Securities Transfer Amount and for such period of time as the transferor or its agent or nominee shall continue to be registered in any clearing system as the owner of the Securities comprised in such Securities Transfer Amount (the "**Intervening Period**"), none of such transferor or any agent or nominee for the Issuer or such transferor shall (i) be under any obligation to deliver to such Certificateholder or any other person any letter, certificate, notice, circular, dividend or any other document or payment whatsoever received by the Issuer or such transferor, agent or nominee in its capacity as holder of such Securities, (ii) be under any obligation to exercise any rights (including voting rights) attaching to such Securities during the Intervening Period, or (iii) be under any liability to such Certificateholder or any other person in respect of any loss or damage which the Certificateholder or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or such transferor,

agent or nominee being registered in such clearing system during such Intervening Period as legal owner of such Securities.

- (xi) All dividends on Securities to be delivered will be payable to the party that would receive such dividends according to market practice for a sale of the Securities executed on the Notional Sale Date to be delivered in the same manner as such Securities. Any such dividends will be paid to or for credit to the account specified by the Certificateholder in the relevant Transfer Notice. No right to dividends on the Securities will accrue to Certificateholders prior to the Notional Sale Date.

- (b) the Calculation Agent shall determine whether or not at any time a Settlement Disruption Event has occurred and where it determines such an event has occurred and so has prevented delivery of Securities on the original day that but for such Settlement Disruption Event would have been the Settlement Date, then the Settlement Date will be the first succeeding day on which delivery of such Securities can take place through the relevant clearing system unless a Settlement Disruption Event prevents settlement on each of the eight relevant Clearing System Business Days immediately following the original date (or during such other period (the "**Disruption Period**") specified in the relevant Pricing Supplement) that, but for the Settlement Disruption Event, would have been the Settlement Date. In that case, if the Securities are debt securities, the Issuer shall use reasonable efforts to deliver such Securities promptly thereafter in a commercially reasonable manner (as determined by the Calculation Agent) outside the clearing system and in all other cases (a) if such Securities can be delivered in any other commercially reasonable manner (as determined by the Calculation Agent), then the Settlement Date will be the first Business Day on which settlement of a sale of Securities executed on that eighth relevant Clearing System Business Day, or during such other period specified in the relevant Pricing Supplement, customarily would take place using such other commercially reasonable manner (as determined by the Calculation Agent) of delivery (which other manner of delivery will be deemed the relevant clearing system for the purposes of delivery of the relevant Securities), and (b) if such Securities cannot be delivered in any other commercially reasonable manner (as determined by the Calculation Agent), then the Settlement Date will be postponed until delivery can be effected through the relevant clearing system or in any other commercially reasonable manner.

For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Securities comprised in a basket, the Settlement Date for Securities not affected by the Settlement Disruption Event will be the first day on which settlement of a sale of such Securities executed on the Maturity Date customarily would take place through the relevant clearing system.

- (c) if the Calculation Agent determines that a Delivery Disruption Event has occurred, it shall notify the Issuer who shall promptly notify the relevant Certificateholder(s) and the Issuer may then:
 - (i) determine that the obligation to deliver the relevant Securities Transfer Amount will be terminated and the Issuer will pay such amount as in the opinion of the Calculation Agent is fair in the circumstances by way of compensation for the non-delivery of the Securities Transfer Amount, in which event the entitlements of the respective Certificateholder(s) to receive the relevant Securities Transfer Amount shall cease and the Issuer's obligations under the Certificates shall be satisfied in full upon payment of such amount; or
 - (ii) deliver on the Settlement Date such amount of the Securities Transfer Amount (if any) as it can deliver on that date and pay such amount as in the opinion of the Calculation Agent is fair in the circumstances by way of compensation for the non-delivery of the remainder of the Securities Transfer Amount, in which event the entitlements of the respective Certificateholder(s) to receive the relevant Securities Transfer Amount shall cease and the Issuer's obligations under the Certificates shall be satisfied in full upon payment of such amount.

Where this Condition 17.2(c) fails to be applied, insofar as the Calculation Agent determines to be practical, the same shall be applied as between the Certificateholders on a *pro rata* basis, but subject to such rounding down (whether of the amount of a payment or of a number of Securities to be delivered) and also to such other adjustments as the Calculation Agent determines to be appropriate to give practical effect to such provisions.

17.3 Automatic Early Redemption

This Condition 17.3 is applicable only to Automatic Early Redemption Certificates.

If on any Automatic Early Redemption Valuation Date, the Automatic Early Redemption Event occurs, then unless previously redeemed or purchased and cancelled, the Certificates will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date, together with any interest accrued but unpaid thereon to the Automatic Early Redemption Date (unless otherwise specified in the relevant Pricing Supplement) immediately following such Automatic Early Redemption Valuation Date and the Redemption Amount payable by the Issuer on such date upon redemption of each Certificate shall be an amount in the relevant currency equal to the relevant Automatic Early Redemption Amount.

17.4 Knock-in and Knock-out Provisions

If "Knock-in Event" or "Knock-out Event" is specified as applicable in the Pricing Supplement in relation to any Equity-Linked Certificate or Index-Linked Certificate, then each payment and/or delivery in respect of which a Knock-in Event or Knock-out Event (respectively) applies, as specified in the relevant Pricing Supplement, shall be conditional upon the occurrence of such Knock-in Event or Knock-out Event (respectively).

17.5 Consequences of Disrupted Days

For the purposes of this Condition 17.5 "**Limit Valuation Date**" shall mean, if any Valuation Date in respect of a Certificate is a Disrupted Day, the eighth (8th) Scheduled Trading Day following such Valuation Date, notwithstanding the Market Disruption Event, provided that:

- (a) if, as a result of the foregoing, the Valuation Date would be deemed to fall less than five (5) local banking days prior to the Maturity Date, a relevant Interest Payment Date or (as the case may be) any due date for payment of any amount due in respect of such Certificate, the Limit Valuation Date shall be deemed to fall on the day which is five local banking days prior to the Maturity Date, such Interest Payment Date or (as the case may be) due date for payment of any amount due in respect of such Certificate or, if such local banking day is not a Scheduled Trading Day, the immediately preceding Scheduled Trading Day; and
- (b) if the Scheduled Valuation Date falls on a day which is five (5) local banking days or less prior to the Maturity Date, a relevant Interest Payment Date or (as the case may be) any due date for payment of any amount due in respect of such Certificate, the Limit Valuation Date shall be deemed to be such Scheduled Valuation Date,

in each case notwithstanding the fact that such day is a Disrupted Day.

- (c) If any Valuation Date is a Disrupted Day, then:
 - (i) in the case of a Certificate which relates to a single Security or Index, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, provided that the Valuation Date shall not fall after the Limit Valuation Date. In that case:

(A) in respect of an Index-Linked Certificate, the Calculation Agent shall determine that either:

I. the Valuation Date shall be the Limit Valuation Date; or

II. the Valuation Date shall be the first (1st) succeeding Exchange Business Day on which there is no Market Disruption Event,

and, in the case of 17.5(c)(i)(A)I above, the Calculation Agent shall determine the level of the Index as of the Valuation Time on the Limit Valuation Date determined in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the Limit Valuation Date of each security or other property comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security or other property on the Limit Valuation Date, its good faith estimate of the value for the relevant security or other property as of the Valuation Time on the Limit Valuation Date); and

(B) in respect of an Equity-Linked Certificate, the Limit Valuation Date shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day and the Calculation Agent shall determine its good faith estimate of the value for the relevant Security as of the Valuation Time on that Limit Valuation Date;

(ii) in the case of a Certificate which relates to a basket of Indices and/or Securities, the Valuation Date for each Index not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date and the Valuation Date for each Index affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day which is not a Disrupted Day relating to that Index, unless each of the succeeding Scheduled Trading Days up to and including the Limit Valuation Date is a Disrupted Day relating to that Index. In that case, the Calculation Agent shall determine that either:

(A) the Limit Valuation Date shall be the Valuation Date for the relevant Index notwithstanding the fact that such day is Disrupted Day relating to that Index; or

(B) the Valuation Date shall be the first (1st) succeeding Scheduled Trading Day which is not a Disrupted Day relating to that Index,

and, in the case of 17.5(c)(ii)(A) above, the Calculation Agent shall determine the level of that Index, as of the Valuation Time on the Limit Valuation Date in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the Limit Valuation Date of each security or other property comprised in the relevant Index (or, if an event giving rise to a Disrupted Day has occurred in respect to the relevant security or other property on the Limit Valuation Date, its good faith estimate of the value for the relevant security or other property as of the Valuation Time on the Limit Valuation Date); and

(iii) in the case of a Certificate which, in each case, relates to a basket of Indices and/or Securities, the Valuation Date for each Security not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and the Valuation Date for each Security affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to that Security, unless each of the Scheduled Trading Days (up to and including the Limit Valuation Date) immediately

following the Scheduled Valuation Date is a Disrupted Day relating to that Security. In that case, (1) the Limit Valuation Date shall be deemed to be the Valuation Date for the relevant Security, notwithstanding the fact that such day is a Disrupted Day, and (2) the Calculation Agent shall determine its good faith estimate of the value for that Security as of the Valuation Time on the Limit Valuation Date.

(d) If Averaging Dates are specified in the relevant Pricing Supplement, then notwithstanding any other provisions of these Conditions, the following provisions will apply to the valuation of the relevant Index or Security:

(i) The Final Price or Final Index Level will be, in relation to any Valuation Date:

(A) in respect of a Certificate settled by way of Cash Settlement which relates to a single Security or Index (as the case may be), the arithmetic mean of the Reference Price of the Security or (as the case may be) of the Reference Level of the Index on each Averaging Date;

(B) in respect of an Index-Linked Certificate settled by way of Cash Settlement which, in each case, relates to a basket of Indices, the arithmetic mean of the amounts for such basket determined by the Calculation Agent as provided in the relevant Pricing Supplement as of the relevant Valuation Time(s) on each Averaging Date or, if no means for determining the Final Index Level is so provided, the arithmetic mean of the amounts for such basket calculated on each Averaging Date as the sum of the Reference Level of each Index comprised in such basket (weighted or adjusted in relation to each Index as provided in the relevant Pricing Supplement); and

(C) in respect of an Equity-Linked Certificate settled by way of Cash Settlement which relates to a basket of Securities, the arithmetic mean of the prices for such basket determined by the Calculation Agent as provided in the relevant Pricing Supplement as of the relevant Valuation Time(s) on each Averaging Date or, if no means for determining the Final Price is so provided, the arithmetic mean of the prices for such basket calculated on each Averaging Date as the sum of the values calculated for the Securities of each Underlying Company as the product of (aa) the Reference Price of such Security and (bb) the number of such Securities comprised in such basket (weighted or adjusted in relation to each Security as provided in the relevant Pricing Supplement).

(ii) If any Averaging Date is a Disrupted Day, then, if the consequence specified in the relevant Pricing Supplement in relation to "**Averaging Date Market Disruption**" is:

(A) "**Omission**", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Final Price or Final Index Level, as applicable, *provided that*, if through the operation of this provision no Averaging Date would occur with respect to the relevant Valuation Date, then Condition 17.5(a) will apply for purposes of determining the relevant level, price or amount on the final Averaging Date in respect of that Valuation Date as if such final Averaging Date were a Valuation Date that was a Disrupted Day. If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Cash Settlement Payment Date or the relevant Settlement Date, as the case may be, or (ii) the occurrence of an Extraordinary Event or a Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date;

- (B) **"Postponement"**, then Condition 17.5(a) will apply for purposes of determining the relevant level, price or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date for the relevant Certificates. If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Cash Settlement Payment Date or the relevant Settlement Date, as the case may be, or (ii) the occurrence of an Extraordinary Event or a Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date; or
- (C) **"Modified Postponement"**, then:
- I. in the case of a Certificate which relates to a single Index or Security, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the Limit Valuation Date (as defined below) immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date (the **"Scheduled Final Averaging Date"**) in relation to the relevant Scheduled Valuation Date, then:
- (a) in respect of an Index-Linked Certificate, the Calculation Agent shall determine that either:
- (i) the Limit Valuation Date shall be deemed to be the Averaging Date, (irrespective of whether that Limit Valuation Date is already an Averaging Date); or
- (ii) the Averaging Date shall be the first succeeding Valid Date,
- and, in each case, the Calculation Agent shall determine the relevant level for that Averaging Date in accordance with Condition 17.5(d)(i)(A); and
- (b) in respect of an Equity-Linked Certificate, the Limit Valuation Date shall be the Averaging Date (irrespective of whether the Limit Valuation Date is already an Averaging Date), and the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with Condition 17.5(d)(i)(B); and
- II. in the case of a Certificate which relates to a basket of Indices and/or Securities, the Averaging Date for each Index or Security not affected by the occurrence of a Disrupted Day shall be the day specified in the relevant Pricing Supplement as an Averaging Date in relation to the relevant Valuation Date (the **"Scheduled Averaging Date"**) and the Averaging Date for an Index or Security affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Index or Security. If the first succeeding Valid Date in relation to such Index or Security has not occurred as of the Valuation Time on the Limit Valuation Date immediately following the Scheduled Final Averaging Date, then:

- (a) in respect of an Index-Linked Certificate, the Calculation Agent shall determine that either:
 - (i) the Limit Valuation Date shall be deemed to be the Averaging Date, (irrespective of whether that Limit Valuation Date is already an Averaging Date) in relation to such Index; or
 - (ii) the Averaging Date shall be the first succeeding Valid Date,and, in each case, the Calculation Agent shall determine the relevant level for that Averaging Date in accordance with Condition 17.5(d)(i)(B); and
- (b) in respect of an Equity-Linked Certificate, the Limit Valuation Date shall be the Averaging Date (irrespective of whether that Limit Valuation Date is already an Averaging Date) in relation to such Security, and the Calculation Agent shall determine the relevant amount for that Averaging Date in accordance with Condition 17.5(d)(i)(C).

If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Cash Settlement Payment Date or Settlement Date, as the case may be, or (ii) the occurrence of an Extraordinary Event or Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date.

For the purposes of this Condition 17.5 only, "**Limit Valuation Date**" shall mean, if any Averaging Date in respect of a Certificate is a Disrupted Day, the eighth Scheduled Trading Day following such Averaging Date, notwithstanding the fact that such day is a Disrupted Day.

- III. If (1) on or prior to any Averaging Date, in respect of an Index-Linked Certificate, an Index Modification, Index Cancellation or Index Disruption (each as defined in Condition 17.7(b) occurs, or (2) on any Averaging Date in respect of an Index-Linked Certificate an Index Disruption Event occurs, then the Calculation Agent shall determine the Final Index Level using, in lieu of a published level of the relevant Index, the level for that Index as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to that change or failure, but using only those securities that comprised that Index immediately prior to that change or failure (other than those securities that have since ceased to be listed on any relevant Exchange).

17.6 Provisions relating to Currency-Linked Certificates

All investors and prospective investors in Currency-Linked Notes should refer to the provisions set out in Condition 8.6.

17.7 Adjustments to Indices

This Condition 17.7 is applicable only in relation to Index Linked Certificates other than Inflation Rate-Linked Certificates in relation to which Condition 17.8 shall apply.

(a) Successor Index

If a relevant Index is (A) not calculated and announced by the Index Sponsor but is calculated and published by a successor to the Sponsor acceptable to the Calculation Agent, or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that Index (the "**Successor Index**") will be deemed to be the Index.

(b) Index Modification

If on or prior to any any Valuation Date, Automatic Early Redemption Valuation Date, a relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation or other routine events) (an "**Index Modification**"), then the Calculation Agent shall determine whether such Index Modification has a material effect on the Certificates, and if so, shall make such adjustment(s) (if any) as it determines appropriate to account for the economic effect of the Index Modification and determine the effective date of any such modification or adjustment.

(c) Index Cancellation

If on or prior to any Valuation Date, Automatic Early Redemption Valuation Date (A) the Index Sponsor fails to calculate and announce a relevant Index, (B) the Index Sponsor announces that it suspends the calculation and publication of the level of a relevant Index, or (C) the Index Sponsor permanently cancels the Index and no Successor Index exists (each an "**Index Cancellation**"), then:

- (i) the Issuer shall as soon as is reasonably practicable after determining the same give notice (an "**Index Cancellation Notice**") of such Index Cancellation to the Certificateholders (with a copy to the Calculation Agent) in accordance with Condition 14;
- (ii) if Index Substitution is specified as being applicable in the relevant Pricing Supplement, the Issuer shall (acting in good faith and a commercially reasonable manner), determine whether or not and the date as of which the Index is to be substituted with a Substitute Index and, if it so determines, it shall give an Index Substitution Notice to the Certificateholders (with a copy to the Calculation Agent) in accordance with Condition 14 and, with effect from the date so determined, the Substitute Index shall be deemed to be the Index; and
- (iii) if no Substitute Index has been identified within ten Business Days of the giving of such Index Cancellation Notice or if Index Substitution has not been specified as being applicable in the relevant Pricing Supplement, the Issuer shall (acting in good faith and a commercially reasonable manner), determine whether or not the relevant Certificates shall continue and:
 - (A) if it determines that the Certificates shall continue, then the Calculation Agent shall determine the Final Index Level for such Valuation Date using, in lieu of a published level of that Index, the level for that Index as at that Valuation Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the Index Cancellation, but

using only those components that comprised that Index immediately prior to that Index Cancellation; and

- (B) if it determines that the Certificates shall not continue, the Issuer shall terminate the relevant Certificates as of the date selected by the Issuer and give notice thereof to the Certificateholders (with a copy to the Calculation Agent) in accordance with Condition 14, specifying the early redemption amount and early redemption date, and the entitlements of the relevant Certificateholders to receive the Final Redemption Amount (or any other payment to be made by the Issuer, as the case may be) shall cease and the Issuer's obligations under the relevant Certificates shall be satisfied in full upon payment of such amount as is determined by the Calculation Agent to be the fair market value of the Certificates immediately prior (and ignoring the circumstances leading) to such early redemption, adjusted to account fully for any reasonable expenses, costs or proceeds, as the case may be, to the Issuer and/or any affiliate of the Issuer of unwinding any underlying and/or related hedging and funding arrangements.

For these purposes:

"Index Substitution Notice" means a notice specifying a Substitute Index to be substituted for the Index and the date as of which such substitution is to take effect; and

"Substitute Index" means a successor index identified by the Calculation Agent using commercially reasonable efforts, with characteristics, objectives and rules similar to the Index in effect immediately prior to the occurrence of the Index Cancellation.

(d) **Correction of Index Levels**

If the level of an Index published by the Index Sponsor at any time and used or to be used by the Calculation Agent for any calculation or determination under the Certificates is subsequently corrected and the correction is published by the Index Sponsor after the original publication, the Calculation Agent will make such adjustment as it determines to be appropriate, if any, to the settlement or payment terms of the Certificates to account for such correction *provided that* if any amount has been paid in an amount which exceeds the amount that would have been payable if the correction had been taken into account, no further amount in an amount at least equal to the excess is payable in respect of the Certificates and the Calculation Agent determines that it is not practicable to make such an adjustment to account fully for such correction, the Issuer shall be entitled to reimbursement of the relevant excess payment (or, as the case may be, the proportion thereof not accounted for by an adjustment made by the Calculation Agent) by the relevant Certificateholder, together with interest on that amount for the period from and including the day on which payment was originally made to (but excluding) the day of payment of reimbursement by the Certificateholder (all as calculated by the Calculation Agent). Any such reimbursement shall be effected in such manner as the Issuer shall determine.

17.8 Adjustments to Indices for Inflation Rate-Linked Certificates

With respect to Inflation Rate-Linked Certificates, the following provisions shall apply in lieu of Condition 17.7:

(a) **Definitions**

In this Condition:

"Affected Payment Date" has the meaning given in (b) below;

"Fallback Bond" means a bond selected by the Calculation Agent and issued by the government or one of the governments (but not any government agency) of the country (or countries) to whose level of inflation the relevant Index relates and which pays a coupon and/or redemption amount which is calculated by reference to the level of inflation in such country (or countries), with a maturity date which falls on the same day as the Maturity Date or the Settlement Date, as the case may be, or such other date as the Calculation Agent shall select if there is no such bond maturing on the Maturity Date or Settlement Date, as the case may be. If any bond so selected is redeemed, the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond is redeemed (including any bond for which the redeemed bond is exchanged);

"Reference Month" means the calendar month for which the level of the Index was reported, regardless of when this information is published or announced. If the period for which level of the Index was reported is a period other than a month, the Reference Month is the period for which the level of the Index was reported;

"Related Bond" means, if specified as applicable in the relevant Pricing Supplement, means the bond specified as such in the relevant Pricing Supplement or, if specified as applicable in the relevant Pricing Supplement and no bond is specified therein, the Fallback Bond, and the Calculation Agent shall use the Fallback Bond for any Related Bond determination; and

"Substitute Index Level" means the level of the Index, determined by the Calculation Agent pursuant to (c) below, in respect of an Affected Payment Date.

(b) **Delay of Publication**

If any level of the Index for a Reference Month relevant to the calculation of a payment of interest has not been published or announced by the day that is five Business Days prior to the relevant Interest Payment Date, Automatic Early Redemption Date, Instalment Date, Optional Redemption Date (Call Option), Optional Redemption Date (Put Option), other early redemption date or Maturity Date, as the case may be (the **"Affected Payment Date"**), the Calculation Agent shall determine the relevant level of the Index using the following methodology:

- (i) if Related Bond is specified as applicable in the relevant Pricing Supplement, the Calculation Agent will take the same action to determine the Substitute Index Level for the Affected Payment Date as that taken by the calculation agent pursuant to the terms and conditions of the Related Bond;
- (ii) if (A) Related Bond is specified as not applicable in the relevant Pricing Supplement; or (B) the Calculation Agent is unable to determine the Substitute Index Level under (i) above for any reason, then the Calculation Agent shall determine the Substitute Index Level as follows:

$$\text{Substitute Index Level} = \text{Base Level} \times (\text{Latest Level} / \text{Reference Level})$$

where:

"Base Level" means the level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined;

"Latest Level" means the latest level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the month in respect of which the Substitute Index Level is being calculated; and

"Reference Level" means the level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in "Latest Level" above. For the avoidance of doubt, any Reference Level published or announced at any time after the day that is five Business Days prior to the next Interest Payment Date, Automatic Early Redemption Date, Instalment Date, Optional Redemption Date (Call Option), Optional Redemption Date (Put Option), other early redemption date and/or the Maturity Date, as the case may be, will not be used in any calculations and the Substitute Index Level so determined pursuant to this sub-paragraph (B) will be the definitive level.

(c) **Cessation of Publication**

If a level for the Index has not been published or announced for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce the Index, then the Calculation Agent shall determine a Successor Index (in lieu of any previously applicable Index) for the purposes of the Certificates by using the following methodology:

- (i) if at any time a successor index has been designated by the calculation agent pursuant to the terms and conditions of the Related Bond, such successor index shall be designated a **"Successor Index"** for the purposes of all subsequent determinations of interest payable and/or of an Early Redemption Amount or of the Final Redemption Amount, notwithstanding that any other Successor Index may previously have been determined;
- (ii) if a Successor Index has not been determined under (i) above, and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Index will be superseded by a replacement index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be the Successor Index from the date that such replacement Index comes into effect;
- (iii) if a Successor Index has not been determined under (i) or (ii) above, the Calculation Agent will determine an appropriate alternative index for such Affected Payment Date, and such index will be deemed a "Successor Index";
- (iv) if the Calculation Agent determines that there is no appropriate alternative index, then the Certificates shall be redeemed on the date selected by the Calculation Agent and the entitlements of the relevant Certificateholders to receive any remaining payments of interest and the relevant Early Redemption Amount or the Final Redemption Amount (as applicable) shall cease and the Issuer's obligations under the relevant Certificates shall be satisfied in full upon payment of such amount as in the opinion of the Calculation Agent is fair in the circumstances by way of compensation for the early redemption of the Certificates.

(d) **Rebasing of the Index**

If the Calculation Agent determines that the Index has been or will be rebased at any time, the Index as so rebased (the **"Rebased Index"**) will be used for purposes of determining the level of an Index from the date of such rebasing; provided, however, that the Calculation Agent shall make such adjustments as are made by the calculation agent pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. If there is no Related Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Certificates.

(e) **Material Modification**

If, on or prior to the day that is five Business Days before the next date which is an Interest Payment Date, the relevant Automatic Early Redemption Date, an Instalment Date, the relevant Optional Redemption Date (Call Option), the relevant Optional Redemption Date (Put Option), any other early redemption date or the Maturity Date (as the case may be), an Index Sponsor announces that it will make a material change to an Index, then the Calculation Agent shall make any such adjustments to the Index consistent with adjustments made to the Related Bond, or, if there is no Related Bond, only those adjustments necessary for the modified Index to continue as the Index.

(f) **Manifest Error in Publication**

If, within thirty days of publication and prior to the relevant Automatic Early Redemption Date, an Instalment Date, the relevant Optional Redemption Date (Call Option), the relevant Optional Redemption Date (Put Option), any other early redemption date or the Maturity Date, as the case may be, the Calculation Agent determines that the Index Sponsor has corrected the level of the Index to remedy a manifest error in its original publication, the Calculation Agent will take such action as it may deem necessary and practicable to give effect to such correction.

17.9 Adjustments and Events affecting Securities

This Condition 17.9 is applicable only in relation to Equity-Linked Certificates.

(a) **Potential Adjustment Events**

The Calculation Agent shall determine whether or not at any time a Potential Adjustment Event has occurred and where it determines such an event has occurred, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Securities and, if so, will make such adjustment(s) as it determines to be appropriate, by using the formulae given below for the amount of the Final Redemption Amount or any amount of interest set out in the relevant Pricing Supplement, the number of Securities to which each Certificate relates, the number of Securities comprised in a basket, the amount, the number of or type of shares, other securities or other property which may be delivered pursuant to such Certificates and/or any other adjustment(s) and, in any case, any other variable relevant to the settlement or payment terms of the relevant Certificates as the Calculation Agent determines to be appropriate and determine, the effective date(s) of such adjustment(s).

(b) **Extraordinary Events**

Following the occurrence of any Extraordinary Event, the Calculation Agent will determine (whether or not the relevant Certificates shall continue and, if so, determine any adjustments to be made. If the Calculation Agent determines that the relevant Certificates shall continue, it may make such adjustment(s) as it determines to be appropriate (after consulting, an independent expert appointed by HSBC France under Condition 17.12(a)), if any, to the formula for the Final Redemption Amount or any amount of interest set out in the relevant Pricing Supplement, the number of Securities to which each Certificate relates, the number of Securities comprised in a basket, the amount, the number of or type of shares, other securities or other property which may be delivered pursuant to such Certificates and, in any case, any other variable relevant to the settlement or payment terms of the relevant Certificates and/or any other adjustment which change or adjustment shall be effective on such date selected by the Calculation Agent. If the Calculation Agent determines that the relevant Certificates shall be redeemed, then the Certificates shall be redeemed as of the date selected by the Calculation Agent and the entitlements of the relevant Certificateholders to receive the relevant Securities Transfer Amount or Final Redemption Amount (or any other payment to be made by the Issuer) as the case may be, shall cease and the Issuer's obligations under the relevant Certificates shall be satisfied

in full upon payment of such amount as in the opinion of the Calculation Agent is fair in the circumstances by way of compensation for the termination of the Certificates.

(c) **Correction of Prices**

In the event that any price published or announced on a given day and utilised or to be utilised for the purpose of any calculation or determination under the Certificates is subsequently corrected and the correction is published or announced by the Exchange within one Settlement Cycle after the original publication, the Calculation Agent will make such adjustment(s) as it determines to be appropriate, if any, to the amount payable in respect of the Certificates and their terms to account for such correction and the Calculation Agent shall determine the effective date(s) of such adjustment(s) provided that if any amount has been paid in an amount which exceeds the amount that would have been payable if the correction had been taken into account, no further amount in an amount at least equal to the excess is payable in respect of the Certificates and the Calculation Agent determines that it is not practicable to make such an adjustment to account fully for such correction, the Issuer shall be entitled to reimbursement of the relevant excess payment (or, as the case may be, the proportion thereof not accounted for by an adjustment made by the Calculation Agent) by the relevant Certificateholder, together with interest on that amount for the period from and including the day on which payment was originally made to (but excluding) the day of payment of reimbursement by the Certificateholder (all as calculated by the Calculation Agent). Any such reimbursement shall be effected in such manner as the Issuer shall determine.

17.10 Additional Disruption Events

Following the occurrence of any Additional Disruption Event, the Calculation Agent will determine whether or not the relevant Certificates shall continue and, if so, determine any adjustments to be made. If the Calculation Agent determines that the relevant Certificates shall continue, it may make such adjustment(s) as it determines to be appropriate, if any, to the formula for the Final Redemption Amount or any amount of interest set out in the relevant Pricing Supplement, the number of Securities to which each Certificate relates, the number of Securities comprised in a basket, the amount, the number of or type of shares, other securities or other property which may be delivered pursuant to such Certificates and, in any case, any other variable relevant to the settlement or payment terms of the relevant Certificates and/or any other adjustment which change or adjustment shall be effective on such date selected by the Calculation Agent. If the Calculation Agent determines that the relevant Certificates shall be redeemed, then the Certificates shall be redeemed as of the date selected by the Calculation Agent and the entitlements of the relevant Certificateholders to receive the relevant Securities Transfer Amount or Final Redemption Amount (or any other payment to be made by the Issuer), as the case may be, shall cease and the Issuer's obligations under the relevant Certificates shall be satisfied in full upon payment of such amount as in the opinion of the Calculation Agent is fair in the circumstances by way of compensation for the termination of the Certificates.

For the purposes any Series of Certificates, "**Additional Disruption Event**" means any event specified as such in the relevant Pricing Supplement, and for such purpose the following terms if so specified shall be deemed to have the following meanings unless otherwise provided in the relevant Pricing Supplement:

- (a) "**Change in Law**" means that, on or after the Issue Date, (A) due to the adoption of or any change in any applicable law or regulation (including without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines that (x) it has become illegal for the Issuer to hold, acquire or dispose of Securities or Component Securities, or other components comprised in the Index, relating to such Certificates, (y) it has become illegal for the Issuer to hold, acquire, purchase, sell or maintain one or more (i) positions or contracts in respect of any securities, options, futures, derivatives or foreign exchange in relation to such Certificates, or in relation to the Issuer's hedging activities in connection with the Certificates, (ii) stock loan transactions in relation to such Certificates or (iii) other

instruments or arrangements (howsoever described) held by the Issuer in order to hedge, individually or on a portfolio basis, such Certificates or (z) the Issuer will incur a materially increased cost in performing its obligations under the Certificates (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position);

- (b) "**Failure to Deliver**" means the failure of a party to deliver, when due, the relevant Securities in respect of the Certificates, where such failure is due to illiquidity in the market for such Securities;
- (c) "**Insolvency Filing**" means that the issuer of the Securities institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the issuer of the Securities shall not be deemed an Insolvency Filing;
- (d) "**Failure to Deliver**" may occur upon the failure of a party to deliver, when due, the relevant Reference Asset(s) in respect of the Certificates, where such failure is due to illiquidity in the market for such Reference Asset(s);
- (e) "**Insolvency Filing**" may occur if the issuer of the Reference Asset(s) institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding up or liquidation by it or such regulator, supervisor or similar official or it consents to such petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the issuer of the Reference Asset(s) shall not be deemed an Insolvency Filing;
- (f) "**Hedging Disruption**" means that the Issuer is unable or it is or has become not reasonably practicable, or it has otherwise become undesirable, for any reason, for the Issuer wholly or partially after using commercially reasonable efforts and acting in good faith, to (A) hold, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary or desirable to hedge the Issuer's obligations in respect of the Certificates or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s); and

17.11 Effects of European Economic and Monetary Union

Following the occurrence of an EMU Event, the Calculation Agent shall make such adjustment (and determine the effective date of such adjustment) as it determines to be appropriate, if any, to the formula for the Final Redemption Amount or any amount of interest set out in the relevant Pricing Supplement, the formula for and method of calculating the relevant Index and/or the securities or other property comprising the relevant Index, the number of and type of Securities to which each Certificate relates, the number of and type of Securities

comprised in a basket, the amount, the number of or type of shares, other securities or other property which may be delivered under such Certificates and/or any other adjustment and, in any case, any other variable relevant to the settlement or payment terms of the relevant Certificates.

Following the occurrence of an EMU Event, without prejudice to the generality of the foregoing, the Issuer shall be entitled to make such conversions between amounts denominated in the national currency units (the "**National Currency Units**") of the Participating Member States and the euro, and the euro and the National Currency Units, in each case, in accordance with the conversion rates and rounding rules in Regulation (EC) No. 1103/97 as it determines to be appropriate.

Neither the Issuer nor the Calculation Agent will be liable to any Certificateholder or other person for any commissions, costs, losses or expenses in relation to or resulting from any currency conversion or rounding effected in connection therewith.

For the purposes hereof:

17.12 Specific Adjustments

On the occurrence of any event(s) that the Calculation Agent may reasonably consider affects or could affect the value of an Index Linked Certificate, an Equity Linked Certificate, the Calculation Agent may make any reasonable additional adjustment to the Exercise Price, the number and/or type of Securities and/or Indices to which such Index Linked Certificate or Equity Linked Certificate relates and to the exercise, settlement and payment terms or any other term applicable to such Index Linked Certificate or Equity Linked Certificate including, without limitations, adjustments to the amount, number or type of cash assets, equities, other securities and property that could be transferred in respect of such Index Linked Certificate or Equity Linked Certificate, and may set the effective date(s) of such adjustments.

[MiFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Certificates, taking into account the five categories referred to in item 18 of the Guidelines published by ESMA on 5 February 2018 has led to the conclusion that: (i) the target market for the Certificates is eligible counterparties and professional clients only, each as defined in [Directive 2014/65/EU (as amended, **MiFID II**)]**[MiFID II]**; and (ii) all channels for distribution of the Certificates to eligible counterparties and professional clients are appropriate. [*Consider any negative target market*].² Any person subsequently offering, selling or recommending the Certificates (a **distributor**) should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Certificates (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]³

¹ Delete legend if the Certificates do not constitute "packaged" products, in which case, insert "Not Applicable" in paragraph 49 of Part A below. Include legend if the Certificates may constitute "packaged" products and the Issuer intends to prohibit the Certificates being offered, sold or otherwise made available to EEA and UK retail investors. In this case insert "Applicable" in paragraph 49 of Part A below.

² ICMA 1 and ICMA 2 approaches envisage that a negative target market will be unlikely. Note that a programme which only envisages vanilla issuance is unlikely to require a negative target market placeholder. If a negative target market is deemed necessary, wording along the following lines could be included: "The target market assessment indicates that Certificates are incompatible with the needs, characteristic and objectives of clients which are [fully risk averse/have no risk tolerance or are seeking on-demand full repayment of the amounts invested]."

³ Legend to be included on front of the Pricing Supplement if following the ICMA 1 "all bonds to all professionals" target market approach.

If the Issuer's final determination is different then it will give notice of such determination.] [The [Dividend Withholding] [Issuer Withholding] approach shall apply to the Certificates. [The following dividend equivalent amounts are to be treated as being reinvested during the

term of the Certificates, less a withholding on such amounts at a rate of [] per cent. (as of the Issue Date), which shall be treated for U.S. federal income tax purposes as having been withheld from payments due to the holders of the Certificates: []]. [MIFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five categories referred to in item 18 of the Guidelines published by ESMA on 5 February 2018 has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in [Directive 2014/65/EU (as amended, **MiFID II**)]**[MiFID II]**; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]¹³

¹² ICMA 1 and ICMA 2 approaches envisage that a negative target market will be unlikely. Note that a programme which only envisages vanilla issuance is unlikely to require a negative target market placeholder. If a negative target market is deemed necessary, wording along the following lines could be included: "The target market assessment indicates that Notes are incompatible with the needs, characteristic and objectives of clients which are [fully risk averse/have no risk tolerance or are seeking on-demand full repayment of the amounts invested]."

¹³ Legend to be included on front of the Pricing Supplement if following the ICMA 1 "all bonds to all professionals" target market approach.

SUBSCRIPTION AND SALE

Subject to the terms and conditions of the dealer agreement to be concluded between the Issuer, the Permanent Dealers and the Arranger (the "**Dealer Agreement**"), the Notes or Certificates shall be offered by the Issuer to the Permanent Dealers (other than HSBC France). The Issuer nonetheless reserves the right to sell Notes or Certificates directly on its behalf to Dealers that are not the Permanent Dealers. The Notes or Certificates may be resold at their market price or at a similar price prevailing at the date of such resale and which shall be determined by the relevant Dealer. The Notes or Certificates may also be sold by the Issuer through Dealers acting as the Issuer's agents. The Dealer Agreement also provides for the issue of syndicated Tranches jointly subscribed by two or more Dealers.

The Issuer shall pay each Dealer a mutually agreed commission in respect of Notes or Certificates subscribed to by the relevant Dealer. The Issuer has agreed to reimburse the Arranger in respect of the expenses incurred for updating the Programme and to reimburse the Dealers for some of the expenses linked to their involvement in the Programme.

The Issuer has undertaken to indemnify the Dealers with regard to certain liabilities incurred in the offering and selling of Notes and/or Certificates. The Dealers have undertaken to indemnify the Issuer with regard to certain liabilities incurred in the offering and selling of Notes and/or Certificates. The Dealer Agreement permits, in certain conditions, the Dealers to terminate any agreement entered into for subscription to Notes and/or Certificates before payment to the Issuer of the funds relating to such Notes or Certificates.

Selling Restrictions

1. General

These selling restrictions may be modified by the agreement of the Issuer and the Dealers in circumstances including, but not limited to, a change in a relevant law, regulation or directive. Any such modification shall be set out in the Pricing Supplement relating to the issue of Notes or Certificates or in a supplement to this Offering Memorandum.

Each Dealer has agreed that it shall comply, insofar as possible, with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Notes or Certificates or in which it has in its possession or distributes the Offering Memorandum, any other offering material or any Pricing Supplement and neither the Issuer nor any other Dealer shall have responsibility therefore.

2. Prohibition of Sales to EEA and UK Retail Investors

Unless the Pricing Supplement in respect of any Notes or Certificates specifies the "Prohibition of Sales to EEA and UK Retail Investors" as "Not Applicable", each Dealer has represented and agreed that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes or Certificates which are the subject of the offering contemplated by the Offering Memorandum as completed by the Pricing Supplement in relation thereto to any retail investor in the European Economic Area (**EEA**) or in the United Kingdom (**UK**). For the purposes of this provision:

- (a) the expression "**retail investor**" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, **MiFID II**); or
 - (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended or superseded, the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or

- (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the **Prospectus Regulation**); and
- (b) the expression **offer** includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes or Certificates to be offered so as to enable an investor to decide to purchase or subscribe for the Notes or Certificates.

If the Pricing Supplement in respect of any Notes or Certificates specifies the "Prohibition of Sales to EEA and UK Retail Investors" as "Not Applicable", in relation to each member state of the European Economic Area and the United Kingdom (each a **Relevant State**), each Dealer has represented and agreed, that it has not made and will not make an offer of Notes or Certificates which are the subject of the offering contemplated by the Offering Memorandum as completed by the Pricing Supplement in relation thereto to the public in that Relevant State except that it may make an offer of such Notes or Certificates to the public in that Relevant State:

- (a) if the Pricing Supplement in relation to the Notes or Certificates specifies that an offer of those Notes or Certificates may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant State (a **Non-exempt Offer**), following the date of publication of a prospectus in relation to such Notes or Certificates which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, provided that any such prospectus has subsequently been completed by the Pricing Supplement contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or Pricing Supplement;
- (b) at any time to any legal entity which is a qualified investor as defined under the Prospectus Regulation;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Notes or Certificates referred to in paragraphs (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an **offer of Notes or Certificates to the public** in relation to any Notes or Certificates in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes or Certificates to be offered so as to enable an investor to decide to purchase or subscribe for the Notes or Certificates, and the expression **Prospectus Regulation** means Regulation (EU) 2017/1129, as amended.

3. **United States**

The Notes and the Certificates have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them in Regulation S. Additional selling restrictions may apply to certain Notes, which will be set forth in the Pricing Supplement.

Materialised Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by

U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended, and regulations promulgated thereunder.

Each Dealer has agreed and each further Dealer appointed under the Programme shall be required to agree that, except as permitted by the Dealer Agreement, it shall not offer or sell Notes or Certificates in the United States or its possessions or to, or for the account or benefit of, U.S. persons (i) at any time as part of their general distribution or (ii) until 40 days after completion of the distribution of such Tranche as determined and certified to the Issuer, by the Fiscal Agent, or in the case of Notes or Certificates issued on a syndicated basis, the relevant lead manager, and it shall have sent to each Dealer to which it sells Notes or Certificates during the authorised distribution period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes or Certificates within the United States or its possessions to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them in Regulation S.

The Notes and the Certificates are being offered and sold outside the United States to non-U.S. persons in accordance with Regulation S. In addition, during the first 40 days following the beginning of the offering of an identifiable Tranche of Notes or Certificates, an offer or sale of Notes or Certificates within the United States by any Dealer (whether or not participating in the offering of such Tranche of Notes or Certificates) may violate the registration requirements of the Securities Act.

This Offering Memorandum has been prepared by the Issuer for use in connection with the offer and sale of the Notes or Certificates outside the United States. The Issuer and the Dealers reserve the right to reject any offer to purchase the Notes or Certificates, in whole or in part, for any reason whatsoever. This Offering Memorandum does not constitute an offer to any person in the United States. Distribution of this Offering Memorandum by any non-U.S. person outside the United States to any U.S. person or to any other person within the United States is unauthorised and any disclosure of its contents without the prior written consent of the Issuer to any such U.S. person or other person within the United States is prohibited.

4. United Kingdom

Each Dealer has represented, warranted and agreed that:

- (a) with regard to any Notes or Certificates with a maturity of less than one year, (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and shall not offer or sell any Notes or Certificates other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their business or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their business where the issue of the Notes or Certificates would otherwise constitute a contravention of Section 19 of the Financial Services and Markets Act 2000 (the "**FSMA**") by the Issuer;
- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes or Certificates in circumstances in which Section 21(1) of the FSMA does not or shall not apply to the Issuer; and
- (c) it has complied and shall comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes or Certificates in, from or otherwise involving the United Kingdom.

5. Japan

The Notes or Certificates have not been and shall not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended, the "**FIEA**"). Accordingly, each of the Dealers has represented and agreed that it has not, directly or indirectly, offered or sold and shall not, directly or indirectly, offer or sell any Notes or Certificates in Japan or to, or for the benefit of, a resident of Japan (which term as used herein means any person resident in Japan, including and corporation or other entity organised under the laws of Japan), or to others for re-offering or re-sale, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and other relevant laws, regulations and ministerial guidelines of Japan.

6. France

Each of the Dealers and the Issuer has represented and agreed that it has only offered or sold and will only offer or sell, directly or indirectly, any Notes or Certificates to the public in France pursuant to an exemption under Article 1(4) of the Prospectus Regulation and Article L.411-2 1° of the French *Code monétaire et financier*, and that the Offering Memorandum, the relevant Pricing Supplement and any other offering material relating to the Notes or Certificates and such offers, sales and distributions have been and will be made in France only to qualified investors (*investisseurs qualifiés*), all as defined in, and in accordance with, Regulation (EU) 2017/1129 as amended.

These selling restrictions may be amended in the relevant Pricing Supplement.

7. Switzerland

The Notes or Certificates do not constitute participations in a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes of 23 June 2006 ("**CISA**"). Therefore, the Notes or Certificates are not subject to the approval of, or supervision by, the Swiss Financial Market Supervisory Authority FINMA ("**FINMA**"), and investors in the Notes or Certificates will not benefit from protection under the CISA or supervision by FINMA.

Neither this Offering Memorandum nor any other offering or marketing material or any Pricing Supplement relating to the Notes or Certificates constitute a prospectus within the meaning of (i) Articles 652a or Article 1156 of the Swiss Federal Code of Obligations, (ii) Article 5 CISA and its implementing regulations or (iii) Article 21 of the Additional Rules for the Listing of Derivatives of SIX Swiss Exchange.

However, the Issuer reserves the right to set forth all information which may be required to be disclosed in a simplified prospectus pursuant to Article 5 CISA in a separate document referred to as "Simplified Prospectus" (the "**Simplified Prospectus**") for Notes or Certificates distributed (such term including any offering and advertising) to qualified investors according to Article 10 Paras. 3 to 4 CISA (the "**Qualified Investors**") and/or non-qualified investors within the meaning of the CISA (the "**Non-Qualified Investors**").

Except as described in this section, Notes or Certificates constituting structured products within the meaning of Article 5 CISA may not be distributed to Non-Qualified Investors (i) in Switzerland or (ii) in and from Switzerland.

Any Notes or Certificates constituting structured products within the meaning of Article 5 CISA which are intended to be distributed to Non-Qualified Investors (i) in Switzerland or (ii) in and from Switzerland may only be offered or advertised in accordance with the provisions of the CISA and its implementing regulations. In particular, the CISA requires that a Simplified Prospectus complying with Article 5 CISA, its implementing regulations and the *Swiss Banking Guidelines on Informing Investors about Structured Products* (as amended from time to time) be published. A provisional version of such Simplified Prospectus including indicative information must be made available free of charge to any interested person prior to subscribing the Notes or Certificates or prior to concluding an agreement to subscribe the Notes or Certificates. The definitive version

must be made available free of charge to any interested person on issue or on concluding an agreement to subscribe the Notes or Certificates.

As a consequence, Notes or Certificates constituting structured products within the meaning of Article 5 CISA which are not intended to be distributed to Non-Qualified Investors in or in and from Switzerland may only be offered or advertised, and any Pricing Supplements, fact sheets or any other offering or marketing material relating to such Notes or Certificates may only be distributed, offered or made available to Qualified Investors in or in and from Switzerland by way of private placement which is exclusively addressed to and available for such Qualified Investors. The respective Pricing Supplements, fact sheets or any other marketing material may not be distributed, copied, published or otherwise made public or available for Non-Qualified Investors.

Additional specific selling restrictions, if any, applicable in Switzerland will be included in the Pricing Supplements of the relevant Notes or Certificates.

8. Singapore

This Offering Memorandum has not been registered or will not be registered as a prospectus with the Monetary Authority of Singapore. The Notes or Certificates may not be offered or sold, nor may the Notes or Certificates be the subject of an invitation for subscription or purchase, whether directly or indirectly, nor may this Offering Memorandum, any pricing supplement or any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes or Certificates be circulated or distributed, whether directly or indirectly, to any person in Singapore other than (a) to an institutional investor (as defined in Section 4A of the Securities and Futures Act (Chapter 289 of Singapore, as modified or amended from time to time (the "SFA")) pursuant to Section 274 of the SFA or (b) to a relevant person (as defined in Section 275(2) of the SFA) who is also an Exempt Investor pursuant to Section 275(1) of the SFA, or any Exempt Investor pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA.

Where the Notes or Certificates are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

(a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or

(b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor, securities or securities-based derivative contracts (each term as defined in Section 2 (1) of the SFA) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the Notes or Certificates pursuant to an offer made under Section 275 of the SFA except:

1. to an institutional investor or to a relevant person or to any person arising from an offer referred to in Section 275(1A) or Section 276(4)(i)(B) of the SFA;
2. where no consideration is or will be given for the transfer;
3. where the transfer is by operation of law;
4. as specified in Section 276(7) of the SFA; or
5. as specified in Regulation 37A of the Securities and Futures (Offers of Investments) (Securities and Securities-based Derivatives Contracts) Regulations 2018 of Singapore.

An "**Exempt Investor**" refers to any person mentioned under Regulation 2 of the Securities and Futures (Capital Markets Products) Regulations 2018, under which an issuer is exempt from complying with Section 309B(1) of the SFA in relation to an offer of any capital markets products, if the offer is made to any such person.

Where any Notes or Certificates constitute units in a "collective investment scheme" within the meaning of the SFA, it should be noted that neither the Issuer nor any Notes or Certificates have been, or are intended to be, registered with the MAS as a "collective investment scheme" which is "restricted scheme" pursuant to Section 305 of the SFA (and regulations made thereunder) and hence offers of any Notes or Certificates which constitute "collective investment schemes" to accredited investors and other persons in Singapore pursuant to Section 305 of the SFA are not permitted.

Restrictions on Deposit-Taking

Except for certain persons, such as licensed banks in Singapore – which includes the branches in Singapore of a licensed bank which is incorporated outside Singapore), Section 4A(1) of the Banking Act, Chapter 19 of Singapore ("**Banking Act**"), prohibits any person from accepting in Singapore a deposit from any person in Singapore in the course of carrying on, whether in Singapore or elsewhere, a deposit-taking business.

Furthermore, Section 4A(2) of the Banking Act prohibits a person from offering or inviting, or issuing any advertisement containing any offer or invitation to, the public or any section of the public in Singapore:

- (a) to make any deposit, whether in Singapore or elsewhere; or
- (b) to enter or offer to enter into any agreement to make any deposit, whether in Singapore or elsewhere,

where such deposit is to be made with any person (not being a licensed bank in Singapore or certain other persons) in the course of the carrying on (whether in Singapore or elsewhere) a deposit-taking business.

For this purpose, a "**deposit**" does not include (amongst other things):

- (a) a sum paid by or on behalf of any person in consideration for the issue to him by the recipient of:
 - (i) bonds or negotiable certificates of deposit ("**NCDs**") denominated in any foreign currency;
 - (ii) bonds or NCDs denominated in Singapore dollars with an original maturity period of not less than 12 months; or
 - (iii) bonds or NCDs denominated in Singapore dollars with an original maturity period of less than 12 months and issued with a denomination of not less than S\$200,000;
- (b) a sum paid by or on behalf of any person whose total net personal assets exceed S\$2 million or its equivalent in foreign currency at the time of the payment, or whose income in the preceding 12 months is not less than S\$300,000 or its equivalent in foreign currency at the time of the payment, in consideration for the issue to him by the recipient of bonds or NCDs denominated in Singapore dollars with an original maturity period of less than 12 months;
- (c) a sum paid by or on behalf of a company whose total net assets exceed S\$10 million in value or its equivalent in foreign currency as determined by the last audited balance-sheet of the company in consideration for the issue to the company, by the recipient, of bonds or NCDs denominated in Singapore dollars with an original maturity period of less than 12 months.

HSBC France will issue Notes and Certificates to persons in Singapore *only* in circumstances where the Notes and Certificates do not constitute "deposits" for the purposes of the Banking Act.

In addition, where a tranche of Notes or Certificates is issued in Singapore Dollars to persons in Singapore with a denomination of less than S\$200,000, the following information is provided pursuant to Regulation 6 of the Banking Regulations made under the Banking Act:

- (a) the place of booking of the Notes or Certificates in question is France (or such other place as may be expressly indicated in the pricing supplement);
- (b) the branch or office of the Issuer at which the tranche of the Notes or Certificates is booked is not subject to regulation or supervision in Singapore; and
- (c) the tranche of Notes or Certificates is not secured by any means (unless an express statement to the contrary is included in the relevant pricing supplement).

9. Hong Kong

Neither this Offering Memorandum (nor any other offering material relating to the Notes or Certificates) has been authorised by the Securities and Futures Commission in Hong Kong, nor has this Offering Memorandum (and/or any other offering material relating to the Notes or Certificates) been registered by the Registrar of Companies in Hong Kong. Accordingly, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) it has not offered or sold and will not offer or sell in Hong Kong, by means of any document, any Notes or Certificates (except for Notes or Certificates which are a "structured product" as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong (the **SFO**)) other than (i) to persons whose ordinary business is to buy or sell shares or debentures (whether as principal or agent); or (ii) to "professional investors" as defined in the SFO and any rules made under the SFO; or (iii) in other circumstances which do not result in the document being a "prospectus" as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong (the **C(WUMP)O**) or which do not constitute an offer to the public within the meaning of the C(WUMP)O; and
- (b) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Notes or Certificates, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes or Certificates which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the SFO and any rules made under the SFO.

10. People's Republic of China

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that neither it nor any of its affiliates has offered or sold or will offer or sell any of the Notes and Certificates in the People's Republic of China (excluding Hong Kong Special Administrative Region, Macau Special Administrative Region and Taiwan) as part of the initial distribution of the Notes and Certificates.

11. Russian Federation

Each Dealer has represented, warranted and agreed that it has not offered or sold or transferred or otherwise disposed of and will not offer or sell or transfer or otherwise dispose of any Notes or Certificates (as part of their initial distribution or at any time thereafter) to or for the benefit of any persons (including legal entities) resident, incorporated, established or having their usual residence in the Russian Federation or to any person located within the territory of the Russian Federation unless and to the extent otherwise permitted under Russian law.

Since neither the issuance of the Notes or Certificates nor a securities prospectus in respect of the Notes or Certificates has been registered, or is intended to be registered, with the Central Bank of the Russian Federation (the "**CBR**") and no decision to admit the Notes or Certificates to placement or public circulation in the Russian Federation has been made, or intended to be made, by the CBR or a Russian stock exchange, the Notes or Certificates are not eligible for advertising, placement or public circulation in the Russian Federation and may not be sold or offered in the Russian Federation, unless and to the extent otherwise permitted under Russian law.

Information set forth in this Offering Memorandum is not an offer, advertisement or invitation to make offers, to sell, exchange or otherwise transfer, the Notes or Certificates in the Russian Federation or to or for the benefit of any Russian person or entity and is not intended to be, and must not be, distributed and circulated in the Russian Federation, unless and to the extent otherwise permitted under Russian law.

12. Ireland

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) it has not and will not offer, underwrite the issue of, or place the Notes or Certificates, otherwise than in conformity with (i) the provisions of the European Communities (Markets in Financial Instruments) Regulations 2017 (as amended, the "**MiFID Regulations**"), including, without limitation, Parts 2, 3, 4 and 7 thereof, (ii) any rules or codes of conduct issued in connection with the MiFID Regulations and (iii) the provisions of the Investor Compensation Act 1998 (as amended), and they will conduct themselves in accordance with any codes and rules of conduct, conditions, requirements and any other enactment imposed or approved by the Central Bank of Ireland (the "**Central Bank**") with respect to anything done by them in relation to the Notes, to the extent applicable;
- (b) it has not and will not offer, underwrite the issue of, or place, the Notes or Certificates, otherwise than in conformity with the provisions of the Companies Act 2014 (as amended, the "**CA 2014**"), the Central Bank Acts 1942 – 2018 (as amended), any codes of practice rules made under Section 117(1) of the Central Bank Act 1989 (as amended) and any regulations issued pursuant to Part 8 of the Central Bank (Supervision and Enforcement) Act 2013 (as amended);
- (c) it has not and will not offer, underwrite the issue of, or place, or do anything in Ireland in respect of the Notes or Certificates otherwise than in conformity with the provisions of the Prospectus Regulation and any rules issued and/or in force pursuant to section 1363 of the CA 2014; and
- (d) it has not and will not offer, underwrite the issue of, place or otherwise act in Ireland in respect of the Notes or Certificates, otherwise than in conformity with the provisions of Regulation (EU) 596/2014 (as amended), the European Union (Market Abuse) Regulations 2016 (as amended) and any Central Bank rules issued and/or in force pursuant to section 1370 of the CA 2014.

13. Israel

No action has been or will be taken in Israel that would permit an offering of the Notes or Certificates or a distribution of the Offering Memorandum, the relevant Pricing Supplement or any other offering material relating to the Notes or Certificates to the public in Israel. In particular, none of the Offering Memorandum, the relevant Pricing Supplement or any other offering material relating to the Notes or Certificates has been approved by the Israel Securities Authority. Accordingly, each Dealer has agreed, and each further Dealer appointed under the Programme shall be required to agree, that it will not offer or sell the Notes or Certificates directly or indirectly, in Israel or to others for re-offering or re-sale, directly or indirectly, in Israel except to investors of the type listed in the First Schedule to Israel's Securities Law 5728-1968 (the "**First Schedule**"). Each Dealer is required, before each sale to an investor, to receive a written confirmation from the investor

stating that he or it satisfies the conditions to be considered an investor of a type listed in the First Schedule and that he or it is aware of the implications of being classified as such an investor and consents to such classification. In addition, each Dealer is required to take reasonable measures to verify that such investor satisfies the conditions of the First Schedule.

14. Belgium

The Offering Memorandum has not been submitted for approval to the Belgian Financial Services and Markets Authority. Accordingly, Notes or Certificates that have a maturity of less than 12 months and qualify as money market instruments (and that therefore fall outside the scope of the Prospectus Regulation) may not be distributed in Belgium by way of a public offering, as defined for the purposes of the law of 16 June 2006 on public offerings of investment instruments and the admission of investment instruments to trading on regulated markets.

The Notes or Certificates are not intended to be sold to Belgian Consumers (as defined below). Accordingly, the Notes or Certificates must not be offered or sold to Belgian Consumers, and the Offering Memorandum, the Pricing Supplement or any other offering material relating to the Notes or Certificates must not be distributed to Belgian Consumers.

For these purposes, a "**Belgian Consumer**" has the meaning provided by the Belgian Code of Economic Law, as amended from time to time (*Wetboek van 28 februari 2013 van economisch recht/Code du 28 février 2013 de droit économique*), being any natural person resident or located in Belgium and acting for purposes which are outside his/her trade, business or profession.
