## SECTION C – KEY INFORMATION ON THE NOTES

What are the main features of the Notes?

- (a) Payments with respect to the Notes are linked to the ordinary shares of SAINT GOBAIN (the "Security" or "Securities").
- (b) *Coupon Payments.*

The "Coupon Trigger Event" provisions apply to the Notes. Accordingly:

- if on a specified Coupon Trigger Valuation Date, the Relevant Observation Performance is equal to or greater than the relevant Coupon Trigger Level, holders of the Notes ("**Noteholders**") will receive on the corresponding Coupon Trigger Payment Date a "**Coupon Trigger Amount**" per Note equal to the principal amount of such Note multiplied by the relevant Coupon Trigger Rate.
- if on a specified Coupon Trigger Valuation Date, the Relevant Observation Performance is less than the relevant Coupon Trigger Level, no Coupon Trigger Amount will be payable on the corresponding Coupon Trigger Payment Date.

Additionally, as "Coupon Trigger Recovery Event" is applicable to the Notes, if on a specified Coupon Trigger Valuation Date, the Relevant Observation Performance is equal to or greater than the relevant Coupon Trigger Recovery Level, in addition to paying the Coupon Trigger Amount, the Issuer shall pay on the corresponding Coupon Trigger Payment Date an amount equivalent to the sum of each Coupon Trigger Amount which did not become payable because no Coupon Trigger Event occurred in respect of each Coupon Trigger Valuation Date falling after the most recently occurring Coupon Trigger Event (if any).

For these purposes:

"Closing Price" means the closing price of the Securities.

In respect of each "Coupon Trigger Valuation Date", the "Coupon Trigger Level", "Coupon Trigger Rate" and "Coupon Trigger Recovery Level" shall be as specified in relation to such Coupon Trigger Valuation Date in the table below.

Coupon Trigger Valuation Date(s)	Coupon Trigger Level(s)	Coupon Trigger Payment Date(s)	Coupon Trigger Rate(s)	Coupon Trigger Recovery Level(s)
7 March 2025	70.00 per cent.	14 March 2025	9.68 per cent.	70.00 per cent.
9 March 2026	70.00 per cent.	16 March 2026	9.68 per cent.	70.00 per cent.
8 March 2027	70.00 per cent.	15 March 2027	9.68 per cent	70.00 per cent.
7 March 2028	70.00 per cent.	14 March 2028	9.68 per cent	70.00 per cent.
7 March 2029	70.00 per cent.	14 March 2029	9.68 per cent	70.00 per cent.

"Initial Security Price" means the Closing Price of the Securities on the Strike Date, being EUR 69.22.

"**Relevant Observation Performance**" means, with respect to the Securities and a Coupon Trigger Valuation Date, or Automatic Early Redemption Valuation Date or the Barrier Valuation Date (as applicable), (x) the Closing Price of such Security on such date *divided by* (y) its Initial Security Price (expressed as a percentage and rounded to the nearest four decimal places (with 0.00005 being rounded up)).

"Strike Date" means 7 March 2024 (or, if such date is not a scheduled trading day, the next following scheduled trading day).

- (c) *Redemption Amounts.* Payments of principal in respect of Notes will in all cases be calculated by reference to the percentage change in value of the Securities. Holders of the Notes ("**Noteholders**") will be entitled to the following cash amounts in respect of each Note, namely:
  - if the Notes are redeemed on their stated maturity date, a "Final Redemption Amount"; or
  - as "Early Redemption for Autocallable Notes" applies, if the Notes are redeemed prior to their stated maturity in the circumstances described below, an "Automatic Early Redemption Amount".
  - (i) The Final Redemption Amount will be an amount per Note equal to the denomination of the Note *multiplied by*:
  - (A) If the Relevant Final Performance is equal to or greater than the Return Threshold and/or a Barrier Event has not occurred, 100%;
  - (B) If the Relevant Final Performance is less than the Return Threshold and a Barrier Event has occurred, the Relevant Final Performance.

(C)

For these purposes:

a "**Barrier Event**" will be deemed to have occurred if the Relevant Observation Performance is less than the Barrier Level on the Barrier Valuation Date.

"Barrier Level" means 60.00 per cent.

"**Barrier Valuation Date**" means 7 March 2029 (or, if such date is not a scheduled trading day, the next following scheduled trading day).

"**Final Valuation Date**" means 7 March 2029 (or, if such date is not a scheduled trading day, the next following scheduled trading day).

"**Relevant Final Performance**" means, with respect to the Securities and the Final Valuation Date, (x) the Closing Price of such Security on such date (y) *divided by* its Initial Security Price (expressed as a percentage and rounded to the nearest four decimal places (with 0.00005 being rounded up)).

"Return Threshold" means 100.00 per cent.

(ii) In addition, as "Early Redemption for Autocallable Notes" applies, the Notes may be redeemed on an Automatic Early Redemption Date if on the relevant Automatic Early Redemption Valuation Date, the Relevant Observation Performance is equal to or greater than the Automatic Early Redemption Percentage specified below (an "Automatic Early Redemption Event"). In such circumstances the Noteholder would be entitled to an "Automatic Early Redemption Amount", being a cash amount equal to the denomination of the Note multiplied by the Automatic Early Redemption Rate specified below.

For these purposes:

In respect of each "Automatic Early Redemption Valuation Date", the "Automatic Early Redemption Percentage", "Automatic Early Redemption Rate" and "Automatic Early Redemption Date" shall be as specified in relation to such Automatic Early Redemption Valuation Date in the table below.

Automatic Early Redemption Valuation Date(s)	Automatic Early Redemption Percentage(s)	Automatic Early Redemption Date(s)	Automatic Early Redemption Rate(s)
7 March 2025	100.00 per cent.	14 March 2025	100.00 per cent.
9 March 2026	100.00 per cent.	16 March 2026	100.00 per cent.
8 March 2027	100.00 per cent.	15 March 2027	100.00 per cent.
7 March 2028	100.00 per cent.	14 March 2028	100.00 per cent.

- (d) The Notes are tranche1 and will be in bearer dematerialised (*au porteur*) form. The Notes will be cleared and settled through Euroclear France. The *masse* representative (the "**Representative**") for the Notes will be DIIS Group. The ISIN of the Notes is FR001400OOO2.
- (e) The settlement currency of the Notes is euro ("**EUR**") (the "**Settlement Currency**"). The aggregate principal amount of the Notes to be issued is EUR 30,000,000. The denomination (or principal amount) per Note is EUR 1,000. The Maturity Date of the Notes is 14 March 2029.
- (f) Rights attaching to the Notes:

*Early redemption for illegality* - If the calculation agent determines that the performance of the Issuer's obligations has become unlawful or impracticable in whole or in part for any reason, the Issuer may redeem all but not some only of the Notes prior to their stated maturity and pay the relevant Noteholder an amount per Note equal to the fair market value of such Note.

*Early redemption for taxation reasons* - If the Issuer were required under the terms and conditions of the Notes (the "**Conditions**") to pay additional amounts in respect of tax, the Issuer may redeem all but not some only of the Notes prior to their stated maturity and pay the relevant Noteholder an amount per Note equal to the fair market value of such Note.

*Early Redemption for Additional Disruption Events or Extraordinary Events* – If a change in law, hedging disruption, increased cost of hedging or insolvency filing occurs (each an "Additional Disruption Event") or certain events occur in relation to the Securities (including a merger, a takeover or exchange offer, delisting, nationalisation or transfer to a governmental agency or the insolvency or bankruptcy of the issuer of the Securities (each an "Extraordinary Event")) the Issuer may redeem all but not some only of the Notes prior to their stated maturity and pay the relevant Noteholder an amount per Note equal to the fair market value of such Note.

*Events of default of the Notes* - The following events constitute events of default (each, an "**Event of Default**") under the Notes and would entitle the Representative to accelerate the Notes: (i) the Issuer fails to remedy a default in the repayment of any principal or in the payment of any interest due on the Notes within 14 days of notice of such default having been given to the Principal Paying Agent by the Representative, provided that the reason for nonpayment is not compliance with any fiscal or other law or regulation or court order, or that there is doubt as to the validity of such law, regulation or order in accordance with independent legal advice from advisers which is acceptable to BNP Paribas, acting in its capacity as principal paying agent (the "**Principal Paying Agent**"); or (ii) the passing of a winding-up order in relation to the Issuer.

*Representation of the holders of the Notes and Meetings of Noteholders* – The Masse will be governed by the provisions of the French *Code de Commerce*. In particular, the French *Code de Commerce* contains provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

*Taxation* - All payments by the Issuer of any amount in respect of the Notes will be made without deduction of any taxes, duties and other similar charges, as are imposed or levied by or on behalf of France, unless the Issuer is required by law to withhold or deduct, any such taxes. In the event that the Issuer is so required by law to withhold or deduct, any such taxes. In the event that the Issuer is so required by law to withhold or deduct, any such taxes and other similar charges, as are imposed or levied by or on behalf of France, unless the Issuer is required by law to withhold or deduct, any such taxes. In the event that the Issuer is so required by law to withhold or deduct the Issuer will, subject to certain exceptions as outlined in the Conditions, pay such additional amounts as may be necessary in order that the net amounts received by the Noteholders after such withholding or deduction shall equal the respective amounts which would have been receivable in respect of the Notes in the absence of such withholding or deduction.

*Governing Law* – The Notes will be governed by French law.

- (g) The Notes and, where applicable, the related coupons will be direct, unconditional, senior preferred and unsecured obligations of the Issuer and will rank equally and without preference among themselves and, at their date of issue, with all other unsecured and unsubordinated obligations of the Issuer (unless preferred by law). Please note that as a result of the exercise of the bail-in power by the competent resolution authority, the amount of outstanding Notes may in particular be reduced (in whole or in part), converted into shares (in whole or in part) or cancelled and/or the maturity of the Notes, the amount of the coupon or the date on which the coupon becomes payable can be changed.
- (h) The Notes are freely transferable. However, there are restrictions on the offer and sale of the Notes. The Issuer and HSBC Continental Europe, 38 avenue Kléber, 75116 Paris (the "Dealer") have agreed restrictions on the offer, sale and delivery of the Notes and on distribution of offering materials, including, without limitation, in the European Economic Area, France, Switzerland, the United Kingdom and the United States of America.

In addition, Noteholders, by their purchase of the Notes, will be deemed to have given certain representations, warranties, undertakings, acknowledgements and agreements.

(i) Where will the Notes be traded?

Application will be made to admit the Notes to the Official List of Euronext Dublin and admitted to trading on the regulated market of Euronext Dublin.

(j) What are the key risks specific to the Notes?

The Notes are direct, unconditional, senior preferred and unsecured obligations of the Issuer and not of any other person. If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under the Notes (the Issuer's credit risk), and Noteholders would not be able to enforce security as a method of recouping payments due under the Note. In such worst-case scenario Noteholders would lose all of their invested amount.

The Notes are not ordinary debt securities and Noteholders are exposed to the risks relating to the Securities. Depending on the performance of the Securities as well as certain other factors (including changes in currency exchange rates, changes in interest rates, time remaining to redemption, economic and market conditions, dividend rates on the Securities), Noteholders may or may not receive coupon amounts and, upon redemption, may receive less than the amount invested or nothing. Past performance of the Securities is not indicative of its future performance.

There may be no active trading market or secondary market liquidity for the Notes and the secondary value of Notes may depend on a number of factors. It is not possible to predict whether any trading market for the Notes will develop or, if it does, the price at which Notes will trade in the secondary market or whether such market will be liquid or illiquid. The value of Notes prior to maturity is expected to depend on a number of factors including, without limitation: (i) the financial condition and funding costs of the Issuer; (ii) the value, volatility and liquidity of the Securities; (iii) the time remaining to maturity; (iv) any change(s) in interest rates and dividend yields and inflation rates; (v) any change(s) in currency exchange rates; (vi) economic and market conditions and (vii) any related transaction costs. As a result of these factors the price at which a Noteholder will be able to sell Notes prior to maturity may be less than the initial amount invested. Each of these factors interrelate in complex ways (for example, one factor may offset an increase in the value of the Notes caused by another).

An investment in the Notes is not equivalent to an investment in the Securities. Ownership of the Notes does not confer any legal or beneficial interest or any voting or dividend rights in the Securities and the value of the Notes may not exactly correlate with the value of the Securities.

*Disruption Events.* Upon the occurrence of certain events (including an early closure of the relevant exchange, disruption of such exchange or suspension of trading on such exchange, an Additional Disruption Event, an Extraordinary Event and/or a subdivision, consolidation or reclassification of the Securities, a distribution of dividend or extraordinary dividend or any other event that may have a diluting or concentrative effect on the theoretical value of the Securities), valuations of the Securities may be subject to postponement or adjustment or the terms of the Notes may be subject to adjustment and/or (in certain circumstances) Notes may be subject to early redemption. Any such postponement, adjustment or early redemption may have an adverse effect on the value of such Notes and/or the amount payable to the Noteholder under the Notes on redemption (as applicable). As a result, Noteholders may suffer a loss of some or all of their investments.

*Illegality or changes in tax law may cause the Notes to be redeemed early.* In such circumstances, the Issuer may pay a sum representing the fair market value of the Notes. As a result, holders of Notes will forgo any future appreciation in the Securities and may suffer a loss of some or all of their investments.

*Commission, cost of hedging and taxes may be borne by Noteholders.* The issue price of the Notes may include fees, commission and hedging costs. Accordingly, there is a risk that, upon issue the price of Notes in the secondary market (if any) would be lower than the original issue price of the Notes.

Payments under the Notes may be decreased to take into account the effect of taxes, duties or other similar charges and Noteholders will bear the cost of all taxes, duties or other similar charges payable in connection with the subscription, purchase or holding of such Note and any payments under the Notes (in each case including any taxes or duties imposed or increased by a change of tax law or practice).

*Use and Estimated net Amount of Proceeds*: The estimated net amount of proceeds from the issue of Notes will be EUR 30,000,000 less any re-offer spread or distribution fee (as described below). The net proceeds will be used by the Issuer for profit making or risk hedging purposes.

*Conflicts of Interest*: The Issuer and/or its affiliates may enter into hedging or other transactions (i) relating to the Securities (or any index which references such Securities) or (ii) with the issuer of the Securities. The Issuer or its affiliates may also publish research or other reports relating to the Securities or indices referencing the Securities. Any such activities may have a positive or negative effect on the value of Notes relating to such Securities. In undertaking any such activities, neither the Issuer nor any affiliate of the Issuer is under any obligation to consider the interests of the Noteholders. In addition, the Issuer may assume roles as hedging counterparty or calculation agent under the Notes. In respect of any of these roles the Issuer may have interests that conflict with the interests of Noteholders. (a) The Notes may be on-sold by the Dealer and/or its affiliates to a distributor(s) at a discount which will be retained by such distributor(s) (the "**re-offer spread**") or (b) the Dealer and/or its affiliates may, in connection with the Notes, pay to a distributor(s) a fee (the "**distribution fee**").
