- (b) *Coupon Payments*

The "Coupon Trigger Event" provisions apply to the Notes. Accordingly:

- if on a specified Coupon Trigger Valuation Date, the Relevant Observation Performance is equal to or greater than the relevant Coupon Trigger Level, investors will receive a "**Coupon Trigger Amount**" per Note equal to the principal amount of such Note multiplied by the relevant Coupon Trigger Rate.
- if on a specified Coupon Trigger Valuation Date, the Relevant Observation Performance is less than the relevant Coupon Trigger Level, no Coupon Trigger Amount will be payable in respect of such Coupon Trigger Valuation Date.

Additionally, as "Coupon Trigger Recovery Event" is applicable to the Notes, if on a specified Coupon Trigger Valuation Date, the Relevant Observation Performance is equal to or greater than the relevant Coupon Trigger Recovery Level, in addition to paying the Coupon Trigger Amount, the Issuer shall pay an amount equivalent to the sum of each Coupon Trigger Amount which did not become payable because no Coupon Trigger Event occurred in respect of each Coupon Trigger Valuation Date falling after the most recently occurring Coupon Trigger Event (if any).

"Relevant Final Performance" means, with respect to the Security and the Final Valuation Date, (x) the Closing Price on such date (y) *divided by* the Initial Security Price (expressed as a percentage and rounded to the nearest four decimal places (with 0.00005 being rounded up)).

- (ii) In addition, as "Autocallable Redemption" applies to the Notes, they may be redeemed on an Automatic Early Redemption Date if on the relevant Automatic Early Redemption Valuation Date, the Relevant Observation Performance is equal to or greater than the Automatic Early Redemption Percentage specified below (an "**Automatic Early Redemption Event**"). In such circumstances the Noteholder would be entitled to an "**Automatic Early Redemption Amount**", being a cash amount equal to the principal amount of the Note multiplied by the Automatic Early Redemption Rate specified below.

For these purposes:

In respect of each "**Automatic Early Redemption Valuation Date**", the "**Automatic Early Redemption Percentage**", "**Automatic Early Redemption Rate**" and "**Automatic Early Redemption Date**" shall be as specified in relation to such Automatic Early Redemption Valuation Date in the table below.

Automatic Early Redemption Valuation Date(s)	Automatic Early Redemption Date(s)	Automatic Early Redemption Rate(s)	Automatic Early Redemption Percentage(s)

- (d) The Notes are tranche 1 and will be in bearer dematerialised (*au porteur*) form. The Notes will be cleared and settled through Euroclear France. The *masse* representative (the "**Representative**") for the Notes will be DIIS Group. The ISIN of the Notes is FR001400IWP4.
- (e) The settlement currency of the Notes is euro ("**EUR**") (the "**Settlement Currency**"). The aggregate principal amount of the Notes to be issued is EUR 35,000,000. The denomination (or principal amount) per Note is EUR 1,000. The Maturity Date of the Notes is 25 August 2033.
- (f) Rights attaching to the Notes:

Early redemption for illegality - If the calculation agent determines that the performance of the Issuer's obligations has become unlawful or impracticable in whole or in part for any reason, the Issuer may redeem all but not some only of the Notes prior to their stated maturity and pay the relevant investor an amount per Note equal to the fair market value of such Note.

Early redemption for taxation reasons - If the Issuer were required under the terms and conditions of the Notes (the "**Conditions**") to pay additional amounts in respect of tax, the Issuer may redeem all but not some only of the Notes prior to their stated maturity and pay the relevant investor an amount per Note equal to the fair market value of such Note.

Early Redemption for Additional Disruption Events or Extraordinary Events – If a change in law, hedging disruption, increased cost of hedging or insolvency filing occurs (each an "**Additional Disruption Event**") or certain events occur in relation to the Security (including a merger, a takeover or exchange offer, delisting, nationalisation or transfer to a governmental agency or the insolvency or bankruptcy of the issuer of the Security (each an "**Extraordinary Event**")) the Issuer may redeem all but not some only of the Notes prior to their stated maturity and pay the relevant investor an amount per Note equal to the fair market value of such Note.

Events of default of the Notes - The following events constitute events of default (each, an "**Event of Default**") under the Notes and would entitle the Representative to accelerate the Notes: (i) the Issuer fails to remedy a default in the repayment of any principal or in the payment of any interest due on the Notes within 14 days of notice of such default having been given to the Principal Paying Agent by the Representative, provided that the reason for non-payment is not compliance with any fiscal or other law or regulation or court order, or that there is doubt as to the validity of such law, regulation or order in accordance with independent legal advice from advisers which is acceptable to BNP Paribas, acting in its capacity as principal paying agent (the "**Principal Paying Agent**"); or (ii) the passing of a winding-up order in relation to the Issuer.

Representation of the holders of the Notes and Meetings of Noteholders – The Masse will be governed by the provisions of the French *Code de Commerce*. In particular, the French *Code de Commerce* contains provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Taxation - All payments by the Issuer of any amount in respect of the Notes will be made without deduction of any taxes, duties and other similar charges, as are imposed or levied by or on behalf of France, unless the Issuer is required by law to withhold or deduct, any such taxes. In the event that the Issuer is so required by law to withhold or deduct the Issuer will, subject to certain exceptions as outlined in the Conditions, pay such additional amounts as may be necessary in order that the net amounts received by the Noteholders after such withholding or deduction shall equal the respective amounts which would have been receivable in respect of the Notes in the absence of such withholding or deduction.

Governing Law – The Notes will be governed by French law.

- (g) The Notes and, where applicable, the related coupons will be direct, unconditional, senior preferred and unsecured obligations of the Issuer and will rank equally and without preference among themselves and, at their date of issue, with all other unsecured and unsubordinated obligations of the Issuer (unless preferred by law). Please note that as a result of the exercise of the bail-in power by the competent resolution authority, the amount of outstanding Notes may in particular be reduced (in whole or in part), converted into shares (in whole or in part) or cancelled and/or the maturity of the Notes, the amount of the coupon or the date on which the coupon becomes payable can be changed.
- (h) The Notes are freely transferable. However, there are restrictions on the offer and sale of the Notes. The Issuer and HSBC Continental Europe, 38 avenue Kléber, 75116 Paris (the "**Dealer**") have agreed restrictions on the offer, sale and delivery of the Notes and on distribution of offering materials, including, without limitation, in the European Economic Area, France, Switzerland, the United Kingdom and the United States of America.

In addition, investors of the Notes, by their purchase of the Notes, will be deemed to have given certain representations, warranties, undertakings, acknowledgements and agreements.

- (i) Where will the Notes be traded?

Application will be made to admit the Notes to the Official List of Euronext Dublin and admitted to trading on the regulated market of Euronext Dublin.
- (j) What are the key risks specific to the Notes?

The Notes are direct, unconditional, senior preferred and unsecured obligations of the Issuer and not of any other person. If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under the Notes (the Issuer's credit risk), and investors would not be able to enforce security as a method of recouping payments due under the Note. In such worst-case scenario Noteholders would lose all of their invested amount.

The Notes are not ordinary debt securities and investors are exposed to the risks relating to the Security. Depending on the performance of the Security as well as certain other factors (including changes in currency exchange rates, changes in interest rates, time remaining to redemption, economic and market conditions, dividend rates on the Security), investors may or may not receive coupon amounts and, upon redemption, may receive less than the amount invested or nothing. Past performance of the Security is not indicative of its future performance.

There may be no active trading market or secondary market liquidity for the Notes and the secondary value of Notes may depend on a number of factors. It is not possible to predict whether any trading market for the Notes will develop or, if it does, the price at which Notes will trade in the secondary market or whether such market will be liquid or illiquid. The value of Notes prior to maturity is expected to depend on a number of factors including, without limitation: (i) the financial condition and funding costs of the Issuer; (ii) the value, volatility and liquidity of the Security; (iii) the time remaining to maturity; (iv) any change(s) in interest rates and dividend yields and inflation rates; (v) any change(s) in currency exchange rates; (vi) economic and market conditions and (vii) any related transaction costs. As a result of these factors the price at which a Noteholder will be able to sell Notes prior to maturity may be less than the initial amount invested. Each of these factors interrelate in complex ways (for example, one factor may offset an increase in the value of the Notes caused by another).

An investment in the Notes is not equivalent to an investment in the Security. Ownership of the Notes does not confer any legal or beneficial interest or any voting or dividend rights in the Security and the value of the Notes may not exactly correlate with the value of the Security.

Disruption Events. Upon the occurrence of certain events (including an early closure of the relevant exchange, disruption of such exchange or suspension of trading on such exchange, an Additional Disruption Event, an Extraordinary Event and/or a subdivision, consolidation or reclassification of the Security, a distribution of dividend or extraordinary dividend or any other event that may have a diluting or concentrative effect on the theoretical value of the Security, valuations of Security may be subject to postponement or adjustment or the terms of the Notes may be subject to adjustment and/or (in certain circumstances) Notes may be subject to early redemption. Any such postponement, adjustment or early redemption may have an adverse effect on the value of such Notes and/or the amount payable to the investor under the Notes on redemption (as applicable). As a result, Noteholders may suffer a loss of some or all of their investments.

Illegality or changes in tax law may cause the Notes to be redeemed early. In such circumstances, the Issuer may pay a sum representing the fair market value of the Notes. As a result, holders of Notes will forgo any future appreciation in the Security and may suffer a loss of some or all of their investments.

Commission, cost of hedging and taxes may be borne by Noteholders. The Issue Price of the Notes may include fees, commission and hedging costs. Accordingly, there is a risk that, upon issue the price of Notes in the secondary market (if any) would be lower than the original Issue Price of the Notes.

Payments under the Notes may be decreased to take into account the effect of taxes, duties or other similar charges and Noteholders will bear the cost of all taxes, duties or other similar charges payable in connection with the subscription, purchase or holding of such Note and any payments under the Notes (in each case including any taxes or duties imposed or increased by a change of tax law or practice).
