## SECTION C – KEY INFORMATION ON THE NOTES

What are the main features of the Notes?

(a) Payments of interest and principal with respect to the Notes are linked to a weighted basket of securities comprising:

"Underlying"	"Weighting"
Shares of BNP PARIBAS	20.00%
Shares of BANCO SANTANDER SA	20.00%
Shares of BBVA BANCO BILBAO VIZCAYA ARGENTA	20.00%
Shares of UNICREDIT SPA	20.00%
Shares of INTESA SANPAOLO SPA	20.00%

(each an "Underlying", together, the "Underlyings" and such basket of Underlyings being the "Weighted Basket")

(b) *Coupon Payments.*

The "Conditional Coupon Event" provisions apply to the Notes. Accordingly:

- if on a Coupon Valuation Date, the Reference Performance is greater than or equal to the relevant Coupon Level (a "Conditional Coupon Event"), holders of the Notes ("Noteholders") will receive on the corresponding Coupon Payment Date a "Coupon Amount" per Note equal to the denomination of such Note multiplied by the relevant Coupon Rate.
- if on a specified Coupon Valuation Date, the Reference Performance is less than the relevant Coupon Level, no Coupon Amount will be payable on the corresponding Coupon Payment Date.

(c) *Redemption Amounts.* Payments of principal in respect of Notes will in all cases be calculated by reference to the percentage change in value of the Weighted Basket. Noteholders will be entitled upon redemption of the Notes on their stated maturity to a "Final Redemption Amount" or (as "Autocall Event" applies), if the Notes are redeemed prior to their stated maturity in the circumstances described below, an "Autocall Amount".

The Final Redemption Amount will be an amount per Note equal to the denomination of the Note *multiplied by*:

- (A) a Barrier Event has not occurred, 100 per cent.
- (B) a Barrier Event has occurred, the Final Performance.

In addition, as "Autocall Event" applies, the Notes may be redeemed on an Autocall Redemption Date if, on the relevant Autocall Valuation Date, the Reference Performance is greater than or equal to the relevant Autocall Level specified below (an "Autocall Event"). In such circumstances the Noteholder would be entitled to an "Autocall Amount", being a cash amount equal to the denomination of the Note *multiplied by* the relevant Autocall Rate specified below.

For these purposes:

In respect of each "Autocall Valuation Date", the "Autocall Level", "Autocall Rate" and "Autocall Redemption Date" shall be as specified in relation to such Autocall Valuation Date in the table below.

"**Reference Value**" means, in respect of an Underlying and a Coupon Valuation Date, an Autocall Valuation Date or the Final Valuation Date, the closing price of such Underlying on such date.

"**Performance**" means, in respect of an Underlying and a Coupon Valuation Date, an Autocall Valuation Date or the Final Valuation Date (as applicable), a percentage equal to (x) the Reference Value of such Underlying determined in respect of such date *divided by* (y) its Initial Value.

If any valuation date or Averaging Date is a not scheduled trading day, such date shall be the next following scheduled trading day. If any date for payment or redemption is not a business day, such date shall be the next following business day.

- (d) The Notes are tranche 1 and will be in bearer dematerialised form (*au porteur*). The Notes will be cleared and settled through Euroclear France. The *masse* representative (the "**Representative**") for the Notes will be DIIS Group. The ISIN of the Notes is FR00140194K1.
- (e) The settlement currency of the Notes is Euro ("**EUR**") (the "**Settlement Currency**"). The aggregate principal amount of the Notes to be issued is EUR 30,000,000. The denomination (or principal amount) per Note is EUR 1,000 (the "**Denomination**"). The maturity date of the Notes is 02 October 2036.
- (f) Rights attaching to the Notes:

*Early redemption for illegality* - If the calculation agent determines that the performance of the Issuer's obligations has become unlawful or impracticable in whole or in part for any reason, the Issuer may redeem all but not some only of the Notes prior to their stated maturity and pay the relevant Noteholder an amount per Note equal to the fair market value of such Note.

*Early redemption for taxation reasons* - If the Issuer were required under the terms and conditions of the Notes (the "**Conditions**") to pay additional amounts in respect of tax, the Issuer may redeem all but not some only of the Notes prior to their stated maturity and pay the relevant Noteholder an amount per Note equal to the fair market value of such Note.

*Early Redemption for Additional Disruption Events or Extraordinary Events* – If a change in law, hedging disruption, increased cost of hedging or insolvency filing occurs (each an "**Additional Disruption Event**") or certain events occur in relation to an Underlying (including a merger, a takeover or exchange offer, delisting, nationalisation or transfer to a governmental agency or the insolvency or bankruptcy of the issuer of the Securities (each an "**Extraordinary Event**")) the Issuer may redeem all but not some only of the Notes prior to their stated maturity and pay the relevant Noteholder an amount per Note equal to the fair market value of such Note.

*Events of default of the Notes* - The following events constitute events of default (each, an "**Event of Default**") under the Notes and would entitle the Representative to accelerate the Notes: (i) the Issuer fails to remedy a default in the repayment of any principal or payment of any interest (or delivery of any asset(s) or payment of any residual cash amount) due on the Notes within 14 days of notice of such default having been given to the Principal Paying Agent by the Representative, provided that the reason for non-payment is not compliance with any fiscal or other law or regulation or court order, or that there is doubt as to the validity of such law, regulation or order in accordance with independent legal advice from advisers which is acceptable to BNP Paribas, acting in its capacity as principal paying agent (the "**Principal Paying Agent**"); or (ii) the passing of a winding-up order in relation to the Issuer.

*Representation of the holders of the Notes and Meetings of Noteholders* – The Masse will be governed by the provisions of the French *Code de Commerce*. In particular, the French *Code de Commerce* contains provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

*Taxation* - All payments by the Issuer of any amount in respect of the Notes will be made without deduction of any taxes, duties and other similar charges, as are imposed or levied by or on behalf of France, unless the Issuer is required by law to withhold or deduct, any such taxes. In the event that the Issuer is so required by law to withhold or deduct the Issuer will, subject to certain exceptions as outlined in the Conditions, pay such additional amounts as may be necessary in order that the net amounts received by the Noteholders after such withholding or deduction shall equal the respective amounts which would have been receivable in respect of the Notes in the absence of such withholding or deduction.

*Governing Law* – The Notes will be governed by French law.

(g) The Notes will be direct, unconditional, senior preferred and unsecured obligations of the Issuer and will rank equally and without preference among themselves and, at their date of issue, with all other unsecured and unsubordinated obligations of the Issuer (unless preferred by law). Please note that as a result of the exercise of the bail-in power by the competent resolution authority, the amount of outstanding Notes may in particular be reduced (in whole or in part), converted into shares (in whole or in part) or cancelled and/or the maturity of the Notes, the amount of any coupon or the date on which any coupon becomes payable can be changed.

(h) The Notes are freely transferable. However, there are restrictions on the offer and sale of the Notes. The Issuer and HSBC Continental Europe, 38 avenue Kléber, 75116 Paris (the "**Dealer**") have agreed restrictions on the offer, sale and delivery of the Notes and on distribution of offering materials, including, without limitation, in the European Economic Area (including, amongst others, France and the Republic of Ireland), Switzerland, the United Kingdom and the United States of America.

In addition, Noteholders, by their purchase of the Notes, will be deemed to have given certain representations, warranties, undertakings, acknowledgements and agreements.

(i) Where will the Notes be traded?  
Application will be made to admit the Notes to the Official List of Euronext Dublin and admitted to trading on the regulated market of Euronext Dublin.

(j) What are the key risks specific to the Notes?  
*The Notes are direct, unconditional, senior preferred and unsecured obligations of the Issuer and not of any other person.* If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under the Notes (the Issuer's credit risk), and Noteholders would not be able to enforce security as a method of recouping payments due under the Note. In such worst-case scenario Noteholders would lose all of their invested amount.

*The Notes are not ordinary debt securities and Noteholders are exposed to the risks relating to an Underlying.* Depending on the performance of an Underlying as well as certain other factors (including changes in currency exchange rates, changes in interest rates, time remaining to redemption, economic and market conditions, dividend rates on an Underlying), Noteholders may or may not receive coupon amounts and, upon

redemption, may receive less than the amount invested or nothing. Past performance of an Underlying is not indicative of its future performance and no investigation has been made of the financial condition of any issuer of any Underlying.

*There may be no active trading market or secondary market liquidity for the Notes and the secondary value of Notes may depend on a number of factors.* It is not possible to predict whether any trading market for the Notes will develop or, if it does, the price at which Notes will trade in the secondary market or whether such market will be liquid or illiquid. The value of Notes prior to maturity is expected to depend on a number of factors including, without limitation: (i) the financial condition and funding costs of the Issuer; (ii) the value, volatility and liquidity of an Underlying; (iii) the time remaining to maturity; (iv) any change(s) in interest rates and dividend yields and inflation rates; (v) any change(s) in currency exchange rates; (vi) economic and market conditions and (vii) any related transaction costs. As a result of these factors the price at which a Noteholder will be able to sell Notes prior to maturity may be less than the initial amount invested. Each of these factors interrelate in complex ways (for example, one factor may offset an increase in the value of the Notes caused by another).

*An investment in the Notes is not equivalent to an investment in an Underlying.* Ownership of the Notes does not confer any legal or beneficial interest or any voting or dividend rights in an Underlying and the value of the Notes may not exactly correlate with the value of an Underlying.

*Disruption Events.* Upon the occurrence of certain events (including an early closure of the relevant exchange, disruption of such exchange or suspension of trading on such exchange, an Additional Disruption Event, an Extraordinary Event and/or a subdivision, consolidation or reclassification of an Underlying, a distribution of dividend or extraordinary dividend or any other event that may have a diluting or concentrative effect on the theoretical value of an Underlying), valuations of an Underlying may be subject to postponement or adjustment or the terms of the Notes may be subject to adjustment and/or (in certain circumstances) Notes may be subject to early redemption. Any such postponement, adjustment or early redemption may have an adverse effect on the value of such Notes and/or the amount payable to the Noteholder under the Notes on redemption (as applicable). As a result, Noteholders may suffer a loss of some or all of their investments.

*Illegality or changes in tax law may cause the Notes to be redeemed early.* In such circumstances, the Issuer may pay a sum representing the fair market value of the Notes. As a result, holders of Notes will forgo any future appreciation in an Underlying and may suffer a loss of some or all of their investments.

*Commission, cost of hedging and taxes may be borne by Noteholders.* The issue price of the Notes may include fees, commission and hedging costs. Accordingly, there is a risk that, upon issue the price of Notes in the secondary market (if any) would be lower than the original issue price of the Notes. Payments under the Notes may be decreased to take into account the effect of taxes, duties or other similar charges and Noteholders will bear the cost of all taxes, duties or other similar charges payable in connection with the subscription, purchase or holding of such Note and any payments under the Notes (in each case including any taxes or duties imposed or increased by a change of tax law or practice).
